Introduction and Background

- 1.1 We have undertaken a follow-up review of Equality Impact Assessments as part of the Internal Audit Plan. Seven recommendations were made in the original report which concerned the early recognition of Equality considerations across NCC's work, the quality of EIAs produced and the administration of the process by the Equality & Community Relations (ECR) Team. It is pleasing to note that four of the recommendations have been actioned in full and that work has started on the outstanding actions through a proposed long term improvement plan to be undertaken with departments.

Key Findings

- 1.2 Our previous audit revealed there was not a coherent system in place across the Council for early identification of Equality issues. A recent development has been the creation of Equality Action Plans by departments that will be reviewed quarterly by the Leader of the Council. It is hoped these will encourage the mainstreaming of Equalities and the ECR Team have begun discussions with HR Business Partners (HRBP) with the aim of further improving the early identification of Equality issues within departments. The Equalities Board will be provided with updates on progress with a report planned to be presented at the July 2016 meeting. Once agreement is reached on an improved mechanism, the ECR Team plan to attend each DLT to roll out.
- 1.3 Our previous work highlighted issues in the quality of final EIAs, specifically in unmeasurable actions and inadequate monitoring and consultation. The ECR Team have begun to address these issues in a number of ways;
- Weaknesses in written EIAs and training needs, will form part of the discussions with HRBP as at 1.2
 - The ECR Team have begun discussions with Commissioning colleagues regarding improvements to contract monitoring and will attend a team meeting later in the year
 - Spot Checks were undertaken earlier in the year and the ECR Team intends to review each EIA in future.
 - Departments will be required to enter details into Covalent. This will be checked by the ECR Team at review
- 1.4 Four recommendations were made to improve the administration of EIAs by the ECR Team. These have been completed; the EIA template and Team Tracker have been reviewed and updated and confirmation has been received that the publishing of EIAs is up to date. EIAs are now RAG rated with the intention that training will be targeted at poor performing Services.

Opinion

- 1.5 We are required to provide an opinion on the adequacy and effectiveness of internal controls in relation to the area under review. Our opinion is based on the work performed. Overall, our assurance remains at **Limited Assurance** on the controls in this area, this is because whilst work on embedding EIAs into NCC decision making and improving the quality of EIAs has begun, this is at an early stage and has yet to be established.

Summary of Recommendations

- 1.6 Details of all of the issues arising from this review, along with our recommendations and management responses, are set out in the attached Action Plan.
- 1.7 Within the Action Plan we have assigned a priority ranking to each recommendation to reflect the degree of risk that the issue that they relate to pose in the context of the audited area and hence the urgency with which the recommended actions should be addressed. The recommendations are summarised as follows:

Priority	Previous Recommendations	Completed	Recommendations Outstanding
High	3	1	2
Medium	2	2	0
Low	2	2	0
Total	7	5	2

Added Value

Equality Impact Assessments

- 1.8 This audit adds value by highlighting that certain areas are not adequately protected and by making recommendations to strengthen control in these areas.

06 2014/15	<p>Consultation does not always take place and at an appropriate stage.</p> <p><u>Risk</u> Relevant information or views may not be used to assess impact.</p>	ECR Team to ensure importance of consultation is reinforced in future training.	Low	<p>HRBPs to provide clear advice and guidance to DLTs and to escalate failure to comply to the Equalities Board.</p> <p>Constitutional Services should review report templates and place guidance regarding Equality Impact Assessments early in the report structure.</p> <p>ECR December 2015</p>	<p>The importance of consultation will be included in proposed half day EIA training.</p> <p>Improvements in EIAs to be discussed with HRPBS.</p> <p>Action Complete</p>	N/A
07 2014/15	<p>On EIA form; entries on 'date sent to equality team for publishing' used to indicate sent to Equality Team for checking rather than publication.</p> <p><u>Risk</u> Inaccurate record of when/if assessment published</p>	ECR Team to consider amending form to suit their tracking needs.		<p>Agreed October 2015</p>	<p>EIA form has been reviewed.</p> <p>Action Completed</p>	N/A

Client Responsibilities

- Whilst a number of recommendations are included in this report, it is the responsibility of management to determine the action that will be taken in response to each recommendation. Management should assess the risks to the objectives involved and the cost-effectiveness of the control improvements suggested

- It is expected that management will respond to this draft report within 10 working days of receipt.
- Management is responsible for ensuring that all agreed recommendations are implemented within the agreed timescales.
- Management should note that any recommendations that relate to Financial Regulations must be implemented unless a satisfactory business case has been agreed justifying why the recommendation will not be implemented.

Levels of Assurance

We use four categories to classify Internal Audit assurance over the processes examined, these are defined as follows:

High Assurance	High assurance that the system of internal control is designed to meet the organisation's objectives and controls are consistently applied in all the areas reviewed. Our work found some low impact control weaknesses which, if addressed, would improve overall control. These weaknesses are unlikely to impair the achievement of the objectives of the system.
Significant Assurance	Significant assurance that there is a generally sound system of control designed to meet the organisation's objectives and that controls are generally being applied consistently in the areas reviewed. However, some weakness in the design or inconsistent application of controls put the achievement of particular objectives at risk.
Limited Assurance	Limited assurance as weaknesses in the design or inconsistent application of controls put the achievement of the organisation's objectives at risk in the areas reviewed.
No Assurance	No assurance as weaknesses in control, or consistent non-compliance with key controls, could result in failure to achieve the organisation's objectives in the areas reviewed.

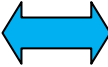

Where appropriate we may also comment on the level of assurance we can give that objectives will be met. This may apply when there are risks either partially or wholly outside of the control of management.

Categorisation of Recommendations

The recommendations within this report have been categorised by Internal Audit as:

High Priority	A fundamental weakness which presents material risk to the audited body and requires urgent attention by management.
Medium Priority	A significant weakness whose impact or frequency presents an unacceptable risk to the audited body that should be addressed by management.
Low Priority	The audited body is not exposed to any significant risk, but the recommendation merits attention.

In all cases Internal Audit will follow up implementation of the recommendations by the agreed date.
