Summary of issues (including benefits to citizens/service users):		
This report focusses on current priorities and issues facing the three wards within the Area 4 Arboretum, Dunkirk and Lenton and Radford & Park and gives details of forthcoming events and activities. It also highlights the latest issues now being addressed through regular Neighbourhood Action Team (NAT) meetings.		
Recommendation(s):		
1	To note the progress on Ward priorities and other supporting information including the issues being addressed by each Neighbourhood Action Team;	
2	To note the progress made against the existing Council plan.	

1 REASONS FOR RECOMMENDATIONS

- 1.1 Each ward manages a set of priorities and key issues through regular meetings of its Neighbourhood Action Team (NAT). These meetings are led by Neighbourhood Development Officers (NDOs) and supported by core partners including Nottingham

City Homes (NCH), Neighbourhood Policing, Community Protection, Early Help, City Services / Waste Management; Fire and Rescue Services and Health.

- 1.2 Ward Councillors are invited to participate in these meetings.
- 1.3 Ward priorities are identified and informed from a range of sources including Citizens, Councillors, Partners and Officers and current issues will be updated for each area committee.
- 1.4 The current Ward report incorporates the wider area priorities previously reported to area committee, so that in future, there will be only one consistent Ward report (attached as an Appendix) and the Area Priorities Action Plan will be discontinued. Area Committee Chairs will be invited to review this latest report to ensure that its format is accessible and there is sufficient consistency across the areas.
- 1.5 The list of events and activities will take account of the work, which all NDOs undertake with partner organisations within their ward, and shows the depth of activity in place working alongside neighbourhood management to improve social cohesion and tackle priorities at a ward and area level.

2 BACKGROUND (INCLUDING OUTCOMES OF CONSULTATION)

- 2.1 The Arboretum, Dunkirk and Lenton and Radford & Park Wards sit within the Area 4 Committee which originally adopted three area based priorities at its first Area Cluster meeting – Jobs and training, Environmental issues including cleansing, fly tipping, noise and open spaces and finally Regeneration and balanced communities including empty sites, balance of housing (students and family) and HMOs.
- 2.2 These priorities demonstrate a link to the City Council's current ambitions contained in the latest City Council Plan 2015 - 19. Actions for each priority will be developed and led by appropriate service teams and partnerships.
- 2.3 The area priorities listed in 2.1 sit within wider pieces of work and broader agendas, which are being addressed by multi agency approaches across the City. At a Ward level it is important to identify how some of these more complex priorities can be addressed at a local level, either ward or area, by introducing local solutions. This could, for example, include more targeted use of funding such as Ward Councillor budgets to support community cohesion initiatives or the use of Area Capital funding to develop an outdoor gym facility.
- 2.4 The current Ward priorities, which have been reported previously through the area committee performance reports, are shown in the separate appendices for each ward. These priorities will be updated for each area committee, taking into account discussions at NAT meetings and various groups and activities involving Councillors and local residents.
- 2.5 The Ward information is contained in the attached appendices, as follows:-

Appendix 1 – Arboretum

Appendix 2 – Dunkirk and Lenton

Appendix 3 – Radford and Park

Appendix 4 – Summary of Area 4 Nottingham Crime & Drug Partnership Performance Report

- 2.6 The ward priorities also make reference to a number of development sites, which are listed within the new Neighbourhood Regeneration Strategy document – Building a Better Nottingham. These are shown in italic within the appendices.

List of key current issues (taken from latest NAT Review):

- Parking issues at the Woodlands – scheme is progressing
- Following completion of the Faraday and Cycle Road parking schemes, monitoring has shown migration of the parking problems to Elmsthorpe Ave, Dunlop Ave and Johnson Road. A parking scheme is being developed for this area.
- Cleanliness issues across the Ward continue to be challenging and a number of exercises using a multi-partner approach have taken place.
- Crime has risen in the ward and the beat teams continues to target resources on the problem areas. There has been a significant increase in burglaries in the Lenton Triangle. CCTV will be relocated to this area to act as a deterrent. An additional CPO has been appointed to the area.
- The NAT has recently produced an action plan focusing on priorities identified in the Respect for Nottingham Survey
- Improvements to parks including replacing an old playground in Ronald Street and improving the memorial garden, pending allocation of section 106 funding.
- End of term student plan enacted around the Lenton Triangle, with a focus on noise prevention and waste management

- Ongoing parking issues in the ward, traffic management and implementing schemes to introduce waiting restrictions, traffic calming and improve road safety – Consultation on Phase 1 of Traffic improvements including junction protection at roads coming off Alfreton Road also complete
- Resurfacing Barrack Lane once the development is completed.
- Rough sleepers in NCH blocks
- Radford Action Plan – partnership approach to long term issues in the area
