**Please state the ground(s) for review (please read guidance note 1)**

This application is made because the Licensing Objectives relating to (1) the Prevention of Crime & Disorder, (2) Public Safety and (3) the Prevention of Children from Harm have been seriously undermined in that:

On 30<sup>th</sup> September 2013 a warrant was executed and a search took place by Trading Standards Officers and Police Officers at Monopolowy Mini Market, 296 Radford Road, Nottingham. This warrant was executed as a result of intelligence received through Nottingham City Council, Nottinghamshire Police and Crimestoppers.

The warrant, which was executed with the assistance of a specially trained tobacco dog, revealed 554 packets of cigarettes (11,080 individual cigarettes) all of which are either illicit or counterfeit. These products were stored underneath several floor tiles in a specially manufactured hydraulic container. The concealment was ONLY revealed after the dog indicated the area.

From the 554 packets, samples of all the different brands were sent to the respective trade mark holders and were found to be counterfeit, which is an offence under Section 92 of the Trade Mark Act 1994.

The seizures directly impact on the Licensing objectives as follows:

### **(1) The Prevention of Crime and Disorder**

The UK is currently seeing an increase in the illegal production of cigarettes and tobacco directly linked to organised crime gangs. These products are being sold to retailers and shops at substantially low prices compared to genuine recognised brands. The profits made are high for all parties and intelligence shows that this is funding serious and organised crime. Persons involved in the production are generally low paid foreign nationals, many being illegal immigrants. The production lines and the ingredients used may be unsafe.

There has also been an increase in the activity of smugglers, again with links to the funding of serious and organised crime.

The money made by both activities is laundered and no taxes are paid, which provides a substantial loss in revenue to the UK.

### **(2) Public Safety**

The production of illegal cigarettes and tobacco takes place under conditions where there are no product quality controls. The ingredients used are generally substandard and dangerous which has the potential to cause harm to any member of the public who smokes these cigarettes or hand rolling tobacco.

The illegal factories are controlled by Organised Crime Gangs where profit is the key. As a consequence Health & Safety legislation is disregarded. This presents a clear and present danger not only to those working on the production lines but also to neighbouring properties and members of the public.

Further, if a store is willing to sell illegal cigarettes and tobacco, this may make it more likely that the store look for other, cheap and quick ways to make money, such as selling counterfeit alcohol which, if consumed can result in serious health effects.

### **(3) Protection of Children from Harm**

The possession of counterfeit goods demonstrates a certain attitude towards committing criminal offences. Those who engage in such activities are less likely to adhere to other legislative requirements: for example, the requirement not to sell tobacco or alcohol to anyone under the age of 18. It is well evidenced that young people who take up smoking at an early age are more likely to become lifetime smokers. Young people who have access to alcohol can put themselves and others in risky or dangerous situations, as their judgement is impaired. It is the duty of the Trading Standards Service to protect all children from harm from the under age sales of both tobacco and alcohol.

### **Summary**

By reason of the matters aforesaid, it is felt that it would be a necessary and

proportionate response of the Nottingham City Council Trading Standards Service to make an application for a review of the premises licence.

**Please provide as much information as possible to support the application**  
(please read guidance note 2)

The circumstances leading to this application are as follows:

In August 2012, following a series of intelligence reports received through Nottinghamshire Police, Nottingham City Council and Crimestoppers, Trading Standards and HMRC executed a warrant on Monopolowy Mini Market, 296 Radford Road, Nottingham. A large quantity of illicit and counterfeit tobacco products were found and seized. The concealment was sophisticated and hidden as part of the front counter unit.

From the total seized, 257 packets of cigarettes were found to be a mixture of counterfeit and illicit products and the 7 packets of hand rolling tobacco were found to be counterfeit.

At the time of the warrant, a Mr Faridon Ali SAEED was the Premises Licence Holder, Designated Premises Supervisor and shop owner. He denied all knowledge of the concealments and the counterfeit and illicit tobacco products. He stated that he had been away from 21<sup>st</sup> July to 9<sup>th</sup> August 2012, however these dates were unclear.

Due to the offences committed, along with Mr SAEEDs lack of knowledge regarding the ongoings in his shop, a decision was made to prosecute and to submit an application for review of his licence.

