

Annex 4 - Fees & Charges policy

Appendix A - Fees and Charges booklet

Service Area	Parking Services On-Street Tariff Changes					
Specific Legislation Impacting on Charging	Traffic Management Act 2004 (TMA)					
Policy objective(s) linked to service	Carbon Neutral 28 - Strategy which sets out how the council will reduce carbon emissions from Nottingham. The area that links to parking is - operations: Transport. Local Transport Plan - The Nottingham local transport plan strategy (LTP) 2011 – 2026 is 15-year plan for Nottingham’s transport networks. An integrated and good quality transport system consisting of buses, trams, trains, cycling and walking networks and roads is essential to managing congestion, reducing negative impacts upon the environment and improving health and quality of life					
Wider benefits of service	TMA ensures the authority manages competing demands such as road works, public transport, residential parking, controlled parking zones, city centre parking strategies, on-street parking charges, which surplus is ring fenced for improvement to public transport, highways and its parking assets.

Service Area	Streetwork Fines				
	New Road and Street Works Act 1991, Traffic Management Act 2004. Traffic Management Permit Scheme (England) Regulation 2007. <u>All fees set by the Department for Transport</u>				
Policy objective(s) linked to service	Management of the highway network in accordance with the DfT statutory requirements.				
Wider benefits of service	Helps deliver one of NCC's key Council Plan Objectives 'Keep Nottingham Moving'. The street works permit scheme is a process for delivering proactive traffic management and targeting improvements. This ensure more effective use of our highways while minimising disruption from road and street works.

Service Area	Street naming & numbering				
Specific Legislation Impacting on Charging	The adopted legislative schemes under which the statutory function of Street Naming and Numbering can be carried out within Nottingham City are: (1) the Public Health Act 1925 (street naming) (2) the Towns Improvement Clauses Act 1847 as incorporated into the Public Health Act 1875, jointly known as 'The First Scheme' (property numbering), and as applied by paragraph 23 of Schedule 14 to the Local Government Act 1972 (3) Section 111, Local Government Act 1972 is also applicable in respect of property naming. There is no specific reference to charging within this legislation.				
Policy objective(s) linked to service	The aim of the Council's Street Naming and Numbering Policy is to ensure all properties within the City of Nottingham are officially addressed with a standardised and unique postal address.				
Wider benefits of Service	The Council will not normally charge for Street Naming and Numbering work. However, in cases where work is discretionary or additional then a fee will apply. Discretionary services are those that are considered to be additional to our statutory responsibilities under our legal obligations. As detailed in the table below, this includes re-doing work due to changes in plot numbers, changes to property access and renumbering/renaming existing properties. The implementation of these charges aims to discourage poor practice and best meet statutory obligations. The charge will not normally be applicable where the change causes the address to be significantly improved, e.g. adding a number to a property which currently only has a name.

Service Area	HMO Licensing				
Specific Legislation Impacting on Charging	Housing Act Part 2 Section 63(3) Guidance on fee setting Open For Business LGA Guidance Housing Act 2004 Section 55.				
Policy objective(s) linked to service	Additional Licensing: Housing Act 2004 Section 56 The authority must consider that a significant proportion of the HMOs of that description in the area are being managed sufficiently ineffectively as to give rise, or to be likely to give rise, to one or more particular problems either for those occupying the HMOs or for members of the public. Better Housing, by improving and tackle poor quality housing in Nottingham and continue to drive up housing standards in the city, ensuring sustainable communities and neighbourhoods for residents				
Wider benefits of service	There is a Statutory Duty to licence all HMO that meet the prescribed description of HMO under the Housing Act 2004. Generally this is a HMO that is occupied by 5 or more persons forming 2 or more households some exemptions apply under Schedule 14 of the Housing Act 2004 and also where a building is purpose built and contains more than three flats. An Additional Licensing designation allows the local housing authority to licence other HMOs not covered by Mandatory licensing under Section 56. HMO licensing can be used to improve the amenities and management of properties to improve the overall safety and standards of HMO privately rented in Nottingham. It helps to identify and tackle rogue landlords who do not want to enter into licensing and operate poor properties. Licensing improves property standards in rented accommodation for students and other citizens that choses shared living or who cannot afford to rent a whole property exclusively, whilst working with licence holders, landlords and managers. Licensing is also a tool to support tackling anti-social behaviour, reducing crime and deprivation.
