15 MOTION

Motion in the name of Councillor Nick Raine:

This Council notes that:

- Government cuts have resulted in more than one in four children (27.7%) in the UK living in poverty with this expected to rise to almost one in three (31.3%) by 2021-22.
- A survey by Plan International UK found that 1 in 10 teenage girls have been unable to afford sanitary products.
- 56% of teenage girls stated they would rather be bullied at school than talk to their parents about their periods.
- This is a particular problem for girls from low-income families where the choice is often between buying food or sanitary items.
- In many cases girls lose a significant number of days of schooling.
- Women in low-income employment are sometimes unable to afford sanitary products when struggling to meet household bills and feed their families and the choice is often between buying food or sanitary items.
- In many cases women miss work, training and career opportunities.
Only female prisoners have a statutory right to access free sanitary products.

This Council resolves to:

- Take a partnership approach to ensuring that sanitary products are available in schools across Nottingham.
- Encourage businesses in the City to provide sanitary products for staff.
