Section 1

Narrative Report

1.1 Overview of Nottingham City Council

Nottingham City Council is a unitary local authority in the East Midlands region of England that provides a wide range of services and facilities for the benefit of the citizens of Nottingham.

The Council provides a diverse range of service including adult social care, services for children and families, public health, housing, development and planning, environmental health and public protection, including the licensing of premises and taxis, traffic management and road safety, and highways maintenance.

In addition to the statutory duties, Nottingham City Council is committed to delivering a number of discretionary services, including, but not limited to: encouraging business investment and growth and championing the economic development potential in the city through funded programmes of investment; investing in the transport network to enhance accessibility for all; promoting Nottingham's cultural sector and organising local events; provision of leisure facilities, cultural venues and museums; maintenance of public parks and open spaces; delivering work and apprenticeship opportunities for residents through the Nottingham Jobs Hub and the management of car parks.

The most recent numbers equated to:

- 8.5 million domestic waste collections;
- 718 children in care, 690 support as children in need and 528 on a child protection plan
- 5,600 people supported by Adult Social Care
- 9,685 businesses supported – 9,600 SMEs of which 8,300 are micro businesses employing 10 or fewer employees
- Nottingham businesses support 206,000 jobs – of which 24.2% are in the public sector
- 51% cut in CO2 emissions per capita since 2005
- Highest level of bus use per head outside London
- 15 Green Flag parks

Nottingham City Council serves a diverse city, and we believe in the values of equality, fairness and inclusivity.

The Council and its citizens face several challenges in meeting their aspirations, these include -

- The population is projected to increase by 15,000 people over the next 10 years
- 11th most deprived area in UK, with 30% of our neighbourhoods in the 10% most deprived in England overall
- On average men and women in some of our poorest areas die 10 years earlier
- Average earnings are lower than the England average at £30,400 vs. £40,500
- 63% of properties are in the lowest council tax band compared to 24% nationally
- 60.6% of GCSE students gained good passes in Maths and English compared to 68.8% nationally

Section 1 – Narrative Report

- 5.3% unemployment compared to the England average of 3.8%

Strategic Council Plan

The Council remains ambitious and will continue to strive to deliver for the city and people of Nottingham.

We will continue to seek every opportunity for increased funding and improve our partnerships with key organisations, including the East Midlands Combined County Authority which we have created with our partner councils, in the wider interests of the city.

The Strategic Council Plan covering 2023 to 2027 was approved at full Council in March 2023 and refreshed in March 2024. Like many local authorities, Nottingham City Council continues to feel the impact of the COVID-19 pandemic, the cost-of-living crisis and significant funding reductions from central Government. At the same time, the need for our adult social care and children's services has never been higher and our financial resilience has been reduced through correcting the mistakes we have made in the past.

Council Vision Statement

The Council continues with the vision that "Nottingham is healthy, safe, clean, green, proud and ambitious."

1.1.1 Population

Initial details from the 2021 Census show that the population of Nottingham had risen to 323,700, an increase of 5.9% from the 2011 Census. Nottingham is now the 33rd most populous local authority in England and the second most densely populated local authority in the East Midlands, with 4,338 residents per square kilometre.

Nottingham has a young population, with a high number of residents aged between 15 and 64 (71%), with only four authorities outside London having a higher proportion of their population in that age range. This is primarily due to the large number of students from the two universities in the city and affects the services the Council provides and its ability to finance them.

1.1.2 Employees

At as 31 March 2024 the Council employed 7,047 people, of which 4,581 were full time employees and 2,466 part time.

In the March 2022 pay gap report the median pay gap between female and male employees was 1.5% (2021 -0.5%) in favour of female employees, whilst the mean pay gap was 0.6% (2021 2.9%) in favour of male employees.

The median pay gap between the hourly pay rates of employees who identify as lesbian, gay, bisexual plus (LGB+) and heterosexual was 8.5% (2021 17.9%) and the mean pay gap was 7.3% (2021 6.7%), both in favour of LGB+ employees.

The Council reported that the median pay gap between those who identify as White British and those who identify as Black and Minority Ethnic (BAME) was 12.6% (2021 9.4%) and the mean pay gap was 5.1% (2021 5.6%), both in favour of those who identify as White British.

The Council reported that the median pay gap between disabled and non-disabled employees was 1.0% (2021 10.4%) in favour of disabled employees and the mean pay gap was 0% (2021 -1.1%) so there was no favour either way.

1.1.3 Political and Management Framework

The City of Nottingham comprises 20 electoral wards from which 55 councillors are elected once every 4 years to represent citizens. The last election took place in May 2023 with the resulting composition of the Council as below.

Labour Party	51
Nottingham Independents	3
Independent	1

The Council is controlled by the party with the largest number of councillors, currently the Labour group and Councillor Mellen was elected as Leader of the Council, with deputy and eight Portfolio Holders.

In October 2023, one Councillor resigned the Labour whip leaving a new composition:

Labour Party	50
Nottingham Independents	3
Independent	2

The Council remained in controlled by the Labour Party.

Decisions within the Council are taken at several levels depending on the nature of the decision.

The City Council comprises all 55 elected Councillors and is responsible for agreeing the Policy Framework that governs how services are delivered and providing direction for the city. It is also legally required to approve the Council budget and set Council Tax; this is done annually in March.

The Leader of the Council is elected by the ruling party; Councillor David Mellen, has been the leader of the Council since May 2019.

The Executive Board of the Council consists of ten Councillors, including the leader, each with specific areas of responsibility and is responsible for major decisions on service delivery. The Executive Councillors are also able to take decisions on service delivery within their areas of responsibility in accordance with the Council's constitution.

There are some decisions, known as non-executive decisions, that are taken by committees of Councillors as the law does not permit the Executive Councillors to make them. These include decisions on licensing and planning matters.

The Council has Overview and Scrutiny Committees made up of non-executive Councillors able review the decisions made by the Executive Councillors collectively or individually and hold them to account for them.

