

HEALTH AND WELLBEING BOARD

26 JULY 2017

	Report for Information
Title:	Nottingham and Nottinghamshire Sustainability and Transformation Plan - Feedback Report
Lead Board Member(s):	Dawn Smith, Chief Officer, Nottingham City Clinical Commissioning Group
Author and contact details for further information:	Jane Laughton, STP Team Jane.laughton@nhs.net 07595 284817
Brief summary:	<p>The draft Nottingham and Nottinghamshire Sustainability and Transformation Plan (STP) was published in November 2016.</p> <p>It was based on previous conversations with local people, including the development of the Health and Wellbeing strategies for Nottingham City and Nottinghamshire County, and work already underway through specific initiatives such as our local NHS Vanguard programmes, which have been testing new ways of working and delivering care. As there were restrictions on sharing the draft Plan in advance of publication, we were not able to talk openly about the draft STP before it was published.</p> <p>The first phase of talking to the public about the STP took place between November 2016 and February 2017 and involved asking for comments and feedback on the STP, the overall direction of travel and the five priority areas. This was done by holding four public events at a range of venues and times across the City and County, hosted by Healthwatch, and by inviting written comments by e-mail or letter. We also shared the draft Plan at a range of other local events, such as a Nottingham University Hospitals NHS Trust public Members' event and a specific STP event for voluntary and community sector organisations. Partner organisations made staff aware of the STP through newsletters and on their intranet, and many staff attended the public meetings.</p> <p>All feedback was captured and sent to Public Health for independent analysis of the raw data into themes. The feedback and the response of the STP Leadership Board form the content of two reports that were published on 12th June 2017 on the STP website www.stpnotts.org.uk. A presentation will be given at the Health and Wellbeing Board meeting on 26 July to provide an overview of the feedback received and the response of the STP. This includes a commitment to publish an update to the STP in response to feedback and to publish an annual report.</p>

Recommendation to the Health and Wellbeing Board:

The Health and Wellbeing Board is asked to:

- a) receive the two feedback reports and the presentation.

Contribution to Joint Health and Wellbeing Strategy:

Health and Wellbeing Strategy aims and outcomes	Summary of contribution to the Strategy
Aim: To increase healthy life expectancy in Nottingham and make us one of the healthiest big cities	The Health and Wellbeing Strategy aims and outcomes are key components of the STP.
Aim: To reduce inequalities in health by targeting the neighbourhoods with the lowest levels of healthy life expectancy	
Outcome 1: Children and adults in Nottingham adopt and maintain healthy lifestyles	
Outcome 2: Children and adults in Nottingham will have positive mental wellbeing and those with long-term mental health problems will have good physical health	
Outcome 3: There will be a healthy culture in Nottingham in which citizens are supported and empowered to live healthy lives and manage ill health well	
Outcome 4: Nottingham’s environment will be sustainable – supporting and enabling its citizens to have good health and wellbeing	

How mental health and wellbeing is being championed in line with the Board’s aspiration to give equal value to mental and physical health

The feedback to the STP identified people with mental health needs as a group within our communities that had not received enough explicit focus in the STP. The Update to the STP will include an additional section on how the plan addresses the needs of people with mental health needs and acknowledge that physical and mental health are equally important and inter-dependent.

Background papers:

Documents which disclose important facts or matters on which the decision has been based and have been relied on to a material extent in preparing the decision. This does not include any published works e.g. previous Board reports or any exempt documents.
