

Home Upgrade Grant Phase 2
Development Plan

Please complete all tabs on the form and save your file with the name of your Local Authority (LA). If you are submitting a consortia Development Plan for 2 or more LAs, please list all participating LAs.

Please keep all written answers to 250 words or below.

Once complete, please return the form to MNZH.HUG@nottinghamcity.gov.uk

The first deadline for completion is 9th May 2023. We will accept and assess plans on fortnightly basis up until 1st September 2023

When completing the form, please refer to the Home Upgrade Grant Phase 2 Guidance Document to assist you. A link to the guidance has been provided below. A link to the Home Upgrade Hub masterclasses has also been added below.

Where boxes do not give sufficient space to complete answers, please insert additional lines to give the required space.

	Section 1 - Declarations		
Plea	sse affirm the following declarations:		
11	I have the express authority to fill out this application on behalf of the named LA/LAs in Section 1_Project Details.	Affirmed	
12	The LA understands that they will be expected to deliver the proposed project as outlined in this Development Plan.	Affirmed	
13	I have read the accompanying guidance document for completing this proposal.	Affirmed	
14	To the best of my knowledge, this proposal is deliverable and legally compliant with any existing commercial agreements it utilises. The LA has sought legal advice to affirm this.	Affirmed	
15	The LA understands they must comply with the Department for Energy Secruity and Net Zero (DESNZ) reporting, monitoring and evaluation and Hub requirements, including adding customer information to the Customer Relationship Management System (CRM).	Affirmed	
16	The LA confirms the proposed project complies with Subsidy Control rules. The LA has sought legal advice to affirm this.	Affirmed	
17	The LA confirms the proposed project is compliant with the UK Public Contract Regulations 2015.	Affirmed	
18	The LA confirms that all homes/upgrades included in this project are intended to fit wholly within the specifications outlined in the accompanying guidance document.	Affirmed	
19	The LA will not use the grant, or any asset financed wholly or partly by it, to generate revenue or make a capital gain.	Affirmed	
20	The LA will ensure that where it uses third-party delivery partners, that the funding provided is paid within 30 days of receiving a valid undisputed invoice from that contractor or from receiving an acceptable proposal from a public body.	Affirmed	
21	The LA confirm approval for any required match funding. If no match is required, please select N/A.	N/A	
22	The LA will ensure that installers are PAS2030:2019 compliant/TrustMark Registered/MCS certified (if applicable) and compliant with the TrustMark and PAS 2035 requirements.	Affirmed	
23	The LA will complete the PAS Health Check with the Retofit Academy to review the PAS 2035 process and provide assurance that your HUG2 project will be compliant.	Affirmed	
24	The LA will ensure that where an application includes a Social Housing element, no more than 10% of all properties included in that application will be social tenure, unless clear justification is provided.	1	N/A
25	The LA has discussed the VAT implications of the different costs associated with HUG2 with the relevant Finance Officer.	Affirmed	
26	The LA confirms that they have approval from Procurement, Legal, Finance and Planning for the program of works set out in this Development Plan and this has been signed off by the Section 151 Officer.	Affirmed	
27	The LA will take all reasonable steps to minimise the risk of fraud.	Affirmed	
28	The Chief Executive and Chief Internal Auditor of each LA are required to sign and return the statement below: "To the best of our knowledge and belief, and having carried out appropriate investigations and checks, in our opinion, in all significant respects, the conditions attached to Home Upgrade Grant Phase 2 have been complied with." This will be included as a clause in the Grant Award Letter and is a requirement of the MOU. Please confirm you agree to sign and return this in a timely manner.	Affirmed	
29	If the LA become aware of any concerns that any part of the supply chain may have breached the Modern Slavery Act 2015, this will be reported within the Risk Management procedure and the project team informed instantly.	Affirmed	
30	The LA will introduce controls designed to ensure that HUG2 funding will not blended with other government schemes such as ECO or Social Housing Decarbonisation Fund (SHDF) for the upfront funding of the same individual measure, and that there will be no duplication (i.e. double-funding) of any third party's costs from public funding.	Affirmed	
31	Please explain how the controls affirmed in the declaration above (30) will work. We wil ask applicant at point of application and carry out retrofit assessment to check for previous works and focus on new measures only. A Retrofit Coeligibility officer will support this as part of the assessments. Applicants will need to sign declaration regarding previous works and eligablity to the sche		
32	Where any declarations above have not been affirmed, please give clear reference to the declaration number and give reasons why affirmation is no Still need Section 151 Officer sign off	nt possible.	