The Audit Committee is made up of nine non-executive councillors and is responsible for overseeing the financial reporting of the Council, including the production of the Financial Statements and ensuring that the Council has adequate control and risk management processes in place.

The agendas and minutes of these and other Council committees are published on the Council website, as are decisions made by Executive Councillors.

The most senior officer of the Council is the Chief Executive. They lead the Senior Management Team which includes four Corporate Directors each of whom has management responsibility for a range of services. Management responsibility within

Section 1 – Narrative Report

the Council is delegated to officers in accordance with the Council's constitution to ensure that decisions can be made in a timely and effective manner whilst ensuring that the Council fulfils its legal duties and ensures that public funds are properly managed.

In February 2024, the Minister for Local Government, Simon Hoare MP, announced that the Secretary of State, after due consideration of representations received, was using his powers under the Local Government Act 1999 to issue new Directions to Nottingham City Council and appointed Tony McArdle OBE as Lead Commissioner and Margaret Lee as Commissioner for two years until 22 February 2026. In April 2024, the Secretary of State appointed Sharon Kemp as Commissioner for transformation.

1.1.4 Financial Objectives and Framework

The Like many local authorities, Nottingham City Council has experienced unprecedented pressures in terms of increased demand for services, particularly in relation to social care and homelessness, and increased costs through inflation. These pressures resulted in significant pressure on our budgets.

The Council has signed up to the principles of the CIPFA Financial Management Code. This code is designed to support good practice in financial management and to assist local authorities in demonstrating their financial sustainability.

The Council is legally required to set a balanced budget every year, this is developed by the Senior Management Team and Executive Councillors and approved by the City Council in March.

The Medium-Term Financial Strategy (MTFS) sets the financial framework to deliver the aims and objectives of the Council. The MTFS is set on a rolling 4-year basis and is key to ensuring the ongoing financial stability of the Council.

The key objectives of the MTFS are:

- A balanced budget and sustainable Medium-Term Financial Plan on a rolling 4-year basis
- To reduce the Council's exposure to commercial risk
- To ensure that core services are affordable for the long term, and
- To ensure that Councillors and officers have oversight and accountability for the financial performance of the Council.

In addition to the MTFS the Council has strategies covering the Capital Programme, and Treasury Management which guide how these activities are managed.

In November 2023 a Section 114 (part 3) report was issued to Councillors due to the financial sustainability of the Council in line with the Local Government Finance Act 1988. The report was for the Section 151 Officer to formally notify the Council that, in his professional opinion, the Council was unable to meet its statutory requirement to deliver a balanced budget for 2023/24, as the expenditure of the Council incurred (including expenditure it proposed to incur) in the 2023/24 financial year was likely to exceed resources (including sums borrowed) available to it to meet that expenditure.

As a result, a legal prohibition period came into force from 29 November 2023 and was in place until day after the City Council meeting on 18 December 2023, when a Spend Control Policy and Board was approved to remain in place until 31 March 2025.

In January 2024, to be able to present a balanced budget, the Council made a request to the Department for Levelling Up, Housing & Communities to be allowed to use receipts from the sale of capital assets for revenue spending in the 2023-24 and 2024-25 financial years.

In February 2024, the Minister for Local Government, Simon Hoare replied to the Council's request for this exceptional financial support by writing that the Secretary of State was minded to approve a capitalisation direction of a total not exceeding £66.143 million (£25 million for the financial year 2023-24 and £41.143 million for 2024-25) if the appointed Commissioners were able to report good progress against the Improvement and Recovery Plan.

Further Government intervention is outlined in Section 1.4 Post Balance Sheet Update.

1.1.5 Matters arising in 2023/24

The Council continues to be ambitious for Nottingham, setting out a revised Strategy Plan that speaks to all who live, work, study, invest and visit here. Nottingham is a diverse city committed to the values of equality, fairness and inclusivity. The Council's ambition for Nottingham and local people is undimmed and they will continue to place people at the centre of what they do.

2023/24 was a challenging year for the Council as it continued to deal with the impact of Section 114 notice in December 2021 following the discovery that Housing Revenue Account funds had been allocated unlawfully.

The Council has made some significant improvements in the last three years (supported by our Improvement and Assurance Board), nevertheless, because of exceptional financial challenges, a Section 114 notice was issued in November 2023, indicating that the Council could not deliver a balanced budget for the financial year 2023/24.

The Council faced some very difficult decisions to get the finances onto a stable and sustainable footing. The Council will change how it works; reshaping or reducing the services provided so that the Council is financially sustainable in the long-term.

Over the next few years, these decisions will create a very different Council and there will be further review and change to reflect the significant anticipated budget gaps which will require additional savings to be found. The Council's priority actions remain aligned with the resources available.

The Council is on a journey of transformation and continuous improvement; since the adoption of a new constitution in 2021. Fiscal sustainability has been supported by a new Budget Review and Oversight Group made up of senior councillors, the Chief Financial Officer and Corporate Directors, with additional advice and guidance from the Improvement and Assurance Board and latterly the appointed Commissioners.

1.1.6 Achievements in 2023/24

Despite the challenges identified above the Council still managed several significant achievements in 2023/24.

Nottingham Castle re-opened with a revised pricing structure which is more affordable for families and represents a commitment to maintain Nottingham as a prime visitor destination.

The brand-new Central Library as part of the Broad Marsh Car Park and Bus Station complex, puts children, young people and learning at the heart of its design. This

Section 1 – Narrative Report

valuable facility for supporting local people provides easy access to books as well as IT facilities.

The City's Highways team constructed the brand-new Bulwell Bus Station; funded by Transforming Cities funding, the new bus station is a modern, environmentally friendly new transport hub which is more enjoyable and pleasant to use for passengers and more efficient for buses.

The summer of 2023 launched a whole range of post-Covid 19 events with the programme designed to appeal to the whole family: Nottingham Beach in the Old Market Square; Splendour Festival - the signature music festival at Wollaton Park; Nottinghamshire Pride in the City Centre; The Hundred sporting action at Trent Bridge Cricket Ground; open-air theatre at Newstead Abbey, Wollaton Park and Nottingham Castle and the carnival, festivals and concerts across the City.

