AC7-3 Rent Collection

Performance indicator and definition	Target	2015/16			2014/15	2013/14	Latest Note
		Value	Status	Long Trend	Value	Value	
<p>% of rent collected</p> <p><i>Note: This PI measures the amount of rent collected (including tenant arrears) as a percentage of rent due for the current year. Data for this indicator is not available by ward and is reported city wide.</i></p> <p><i>Trend shows as improving if value is over 100% as arrears are decreasing.</i></p>	100%	100.51%	✓	↑	100.56%	100.02%	<p>The current collection rate of 100.84% equates to being £658k ahead of the 100% target. At the end of the previous quarter, we were £100k short of the same target.</p> <p>In November a £100 credit was applied to the accounts of qualifying tenants under the Responsible Tenant Reward Scheme, which had a beneficial effect on rent collection performance. Staff will be working at weekends during the final quarter, concentrating on tenants who we find it difficult to contact during the week. This activity is designed to maximise rent collection and ensure the year-end target will be met.</p> <p>So far this year we have carried out fewer evictions – 83 compared to 111 at the same point last year.</p> <p>We continue to sign up as many customers as possible for Direct Debit payments. In December we hit our target of 36.5% of customers signed up to pay by Direct Debit.</p> <p>A corporate programme of work continues, designed to ensure that the whole of NCH plans for and responds to the challenges of Universal Credit (which will be rolled out in Nottingham in February) and wider welfare reforms. An intensive data collection exercise relating to our tenants continues and we now hold the required data on 5,000 of the 13,000 working age tenants who are likely to be affected by Universal Credit. The required data includes information on bank account ownership, internet access and confidence in using the internet. This data allows us to target those tenants who require additional support. Information sessions will be held for staff to ensure they are able to give appropriate advice, and tenants to ensure they have access to the necessary information to successfully manage any claim they make for Universal Credit.</p>

<p>% of tenancies ending due to eviction</p> <p><i>Note: This PI monitors the percentage of tenants being evicted due to rent arrears and is reported citywide.</i></p>	0.45%	0.47%			0.56%	0.74%	<p>This indicator will be on target by the end of the financial year. WE are currently only 0.02% behind target and as we are not carrying out any further evictions during March we will be on target. We have done 101 evictions so far this year and at this point last year we had done 129.</p>
