Public Health

Directory of Public Health Commissioned Services

## Introduction

Public Health is a team within the Early Years directorate.

Public Health take an evidence-based approach to improving the health of the city's population - either directly through commissioning health improvement services, or alongside partners and other departments which may have an impact on health.

By identifying the health needs of the population, it is possible to implement or commission services to help address those needs and improve health and wellbeing.

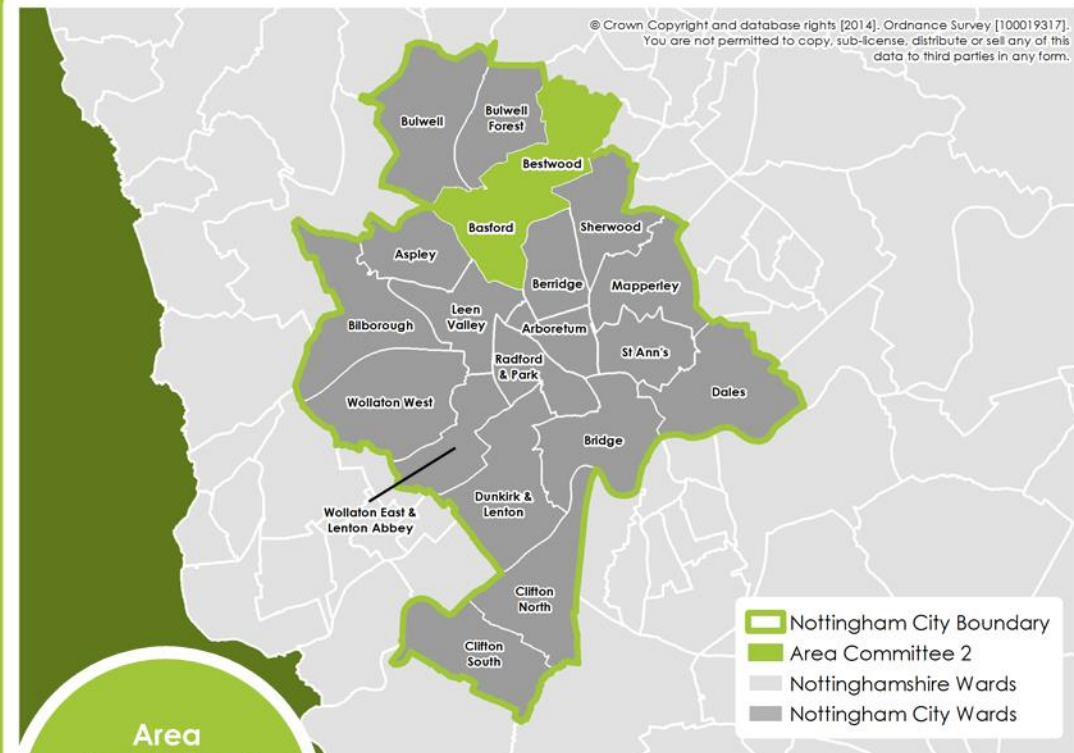

Public Health includes three main areas:

- **Health improvement**
- **Health protection**
- **Commissioning/services**

The following document details the third main area regarding Public Health commissioned services with Area Committee 2.

For further details please contact Michelle Ball, Directorate Secretary on **tel:** 0115 8765419 **e-mail:** michelle.ball@nottinghamcity.gov.uk

### Area Committee 2 (Basford and Bestwood))

There are 8 Area Committees within Nottingham City, each covering a particular geographical area of the City (usually 2 or 3 wards). The membership is all the ward councillors from that geographical area. Meetings are open to the public and appointed local community representatives are invited to attend and contribute, including appointed representatives of Nottingham City Homes, tenants and leaseholders.

The Committees meet to discuss issues of local concern and how to improve their local area, and are consulted on changes which could affect the area. They oversee the spending of their Area Capital Fund. Allocations from individual or joint Ward Councillor Budget allocations to support local ward initiatives are noted. This funding may be divided between funding grants to community and voluntary sector organisations or funding other local community initiatives.

Area Committees usually meet 4 times a year.

Area Committee 2 consists of the wards '**Basford**' and '**Bestwood**'.

**Locally Commissioned Public Health Services via GPs**

Public Health commission GP practices to deliver a wide range of Local Enhanced Services (LESs). These services are over and above the standard provision. These 'Locally Commissioned Public Health Services' have been developed to respond to local needs and priorities. The table below identifies which LESs are delivered in GP practices within Area Committee 2. Further details related to Sexual Health Services can be found under the 'Sexual Health Services' section of the directory.

