3. Project - impact on individual's privacy

Issue	Questions	Examples	Yes/No	Initial comments on issue & privacy impacts
Purpose and means		Profiling, data analytics, Marketing. Note: The GDPR requires a DPIA to be carried out where there is systematic and extensive evaluation of personal aspects relating to individuals based on automated processing, including profiling, and on which decisions about individuals are based.		
	Please give a summary of what your project is about (<i>you can also attach or embed documents for example a project proposal</i>).		NCC is working towards the implementation of a third scheme of Additional Licensing (AL) for houses in Multiple Occupation (HMO) not covered by Mandatory or Selective Licensing. The scheme will operate in the proposed citywide designation and evidence has been gathered identifying problems which occur in or around HMO where licensing can be used as a tool to improve the management of properties and neighbourhoods.	
	<p>Aims of project</p> <p>Explain broadly what the project aims to achieve and what types of processing it involves.</p>		Additional licensing is a discretionary power available to local authorities to tackle problems in privately rented housing specifically in smaller HMO. The Council implemented a second scheme of Additional Licensing (AL) for houses in Multiple Occupation (HMO) (i.e. smaller HMOs not covered by Mandatory Licensing or Selective Licensing) in January 2019. The scheme is scheduled to run until 31st December 2023. Additional Licensing - Nottingham City Council	The project aims to implement a third scheme to achieve and maintain higher standards in the PRS. The implementation of a third scheme of Additional Licensing will also underpin the Council's wider priority of quality housing for all and to support vulnerable citizens across the city, help to reduce crime and ASB as well as reducing energy consumption. Additional Licensing will contribute significantly to meeting the objectives of the Strategic Council Plan including making Nottingham "A city where people live in safe, warm and affordable homes, built to a high standard, in vibrant local communities where everyone has a chance to thrive."

			This project involves large scale data processing by collecting and evaluating personal data contained in landlords' applications.
	<p>Describe the nature of the processing</p> <p>How will you collect store and delete data? Will you be sharing with anyone? You might find it useful to refer to a flow diagram or another way of describing data flows. What types of processing identified as likely high risk are involved? Who will have access to the project personal data, how is access controlled and monitored and reliability of staff assessed? Will data be separated from other data within the system?</p>		The data will be collected through applications. Applications need to be made for licences by each landlord who rents any property which meets the AL criteria that falls within the designated area. The vast majority of applications are made online via the Nottingham City Council website. These applications are considered and evaluated by the NCC Additional Licensing team before then being issued a licence, refused, or queried.
	<p>Privacy Implications</p> <p>Can you think of any privacy implications in relation to this project? How will you ensure that use of personal data in the project is limited to these (or "compatible") purposes?</p>	Yes	<p>Additional licensing is a discretionary power of local authorities. NCC has run two schemes of additional licensing and is aiming to implement a third one.</p> <p>The compliance with Article 5 1) a) of the UK GDPR (specifically regarding the lawful basis for their personal data to be collected and used as part of the scheme) is grounded in Article 6 1) e) of the UK GDPR (processing is necessary for the performance of a task carried out in the exercise of official authority), in relation with section 56 of the Housing Act 2004.</p>
	<p>New Purpose</p> <p>Does your project involve a new purpose for which personal data are used?</p>	No	<p>An existing scheme is already in place: Additional Licensing - Nottingham City Council</p> <p>The new designation will operate and use data in the same way as the existing scheme.</p>
	<p>Consultation</p>		There is a legal duty to consult according to the Housing Act 2004 section 56 (1)(a).

	Consider how to consult with relevant stakeholders: Describe when and how you will seek individuals' views- or justify why it's not appropriate to do so. Who else do you need to involve in NCC? Do you plan to consult Information security experts, or any other experts?			Extensive consultation will be carried out via events and a survey.

Data is not kept accurate or up to date, leading to issues with administration such as a landlord's application being missed, or licences being incorrectly issued	Vast majority of applications are completed online, and data is migrated into Civica's APP (FLARE), reducing the previous risk of manual data entry errors. Emphasis is on landlords to keep contact information up to date.	Reduced	Low	Yes
Data of landlords is kept for longer than is necessary, risking breaching Article 5 1) e) UK GDPR	The team's process is that all relevant licence application information within shared drives is kept separately. Deletion of all application information past its retention period is undertaken by IT Services on behalf of Selective Licensing.	Reduced	Low	Yes

Hard copy application forms being lost in post or misplaced	Landlords are encouraged to apply online whenever possible. Hard copy must be available due to reasonable adjustment requirements. The team have a member of staff responsible for daily management of incoming mail.	Reduced	Low	Yes
Issues with Civica's APP (FLARE) resulting in landlord's data being compromised	Civica's APP (FLARE) is password protected to individual users and have to be changed regularly. A new Cloud-based system (also supplied by Civica) is being implemented in April 2023. A project board is overseeing the migration of data later this year in 2022.	Reduced	Medium	Yes
Landlord's data is shared inappropriately-internally, or disclosed externally when it should not be	Risk of this is low as not frequent data sharing. If licences are issued to the wrong landlord, this is a technical data breach, but low risk as the information on the licence is all available on the public register. New Civica Cx uses cloud based technology as described above. Applications from landlords outside the EU and EEA should be processed online and no documents should be		

		mailed abroad wherever possible. If it is impossible to send documents to landlords abroad in an electronic form, the relevant Service/team should confirm the address and send all information through recorded mail.	
9.2	What steps are taken to overcome the restrictions?	As above	
For example: Safe Country, contractual measures, binding corporate rules, internal assessments of adequacy Note: GDPR has similar methods to overcome restrictions as under current law, but there are differences to the detail and less scope for an “own assessment” of adequacy.
