Crime

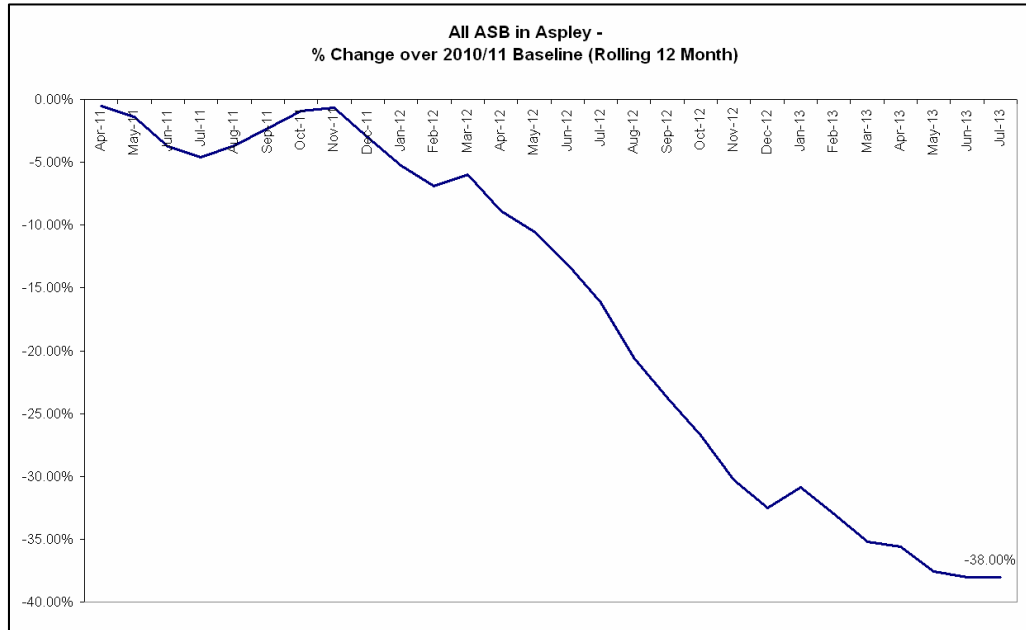

Red		
Amber		
Green*	30 fewer crimes	-18.40%

*Refers to July 2013 compared to July 2012

- The above baseline graph compares the *rolling* 12 month total of crime in Aspley to a *fixed* 12 month 2010/11 baseline. The current 12 month total is showing a reduction of 9.34% against the baseline.
- In July 2013 there were 133 crimes which is a reduction of 18.4% (30 crimes, see above RAG rating) compared to July 2012. The Division as a whole experienced an increase in all crime of *approximately* 4.5%.
- Year to date crime in the ward has reduced by 6.06% (35 crimes, April – July 2013 compared to April – July 2012, see Table 1 of page 5). In the Division as a whole, all crime is up by *approximately* 5.6%.
- The largest volume increase this month was in Violence, which was up 7 crimes (21.21%, see Table 1 of page 5).
- Crimes with a domestic flag assigned to them were down by 2 crimes(July 2013 compared to July 2012, see Table 2 of page 5). For July 2013 the ward continued to rank the highest for this type of crime out of the 20 wards in the Division.
- The rate (per 1000 of population) of all crime in Aspley is above the average rate for the 20 wards (figures are year to date, see Table 3 of page 6).

All ASB

Red		
Amber*	109 incidents	0.00%
Green		

*Refers to July 2013 compared to July 2012

- The above baseline graph compares the *rolling* 12 month total of ASB in Aspley to a *fixed* 12 month 2010/11 baseline. The most recent 12 month total is showing a reduction of 38% against the baseline.
- In July 2013 there were 109 ASB calls in the ward. This is the same amount that was recorded in July 2012 (see above right RAG rating). The Division as a whole experienced a increase of *approximately* 26% on this measure.
- Year to date ASB in the ward has reduced by -10.86% (43 calls, April – July 2013 compared to April – July 2012, see Table 5 of page 7). In the Division as a whole, ASB is down by *approximately* -13.7%.
- The rate (per 1000 of population) of ASB in Aspley is worse than the average rate for the 20 wards (July 2013 figures, see Table 4 of page 7).

Cleanliness Index

This graph shows the position of your ward compared to other Wards

The “neighbourhood as clean as the city centre” benchmark target on cleanliness is to achieve a score of 86% in every ward. The 86% target is shown in red in the above graph.

To calculate the Cleanliness Index (CI) an agreed number of transects are surveyed across an area covering a range of land types. Each site surveyed is awarded a cleanliness grade based on a 7 point scale from A to D where Grade A: – no litter, and Grade D: - heavily littered. The maximum possible score of 100 is achieved when all sites achieve Grade A.

The Code of Practice for Litter and Refuse (COPLAR) requires councils to strive to reach an ‘acceptable’ standard of cleanliness (grade B or better) across the Council area. Grade A is the ultimate goal and is how a site should be immediately after sweeping but is almost impossible to maintain for any length of time. For example, a grade A site is completely free of litter – one cigarette butt takes it down to B+.

To achieve the manifesto commitment of Neighbourhoods as clean as the City Centre a target of 86 is required as that was the CI for the City Centre in May 2011. To give some context if all areas surveyed achieved a grade ‘B’ standard, this would equate to a cleanliness index of 67.