Section 2 - Resource	Section 2 - Resource: Guidance
3 Do you have a dedicated Project Manager, Officer or team to deliver HUG2? If not, how do you plan to resource your projects?	
Project manager - Adrian Prestidge Control Manager - Carolymae Watson Project officer - Human Coleman View of the Laking advantage of the CS function and utilizing Nottingham Energy Partnership to assist with marketing, community engagement and application processing. We also have within our team, dedicated EPC assessors and fully trained and experienced retrolls assessors and retrolls coordinators.	33. Peace specify which individuals or teams e.g. procurement, legis, finance, governance, planning will be involved in your HUC2 project. If you do not have a project team or offer in place, please outline how you will build capacity in-house e.g. recruitment or reallocation of stall fo support your projects. Please also reference any external resource e.g. external management companies.
Table 2.1 - Resource Project Managers Data Reporting Officers (FTE) 0.25 1 1	Table 2.1 - Please complete the resource table, this is a requirement for MNZH to submit the Delivery Assurance check to OE SNZ.
4 As affirmed in declaration 21 under 'Section 1_Declarations', please provide further detail or evidence of commitment to match funding, where required N/A - there will be no match funding requirements for HUG 2	34. Cost expectations for Social Housing Where a dwelling in the social housing sector is upgraded, the landlord will be required to contribute at least half of the cost of upgrades. Cost expectations for Private Rented Sector Landlords are required to make a minimum contribution of one third towards the total cost of works, in line with the scheme's cost caps. This means that the maximum suboly a landlord can receive it equivalent to two thirds of the subolidy received by an owner cocupier (in a dwelling for the same heating type and starting EVC). Further guidance on cost caps/match funding can be found in Section Section 3.4.4 of the HUG2 guidance.
5 Please outline of your governance structure and decision making processes for HUG2, detailing your internal escalation contacts The project manager will take full responsibility for project governance and has appropriate measures and checks in place to ensure all grant monies are spent adhering to grant conditions. The gonvernace structure and escalations are attached. A project steering group will be set up to give senior oversight and monitoring of KPIs 6 Please explain how you will demonstrate Value for Money for costs included in Table 2.2 in the "Section 2, Resource, Tables' tab. Please reference each cost area, Le Employee Costs, Admin & Marketing et and Include whether Retrofit Assessment costs will studer ABA or Capital Costs.	35. Please growde an outline of your internal governance structure and decision making processes for HUG2. This is required for the Delivery Assurance Check. Further guidance has been sent as a PDF. How will you monitor oversight of the project and who has responsibility for monitoring against performance?
The costs used in Table 2.2 have been calculated using actual costs from our previous LAD & HUG delivery schemes. To ensure best value for money we will utilise the Dynamic Purchasing System (DPS) framework and submit invitations to tender for all installation works required under the HUG Project. We will utilise our inhouse team of Retrofit and & EPC assessors as much as possible, and will do all Retrofit Coordination in house. All properties treated will follow the fabric first approach, and therefore will receive insulation measures first followed by cleaning heating. Solar PV will only be considered appropriate if all fabric & heating measures have been addressed. While preparing the estimated costs, consideration has been given to; planning, project management, enabling building works. The costs for RASO25A Assessment and post installat EPCs are included in ancillary costs. PAS 2035 Retrofit Coordination and Design work will be charged to the Capital Costs. We will use our Customer Journey Support (CS) to arrange initial EPC assessments and will work with our CSs to identify potential homes and take them through the application and vore infection projects. One measures have been installed, it will be the responsibility of the installer to ensure the homeowner has received full training on how to use the new technology. This will be verified by the retrofit coordinator and post installation feedback. Prior to signing up homeowners, we have applicants on a wait list already from previous public events we held so will will hold off on citizen training and awareness sessions until we have processed the current enquirys.	36. Use this field to outline any supporting information for costs given in Section 2, Resource, Tables'. Please include justification for average costs used, i.e quotes from previous schemes. Please about consider planning application costs. 10% of HUG2 funding can be used to fund administrative and ancillary works to support delivery. The CIS will use 3% A&A. The remaining 2% will be used by MUGIt to administrative and ancillary works to support delivery. The CIS will use 3% A&A. The remaining 2% will be used by MUGIt to administrative and ancillary works to support delivery. The CIS will use 3% A&A. The remaining 2% will be used by MUGIT to administrative and ancillary works to support delivery. The CIS will use 3% A&A. The remaining 2% will be used by MUGIT to administrative and ancillary works to prepare for install – for example if there are issues with the walls that need to be rectified prior to insulation being applied, such as reporting; *Search costs associated with realizent recruitment, low-income verification and sign-up including communication activities, with a fundament of the communication activities, with a fundament of the control of

