Crime

Red*
Amber
Green
12 less crimes
-11%

*Refers to June 2013 compared to June 2012

- The above baseline graph compares the *rolling* 12 month total of crime in Dunkirk and Lenton to a *fixed* 12 month 2010/11 baseline. The current 12 month total is showing a reduction of -21.53% against the baseline.
- In June 2013 there were 96 crimes which is a reduction of -11% (12crimes, see above RAG rating) compared to June 2012. The Division as a whole experienced an increase in all crime of *approximately* +6.4%.
- Year to date crime in the ward has increased by +1.06% (3 crimes, April – June 2013 compared to April – June 2012, see Table 1 of page 5). In the Division as a whole, all crime is up by *approximately* +6.2%.
- The largest volume increase this month was in Damage, which was up 6 crimes (+66.67%, see Table 1 of page 5).
- Crimes with a domestic flag assigned to them were up by 2 crimes (June 2013 compared to June 2012, see Table 2 of page 5). For June 2013 the ward ranked 19th out of the 20 wards in the Division for this type of crime.
- The rate (per 1000 of population) of all crime in Dunkirk and Lenton is the 3rd highest rate out of the 20 wards (figures are year to date, see Table 3 of page 6).

Unofficial data

All ASB

Red*
Amber
Green
11 less incidents
-21.6%

*Refers to June 2013 compared to June 2012

- The above baseline graph compares the *rolling* 12 month total of ASB in Dunkirk and Lenton to a *fixed* 12 month 2010/11 baseline. Performance on this measure continues to improve.
- In June 2013 there were 40 ASB calls in the ward. This is a reduction of -21.6% (11 calls, see above right RAG rating) compared to June 2012. The Division as a whole experienced a reduction of *approximately* -19% on this measure.
- Year to date ASB in the ward has reduced by -50.88% (56 calls, April – June 2013 compared to April – June 2012, see Table 5 of page 7). In the Division as a whole, ASB is down by *approximately* -25%.
- The rate (per 1000 of population) of ASB in Dunkirk and Lenton is better than the average rate for the 20 wards (June 2013 figures, see Table 4 of page 7).

Cleanliness Index

This graph shows the position of your ward compared to other Wards

The “neighbourhood as clean as the city centre” benchmark target on cleanliness is to achieve a score of 86% in every ward. The 86% target is shown in red in the above graph.

To calculate the Cleanliness Index (CI) an agreed number of transects are surveyed across an area covering a range of land types. Each site surveyed is awarded a cleanliness grade based on a 7 point scale from A to D where Grade A: – no litter, and Grade D: - heavily littered. The maximum possible score of 100 is achieved when all sites achieve Grade A.

The Code of Practice for Litter and Refuse (COPLAR) requires councils to strive to reach an ‘acceptable’ standard of cleanliness (grade B or better) across the Council area. Grade A is the ultimate goal and is how a site should be immediately after sweeping but is almost impossible to maintain for any length of time. For example, a grade A site is completely free of litter – one cigarette butt takes it down to B+.

To achieve the manifesto commitment of Neighbourhoods as clean as the City Centre a target of 86 is required as that was the CI for the City Centre in May 2011. To give some context if all areas surveyed achieved a grade ‘B’ standard, this would equate to a cleanliness index of 67.

Graffiti Reports

RED		
AMBER		
GREEN	4 incidents	Decrease of 4

- All data refers to a comparison with the previous year's month
- It is proposed that performance over time graphs be used for each indicator
- Historic data for comparison is not available for dog fouling

This is an edited version of a report produced by: Geoff Oxendale, Information and Research Officer, Nottingham City Council. Claimant count of Job Seekers Allowance (JSA) is used as a proxy measure for unemployment.

Wards are ranked from 1 (highest Rate, per 1000 of population, of JSA claimants) to 20 (lowest Rate).

