9 Decisions taken under Urgency Procedures Report of the Leader of the Council	45 – 48
10 Polling District and Places Review 2023 Report of the (Acting) Returning Officer	49 - 216
11 Motion in the name of Councillor Corall Jenkins This Council recognises that we have a vital part to play in ocean recovery. The people of Nottingham City benefit from our ocean through	

the air we breathe, the food we eat, and the way our ocean regulates our climate. We also impact the ocean through what we put down our drains, the litter and pollution that flows into our rivers, and the carbon emissions we produce. The burden of taking care of our ocean often falls to communities at the coast; but they are at the end of the line, receiving pollution and problems from inland communities like ours. We know that many of our citizens are concerned about the future of our oceans. Nottingham City Council recognises that we have a vital role to play in recovering the health of our ocean through increasing awareness of how local actions can affect the ocean and by acting as responsible custodians of the rivers, streams and waterways that run through our city on their way to the sea.

This Council pledges to report to Full Council within [6-12] months on the actions taken as follows:

1. Grow awareness in Nottingham of how all people, wherever they live, impact and are impacted by ocean health; working with children and residents of all ages to embed understanding of the 'source to sea' approach, stopping pollution at source and enabling as many people as possible to get involved with river protection activities.
2. Write to the Government asking them to:
 - a) To put the ocean into net recovery by 2030, updating the Marine Policy Statement and produce a national Ocean Recovery Strategy which recognises the connection between river and ocean systems and enables their recovery rather than managing degraded or altered habitats.
 - b) Stop plastic pollution at source by strengthening the regulations around single-use plastics and set standards for microfibre-catching filters to ensure that all new washing machines are fitted with a filter that captures a high percentage of microfibres produced in the wash cycle by 2025.
 - c) To make our rivers a clean and healthy resource for our citizens to enjoy, by taking swift action to reduce the risk of sewage storm overflow discharges into our rivers and bathing waters, bringing the target dates forward, to achieve 80% reduction by 2035 and reverse the cuts to Environment Agency funding so that they can take appropriate enforcement action against polluters.

12 Committee Membership Changes

To note that Councillor Graham Chapman has resigned as a member of the Audit Committee.

Please note that questions to Council are received after the agenda has been published. Questions will be published as a supplementary agenda by 5pm on Friday 12 January 2024.

If you need any advice on declaring an interest in any item on the agenda, please contact the Governance Team, if possible before the day of the meeting.

Citizens are advised that this meeting may be recorded by members of the public. Any recording or reporting on this meeting should take place in accordance with the Council's policy on recording and reporting on public meetings, which is available at www.nottinghamcity.gov.uk. Individuals intending to record the meeting are asked to notify the Governance Team in advance.

Dated: 5 January 2024
Director for Legal and Governance
To: All Councillors of Nottingham City Council
