Housing Income Management commentary: Arrears have increased slightly.. We have now been able to start some enforcement action, working with the "won't payers" to start some reduction in their debts. We have had our first handful of Court hearings, but there are some evictions that have been delayed until July. There are some large debts that we have no ability to recover at present. We have rolled out our new recovery process and we are working to support those who are still struggling financially due to the impact of Covid-19. We are still maintaining a 100% collection rate.

Lettings and Relocation Support commentary: We have implemented the new allocations policy on our IT systems and this has led to a slight reduction in the number of applicants through data cleansing. However the number of new applicants continues to increase and we are working hard to process each application and ensure people are able to apply for a new home. We have seen an increase in voids and average relet time compared to last year due to the impact of Covid-19. In part this has been due to the number of people willing to move in this uncertain period, and in particular older people, which has impacted on letting our Independent Living homes. There has also been an impact on carrying out work in empty homes as we need to ensure social distancing guidelines are followed but we are increasing resources to reduce the number of voids. We continue to work to prioritise housing the homeless and most vulnerable.