Nottingham marked 75 years since the Windrush arrived in the UK with a series of events, including a civic service, a commemorative gospel service and a special Windrush lecture, acknowledging that special day and celebrating the significant contribution of the Windrush generation to the City.

The Council continues to strive towards achieving as many of our carbon neutral ambitions as possible building on our work on zero emission buses, promoting public transport and active travel, such as cycle lanes, energy efficient homes and creating and maintaining green spaces around the city.

1.2 Financial Strategy and Performance

1.2.1 Economic and Funding Overview

As seen across many other local authorities, the Council is experiencing significant overspends relating to social care and temporary accommodation.

The overall overspend is mainly dealing with the impact of rising costs due to continued high level of inflation, increase in demand and complexity of need and costs of social care, SEND transport and temporary accommodation and the impact of cost-of-living crisis which also affects important income streams of the Council.

Significant overspends continue to be forecasted across all services, a large proportion of the overspend in 2023/24 is recurring which has been factored into the 2024/25 Budget and Medium-Term Financial Plan growth process.

1.2.2 Revenue Outturn

The General Fund revenue outturn position for 2023-24 is a net overspend of £17.568m, 6.71% of the net General Fund budget before the application of reserves to off-set the in-year overspend. This is summarised in the table below:

Revenue Outturn 2023/24			
	Budget £m	Outturn £m	Variance £m
Services	251.831	275.247	23.416
Corporate Items	10.035	4.504	(5.532)
Companies	(0.034)	(0.350)	(0.316)
Total	261.832	279.401	17.568

As seen across many other local authorities, the Council is also experiencing significant overspends relating to social care and temporary accommodation. The overall overspend is mainly dealing with the impact of rising costs due to continued high level of inflation, increase in demand and complexity of need and costs of social care, SEND transport and temporary accommodation and the impact of cost of living crisis which also affects important income streams of the Council.

At the end of the financial year, the Council has a net General Fund overspend of £17.568m to be funded from Exceptional Financial Support (EFS), this was financed through capital receipts from the disposal of assets; no borrowing was undertaken.

Further information on the Council’s Revenue Financial Outturn for 2023/24 can be found in the report presented to Executive Board in June 2024.

1.2.3 Capital Position

The Capital outturn for both the General Fund and HRA shows an underspend of £16.923m within the General Fund Capital Programme and £2.925m within the HRA Capital Programme. A summary of this expenditure by scheme category is shown in the table below:

Capital Outturn 2023/24			
	Budget £m	Outturn £m	Variance £m
People	5.788	6.079	0.291
Finance & Resources	2.150	2.425	0.275
Growth & City Development	54.229	50.591	(3.638)
CERS	19.314	13.629	(5.685)
Transformation	7.054	6.320	(0.734)
Exceptional Financial Support	25.000	17.568	(7.432)
TOTAL GENERAL FUND	113.535	96.612	(16.923)
Housing Revenue Account	50.085	47.160	(2.925)
TOTAL NCC PROGRAMME	163.620	143.772	(19.848)

Much of the variance is due to slippage in expenditure on approved schemes, this expenditure is still required and will be incurred in future years.

The main source of funding of capital expenditure in 2023/24 was from grants and contributions which funded 47% of total expenditure, with a further 15% funded by the HRA’s Major Repairs Reserve. This reflects the shift away from prudential borrowing as Council looks to reduce its level of indebtedness in line with the requirements of the Recovery & Improvement Plan.

This is illustrated in the following charts showing the funding of 2023/24 capital expenditure and the 2023/24 - 2026/27 programme.

The Council has acknowledged that a sustainable capital programme, and the strategy and controls to shape and manage it, is a critical contributor to the future financial stability of the Council. The Council has reviewed the capital programme to reduce the level of borrowing and unsecured capital receipts required to fund it.

In addition to the Council's element of the capital programme, the Council was the accountable body for capital projects with a £97.54m budget. The 2023/24 expenditure against this budget was £61.772m. The £35.818m underspend was mainly due to slippage which will be carried forward in the next financial year.

The revised capital programme was approved at City Council in March 2023. The programme sets out investment of £602.8m, from 2023/24 to 2026/27, which will help enable substantial regeneration in and around the city and allow the Council to deliver the capital requirements that have arisen from service needs.

The programme will be funded by £454.5m of grants and contributions, £150.0m from the Public Sector Housing Major Repairs Reserve, £24.7m of borrowing approved or committed prior to the non-statutory review, as well as £58.5m of capital receipts.

Over the life of the programme the Council will be reducing the use of Prudential Borrowing to ensure that the programme is sustainable and affordable in line with the Council's Voluntary Debt Reduction Policy.

1.2.4 Addressing Risk and Future Challenges

The Council is committed to making the changes needed to secure long term financial stability whilst maintaining services to residents.

Despite a significant amount of savings proposed as part of the 2024/25 budget and four-year medium term financial plan (MTFP), there is a projected budget gap of £41m in 2024/25.

To bridge the gap for 2024/25 and set a legally balanced budget it has been necessary to seek exceptional financial support from Government that will allow the Council to use capital receipts from the sale of its assets to fund its revenue commitments. This is not a grant or new money but rather a short-term solution that will require further sustainable savings proposals to enable the Council to achieve financial sustainability. Additional savings will need to be developed, and the Strategic Plan will be reviewed to ensure that the priority actions remain aligned to the available resources.

The Council has been granted Exceptional Financial Support by the Government of up to £66.143m (£25m in 2023/24 & £41.143m in 2024/25); this is not additional funding but an allowance to use capital resources from the sale of assets to fund service delivery costs.

Asset rationalisation is a significant part of the Improvement Plan and Budget Strategy; all assets have been reviewed and some endorsed as being suitable for disposal.

MTFP approved by City Council in March 2024 included a funding gap of £68m in 2025/26, rising to £170m over the four-year MTFP period.