## RideWise

RideWise aims to get people at risk of CVD into cycling and fitness. This is achieved by:

- Attendance at community events in the area and arranging leisure rides with community groups
- Providing, at a time agreed with the service user,

one-to-one cycling instructions and accompanied instruction on regular journeys to give them the confidence to embed cycling into their daily regime

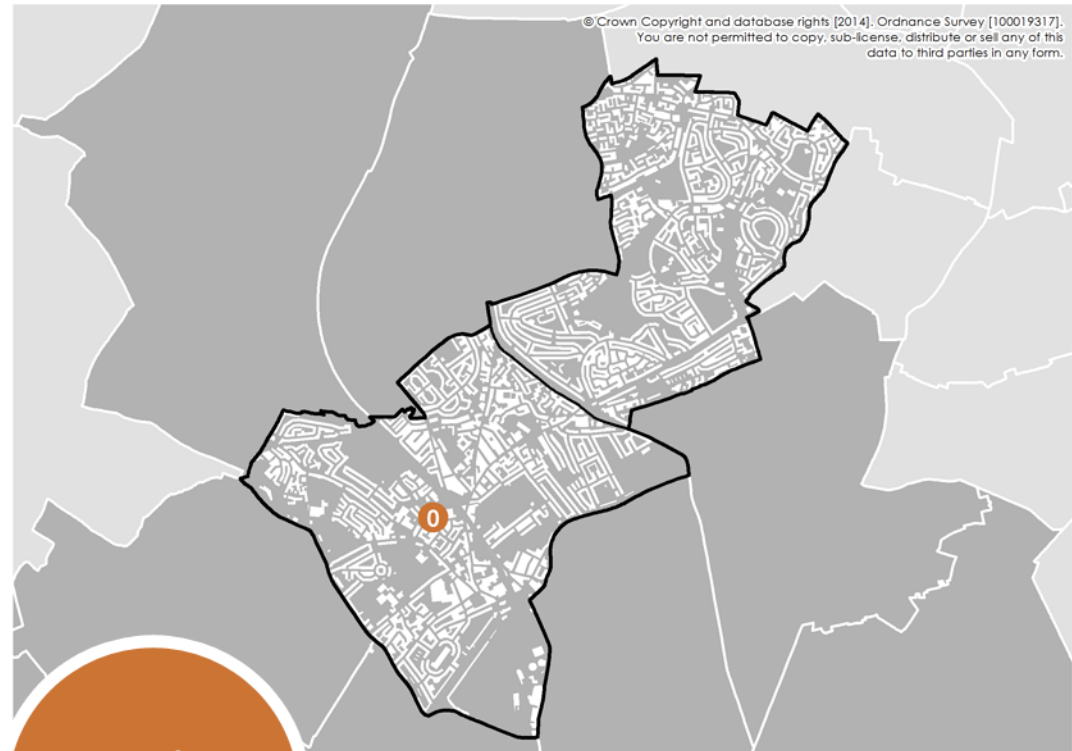

- Running cycling centres, usually on a weekly basis from community centres in the area. The cycle centre provides 3 weekly hour-long sessions for groups of up to 12 people. The first session is for beginners, the second for improvers and finally a leisure ride on quiet roads and cycle ways
- Helping overcome barriers to cycling by providing maintenance classes and the running of a 'try before you buy' bike service

For information on RideWise telephone **0115 955 2288** or visit the website: <http://www.ridewise.org.uk>

## Information

The Nottingham Healthy Schools Programme (HSP) is led and delivered through a partnership between Nottingham City Public Health and the Early Intervention and Partnerships team. The service is free to all primary and secondary schools in the city. The service provides a range of free advisory and training services for educational establishments within the city. The team supports schools to adopt a whole school approach to health which enables children and young people to be healthy and achieve at school and in life.

### Aims

- To support children and young people in developing healthy behaviours
- To help raise pupil achievement
- To help reduce health inequalities
- To help promote social inclusion
- To support schools in becoming health-promoting environments
- To contribute to relevant local health strategies as appropriate

### Key Objectives

- To support City schools to achieve Healthy School Status (HSS) (based on the national criteria)
- To support City schools to implement the Health and Well-being Improvement Model (HWBIM) following a “Plan, Do and Review” cycle of health improvements for children and young people.
- To support schools and partner organisations to improve their planning, delivery and assessment of all aspects of PSHE/Life Skills