A Premises Licence review was submitted by Trading Standards on the 5<sup>th</sup> October 2012. However, during enquiries and investigations into the offences, the licence was transferred to a Mr Hadi Rahman MOHAMMED. Trading Standards had no evidence or intelligence to link Mr SAEED and Mr MOHAMMED together. At the review hearing, the panel decided that there could be no further action taken in relation to the licence review, but directed Trading Standards to send a letter of advice to the new Premises Licence Holder. This letter was sent on 23<sup>rd</sup> November 2012.

As far as is known, there were no objections to Mr MOHAMMED taking over the licence.

Following a successful prosecution, the previous owner and licence holder, Mr Faridon Ali SAEED was found guilty of the possession for sale counterfeit and illicit tobacco, and was fined £450 and costs of £745.

Over the following months a constant stream of information and intelligence reports were received by Trading Standards in relation to the ongoing sale of counterfeit and illicit tobacco products from the premises. On 30<sup>th</sup> September 2013 another warrant was obtained and executed under the Trade Marks Act 1994 and a search took place by Trading Standards Officers and Police Officers at Monopolowy Mini Market. A large quantity of cigarettes and tobacco were seized.

The concealment in which the tobacco products were stored was elaborate and sophisticated. It was only after a specially trained tobacco search dog indicated the concealment under several floor tiles that Officers revealed the concealment. Due to the type of concealment that this was, it is safe to assume that constructing it would have taken a considerable amount of time to make and a considerable amount of money to finance.

At the time of the warrant being executed, the Premises Licence Holder, Mr

MOHAMMED was not in the store.

In a PACE interview with Mr MOHAMMED on 7<sup>th</sup> October 2013 he stated that he was completely unaware of the concealment. He stated that the training he gives the staff covers the Challenge 21 campaign and he was aware of the conditions of the licence held.

However he also stated that he regularly left the shop for long periods of time throughout the day, leaving his staff to take charge of the shop. Additionally he stated that he was away from the premises for 28 days in April 2013, during which time he left his friend Dan DANASADE in charge in his absence. When Hadi MOHAMMED returned to the shop his friend, Mr DANASADE, subsequently left the shop and the country to return to Kurdistan, not to return to the UK. There is no trace on the Police, Council or immigration systems for Mr Dan DANASADE.

During the time Mr Mohammed was absent from the store, he did not let Nottingham City Council Licensing Department know about the change of circumstances. He also did not inform Trading Standards during the PACE interview of any training that he provided or organised for Mr DANASADE to take prior to taking over his responsibilities at the shop.

Mr MOHAMMED the Premises Licence Holder has held the licence since 31<sup>st</sup> October 2012 and has also been the Designated Premises Supervisor from the same date.

The training which is given to staff seems limited and cannot be evidenced. This does not guarantee that a responsible and properly trained person is serving in the shop at any one time. This breaches a mandatory condition that the DPS supervises every alcohol sale.

Intelligence suggests that the concealment was manufactured due to the defendant being aware of the tactics that Trading Standards and the Police use to locate hidden items. The defendant appeared to be aware of tactics, due to his neighbouring businesses providing this information to him after they themselves had warrants executed at their premises.

During the interview Mr MOHAMMED stated that he had been the shop manager for approximately 1 year and employed two people. He stated that he was unaware of the concealment and stated that it had probably been constructed prior to him owning the store.

The explanation that "a friend" manages the store in the absence of the registered DPS, then leaves the UK indefinitely, seems to be a common tactic of other business owners/ licence holders who deal in counterfeit and illicit tobacco products. This tactic is a way for the owners and licence holders to deny involvement in the offences and to negate responsibility of managing the shop whilst construction of the concealment is manufactured.

We have since had further reports that Monopolowy are again trading in counterfeit and illicit tobacco products, and resumed the trade on the evening of the 30<sup>th</sup> September 2013 following the execution of the warrant. A combination of these factors shows a total disregard for the law around the sale of tobacco products, and a lack of responsibility by the Premises Licence Holder. It would therefore be safe to assume that, someone who demonstrates such a lack of consideration with regard to tobacco laws, would hold other laws in similar contempt.
