PLANNING COMMITTEE

UPDATE SHEET

(List of additional information, amendments and changes to items since publication of the agenda)

23 October 2019

4(a) Southern Part Former British Gas Site, Radford Road

Training and Employment

The Police and contractor have agreed a Memorandum of Understanding with the city council, to ensure that employment and training opportunities are accessible to local people.

Biodiversity Officer comments and changes to recommended conditions

The matters being sought by the Biodiversity Officer regarding the potential impact of the development on water voles, and habitat protection and enhancement, are to be secured through an additional pre-commencement planning condition.

The applicant has also provided further information regarding noise and contamination that is sufficient to remove the requirements for planning conditions covering these matters.

Trees

An Arboricultural Survey Report has been submitted with the application and this concludes that there are no trees of merit on the site which should be retained. Trees to the immediate southwest of the site are worthy of retention and a condition requires survey and protection of these during construction.