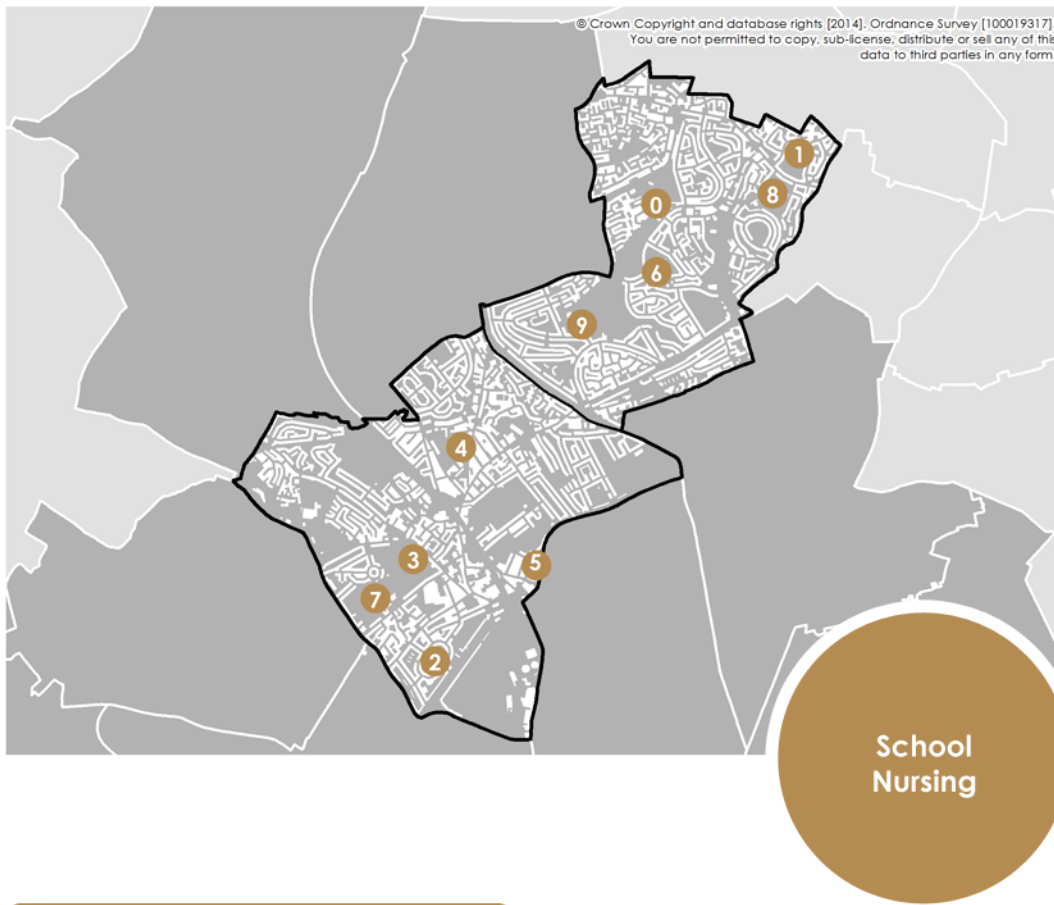

### Priority Issues

- Sex and Relationships Education
- Emotional Health and Wellbeing including SEAL and anti-bullying
- Oral Health
- Healthy Lifestyles including Nutrition and Physical Activity
- Substance Misuse, including Alcohol and Tobacco
- Participation, including school councils
- Raising Aspirations
- Health and Hygiene
- Safety (including internet safety)

The schools identified on the map are all engaged with the HSP and are at different stages in regards to achieving the Health Schools Status. Further information is available on request – please contact Jane Hyland for more information:

## Information

School nurses are specialist public health nurses, who deliver evidence based public health interventions to school-aged children and young people. Together with their team, they lead and deliver the Healthy Child Programme which includes school entrant and Year 7 health assessments, height and weight measurements, HPV (cervical cancer prevention) immunisations, health promotion and drop-ins for advice and support.

As such, school nurses play a crucial role in ensuring that children, young people and families get good, joined-up support and access to available services at the earliest point, from a child's transition into school and continuing through their school-aged years. The service is provided to 57,200 pupils through 16 school groups.

School nursing is a universal service, which also intensifies its delivery offer for children and young people who have more complex and longer term needs (Universal Plus). For children and young people with multiple needs and/or safeguarding concerns, school nurse teams are instrumental in co-ordinating services (Universal Partnership Plus).