1.3 Explanation of Accounting Statements for 2023/24

The Statement of Accounts sets out the Council's financial performance for 2023/24. It is comprised of core statements and supplementary financial statements with relevant supporting notes and is shown as both single entity accounts and as consolidated group accounts. The CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2023/24 and International Financial Reporting Standards defines the format of the Statement of Accounts.

An Abbreviation and Glossary section has been included in section 8 of this document.

The Statement of Accounts Core Statements are:

1.3.1 Comprehensive Income and Expenditure Statement (CIES)

The Comprehensive Income and Expenditure Statement shows the Council's income and expenditure for the financial year. The top half of the statement analyses income and expenditure by portfolio. The bottom half of the statement gives a breakdown of corporate transactions and funding. Expenditure is made up of:

- The statutory services and activities that the Council is required to deliver, for example street cleaning and refuse collection and
- Discretionary expenditure for local priorities and needs.

1.3.2 Movement in Reserves Statement (MIRS)

The Movement in Reserves Statement (MIRS) summarises the changes within the Council's reserves over the financial year. These reserves are either:

- Useable (those that can be applied to fund expenditure or reduce local taxation), or
- Unusable (not available to support services and are set aside for specific purposes).

Surpluses and deficits from previous financial years are reflected in the reserve figures brought forward in the Movement in Reserves Statement - see section 3.3 Core Financial Statements in the Statement of Accounts.

The movements in reserves in 2023/24 are summarised below:

	31 March 2023 £m	Movement 2023/24 £m	31 March 2024 £m
General Fund	8.877	13.842	22.719
Earmarked General Fund Reserves	195.435	1.850	197.285
Other Usable Reserves	149.124	(1.137)	147.987
Unusable Reserves	2,177.465	95.884	2,273.349
TOTAL AUTHORITY RESERVES	2,530.901	110.439	2,641.340

1.3.3 Balance Sheet

The Balance Sheet is a snapshot of the Council's assets, liabilities, cash balances and reserves as at 31 March 2024.

The Balance Sheet is summarised below:

	31 March 2023 £m	31 March 2024 £m
Long Term Assets	3,579.406	3,556.359
Net Current Liabilities	205.286	249.415
Long Term Liabilities	(1,253.791)	(1,164.434)
NET ASSETS	2,530.901	2,641.340
Usable Reserves	353.436	367.991
Unusable Reserves	2,177.465	2,273.349
TOTAL RESERVES	2,530.901	2,641.340

The movement in Long Term Assets from 2022/23 to 2023/24 is mainly due to:

- A net increase in Property Plant & Equipment of £16.537m. Further details regarding movements in Property Plant and Equipment can be found in note 4.4.1.
- A net increase in Heritage Assets of £2.994m. Further details can be found in the Heritage Assets note 4.4.2.
- A net decrease in Investment properties of £21.594m. Further details regarding Investment Properties can be found in note 4.4.3.
- A decrease in Long Term Investments of £9.507m. Further details can be found in the Financial Instruments note 4.4.14.
- A decrease in Long Term Debtors of £10.793m. Further details can be found in the Financial Instruments note 4.4.14.

The Council had two material provisions (greater than £5m) carried within the balance sheet as at 31 March 2024, a provision for Insurance Compensation Claims and a provision for NNDR Appeals (Long Term Provisions). The carrying value as at 31 March 2024 of the Insurance Compensation Claims provision (£17.158m) is to meet the cost of claims arising from self-insured risks and risks which fall below the external policy retention levels, and for payment of external insurance premiums. The carrying value as at 31 March 2024 of the NNDR Appeals provision (£8.461m) is to cover the risk of non-collection of NNDR following appeals.

For further information, please refer to note 4.4.9 Provisions in the Balance Sheet Statement of Accounts notes.

Pension Liability

The Council is a member of the Nottinghamshire County Council pension fund. An independent actuary evaluates the assets and liabilities of the fund attributed to the Council on an annual basis. The actuary has estimated that, as at 31 March 2024, the Council's fund was in deficit by £88.600m (£84.785m deficit as at 31 March 2023). Actuarial valuations are undertaken every three years and a deficit recovery plan is in place to reduce the liability to zero within 17 years.

For further information, please refer to note 4.4.13 and Section 7.

Section 1 – Narrative Report

1.3.4 Cash Flow Statement

The Cash Flow Statement explains the movement in the Council's cash balances during the year and sets out whether the change is due to operating activities, new investment or financing activities.

1.3.5 Supplementary Financial Statements

The Supplementary Financial Statements are:

- The **Annual Governance Statement**, which sets out the governance structures of the Council and its key internal controls. A copy of the document can be viewed here:
[Statement of Accounts and Reports - Nottingham City Council](#)
- The **Group Accounts** which report the consolidated assets and liabilities of the Council and the companies and entities over which the Council has control or significant influence.
- The **Housing Revenue Account** (HRA) records all revenue expenditure and income relating to the provision of council dwellings and related services.
- The **Collection Fund** summarises the collection of Council Tax and National Non-Domestic Rates (NNDR), and the redistribution of some of the money to the precepting authorities and central government.
- The **Expenditure and Funding Analysis** (EFA) shows how annual expenditure is used and funded from resources (government grants, rents, Council Tax and NNDR) by the Council in comparison with those resources consumed or earned by the Council in accordance with International Financial Reporting Standards (IFRS's).

The notes to these financial statements provide more detail about the Council's accounting policies and transactions.

