Date Pharmaceutical Needs Assessment Published - October 2022

Date Supplementary Statement issued - September 2023

The regulations state that Supplementary Statements can provide updates to the Pharmaceutical Needs Assessment only in relation to changes in the availability of pharmaceutical services. Supplementary Statements cannot provide updates on pharmaceutical need. This can only be achieved through a review of the Pharmaceutical Needs Assessment. The following pharmaceutical services currently contained within the Pharmaceutical Needs Assessment have been identified as requiring updating. The information contained in this supplementary statement supersedes some of the information provided in the original [Pharmaceutical Needs Assessment 2022-2025](#) and should be read in conjunction with that document.