Section 5 - Funding Compliance	Section 5 - Funding Compliance: Guidance
47 Plesse provide a high level summary of your HUC2 project including: • Now will you target eligible households (D, E, E & G properties) • Now many potential eligible households have been identified to date • Now many potential eligible households have been identified to date • Now will you work with the Customer Journey Joupout service and what additional CIS services you will use We will target religible homes through a not of targeted marketing-literted inject to homes with a known qualifying EPC rating, social media, strong online presence,	47. Properties will need to have an EPC rating of hand 0, E, F and G and be offigue.
outreach work with a customer engagement officer, face to face community events and key community events. Properties will also be targeted through the LSOA data base and MCC learning data officers are larger to the control of the c	installation of energy efficiency and heating measures congarbible with the Standard Assessment Procedure (SAP) including wall, left and underfloor installation and low carbon heating technologies. Focial final heating systems (including highrid) are excluded from this scheme. Please consider Grade A, B and C spending rules as per Section 3.3.2 of the HSCS guidance.
Sold Wall Insolation Contry wall insolation Loft insolation Loft insolation	You dedicated Customer Journey Support can help with project delivery, including areas such as: - As is lost or grain consequent: - Masketing - Support to develop your Development Plan for your set allocation of funding, including identifying and certifying eligible houses, surveying the properties and providing detailed plans on the
48 Please provide a summary of your overall delivery plan for HUG2. Please include justification for your proposed planned approach to achieve delivery within the challenging timeframe. We have no confined external delivery pateners at this time, once the project launches we will procure a main contract thought the DPS	EE. Please outline any planned or confirmed delivery partners and how they will support the project should be included, in line with Toble 1.1.
We will be worked to define yearth are in amount of the project moving and have our own in house RAs and RC to keep the project moving while our main contractor is procured. We will be working Cooly with the CP to get the project moving and have our own in house RAs and RC to keep the project moving while our main contractor is procured.	
49 Have you consulted your relevant planning department with regard to proposed measures as to whether planning permission is required? If you do need planning permission, whose repossibility is it to submit this? If you do require planning permission, has this been approved? If required, has it been budgeted? Please give particular conditionation to External Visit Insulation and Meta Till Ameliand and Meta Ti	
NCC have crossited with planning colleagues to understand if planning permission will be required on the proposed mix of measures. Flanning applications will be required for soils wall insulation where the finish is not allien with the current finish. This is a been budgeted for within the costs. The responsibility for submitting planning permission will say with the successful contractor(s) port the investion to tender	48. The masterclass below discusses the need for planning permission, huritage lissues and where to get for help and advice: https://www.youtube.com/sexth/hv-12/Xc/min/LM
Are you currently working through any other government schemes? Please outline any schemes e.g. SWC, ECO, SHDF and how this funding may interact with HUG2.	
With our veider Policy Team and MEP was warding on the ECO scheme and will lake with our collapses through the Sterring Group to target homes. Controls will be implemented to ensure that home measures funded via the HUS have not received any funding form other sources. It is in scope for MCC to install heat pumps for off gas properties, We will ensure that home owners are aware that they are not entitled to claim the BHI as they would	S Fording protect from MSZ 2 control behaved combinationship in cell the same individual measure with sinking progressment schemes usual CDL, or ESF2 is a possible for installation to the workflown of the same property, where the same areas installation cells are control as cells and protective control and control an
not have made a financial contribution to the measures.	LAs must introduce controls to ensure households are not in receipt of funding from the HUG 2 and other government schemes for the same measure.