1.4 Post Balance Sheet Update as at December 2024

1.4.1 Significant Event Updates, including continued Government Intervention

The information in this Narrative Report sets out the position for the 2023/24 financial year. The following bullet points provide an update on significant events for the Council since 31 March 2024 up until the time of writing:

- On 11 April 2024, the Secretary of State appointed Sharon Kemp as Commissioner for transformation.
- On 16 May 2024 the final report from the Improvement and Assurance Board was published and Councillor Neghat Khan was selected as Leader of the Council.
- Also in May 2024, the East Midlands Combined County Authority (EMCCA) was established with Nottingham City, Nottinghamshire, Derby City and Derbyshire. Nottingham City Council has developed strong relationships with these local authorities and will continue to do so to progress our wider goals and objectives. The East Midlands has historically seen significant under investment in comparison to the rest of England, and the EMCCA presents a once-in-a-generation opportunity to redress this balance and to bring more and better

opportunities to Nottingham. Residents stand to benefit from the city's share of at least £38 million investment funding per year over 30 years, as well as a brand-new City Region Sustainable Transport Settlement of over £1.5 billion.

- In August 2024 the Full Council approved the appointment of Sajeeda Rose as the Chief Executive/Head of Paid Service.
- In August 2024 the Full Council also approved The Improvement Plan as was developed and agreed with Commissioners and the Executive Board.
- In November 2024 the Section 151 Officer signed off the statutory accounts, and the external auditor provided an audit opinion, for the financial years ending 31 March 2020, 31 March 2021, 31 March 2022 and 31 March 2023, this cleared the backlog of unaudited accounts within the Government backstop date of 13 December 2024.

Section 2

Statement of Responsibilities

2.1 Statement of Responsibilities for the Statement of Accounts

The Authority's Responsibilities

The Authority is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that responsibility rests with the Corporate Director, Finance and Resources.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the Statement of Accounts.

The statement of accounts was approved at a meeting of the Audit Committee on (to be confirmed)

Signed:

Date:

Councillor Adele Williams
Chair of the Audit Committee

The Corporate Director, Finance and Resources Responsibilities

I am responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

I became the Section 151 Officer on 08 November 2024. The auditors had previously raised concerns about the preparation of and evidence to support the Statement of Accounts for 2019/20, particularly in relation to specialist Property Plant & Equipment valuations. The Narrative Report and Annual Governance Statement included with these Accounts provide more detail on the Council's historic issues. In addition, a previous Section 151 Officer had issued a Section 114 Part 2 Report following concerns regarding the misappropriation of resources between the General Fund and Housing Revenue Account, an independent external review confirmed the misappropriations.

Section 2 – Statement of Responsibilities

In response to these findings a previous Section 151 Officer commissioned an independent external review by EY which identified significant weaknesses in financial management, financial processes and systems of internal control.

Based on the detailed work undertaken since my appointment, the statement of accounts for 2023/24 have been updated with material transactions and balances either confirmed or restated as necessary. Whilst I cannot comment on the quality of the financial processes in operation prior to my appointment, I am satisfied that sufficient evidence has been obtained to support the overall Balance Sheet and the overall year-end position on General Fund balances and reserves.

In preparing this Statement of Accounts, and within the context set out above, I have:

- Selected suitable accounting policies and then applied them consistently.
- Made judgments and estimates that were reasonable and prudent.
- Complied with the Code.
- Kept proper accounting records which were up-to-date.
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.
- Assessed the Authority's and the Group's ability to continue as a going concern disclosing, as applicable, matters relating to going concern.
- Used the going concern basis of accounting on the assumption that the functions of the Authority and the Group will continue in operational existence for the foreseeable future.
- Maintained such internal control as determined is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Subject to my comments above, I certify that these financial statements give a true and fair view of the financial position of the Authority at 31 March 2024 and of its income and expenditure for the year then ended.

Signed:

Section 3

Core Financial Statements

3.1 Comprehensive Income and Expenditure Statement (CIES)

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement.

As outlined in note 4.3.1 Prior Year Reclassifications, the 2022/23 CIES has been restated to align with the 2023/24 directorate position of the Council. This restatement only alters the classification of the portfolios / directorates and overall the total value is unchanged.

Notes	Restated 2022/23			2023/24

3.2 Balance Sheet

This statement shows the value of assets and liabilities held by the Council as at 31 March. The net assets (i.e. assets less liabilities) are matched by the reserves held. Reserves are reported in two categories:

- Usable reserves - those reserves that may be used to help provide services or reduce taxation, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt).
- Unusable reserves – those reserves that cannot be used to fund Council Services. This category includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to help provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line ‘Adjustments between accounting basis and funding basis under regulations’.

Notes	31 March 2023 £m	31 March 2024 £m

Section 3 – Core Financial Statements

3.3 Movement in Reserves Statement (MIRS)

This statement shows the in-year movement of reserves, analysed into 'usable reserves' and 'unusable reserves' (see section 3.2). The Total Comprehensive Income and Expenditure from the CIES is added to the opening balance for the year. Adjustments are then made to reflect the statutory amounts required to be charged to the General Fund Balance and the HRA for Council Tax setting and dwellings rent setting purposes, to arrive at the Net Increase / Decrease before Transfers to Earmarked Reserves. The Council then has discretion to earmark General Fund Reserves for specific purposes as shown by the Transfers to / from Earmarked Reserves line. The General Fund and Earmarked General Fund in total form the statutory General Fund.

2023/24	General Fund	Earmarked General Fund	General Fund Total	Housing Revenue Account (HRA)	Earmarked HRA Reserves	Capital Receipts	Major Repairs	Capital Grants Unapplied	Total Usable Reserves	Unusable Reserves	Total Authority Reserves

3.4 Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents held by the Council during the reporting period and how these are generated or used by classifying cash flows as operating, investing and financing activities. The value of net cash flows arising from operating activities is a key indicator of the extent to which operations are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been used to generate resources intended to contribute to future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing).

Notes	2022/23 £m	2023/24 £m

Section 4

Notes to the Financial Statements

These notes provide information to support and help in interpreting the Financial Statements.

4.1 Accounting Policies

This section explains the accounting policies applied in producing the Statement of Accounts.