Priority Issues are based on need within each school group and include:

- School readiness
- Pupil absence
- Excess weight in 4-5 and 10-11 year olds
- Under 18 conception rate
- Hospital admissions caused by unintentional and deliberate injuries in under 18s
- Mental and Emotional well-being (inc. self-harm)
- Smoking
- Sexual health and relationships
- Oral health

As part of the review of the school nursing service, Public Health have developed school health profiles for the groups of schools that the nurses work in. There are a total of 16 school nursing groups within Nottingham City.

These profiles include up to date information about children and young people covering a wide range of key indicators (e.g. demographics, wider determinants of health, health improvement). Using the profiles, you can see at a glance how your school group performs against a wide range of indicators. You can also compare the data with other school groups in Nottingham City via the spine charts.

## Oral Health Programme

Public Health commission the Oral Health Promotion team, which works across both Nottingham City and Nottinghamshire County. The Oral Health Team works within every Primary School in the City and each entrant receives an oral health pack which includes a free tooth brush and tooth paste.

In addition there is the 'Teeth Tools for Schools' initiative. This initiative fits within the current Key Stage One national curriculum within science and personal, social and health education (PSHE) subject areas. There is also a year six magazine which all children receive which concentrates on good oral health and healthy eating. ## Breastfeeding Support

The Nottingham Baby Feeding Team provide breastfeeding peer support to pregnant women and new mums. The service aims to support all women to develop loving relationships with their babies before they are born and to help those who breastfeed their babies to do so for as long as they want to. Local volunteers lead breastfeeding peer support groups at various venues throughout the City and mothers aged under 25 years (those least likely to breastfeed) can access intensive one-one support from Breastfeeding Peer Support Workers. The team has received accredited breastfeeding peer support training and have all breastfed themselves.

CityCare Partnership also coordinate a "Breastfeeding Welcome" programme which promotes greater acceptance of breastfeeding by helping local businesses and venues to adopt 'breastfeeding welcome' standards. The aim is to ensure mums can feel comfortable to breastfeed in public without the fear of being asked to leave.

Below are the details of the breastfeeding support groups within the Area Committee.

**The following commissioned services do not have a base within this Area Committee (or bases are currently subject to change) or they may be telephone based.**

### Healthy Change

Healthy Change is a predominantly telephone based service with the overall aim of reducing CVD amongst Nottingham City residents.

We run our service between 08:00am to 20:00pm Monday to Friday excluding bank holidays. We provide a simple, effective and reliable one stop referral service for GPs and other healthcare professionals to services that address lifestyle issues such as smoking, alcohol, poor diet and lack of exercise.

Clients can self refer into the service as well. Our specially trained 'Health Trainers' support our clients in a motivational way to make behavioural changes after a personal assessment of their general lifestyle. All of our clients have a personal health plan which can take between 3-6 months to fulfil.

Our contact number is **0345 6047352**.

### Be-fit

The Be-fit scheme is run through various Nottingham City Council leisure centres. This enables Nottingham City residents who are in receipt of the benefits listed below to access the gym, swim (during school holidays), fitness classes and also spin classes for free. This is during the times of 10.00 - 12.00pm and 13.00 - 15.00pm Monday to Saturday.

Not only do the scheme members get their gym introduction, but they also get four 'one on one' sessions with a fitness advisor to set up a programme to help them achieve their fitness goals.

Benefits eligible - Job Seekers Allowance, Income Support, Employment Support Allowance. Users can also be referred from the YMCA GP referral scheme.

For more information on Be-fit, please contact **0115 876 1600**.

### C-Card Service

The Nottingham City C-Card Scheme – Hosted by NUH Sexual Health Outreach/Health Promotion Services on behalf of young people aged 13-24 in Nottingham City is alive and kicking.

The purpose of the scheme is to reduce the rates of teenage conceptions and reduce the rates of sexually transmitted infections. The Nottingham C-Card Scheme aims to do this through increasing availability, accessibility and acceptability of condoms,

#### • **What is a C-Card?**

A C-Card enables young people aged 13-24 years to get free condoms, lubricant contraception and sexual health advice from a number of places within the local community.

#### • **How do I get a C-Card?**

All we need is some basic information from you, the young person, (this is confidential). You will then be registered after a quick chat about sex and relationships.

#### • **Where are the C-Card Points?**

You will need to register at a registration point but then once you're registered you can get free condoms and lube from any registration or pick up point.

Check out the website to find your nearest points;

**[www.ccardnottingham.co.uk](http://www.ccardnottingham.co.uk)**

The C-Card team are now based at Victoria Health Centre and can be contacted through the dedicated e-mail **[ccard@nuh.nhs.uk](mailto:ccard@nuh.nhs.uk)**

## Motivate

Motivate is a weight management service aimed at men with a BMI of 30 or above.
