<b>Summary of issues (including benefits to citizens/service users):</b>			
<p>Most children become looked after as a result of abuse and neglect. Although they have many of the same health issues as their peers, the extent of these is often greater because of their past experiences.</p> <p>The NHS has a major role in ensuring the timely and effective delivery of health services to looked after children (and, by extension, to care leavers) by commissioning effective services, delivering through provider organisations, and through individual practitioners providing coordinated care for each child.</p> <p>The attached document is the second CCG looked after children annual report and provides assurances that Nottingham City CCG is fulfilling its statutory responsibilities to children as outlined in the Children Act 1989 and Promoting the health and well-being of looked after children (2015).</p> <p>The additional document outlines some of the health data collected and issues relating to it.</p>			

<b>Recommendation(s):</b>	
<b>1</b>	To note – health providers supported by the Designated Professionals will continue to work with the Service Improvement Forum and associated working groups with the aim to improve the health outcomes for Children in Care.
<b>2</b>	To note – Revised CCG pathways for out of area placements and other local authority placements in the City to be implemented in 2019.
<b>3</b>	To note – health providers supported by the Designated Professionals will continue to work with the Local Authority, other partner agencies and Commissioners in planning for and ensuring adequate health provision for Care Leavers.
