1. BACKGROUND

This report is an integral part of the Council's regular monitoring, forecasting and reporting system. The report enables the Trusts and Charities Committee to be aware of the financial position of the Charities and therefore allows any appropriate decisions or actions to be taken in their role as Trustee.

2. QUARTER 2 BUDGET MONITORING & FORECAST OUTTURN 2013/14

The forecast out-turn for the three charitable trusts for 2013/14 based on April to September figures is detailed in **Appendices 1-3** to this report.

BRIDGE ESTATE

The main points to note are:

- There is currently a forecast net shortfall of £0.355m in the surplus before
 the grant transfer to Nottingham City Council (NCC). If this is the actual
 shortfall at the year end it would result in a reduction in the grant to NCC.
 If no contribution is made to un-earmarked reserves, the grant reduction
 would fall by £0.159m.
- The main reason for the forecast shortfall is a loss of rental income. This and other projected budget variances are explained below:

Income (£385,540 shortfall) – this is primarily due to lost rental income following the sale of various properties and the timing of reinvestments in new properties. Table 1 summarises the major variances. Based on current lettings rental income will increase by £0.124m in 2014/15.

| TABLE 1: INCOME VARIANCES | | | |

Premises (£45,575 underspend) – This mainly relates to reduced business rates liabilities on empty properties in Mansfield Road following rates appeals.

Support Services (£13,870 overspend) -Financial services are now charged according to the actual cost of time spent.

HARVEY HADDEN STADIUM TRUST

Key points of note are:

- a. Income (£5,000 shortfall)
 Income has reduced by £5,000 due to a decline in the casual hire of the stadium by schools.
