

Appendix 1

Scope of Works on both the A609 Ilkeston Road and Wollaton Road and the A6130 Gregory Boulevard, Radford Boulevard and Lenton Boulevard.

Scheme proposal for the A609, Ilkeston Road:

1. Introduce central hatching along the entire route.
2. Introduce a new section of bus lane in the provision from the inbound Ring Road, which will complete the route. This also offers cyclists a space that is away from general traffic.
3. Dedicated signalised pedestrian crossings to be introduced at the three arm Triumph Road junction.
4. Two new central refuge crossing points where there are currently no pedestrian facilities.
5. Dedicated right turn filters at two of the existing four arm signalised junction at St Peter's Street.
6. Dedicated right turn areas at three junctions along the route.
7. Improve signing and lining at all five signalised junctions along the route.

Scheme proposals for the A6130, Gregory Boulevard, Radford Boulevard and Lenton Boulevard:

1. Introduce central hatching along sections of the route.
2. Create two School Safety Schemes.
 - i. Reduce speed limit to 20mph.
 - ii. Introduce traffic calming measures by narrowing the road.
 - iii. Introduce traffic calming measure by installing Vehicle Activated Signs.
3. Install a zebra crossing on Gregory Boulevard.
4. Improve road surface skid resistance on the approaches to all junctions and crossings.
5. Nine new central refuge points with footway build-outs on either side along the route.
6. Right turn filters at two four arm signalised junctions.
7. Dedicated right turn areas at three junctions.
8. Improve signing and lining at six signalised junctions along the route.
