AC4-3 Rent Collection

Performance indicator and definition	Target	2016/17			2015/16	2014/15	Latest Note
		Value	Status	Long Trend	Value	Value	
<p>% of rent collected</p> <p><i>Note: This PI measures the amount of rent collected (including tenant arrears) as a percentage of rent due for the current year. Data for this indicator is not available by ward and is reported city wide.</i></p> <p><i>Trend shows as improving if value is over 100% as arrears are decreasing.</i></p>	100%	99.58%			100.25%	100.56%	<p>Following the rent free week in August when our collection rate improved as tenants still paid despite the reduced debit, we had a reduced collection in September. At 99.58% the collection rate was £220,000 off a 100% return. It is also slightly behind last year's position of 99.8%. Arrears as a % of debit is 2.45% against a target of 2% - this is £470,000 above where we need to be to hit the target. However as the debit reduced by 1% this year, this is an increasingly difficult target to attain. The numbers of Universal Credit cases continues to increase - with the total standing at just over 200, the arrears on these cases totals £109,014 currently. Equally the amount of Housing Benefit we receive continues to decrease, at a rate of approximately £20,000 each week. This means that we have more rent to actually physically collect from tenants. Although more people are coming off benefit they are taking up low paid jobs that are not permanent with regular hours and therefore their income is liable to fluctuate. This makes it difficult for people to budget and as a result we have increased arrears. Additionally there is still the problem of Court fees standing at £325 - as a consequence we are entering cases at a much higher level. Judges will often adjourn cases, allowing the debt to increase but Housing Benefit backdates are now severely restricted.</p>
<p>% of tenancies ending due to eviction</p> <p><i>Note: This PI monitors the percentage of tenants being evicted due to rent arrears and is reported citywide.</i></p>	0.45%	0.45%			0.43%	0.56%	<p>This indicator will be on target by the end of the financial year. WE are currently only 0.02% behind target and as we are not carrying out any further evictions during March we will be on target. We have done 101 evictions so far this year and at this point last year we had done 129.</p>