4.1.1 General Principles

4.1.1.1 Statutory Guidance and Accounting Standards used

The Statement of Accounts summarises the Council's transactions for the 2023/24 financial year and its position at the year end of 31 March 2024. The Council is required to prepare an Annual Statement of Accounts by the Accounts and Audit Regulations 2015 which require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2023/24 (The Code) issued by the Chartered Institute of Public Finance and Accountancy (CIPFA), supported by International Financial Reporting Standards (IFRS) and statutory guidance issued under Section 21(2) of the Local Government Act 2003. The Statement of Accounts is prepared on a going concern basis.

4.1.1.2 Accounting Convention

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

4.1.1.3 Accounting Developments and Changes

The following accounting standard amendments have been introduced by the Code for 2023/24:

- Definition of Accounting Estimates (Amendments to IAS 8) issued in February 2021
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) issued in February 2021
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12) issued in May 2021
- Updating a Reference to the Conceptual Framework (Amendments to IFRS 3) issued in May 2020

The application date and initial adoption date of the above standards is 1 April 2023.

The amendments to the above standards are either not applicable or do not have a material effect on the Statement of Accounts and accounting policies.

4.1.1.4 Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

A prior period adjustment will be made to the accounts as a result of a change in accounting policies and the effect is material. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Changes in accounting estimates will be accounted for prospectively i.e. in the current and future years affected by the change and do not give rise to prior period adjustment.

Material errors in prior periods are corrected retrospectively by amending opening balances and comparative amounts for the prior period. A full disclosure as to the nature, circumstance and value of the adjustment will be disclosed in the notes to the accounts.

4.1.1.5 Events after the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the Balance Sheet date of 31 March and the date when the Statement of Accounts is authorised for issue. The two types of events and the accounting treatment are given below:

- For any material events after the balance sheet date which provide additional evidence regarding conditions existing at the balance sheet date, an adjustment has been made to the Statement of Accounts.
- Material events after the balance sheet date which concerned conditions not existing at 31 March have been disclosed as a separate note to the accounts.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

4.1.1.6 Accruals of Expenditure and Income

The revenue and capital accounts of the Council are maintained on an accruals basis i.e. activity is accounted for in the year it takes place, not simply when cash payments are made or received. Further details are given below:

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure in the period during which they are consumed. Where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet. For some quarterly payments including gas and electricity, expenditure is recorded at the date of meter reading rather than being apportioned between financial years. This practice is consistently applied each year and therefore does not have a material effect on the year's accounts.
- Expenses for goods or services are recorded as expenditure when the goods or services are received by the Council rather than when payments are made.
- Where income and expenditure has been recognised but cash has not been received or paid, an appropriate class of asset or liability for the relevant amount

Section 4 – Notes to the Financial Statements

is recorded in the Balance Sheet. Cash received or paid and not yet recognised as income or expenditure is shown as a creditor (receipt in advance or contract liability) or debtor (payment in advance) in the Balance Sheet and the Comprehensive Income and Expenditure Statement (CIES) adjusted accordingly. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made against the loss allowance or to revenue in Financing and Investment Income and Expenditure (where there is no specific loss allowance). Loss allowances are set up for expected future credit losses and are offset against the debtor balance on the Balance Sheet. The level of loss allowance is periodically reviewed with any movements being debited or credited to the CIES.

- Works are charged as expenditure once complete, prior to completion (work in progress) they are carried as inventories on the Balance Sheet.
- For significant accruals such as pay awards, estimates are made based on the best information available at the time. Cost of pay awards not yet settled but likely to apply to part of the financial year to which the accounts relate are based on forecast cost.
- Interest payable on borrowings and interest receivable on investments is accounted for as income and expenditure based on the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Income and expenditure are credited and debited to the relevant service in the CIES. Capital expenditure creates a fixed asset which is shown on the Balance Sheet.
- Accruals have been made on the basis of the known value of the transaction wherever possible. Where estimates have been required to be made, they are based on appropriate and consistently applied methods. In the case of highways and building works, the related assets or liabilities will be valued at the year-end by colleagues working in the relevant service. Where there has been a change to an estimation method from that applied in previous years and the effect is material, a description of the change and if practicable, the effect on the results for the current period is separately disclosed.
- Accruals are made for all material sums.

4.1.1.7 Schools

The Code confirms that the balance of control for local authority maintained schools (i.e. those categories of school identified in the School Standards and Framework Act 1998, as amended) lies with the local authority. The Code also stipulates that those schools' assets, liabilities, reserves and cash flows are recognised in the local authority financial statements (and not the group accounts). Therefore, schools' transactions, cash flows and balances are recognised in each of the financial statements of the Council as if they were the transactions, cash flows and balances of the Council.

4.1.1.8 Choices permitted under IFRS

For some policies, IFRS provides different options that can be used and the Council has for a number of years, chosen to apply the following:

De Minimis Capital Expenditure

All assets acquired can be included in the Balance Sheet, regardless of their cost. However, where the current value is less than the following amounts the Council may choose to exclude the asset from the Balance Sheet:

	£m
Vehicles and Plant	0.003
Computer Equipment	0.005
Land and Buildings	0.010
Heritage Assets	0.005

Componentisation

Where an asset consists of significant components that have different useful lives and/or depreciation methods, these components are separately identified and depreciated accordingly. The Council has chosen to only apply componentisation where the value of the asset is in excess of £3m.

Depreciation (including amortisation of intangible assets)

Certain property, plant and equipment components and intangible assets are written down over time and charged to revenue. IFRS allows the Council to choose the asset life over which this write down occurs as well as the depreciation method. The following assets are depreciated on a straight line basis over their individually assessed useful life, unless otherwise stated:

- Buildings, dwellings, vehicles, plant, furniture and equipment.
- Infrastructure and Community.
- Intangible assets.

4.1.2 Policies primarily affecting the CIES

4.1.2.1 Government Grants and Contributions

Government grants and other contributions are recognised as being due to the Council when the conditions attached to them have been satisfied and there is reasonable assurance that the grant or contribution will be received.

Grants and contributions are credited to income when there is reasonable assurance that the attached conditions will be met. Any grants received where conditions have not been met are carried in the Balance Sheet as creditors. When all conditions are satisfied, the grant is credited to the relevant directorate line and non-ring fenced grants and capital grants are credited to Taxation and Non-specific grant income in the CIES.

