PRINCIPAL OFFICER PAY REVIEW

Report of the Clerk and Treasurer to the Fire and
Rescue Authority

Date: 17 December 2021

Purpose:

To consider the outcomes from the Principal Officer pay review, which is undertaken on a two-yearly basis, and seeks a recommendation to the Combined Fire Authority in line with the Authority's Pay Policy.

Recommendations:

That the Fire Authority agree to the continuation of the current level of pay for the Principal Officers from 1 January 2022.

1. BACKGROUND

1.1 The conditions of service for Principal Officers within Nottinghamshire Fire and Rescue Service (NFRS) are largely determined by the National Joint Council (NJC) for Brigade Managers of Local Authority Fire and Rescue Services. The NJC seeks to reach agreement on a national framework of pay and conditions for Brigade Managers for local application throughout the Fire and Rescue Services in the UK. Collectively the agreements are contained within the “Gold Book”.

1.2 The Gold Book makes the following statements with regard to salary and also gives advice and guidance to Authorities on pay determination, as attached as Appendix A of this report:

“The NJC will publish annually recommended minimum levels of salary applicable to Chief Fire Officers employed by Local Authority Fire and Rescue Authorities.

There is a two-track approach for determining pay for Brigade Manager roles:

- (i) at a national level, the NJC shall review annually the level of pay to all of those covered by this agreement;
- (ii) all other decisions about the level of pay and remuneration to be awarded to individual Brigade Manager roles will be taken by the Fire Authority locally who will annually review those salary levels” – advice on other considerations when setting salary levels has also been provided by the NJC and is included within Appendix A.

1.3 At its meeting on 31 January 2014, the Policy and Strategy Committee agreed revised benchmarking arrangements as part of its local review of Chief Officer pay. The comparator group comprises of 18 Fire and Rescue Services who form the “Family Group” of authorities who are similar to the Nottinghamshire Fire and Rescue Service in terms of population size, deprivation levels, risk area and total fire calls. In determining its decision on an appropriate pay level, it was agreed that consideration would be given to the median average salary of this review group. Those Fire and Rescue Authorities who make up the Family Group are set out at Appendix B.

2. REPORT

2.1 In accordance with the Authority’s published Pay Policy, Principal Officer salary levels are reviewed in line with national pay agreements on an annual basis and are subject to local review every two years.

2.2 The salaries applied to Principal Officers below the level of Chief Fire Officer are based upon a % of the Chief Officer salary, as follows:

- Deputy Chief Fire Officer – 82.5%
- Assistant Chief Fire Officer – 75%

2.3 Additionally, appointments to new Principal Officer roles are normally applied within the following scale:

First year in role:	90% of full pay
Second year in role:	95% of full pay
Thereafter:	100% of full pay

The Authority has discretion to appoint higher within the scale subject to individual circumstances. Approval for progression between the pay points are subject to confirmation of satisfactory performance in role and are confirmed by the Chair of the Fire Authority (Chief Fire Officer) or by the Chief Fire Officer (Deputy and Assistant roles).

- 2.4 The last salary review took place in 2019 and was considered by the Fire Authority on 20 December 2019. This review did not support a local increase in Principal Officer pay for the period commencing January 2020.
- 2.5 However, the pay of the Chief Fire Officer, Deputy and Assistant Chief Fire Officer has increased in line with the application of incremental and national pay awards since this time, in line with their agreed contractual terms. This saw an increase of 2% from 1 January 2020 and 1.5% from 1 January 2021.
- 2.6 All Principal Officers are currently remunerated at the full pay rate.
- 2.7 The Chief Fire Officer pay rate is currently £161,925 per annum, which includes the application of the national 1.5% pay award agreed from 1 January 2021.
- 2.8 A benchmarking review has been undertaken using the salary data from the “family group” of fire authorities. However, this is based on the data from fifteen respondents as three did not respond. The outcome of this review is attached as Appendix C.
- 2.9 The median salary within this group is £151,700 per annum, although the range is from £124,405 to £167,810. The maximum salary applied to the NFRS Chief Fire Officer pay band is £145,733-£161,925 per annum, with the current incumbent being paid at the top of the scale as set out in Paragraph 2.7.
- 2.10 There is nothing, therefore, that would suggest that the pay of the Chief Fire Officer in Nottinghamshire is significantly out of line with some of the other Chief Officers within the comparator group. This would indicate that the pay of the Chief Fire Officer is currently set at the appropriate level.