	Homes that received aggreds as part of previous net zero schemes such as the Local Authority Delivery (LAD), schemes or the Energy Company (Delgation (ECD) scheme, or have previously received handing under the Climater in the Company (Delgation (ECD) scheme). The Company (Delgation (ECD) scheme) was considered with only be eight to receive the scribent has under red CLI and only if but cached have as or relevant of energy (ELD) has been only received energy efficiency measures). The LAI is required to check that the boosthold of our receive the variety of the cached have the cached have a received energy efficiency measures). The LAI is required to check that the boosthold of our receive the cached have the cached have the cached have a received energy efficiency and that the boosthold of this meets all other eligibility requirements.
51 Please explain how low-income households who are likely to be living in fuel poverty will be verified using alternative methodologies, such as means tested benefits, charity and health referrals, locally held data (e.g., Council Tax reductions), and advanced statistics.	
Locally held data in the LSOA database will enable us to target and verify homes in fuel poverty and areas with an index of multiple deprivation decile of no more than 1, These properties will be exempt from income checks.	51. Households receiving measures have a combined household income of no more than £31,000 gross income (before housing costs but inclusive of benefits).
We will also use the pre approved postcoded provided by DESNZ to identify properties exempt from income checks.	Other than means-tested benefits, the use of alternative methodologies, such as locally held data (e.g. Council Tax reductions) and advanced statistics/machine learning (see Section 3.1.2 Verification and Targeting in HUG2 guidance for more details) are encouraged.
Where applicants do not fall into one of these target areas our CS and Eligibility officer will seek evidence of low income households, such as financial income, salary, benefit and pension evidence, bank statement. We shall also use Nottingham City Council's flexible eligibility criteria for the ECC: Help to Heat programme devised to identify and help households living in fuel powerty, living on a low income and vulnerable to the effects of a could home, but where income is slightly over the £31,000, but then es still finish set of vulnerable.	DESNZ also encourage the use of the new identification route available under HUG 2 for targeting and wriffication, income decides 3 of the indices of Multiple Deprination can be used to identify areas of high-income deprination and as an automatic wriffication tool for a low-income households. Eighte postcodes can be found here: https://www.gov.uk/government/publications/home-opgrade-gant dybate-2
Applicants will first be asked to confirm property details and ownership along with the total household income and will have the eligibility criteria explained to them. If	
52 LAs must inform us of the route they are taking to achieve subsidy control compliance.	\$2. MNZH will provide further information on the approach to subsidy control in due course, this will include a guidance document.
Legal advice has been obtained and confirm: **Adottengham Cycloroxil feel its operation of to receive some administration fees from the funding. These are pass through costs and as the Council is not an economic actor for the purposes of the ECA, this will not be considered subsidy;	 MnCrr was provide surface information on the approach to subsery control in due course, fits well include a guidance document.
-Badvidual home owner occupient will receive the direct benefit of improvements to their home. As private individuals, these will also not be economic actors and therefore no subody will arise with respect to benefits inferent good post them. 4 Where the Council intends to use third party contractors, it proposes to do so using the DPS established by the Council. It will undertake a mini competition in order	
to benchmark prices and to ensure market rates are paid in compliance with the Council's Contract Procedure Rules and the Public Contracts Regulations 2015. This will ensure three in outsidely provided to these contractors. The Retrofit Co-ordinator role will be undertaken in house.	
53 Let that receive funding have the responsibility of renunring that all installers or delivery partners collect and provide appropriate information specified by BUS in accordance with the DtaP Protection Act. Please confirm that you have completed a DPIA and demonstrate compliance with the data protection principles. 	Project	Open/closed	Name the person responsible for monitoring the risk	Give a brief description of the risk	Select from the dropdown list	Automatically Populated	Give a brief description of the action(s) you will take to mitigate the risk	Provide the date by which the mitigation should be complete	Name the person responsible for the misigating action	Select from the dropdown list	Select from the dropdown list	Automatically Populated					
