# **CORPORATE RISK MANAGEMENT INCLUDING MANAGEMENT OF OCCUPATIONAL ROAD RISK**

Report of the Chief Fire Officer

**Date:** 15 October 2021

**Purpose of Report:**

To provide Members with an overview of the Corporate Risk Management Process including the current version of the Corporate Risk Register.

**Recommendations:**

It is recommended that Members note:

- The most recent version of the Corporate Risk Register and the work ongoing to mitigate the risk to the Authority.
- The de-escalation of risk to the Authority associated with Covid-19.
- The continued reduction in reported vehicle collisions involving NFRS vehicles.

## **1. BACKGROUND**

- 1.1 The Authority continues to follow the robust risk management process, enabling the consideration of key external and internal risks as part of the management decision-making process.
- 1.2 By establishing a systematic approach to identifying, assessing and managing risk, Nottinghamshire Fire and Rescue Service (NFRS) intends to continually improve the authority's governance, increase accountability and enhance overall performance.
- 1.3 This report provides Members with an oversight of the Corporate Risk Management process and the key risks to which the Authority is exposed.
- 1.4 The Authority's Corporate Risk Register details those risks that are significant enough to warrant management by a Principal Officer. Specific risk control measures are put in place to reduce the likelihood and/or impact of a risk occurrence where this is felt to be practicable and/or appropriate.
- 1.5 The arrangements in place for Management of Occupational Road Risk (MORR) continue to be included into this Corporate Risk Management report.

## **2. REPORT**

- 2.1 The Authority's current Corporate Risk Register (CRR) is attached at Appendix A. The CRR was last reported to the Finance and Resources Committee in April 2021.
- 2.2 The risks contained within this register are those that the Service has identified as being the most significant in terms of impacting on the Service Priorities. Members will note the activities in place to mitigate those risks.
- 2.3 The risk from Covid-19 (Risk 14) has been de-escalated but remains very high. Established governance and performance management processes are in place and the Service continues to recover prevention and protection activities. Recovery from Covid-19 is included as a Year 3 strategic priority and monitoring of progress is undertaken monthly by the Chief Fire Officer via the Service's Programme and Performance Board.
- 2.4 The risk associated with availability of resources (Risk 9) has been escalated to reflect the increased risk associated with supply chain disruption (including fuel) and wholesale gas prices as a consequence of external factors. The Business Continuity Management Group is well established and continues to meet routinely to assess the implications and put mitigation measures in place as required.

- 2.5 To date supply chain disruption has been limited to the availability of smoke detectors required for safe and well visits. Other supply chains remain resilient at the current time. The Service has sufficient bunkered fuel stocks and other contingency plans in place that recent fuel supply issues have caused minimal disruption to the organisation.
- 2.6 Members should note that additional narrative has been added to Risk 5, Workforce sustainability, which relates to the loss of a small number of support staff in key roles throughout 2021. Oversight of these critical functions is being carried out by the Assistant Chief Fire Officer and a range of mitigations including the use of temporary and fixed term contracts are being used whilst key posts are filled. Mitigations in place mean the risk rating remains unchanged at this time.
- 2.7 Risk 7, Health, Safety and Welfare has been updated to reflect the most up to date position relating to availability of risk information on Mobile Data Terminals. Significant assurance is in place via both the ICT Team, the Assistant Chief Fire Officer, SLT and Community Safety Committee (via the monitoring of Area for Improvement 9 from the previous HMICFRS inspection). For this reason, the risk rating remains unchanged at this time.
- 2.8 Proactive work has continued since the last reporting period on the management of occupational road risk (Risk 10). This includes delivery of the road risk action plan by the long-standing working group comprising of managers, the Service driver training school, health and safety advisory team and the Fire Brigades Union.
- 2.9 For the period January to August 2021 a total of 20 vehicle collisions were reported. This represents a reduction of 41% when compared to the same reporting period in 2020 and continues the downward trend in vehicle collisions which has been seen since 2019.

### **3. FINANCIAL IMPLICATIONS**

The minimum level of General Fund reserves is reviewed each year and set according to the perceived financial risk. For 2021/22 the minimum level was increased from £3.9m to £4.5m to reflect the current increased financial risks. General Fund reserves at 1 April 2021 were £5.1m.

### **4. HUMAN RESOURCES AND LEARNING AND DEVELOPMENT IMPLICATIONS**

There are no human resource or learning and development implications arising from this report.

## **5. EQUALITIES IMPLICATIONS**

- 5.1 An equality impact assessment has not been undertaken because this report consolidates existing work streams that may themselves be subject to an Equalities Impact Assessment.
- 5.2 There are a range of risks identified on the Corporate Risk Register which are mitigated by workstreams relating to Equality and Inclusion including employee engagement, workforce sustainability and preventable deaths.
- 5.3 Equality and Inclusion workstreams identified on the Corporate Risk Register include the following:
- Engagement with Equalities Steering Group and the Employee Engagement networks;
  - Recruitment practices and occupational health and wellbeing interventions that proactively drive the equality and inclusion agenda at NFRS;
  - Proactive targeting of prevention activities at those communities and individuals most at risk of harm from fire and other risk factors.

These are discussed in more detail in the Service's People Strategy, Workforce Plan and Community Safety Strategy.

## **6. CRIME AND DISORDER IMPLICATIONS**

There are no crime and disorder implications arising from this report.

## **7. LEGAL IMPLICATIONS**

There are no legal implications arising from this report.

## **8. RISK MANAGEMENT IMPLICATIONS**

The failure of the Authority to effectively manage the risks to which it is exposed poses a risk, particularly where there is a systemic failure. Risk management is a key element of the corporate governance framework, and it is imperative that risk identification and management is both up-to-date and embedded in the decision-making, governance and scrutiny processes of the Authority.

