

**Agenda Item No.**

**GNLRT ADVISORY COMMITTEE**

**14<sup>th</sup> June 2005**

**REPORT OF THE DIRECTOR OF ENVIRONMENT NOTTINGHAMSHIRE COUNTY COUNCIL**

**Cycle lockers, Hucknall Park and Ride**

Following a meeting with Central Trains on Wednesday 1<sup>st</sup> June 2005 it has been agreed to replace the existing cycle lockers at the Hucknall Park and Ride site.

6 new lockers will be installed to replace the existing 4 lockers which are in a poor condition. The exact location of the new lockers is yet to be finalised but will be on land falling within the Central Trains lease close to the NET /RHL platforms, either immediately to the right of the existing lockers location closer to the access ramp to the platforms (the preferred option) or alternatively on the RHL platform adjacent to the existing RHL shelter. The chosen site will be covered by CCTV which is proposed to be installed on the RHL platform adjacent to the stairs from the road bridge later in the summer.

The lockers will be installed by the County Council, which is programmed for mid July and Central Trains have agreed to undertake the ongoing management.

It is proposed that the locking mechanisms for the lockers should be provided by the cyclists themselves as is current practice on this and similar stations in Nottinghamshire. It is also suggested that a notice would be attached to each locker explaining the consequences of mis-use.

**It is recommended that this report be noted.**