Housing

Performance indicator definitions

Performance indicator	Definition
% of ASB cases resolved	This performance indicator monitors the proportion of ASB cases that Nottingham City Homes has successfully resolved. Data for this indicator is not available by ward and is reported by Housing Office.
% of ASB cases resolved by first intervention	This performance indicator monitors how many ASB cases Nottingham City Homes resolved on the first intervention e.g. written warning. Data for this indicator is not available by ward and is reported by Housing Office.
Average void re-let time (calendar days)	This performance indicator monitors how many empty properties Nottingham City Homes has re-let and the length of time it has taken. The void period is the number of calendar days including the day after the old tenancy ends right through to and including the day before the new tenancy starts.
Number of lettable voids	This performance indicator monitors the number of empty properties which are available for re-letting. Lettable empty properties are those which will receive repair work and then be let to a new tenant.
Number of empty properties awaiting decommission	This performance indicator monitors the number of empty properties which will not be re-let and includes those being decommissioned and / or demolished.
Estate star ratings	Nottingham City Homes Tenant Inspectors monitor the condition of estates and rates them according to a zero, one, two and three star standard. The estates are monitored every three months with a selection of streets (determined by tenants) covering all 42 estates.
Rent charged that has been collected	This performance indicator measures the amount of rent collected (including tenant arrears) as a percentage of rent due for the current year. Data for this indicator is not available by ward and is reported by Housing Office.

Community Protection

Data has been received from Community Protection and where postcodes have been listed these have been geo-coded and mapped to determine the Ward. All addresses relate to the address of the Perpetrator.

FPNs are not currently available at ward level.

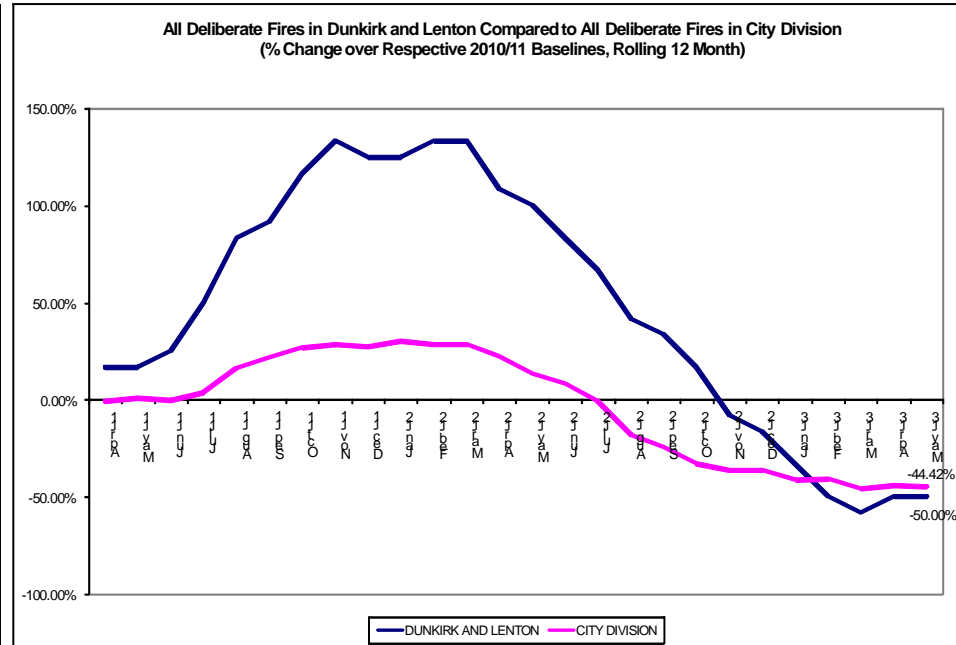

In June 2013 there were no orders issued

For enquiries regarding Community Protection court outcomes please contact the Operational Manager for the locality.

- The above table shows volume of deliberate (primary and secondary) fires in the 20 wards. In May 2013 there were no fires in Dunkirk and Lenton. Year to date deliberate fires in Dunkirk and Lenton have increased from 0 to 1.
- The graph on the right shows a *rolling* 12 month total of deliberate fires in Dunkirk and Lenton against the *fixed* 2010/11 baseline. The performance of the City Division against *its* baseline has also been shown for comparison purposes.

Note: Where ward boundaries overlap with the City Centre fires that occurred in the City Centre have been **included** in the ward figures.

Methodology

Data has not been audited or verified and therefore must only be used as a reflection of crime.

Crime data and ASB calls have been extracted from the Police systems and mapped to ascertain which Ward they occurred in.

Where a ward boundary overlaps with the City Centre, crime data and ASB calls relating to the City Centre have been removed.

Where possible the most recent data is used, although for some areas this may be a month further in arrears.

Discussions continue with other agencies regarding what further data can be included.
