One Nottingham – Governance

1. Purpose:			
1.1	This paper raises the issue of the future of the partnership, the governance required, it raises the question of its future resourcing, it provides a context and encourages discussion. A proposal will be taken to the NCC Executive Board and ON Board in January with firm recommendations for the future of the partnership.		

2. Recommendations:

2.1 The Board are asked to comment on this paper and agree the short proposed consultation.

- years which is expected at least in part to be delivered by the LEPs.
- There is a Growing emphasis on the Big Society, involvement of business and the use of corporate social responsibility...
-increased engagement with community and voluntary organisations
- Publication of a series of bills including a Localism Bill, due any time now.

4. Key Issues:			
4.1	The key issue for Nottingham is not what the Government wants us to do with our partnership structures; instead it is for Nottingham to define how the partners want to work together in a context which encourages "Localism, localism, localism".		
4.2	Everyone appears to agree that 'partnership' is good the question arising from all this 'goodness' is "do we mean a 'partnership' as a structure, however loosely constituted, or is it simply a way of working?"		
4.3	The relationship of Nottingham City Council and the partners is key to the future. NCC has acted as the lead partner and accountable body for ON, there is little reason to believe that this will not continue. The new defining relationships will be the position that the councillors and the Council takes to provide the democratic legitimacy under reduced scrutiny and direction from London. This will be in a time when partnership and service delivery will have to be enabled from the partners' own resources.		
4.4	A major issue to address will be the delivery of the Nottingham Plan and the ON Partnership with a reduced designated fund (or no fund) except that which the partnership generates for itself.		
4.5	The ON Partnership governance structure is linked closely to the Council's own governance and areas of partnership activity have been dependent upon the Council to make it work (this is not to reduce the contribution made by other partners, it simply reflects the Council's role). The area committee structure, for instance, has provided a focus for the local area partnerships and has enabled commissioning of particularly neighbourhood services. The City Council is now considering its relationship with the partnership and the Theme Partnerships. It is also looking to make its scrutiny, consultation and engagement activity more efficient and less demanding on administration and partners' time.		
4.6	As such discussions have been held between partners which have examined the desir for co-ordinating inter-agency activity and communications at an area level. A propose has emerged which would divide Nottingham into three areas with a partnership forum in each area.		
4.7	The Council will now also begin to consider the position of its Overview and Scrutiny activity and it is anticipated that a paper will go to a future Executive Board meeting. ON and Overview and Scrutiny have enjoyed a 'special' relationship, both through the scrutiny of the LAA and the SCS, through our protocol and the occasional informal liaison meetings we have engaged in.		
4.8	The One Nottingham Governance Arrangements		
4.8.1	ON is now at a challenging point. The Government introduced LEPs, at a multi local		

authority level, and has removed the requirement to produce a Local Area Agreement.

4.8.2 Nevertheless, partners have indicated a desire to continue to work with the 'Nottingham Plan to 2020' and to continue around the partnership table.

4.8.3 Much of the partnership's work has been defined by the willingness of partners to deliver across a broad range of activity. The WNF has provided substantial resources which have enabled some vital initiatives but ends in March 2010 (except for those projects which have agreed a carried forward). The infrastructure and Theme Partnerships have been largely financed through WNF.

5. Proposals/Discussions: 5.1 Proposal for Consultation

5.1.1 The Leader, Deputy Leader and Corporate Leadership team of the Council have considered options for the future from the Council's perspective. No decision has been made by the Council and this partnership process is an aspect of the consultation for ON and City Council governance.

5.1.2 The attached structure diagrams are a proposal for discussion. They implicitly make suggestions:

- i. To maintain a Board at the City wide level
- ii. Introduce three partnership forums plus a city centre/business forum
- iii. They identify that the new Theme Partnerships will communicate directly into the City Council governance structure **and** to the ON Board
- iv. The will facilitate a simplified partnership and City Council communication structure.
- v. They question the number of and the relationship with the Theme Partnerships.
- vi. It implicitly proposes that the role of the Neighbourhood Nottingham is shared across all of the partnerships and that the VCS engagement is not constrained by engagement only in the Neighbourhood partnership.
- vii. It anticipates that the role of the area committees and potentially local area forums will be reviewed.