1	HUG2	Ongoing	Adrian Prestidge	Supply chain capacity	Operational	Approaching (3-6 Months)	Significant	Possible	MEDIUM	Supply chain capacity has been a significant risk, but gliven the larger time sulces of the HUG2 program this will help mitrigate some of this. We can mitigate some of the remaining elements for example: early resolution of contracts; potential advanced supply of materials; incorporate delivery training (so we can supply in additional ownownell.		Adrian Prestidge	Marginal	Unlikely	LOW		
2	HUG3	Ongoing	Adrian Prestidge	Planning	Legal	Close (1-3 Months)	Significant	Unlikely	LOW	Impact is severe IF the project is blocked by planning. Early engagement, samples, should help to ensure that planning are on-side. Priority will be given to identify these properties early on.		Adrian Prestidge	Significant	Unlikely	LOW		
2	HUGA	Ongoing	Adrian Prestidge	Not having enough residents engaged that meet the HUG requirments	Operational	Approaching (3-6 Months)	Significant	Unlikely	LOW	Our Customer Journey support partner NSP have been consulted with already and some potential properties have already been identified, this combined with some NUS 1 applicants that will roll over into this scheme has greatly minimised this risk. The extended project times also help mitigate this risk.		Adrian Prestidge	Significant	Unlikely	LOW		
4	HUGS	Ongoing	Adrian Prestidge	Price inflation	Financial	Close (1-3 Months)	Significant	Likely	HIGH	As outlined above, supply chain capacity is a risk. With limited supply, prices may become inflated, and may result in the planned budget becoming stretched. Mitigated through supply chain capacity mitigations; careful project and contract management; and balancing average cost per tenure.		Adrian Prestidge	Marginal	Possible	LOW		
- 6	HUGG	Ongoing	Adrian Prestidge	Securing Retroft Assessor capability	Operational	Close (1-3 Months)	Significant	Unlikely		Given the extended time scales our existing staff should be fine to handle all assessments. We will also use the DPS to contract external Assessors if needed.		Adrian Prestidge	Negligible	Unlikely	VERYLOW		
٠	HUG7	Ongoing	Adrian Prestidge	Fallure of systems / processes	Operational	Close (1-3 Months)	Marginal	Possible	LOW	We are using a robust framework to secure services, detailed specifications to make it clear what is expected from the appointed installer, following the PACO325 we will be using internal fastor coordinates who will monitor what it should goldward and contractors will be managed against EPYs after (expections undits. We have also recently undertaken traing days with the Restort Academy and are currently looking at further training options to advance the train.		Adrian Prestidge	Marginal	Possible	LOW		
,	HUGS	Ongoing	Adrian Prestidge	Fallure to deliver intended outcomes	Operational	Close (1-3 Months)	Marginal	Possible	LOW	We are using PAS 2035 for the project and will ensure contract include updated versions as they are published. Utilising experienced practitioners with a deep understanding of the issues. And building on existing team knowledge.		Adrian Prestidge	Marginal	Possible	LOW		
	HUG9	Ongoing	Adrian Prestidge	Programme start delays; procurement; contracting	Operational	Imminent (<1 Month)	Negligizie	Possible	LOW	Work is still an going for LAD 1 which could delay the start of works on size, however utilising NSP they have been engaged with and have sixesy identified poperties and added to the applicates rolled over from HAG 1 there will be no delays to getting applicants signed up. Draft ITT specification is already prepared and will be utilising the DPS		Adrian Prestidge	Negligible	Possible	LOW		
	HUGSS	Ongoing	Addas Prestdge	Material condition of homes not improved	Operational	Close (1-3 Months)	Negligible	Possible		The condition of Ital Income will improve, and we offerstan a significant number to regions to 24 hauses as IMP CC. We will signate all broadchalders for information, the reducing Blast and improving energy efficiency, in flow with our Fard Powerty Storleys, and whenever additional funding can be compliant or complementary to SMC. We support that to last of a partiest resid in which large understanding improvement in false officient full proventy in the city. Taking a fabric first approach will ensure we achieve the best or action possible.			Negligible	Unlikely	VERY LOW		
10	HUG11	Ongoing	Adrian Prestidge	Liability of poor workmanship or maintenance issues with households.	Legal	Distant (6-12 Months)	Negligible	Unlikely	VERY LOW	Householder to have contract with installer, rather than NCC, transferring liability. NCC to review contracts to ensure citizens are protected.			Negligible	Unlikely	WERY LOW		
11	HU512	Ongoing	Adrian Prestidge	Weather over winter may impact EWI	Operational	Distant (6-12 Months)	Marginal	Possible	LOW	We will focus on identifying and starting work on DM properties as early as possible to get some installs completed before the worst of the winter and give us as long as possible for the rest			Marginal	Unlikely	LOW