## **9. COLLABORATION IMPLICATIONS**

There are no collaboration implications arising from the report.

## **10. RECOMMENDATIONS**

It is recommended that Members note:

- 10.1 The most recent version of the Corporate Risk Register and the work ongoing to mitigate the risk to the Authority.
- 10.2 The de-escalation of risk to the Authority associated with Covid-19.
- 10.3 The continued reduction in reported vehicle collisions involving NFRS vehicles.

## **11. BACKGROUND PAPERS FOR INSPECTION (OTHER THAN PUBLISHED DOCUMENTS)**

1	Inability to set a balanced budget and to contain spending within existing budgets	<p>Medium term risk of not being able to set a balanced budget as part of the budget setting process.</p> <p>Financial impact of Covid19 – reduced income levels both in 2021/22 and future years due to impact on national and local economy and particularly on Business Rate and Council tax collection funds.</p> <p>General reliance on Section 31 grant in 2021/22 budget (including Firefighter Pension Grant)</p> <p>Ongoing Cost uncertainties due to Brexit.</p> <p>Unforeseen increases in costs.</p> <p>Poor budget management results in significant overspend or underspend.</p>	4	3	12 H	<p>Medium term financial strategy (MTFS); Budget monitoring reported regularly to SLT and Finance and Resources Committee. MTFS and Reserves Strategy to be considered by Fire Authority in December 2021. Reserves contain elements to cover key risk areas and unexpected expenditure and overspends.</p> <p>Internal audit of financial management including budgetary control.</p> <p>Rigorous budget monitoring procedures in place.</p> <p>£1.057m grant received to cover impact of Covid 19 in 2020/21 has been sufficient to cover additional costs.</p>	3	3	9 H	<p>Additional funding from Government to support Covid costs and immediate impact on Collection Funds</p> <p>Future budgets dependent on IRMP and Fire Cover Review.</p> <p>Comprehensive Spending Review</p> <p>Implementation of McCloud remedy (see Risk 2)</p>

2	Firefighter's Pension Scheme – impact of McCloud remedy and other ongoing legal cases.	<p>Lack of national clarity and guidance making implementation very difficult. Immediate Detriment cases may have to be addressed before national guidance is available and new legislation approved. Increased complexity and additional associated workload for NFRS staff and pension administration will have impact on ability to provide a timely and accurate pension administration service.</p> <p>Increased risk of legal claims against NFRS.</p> <p>The costs of implementing the remedy are likely to be significant and some of these are expected to fall to individual Fire Authorities.</p>	5	4	20VH	<p>This is a national issue with the Fire Service being led by the Local Government Association (LGA). The complexities of the remedy increase the likelihood of a national skills shortage in this area.</p> <p>Appointment of new Pension Scheme Administrators – West Yorkshire Pension Fund (WYPF). WYPF provide services to 19 Fire Services and have significant specialist knowledge which NFRS has access to.</p> <p>Purchasing of additional shared pension expertise with Leicestershire and Derbyshire Fire Services</p>	4	4	16 VH	<p>Implementation of McCloud remedy. Appointment of new firefighter pension fund administrators. Monitoring of situation by Scheme Manager and Local Pension Board. Regular updates to Fire Authority. Involvement of Head of Finance and scheme administrators at national level.</p>

3	Mobilising	<p>Service is unable to receive and act on emergency calls in contradiction of statutory duty</p> <p>Joint Fire Control project has the potential to create risk associated with mobilisation that requires management via governance and contract monitoring arrangements.</p>	4	5	20 VH	<p>Tri-Service Control has business continuity plans in place for failure of mobilising system and other disruptive events. These plans are practiced on a regular basis due to numerous live events.</p> <p>Some additional assurance is required from the Tri-Service Control Manager that effective 'fall back' business continuity arrangements are in place and exercised between the new Joint control room and Leicestershire FRS. The robustness and resilience of communications equipment between control rooms, stations and appliances must be maintained.</p> <p>Joint Control SLA in place. Joint Control currently exceeding agreed performance indicators.</p>	4	4	16 VH	<p>Tested BCPs exist where alternative mobilising arrangements are in place, reliance on communication equipment is critical and therefore such equipment must be maintained operationally robust and resilient.</p> <p>Familiarity and BCP confidence has developed within control rooms, continual support and communication to be provided to control staff.</p> <p>Testing and exercising schedule now in place.</p> <p>The review of resilience crewing arrangements is ongoing. This links to Joint Fire Control Risk Register.</p>

Next recruitment campaign planned for 2022.</p> <p>Occupational Health interventions. Wellbeing Strategy to promote healthy lifestyles and reduce risk of long term ill health. Focus on mental health in 2020-22.</p>

		<p>Potential Risk have been identified as to the resilience of WDS rostering arrangements due to supplier/ client relationship.</p>			<p>Current WDS rostering arrangements that support management of the CA are delivered by RosterMagic. Rostering enables the Service to determine the efficient and effective use of resources, ensure that sufficient Firefighters are on duty to provide the required levels of service.</p>			<p>An outline business case was presented to SLT in early 2020 which identified both the need and benefits of a new rostering system. The project is one of the year three strategic priorities for 21-22.</p>
		<p>Loss of key corporate and ICT skills has the potential to reduce capacity for delivery in some areas over the short term due to skill gaps.</p>			<p>The Service has seen the loss of a small number of support staff in key roles throughout 2021.</p>			<p>Oversight at PO level is via the ACFO. Temporary and fixed term contracts are being used to reduce impact and support has been made available from neighbouring FRS's whilst key posts are filled.</p>
