1	The Board to note activity against the CYPP action plan		

1 BACKGROUND AND PROPOSALS

The Children and Young People's Plan is based on evidence about past performance, needs assessments, consultation with local families and agreed priorities between partners. It was reviewed and adjusted to take account of changes in policy direction and early intervention approaches that were impacting on design and delivery of services to children, young people and their families and was refreshed to cover the period 2015/2016. The new CYPP for the period 2016 - 2019 is now in a period of consultation.

This strategic plan, set the overall direction and provided the headlines, but is supported by a more detailed action plan which can be found on the Children's Partnership website. A new action plan is also under development.

The action plan covers the four shared priorities agreed by the partnership:

1. Safeguarding and supporting children and families:

Children, young people and families will benefit from early and effective support and protection to empower them to overcome difficulties and provide a safe environment in which to thrive.

2. Promoting the health and wellbeing of babies, children and young people:

From pregnancy and throughout the life course, babies, children, young people and families will be healthier, more emotionally resilient and better able to make informed decisions about their health and wellbeing.

3. Supporting achievement and academic attainment:

All children and young people will leave school with the best skills and qualifications they can achieve and will be ready for independence, work or further learning.

4. Empowering families to be strong and achieve economic wellbeing:

More families will be empowered and able to deal with family issues and child poverty will be significantly reduced.

Within these four priorities the action plan contains a number of indicators to which the majority of organisations on the Children's Partnership Board contribute. Partners have provided information available at the end of year on activity and progress within these indicators.
