<b>Contribution to Joint Health and Wellbeing Strategy:</b>	
<b>Health and Wellbeing Strategy aims and outcomes</b>	<b>Summary of contribution to the Strategy</b>
Aim: To increase healthy life expectancy in Nottingham and make us one of the healthiest big cities	<p>The overarching purpose of the NCSAB is to be assured that partners across the city are working together effectively to help and protect adults experiencing, or at risk, of abuse or neglect.</p> <p>All safeguarding activity is concerned with improving health, wellbeing and safety, and although the Board is primarily concerned with adults who have need for care and support (are Care Act eligible) it has a broader preventative agenda that encompasses the outcomes described.</p>
Aim: To reduce inequalities in health by targeting the neighbourhoods with the lowest levels of healthy life expectancy	
Outcome 1: Children and adults in Nottingham adopt and maintain healthy lifestyles	
Outcome 2: Children and adults in Nottingham will have positive mental wellbeing and those with long-term mental health problems will have good physical health	
Outcome 3: There will be a healthy culture in Nottingham in which citizens are supported and empowered to live healthy lives and manage ill health well	
Outcome 4: Nottingham's environment will be sustainable – supporting and enabling its citizens to have good health and wellbeing	

<b>How mental health and wellbeing is being championed in line with the Board's aspiration to give equal value to mental and physical health</b>
Board partner agencies work within a statutory definition of abuse that recognises abuse can take many forms other than physical (which itself can encompass sexual, domestic violence and modern slavery). These include psychological, discriminatory, organisational, neglect, self-neglect, acts of omission and financial abuse.