Cleanliness Figures provided by Neil Flaherty – Neighbourhood Services Directorate

Cleanliness Index

Cleanliness Index Score	92
Performance compared to previous year	↗
Performance compared to neighbourhoods target of 86	↗

- All data refers to a comparison with the previous year's month
- It is proposed that performance over time graphs be used for each indicator
- Historic data for comparison is not available for dog fouling

Graffiti Reports

RED	41 incidents	Increase of 33
AMBER		
GREEN		

- All data refers to a comparison with the previous year's month
- It is proposed that performance over time graphs be used for each indicator
- Historic data for comparison is not available for dog fouling

Incidents of Graffiti - Aspley

CPOs across the City have been asked to report everything they came across regardless of size. This they did and the level of work increased considerably. As CPOs have no direct input to Confirm they had been asked to send all reports to the ASB line and they then input into Confirm. Inputting is done on a random basis which means time is spent reworking jobs into a manageable order.

Fly Tipping

RED	43 incidents	Increase of 26
AMBER		
GREEN		

- All data refers to a comparison with the previous year's month
- It is proposed that performance over time graphs be used for each indicator
- Historic data for comparison is not available for dog fouling

This is an edited version of a report produced by: Geoff Oxendale, Information and Research Officer, Nottingham City Council. Claimant count of Job Seekers Allowance (JSA) is used as a proxy measure for unemployment.

Wards are ranked from 1 (highest Rate, per 1000 of population, of JSA claimants) to 20 (lowest Rate).

Housing

Performance indicator definitions

Performance indicator	Definition
% of ASB cases resolved	This performance indicator monitors the proportion of ASB cases that Nottingham City Homes has successfully resolved. Data for this indicator is not available by ward and is reported by Housing Office.
% of ASB cases resolved by first intervention	This performance indicator monitors how many ASB cases Nottingham City Homes resolved on the first intervention e.g. written warning. Data for this indicator is not available by ward and is reported by Housing Office.
Average void re-let time (calendar days)	This performance indicator monitors how many empty properties Nottingham City Homes has re-let and the length of time it has taken. The void period is the number of calendar days including the day after the old tenancy ends right through to and including the day before the new tenancy starts.
Number of lettable voids	This performance indicator monitors the number of empty properties which are available for re-letting. Lettable empty properties are those which will receive repair work and then be let to a new tenant.
Number of empty properties awaiting decommission	This performance indicator monitors the number of empty properties which will not be re-let and includes those being decommissioned and / or demolished.
Estate star ratings	Nottingham City Homes Tenant Inspectors monitor the condition of estates and rates them according to a zero, one, two and three star standard. The estates are monitored every three months with a selection of streets (determined by tenants) covering all 42 estates.
Rent charged that has been collected	This performance indicator measures the amount of rent collected (including tenant arrears) as a percentage of rent due for the current year. Data for this indicator is not available by ward and is reported by Housing Office.

Community Protection

Data has been received from Community Protection and where postcodes have been listed these have been geo-coded and mapped to determine the Ward. All addresses relate to the address of the Perpetrator.

FPNs are not currently available at ward level.

In July 2013 the following orders were issued:

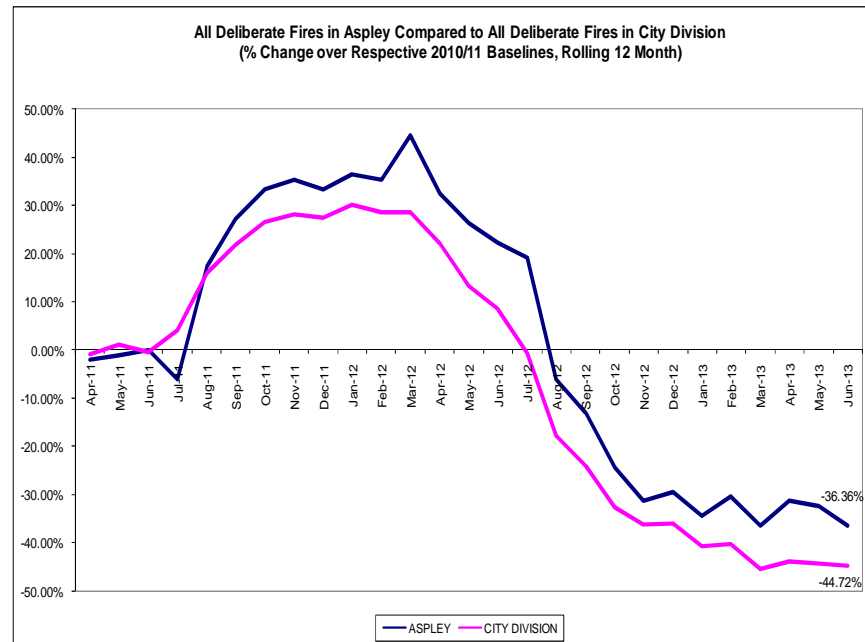

- Statutory Notice for Environment; and
- Injunction for ASB.

For enquiries regarding Community Protection court outcomes please contact the Operational Manager for the locality.

- The above table shows volume of deliberate (primary and secondary) fires in the 20 wards. In June 2013 there were 4 refuse fires in Aspley. Year to date (compared to the corresponding period last year) fires in Aspley remain static.
- The graph on the right shows a *rolling* 12 month total of deliberate fires in Aspley against the *fixed* 2010/11 baseline. The performance of the City Division against *its* baseline has also been shown for comparison purposes.

Note: Where ward boundaries overlap with the City Centre fires that occurred in the City Centre have been **included** in the ward figures.

Methodology

Data has not been audited or verified and therefore must only be used as a reflection of crime.

Crime data and ASB calls have been extracted from the Police systems and mapped to ascertain which Ward they occurred in.

Where a ward boundary overlaps with the City Centre, crime data and ASB calls relating to the City Centre have been removed.

Where possible the most recent data is used, although for some areas this may be a month further in arrears.

Discussions continue with other agencies regarding what further data can be included.
