The scheme as presented to July Committee was for 118 apartments comprising of 462 bedrooms, which included 69 Studio apartments - 24 of which being fully accessible and 24 adaptable and 49 cluster apartments.

The revised scheme being considered today has resulted in the number of apartments being reduced to 111 and 473 bedrooms. This includes 58 studio apartments - 24 of which being fully accessible and 24 adaptable and 53 cluster apartments. The number of studio apartments has been reduced by 9. The number of bedrooms has been increased due additional bedrooms being added to existing smaller cluster apartments and as a result of the original void at the base of the trapezoidal tower being enclosed additional cluster apartments have been provided at the lower ground, ground and first floor.
