2. Assessment

1. Brief description of proposal / policy / service being assessed

This report sets out the requirements for Nottingham City Council, Building Services team to procure multiple replacement contracts which end at various months during this financial year. Working with the central procurement team a programme of procurement has been formulated and included a thorough analysis of the total number of current contracts which has been reduced by packaging similar works together.

Without these contracts, Nottingham City Council will not be able to fulfil its many statutory, regulatory and legislative compliance obligations for its portfolio of assets which serve a diverse mixture of citizens in Nottingham and also include the flagship corporate and civic asset portfolio.

Nottingham City Council has a legal duty to offer a safe, and properly maintained portfolio of assets to its citizens, which are also accessible and appropriate to all sectors of the community.

This report recommends that Nottingham City Council gives authority for Building Service to procure multiple replacement contracts with a total value of £4,100,000 and to allow Building services to award and enter into the contracts.

2. Information used to analyse the effects on equality:

No consultation exercise has taken place due to the nature of the type of maintenance service contracts we are having to replace. However, without the procurement taking place its envisaged that all citizens of Nottingham will be impacted up and Nottingham City Council, asset portfolio will not be compliant with statutory and legislative requirements and therefore they could potential become a risk to all citizens.

(Summary of impacts)

Building Service procurement requirements will adhere to the Nottingham City Council Procurement Strategy and will support the Council in meeting the requirements of the Equality Act 2010, including ensuring non-discrimination and compliance with the public sector equality duty in the delivery of contracts procured.

The Strategy is a key driver in promoting and meeting the requirements of the Public Services (Social Value) Act 2012, through the key objectives and themes of securing social, economic and environmental benefits for the City and its citizens. To maximise the economic, social and environmental benefits delivered, appropriate specific measures will be taken where relevant to any contract procured, for example including requirements for employment and training opportunities and promoting the principles of the NCC Business Charter.

Where a procured contracts has specific equality implications (for example a change of service provision) an EIA will be undertaken as part of the commissioning decision making process. The Strategy sets out a number

Details of actions to reduce negative or increase positive impact (or why action isn't possible)

The outcomes of procurement activity will be monitored and reported, in particular progress against the key economic, social and environmental objectives of the Procurement Strategy.

The Building Services Team will work in a fair and inclusive way and will promote equality and diversity in accordance with the principles of the Procurement Strategy.

The Strategy will support and promote the Council's Equality Objectives: 'Make sure that our workforce will reflect the citizens we serve; Create economic growth for the benefit of all communities: Provide inclusive and accessible services for our citizens; Lead the City in tackling discrimination and promoting equality

Procurement processes will be fair, open, transparent, proportionate and accessible to ensure a level playing field for all suppliers and no barriers to participation, particularly for small businesses and VCOs.