4.1.2.2 Business Improvement Districts (BID)

A BID scheme applies across the city. The scheme is funded by a BID levy paid by non-domestic ratepayers. The Council is the BID billing authority and acts as agent under the scheme. The BID transactions are therefore not recognised in the CIES.

Section 4 – Notes to the Financial Statements

4.1.2.3 Operating Leases

Receivable (Council as lessor)

Where the Council has granted an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the CIES. Credits are made on a straight line basis over the life of the lease and any direct costs incurred in negotiating and arranging the lease are added to the carrying amount and charged as an expense over the lease term on the same basis as rental income.

Payable (Council as lessee)

Rentals paid under operating leases are charged to the CIES as an expense of the service benefiting from use of the leased asset in the CIES. Charges are made on a straight-line basis over the life of the lease, regardless of the pattern of payments.

4.1.2.4 Employee Benefits

Benefits Payable During Employment

Wages and salaries, paid annual leave and paid sick leave are recognised as an expense for services in the year in which employees render service to the Council.

An accrual is made for the cost of the holiday entitlements or for any form of leave allowed under terms and conditions of service, which employees have earned during the year and are able to carry forward into the next financial year.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an employee's employment before the normal retirement date or an employee's decision to accept voluntary redundancy. They are charged on an accruals basis to the Corporate Items line or the relevant directorate line in the CIES (depending on reason for termination) when the Council is demonstrably committed to the termination of the employment of an employee or group of employees or are making an offer to encourage voluntary redundancy.

NHS Pension Scheme

Pension costs relating to the NHS Pension Scheme have been treated as defined contribution schemes and the costs are charged to the relevant directorate line in the CIES.

Teachers' Pension Scheme

Pension costs relating to Teachers' Pension Scheme have been accounted for as defined contribution schemes and the costs are charged to the relevant directorate line in the CIES. The arrangements for the teachers' pension scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the authority. The scheme is therefore accounted for as if it were a defined contribution scheme and no liability for future payments of benefits is recognised in the Balance Sheet.

Defined Benefit Schemes (Local Government Pension Scheme)

Within the CIES, services have been charged with their current service cost. This represents the extent to which the pension liability has increased as a result of employee service during the year.

Past service costs (the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years), and settlements have been charged to Corporate Items in the CIES.

Net interest on the net defined benefit liability (asset), i.e. net interest expense for the authority (the change during the period in the net defined benefit liability (asset) that arises from the passage of time) is charged to the Financing and Investment Income and Expenditure line of the CIES – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.

The CIES shows the re-measurements comprising:

- The return on plan assets – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- Contributions paid to the pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

Discretionary Benefits

The Council has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

4.1.2.5 Charges to Service Revenue Accounts for Non-Current Assets

Service revenue accounts, support services and trading accounts are debited with the following amounts to record the real cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service.
- Revaluation and impairment losses attributable to the clear consumption of economic benefits on tangible fixed assets used by the service, and other losses where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off.
- Amortisation of intangible fixed assets attributable to the service.

4.1.2.6 Financing and Investment

The financing and investment line of the CIES is charged or credited for the following amounts relating to investments:

- Income, expenditure and changes in the fair value of investment properties – comprising of upward and downward movements in the value of properties, together with any gains and losses arising on disposal and rentals receivable and expenses incurred in relation to properties.
- Gains and losses of financial instruments including:
 - Interest revenue calculated using the effective interest method.

Section 4 – Notes to the Financial Statements

- Gains and losses arising from de-recognition of financial assets measured at amortised cost.
- Impairment losses (including reversals of impairment losses or impairment gains).
- Net interest on Defined Benefit Pension Schemes.

4.1.2.7 Other Operating Expenditure

Other operating expenditure includes charges for:

- The proportion of receipts relating to HRA disposals payable to the Government.
- Gains or losses on sale and de-recognition of non-current assets (excluding investment properties).
- Levies.

4.1.2.8 Overheads and Support Services

Overheads and support services are reported within directorate lines of the CIES, based on the organisational structure under which the Council operates.

4.1.2.9 Council Tax and National Non Domestic Rates (NNDR)

As a billing authority the Council acts as agent, collecting Council Tax and NNDR on behalf of the major preceptors and central government and, as principal, collecting rates for themselves. The Council maintains a separate Collection Fund that shows the transactions for the collection from taxpayers and distribution to preceptors, the Council and the Government of Council Tax and NNDR. The Council's share of the Council Tax and NNDR is credited to the CIES. The transactions presented in the Collection Fund statement are limited to the cash flows permitted by statute for the financial year, whereas the Council will recognise income on a full accrual basis.

There is no requirement for a Collection Fund Balance Sheet since the assets and liabilities arising from collecting Council Tax and NNDR belong to the bodies (i.e. preceptors, the Council and the Government) on behalf of which the Council collects these taxes.

The Council's balance sheet includes its share of the end of year balances in respect of Council Tax and NNDR relating to the arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

Where debtor balances for the above are identified as impaired because of a likelihood that payments due under statutory arrangements will not be made, the asset is written down and a charge made to the Collection Fund. The impairment loss is measured as the difference between the carrying amount and the revised future cash flows.

4.1.2.10 Jointly Controlled Operations

Jointly controlled operations are activities undertaken by the Council in conjunction with other venturers that use the assets and resources of the venturers but is not a separate entity. The Authority recognises on its Balance Sheet the assets that it controls and the liabilities that it incurs and debits and credits the CIES with the expenditure it incurs and the share of income it earns from the activity of the operation.

4.1.2.11 Acquired Operations

Operations acquired by the Council are accounted for in accordance with the Code and are disclosed in the accounts. If these are material they will be disclosed separately in the CIES under the heading of 'acquired operations'.

4.1.2.12 Exceptional Items

Normally any material exceptional items are separately identified on the face of the CIES in order to give a fair presentation of the accounts. Where these items are less significant they are included within the cost of the relevant service.