5.1.3 **There are some key principles in this proposal:**

- i. The City Council will provide "community" leadership
- ii. It connects the Council's 'cabinet' to the partnership.
- iii. It makes the ward the building block of democratic engagement and embeds the ward councillor's role as a community champion.
- iv. It re-confirms the Nottingham Plan as the strategic plan for Nottingham.
- v. It places the ON Board as the primary city wide governance structure in a statutory partnership context.
- vi. It provides for ON to be responsible for a City Wide strategy, consultation and engagement which will dovetail with the council and the partners' communications.

- vii. It provides a framework for performance management.
- viii. It builds partnerships at a defined area level.
- ix. It extends Joint Commissioning.
- x. It embeds the role of the voluntary and community sector at every level.
- xi. It enables ongoing multi sector dialogue and engagement.
- xii. It anticipates that the Fairness Commission will be overarching but will complete its current work and then a decision will be required on its ongoing activity. Each partnership will be expected to embed fairness and equality within its activity.
- xiii. The Partnership will be based on trust, communication and flexibility.

5.2 **Some Key Questions for Partners to Address**

- 5.2.1 The questions posed below will be relevant to the ongoing delivery and success of our partnership. They acknowledge that ON has to move with the time, they all cannot be answered now but will form a part of this consultation, they are not exhaustive. However responses will be required soon.
 - 1. How will the ON want to proceed? What will the defining relationship be between the ON Board, the ON Executive, Theme Partnerships and the Theme Partnership Chairs?
 - 2. What will the partnership's relationship be with the new statutory arrangements, with the Health and Wellbeing Partnership and the new governance arrangements in other partners, the Police for instance?
 - 3. How much will the partnerships future role concentrate on sharing, negotiating, accommodating and understanding amongst partners with partners bringing to the partnership table as much as taking resources from the partnership?
 - 4. What is the likely relationship between ON and the LEP?
 - 5. What will the relationship with business look like in the new framework?
 - 6. A Performance Management Framework has been developed in Nottingham. Is ON able to oversee and manage this framework?. In aiming to deliver the Nottingham Plan, will ON be able to facilitate the framework and hold partners to account?
 - 7. Is there a better configuration of commission and co-ordination that will support achieving better outcomes and be more efficient for partners to be engaged?
 - 8. How much of the current governance structure is fit for the future, the Board, Executive and Theme Partnerships?
 - 9. Will there be a new relationship between the ON Board and the area structure, involving councillors and partnership forums?

	10. Is the balance of our Board membership correct?		
	11. To what extent are partners prepared to contribute financially to the running of the partnership family?		
5.3	Proposed Timetable for Discussion		
5.3.1	In order to move this discussion forward the Board requests the ON Executive Group to consider the partnership strategy and landscape going forward, particularly in the light of the recently published Localism Bill.		
5.32	The discussions around the partnership's future will need to consider the views of partners, these will require early resolution due to the resource implications to continue partnership activity the ending of the the Local Area Agreement and the introduction of a new performance management framework.		
5.33	 Discussion at the Executive will entail scenario planning around : Resources available for partnership work Partners' ability to provide funding for partnership work Different partnership structures or ways of working Capacity for partners to lead specific Theme Partnerships and Task & Finish Groups 		
	ON Lead Officer Group	23 rd November 2010	
	ON Board	26 th November 2010	
	ON Executive	8 th December 2010	
	ON Executive	14 th December 2010	
	Opportunity for Partners' and Theme Partnerships' comments	December 2010/January 2011	
	NCC Overview & Scrutiny discussion	December 2010	
	ON Board	January 2011	
	NCC Executive Board	February 2011
