School Health Profile

Bigwood Group

Quick Statistics

- Bigwood Group consists of five schools; "Bigwood School", "Glade Hill Primary School", "Southglade Primary School", "St. Margaret Clitherow Catholic Primary School" and "Warren Academy".
- The schools within Bigwood Group have approximately 1,840 pupils on their school roll.
- There is a split of 49.9% female and 50.1% male pupils within the Bigwood Group. This translates to 919 female and 921 male pupils.
- The schools within this group fall under the Nottingham North constituency. Within this constituency an estimated 2,600 children in poverty are not eligible for free school meals. That means that 34% of children in poverty in this constituency miss out on free school meals.

Income Deprivation Affecting Children Index

The Income Deprivation Affecting Children Index (IDACI) is an index of deprivation used in the United Kingdom. The index measures the proportion of children under the age of 16 that live in low income households.

The chart below shows the percentage of the pupils in Nottingham and the School Group who live in each of these quintiles.

Mosaic Groups

The map highlights the locations of the schools that make up the **Bigwood Group**. Each location is highlighted in a specific colour. This relates to that school's largest mosaic group. For example "**Southglade Primary School**" is highlighted in RED, showing that group "**O**", "**families in low-rise social housing with high levels of benefit need**" is the largest group of pupils in that school. For more details on mosaic groups please see the footnotes page.

Mosaic,© 2012 Experian Limited

Bigwood Group's largest mosaic group is is "O", "families in low-rise social housing with high levels of benefit need" accounting for 38%. Its second highest group is "K", "residents with sufficient incomes in right-to-buy social houses" which accounts for 23%.

Bigwood Group Health Profile

The chart below shows how the schools within the group compare with the rest of Nottingham City schools. This group's result for each indicator is shown as a circle. The average value for Nottingham City schools is shown by the black line, which is always at the centre of the chart. If a circle is to the right of the black line then the group's value is higher, if it is to the left of the black line their value is lower.

The range of results for all schools within Nottingham City is shown as a grey bar. A purple circle means that the group's value is significantly higher than Nottingham City average, a yellow circle indicates that their value is significantly lower. A grey circle indicates that even though a value may be higher/lower than the Nottingham City schools average; it is not significantly so.

Spine Chart

- Significantly higher than Nottingham City schools average
- Not significantly different from Nottingham City schools average
- O Significantly lower than Nottingham City schools average

		% of pupils who are very/quite happy with who they are (age 6-11 years) [d-Vibe Survey]	327	71.7	72.7	62.5		96.6
	45		<5	6.3	5.8	0.0		25.0
	46		45	9.9	11.2	0.0		20.0

Please note that numbers for the "d-Vibe" and "Child Dental" surveys are in *italic*. This is to highlight that these surveys have a far lower sample size compared to the actual school roll for that group. For example, "% of pupils who have used/tried alcohol (age 8-11)" is **10** (16.4%) from a total of **61** surveyed (over Feb 2010 - May 2013 pooled years), compared to a far higher school roll for that age range.

Nottingham City Health Profile

The bar charts in the "Nottingham City Health Profile" include comparator cities to Nottingham. For benchmarking purposes, we have used the ONS subgroup 1.2.3. The lilac vertical line shows the England percentage/rate. Nottingham is highlighted in yellow. The number within the yellow bar is the local number (**not rate/percentage**).