3. FINANCIAL IMPLICATIONS

The budget for Principal Officer pay is based on the incremental point in the three-point scale which is appropriate for each of the Officers. At this point in time the following salaries are applied:

Chief Fire Officer -	£161,925 (100%)
Deputy Chief Fire Officer -	£133,588 (100%)
Assistant Chief Fire Officer -	£121,444 (100%)

4. HUMAN RESOURCES AND LEARNING AND DEVELOPMENT IMPLICATIONS

- 4.1 A local two-yearly review of Principal Officer pay levels forms a contractual provision for the roles of Chief Fire Officer, Deputy Chief Fire Officer and Assistant Chief Fire Officer.
- 4.2 Any change in the way that Principal Officer pay is undertaken by the Authority would need to be reflected in the published Pay Policy.
- 4.3 Any proposal to reduce the pay of the Chief Fire Officer to the level of the family group median salary may need to involve some level of pay protection.

5. EQUALITIES IMPLICATIONS

As there are no implications for existing policy or to service provision, no equality impact assessment has been undertaken.

6. CRIME AND DISORDER IMPLICATIONS

There are no crime and disorder implications arising from this report.

7. LEGAL IMPLICATIONS

- 7.1 In line with the requirements of the Localism Act, any decisions relating to pay in excess of £100k per annum must be discussed and agreed by the full Fire Authority at a public meeting.
- 7.2 The Authority is required to publish its pay policy which includes the way in which Principal Officer pay is determined.

8. RISK MANAGEMENT IMPLICATIONS

A robust and auditable methodology for setting Principal Officer salary levels is essential if the Service is going to stand up to external and internal scrutiny in respect

of this matter. Additionally, the Service needs to ensure that it is able to recruit and retain quality officers to ensure that NFRS meets the expectations of the Service and the community.

9. COLLABORATION IMPLICATIONS

As this is a local pay review, determined by the Fire Authority, there are no collaboration implications.

10. RECOMMENDATIONS

That the Fire Authority agree to the continuation of the current level of pay for the Principal Officers from 1 January 2022.

11. BACKGROUND PAPERS FOR INSPECTION (OTHER THAN PUBLISHED DOCUMENTS)

None.

NJC GUIDANCE AND SALARY STRUCTURES

LOCAL SALARY STRUCTURES

1. When determining the appropriate level of salaries for all Brigade Managers, the FRA should refer to the relevant minimum salary of the CFO and the most relevant benchmark data.
2. Normally the FRA will wish to begin by determining appropriate salary for their most senior manager.
3. When deciding how these posts should be remunerated, the following factors are to be considered:
 - (a) The CFO's salary and that of any service staff not covered by the Scheme of Conditions of Service (Gold Book).
 - (b) The relationship of current salary to the appropriate illustrative national benchmark
 - (c) Any special market considerations.
 - (d) Any substantial local factors not common to FRA's of a similar type and size e.g. London weighting, complex local regional or national responsibilities which bring added value.
 - (e) Comparative information to be supplied on request by the Joint Sec's on salaries in similar Authorities.
 - (f) Top management structures and size of management team compared to those other Fire and Rescue Authorities of similar type and size; and
 - (g) The relative job size of each post, as objectively assessed through an appropriate Job Evaluation process or otherwise, and
 - (h) Incident command responsibility and the requirement to provide operational cover with the employing authority and beyond.

The process for setting salary levels should include consideration of the following criteria:

- Minimum salary levels for COs in relevant sized local authorities.
- Market rates of pay for service managers in a range of private and public-sector organisations; and
- Evidence of recruitment and / or retention difficulties with existing minimum rates.