4.1.2.13 Value Added Tax

Income and expenditure excludes any amounts related to VAT, except for input VAT that is irrecoverable under legislation which is charged to the service that incurs the cost.

4.1.3 Policies primarily affecting the Balance Sheet

4.1.3.1 Property, Plant and Equipment (PPE), Heritage Assets and Intangible Assets

PPE - Recognition

General

All expenditure on the acquisition, creation or enhancement of PPE is capitalised on an accruals basis, if it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be reliably measured. Expenditure that maintains but does not extend the previously assessed standards of performance of an asset (e.g. repairs and maintenance) is charged to revenue as an expense when it is incurred.

Surplus Assets

Assets that are surplus to service needs but that do not meet the classification of Investment Property or Assets Held for Sale are classified as PPE 'Surplus', and held at fair value pending a decision on the future use of the asset.

Private Finance Initiative (PFI) and Similar Contracts

In accordance with the code, the Council accounts for its PFI contracts in accordance with IFRC 12 Service Concession Agreements. The Council is deemed to control the services that are provided under its PFI schemes and ownership will pass to the Council at the end of the contracts for no additional charge (with the exception of LIFT Joint Service Centres for which there is an option to purchase). The Council carries the assets used under the contracts, on its Balance Sheet as PPE and they are accounted for in the same way as the other assets. The original recognition of assets is at fair value with a corresponding liability for the amounts due to the scheme operator.

The amounts payable to the PFI operators are comprised of 5 elements. The Current Value of Services received during the year, Finance Cost, Contingent Rent, and Lifecycle replacement costs are all posted to the CIES. The repayment of the outstanding liability and recognition of assets from lifecycle replacement are posted to the balance sheet.

Section 4 – Notes to the Financial Statements

Finance Leases - General

Leases are classified as finance leases where substantially all of the risks and rewards incidental to ownership of the PPE transfer from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Finance Leases – where the Council is Lessee

Property, Plant and Equipment (PP&E) held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of minimum lease payments, if lower). The asset is matched by a liability for the obligation to pay the lessor. Any initial direct costs of the Council are added to the carrying amount of the asset.

Lease payments are apportioned between:

- A charge for the acquisition of the interest in the PPE – applied to write down the lease liability and
- A finance charge which is debited to the Financing and Investment Income and Expenditure line in the CIES.

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Authority at the end of the lease period).

Finance Leases – the Council as Lessor

Where the Council grants a finance lease over a property or an item of plant or equipment, the carrying amount of the asset is written off to the Other Operating Expenditure line in the CIES as part of the gain or loss on disposal and a long term debtor raised in the Balance Sheet.

Lease rentals receivable are apportioned between the principal repayment which reduces the debtor balance (together with any premiums received) and interest which is credited to the Financing and Investment Income and Expenditure line in the CIES.

Heritage Assets

Acquisitions are either purchased by the City Council or donated by a third party. Purchases are initially recorded at cost while donations are held at nil value until the assets related collection is externally valued within the heritage asset valuation cycle.

Items are omitted from the Balance Sheet where the Council is unable to obtain the valuations at a cost which is commensurate with the benefits it would provide to users of the financial statements.

Depreciation or amortisation is not required on assets with indefinite useful lives.

Intangible Assets

Intangible assets where the Council has control of the asset through either custody or legal protection, for example software licences, are capitalised at cost.

Measurement

Assets are initially measured at cost, i.e. purchase price plus any costs incurred in bringing the asset into working condition for its intended use. The Council does not

capitalise borrowing costs. Assets are then carried in the Balance Sheet using the following measurement bases:

- Community and Infrastructure assets for example parks and land used for cemeteries and crematoria are generally valued at depreciated historical cost.
- Council dwellings are valued at Existing Use Value for Social Housing as defined in the Royal Institute of Chartered Surveyors valuation manual. The valuation exercise was carried out in accordance with guidance issued by the Department for Communities and Local Government in 2016 based on a desktop revaluation of beacon properties by the Council's internal valuers.
- Other land and buildings are valued at current value, the amount that would be paid for the asset in its existing use. Where insufficient market based evidence of current value is available because an asset is specialised in nature, Depreciated Replacement Cost has been applied.
- Finance leases are recognised at present value of the minimum lease payments.
- Heritage assets are reported in the Balance Sheet at an externally adjusted valuation. These external valuations have been carried out by a variety of qualified experts in the relevant field. These external valuations are adjusted annually by the Council to provide an internal valuation which is used until the collection is periodically externally revalued. Acquisitions are held at their purchase price, adjusted annually each year (except in year of purchase), until the next valuation.
- All other assets are valued at current value.

Assets included in the Balance Sheet at current value are revalued as a minimum every 5 years. If there is evidence that there have been material changes in the value a further valuation will be undertaken.

Increases in valuations are credited to services within the CIES where they arise from the reversal of a revaluation or an impairment loss previously charged on the same asset. Any gains in excess of previous revaluation losses are matched by credits to the Revaluation Reserve.

Any revaluation losses are firstly written down against any previous revaluation gains held in the Revaluation Reserve. Where there are no previous revaluation gains, the losses are charged to the relevant directorate line of the CIES.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Asset values are assessed at each year end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall. Where impairment losses are identified, they are accounted for as follows:

- Where there is a balance of revaluation gains on the Revaluation Reserve for the relevant asset, the impairment loss is charged against that balance until it is used up. If there is no balance of revaluation gains the impairment loss is charged to the relevant directorate line of the CIES.

Section 4 – Notes to the Financial Statements

- For intangible assets there will be no Revaluation Reserve balance, so impairment losses are charged to the relevant directorate line of the CIES only.

Depreciation and Amortisation

Depreciation is provided for on all PPE assets. The annual charge to the CIES is calculated by dividing the value less any residual value of the asset by the estimated asset life. There is no depreciation on the assets in the year of acquisition, although a full year of depreciation is charged in the year of disposal. In accordance with recommended accounting practice, depreciation is not provided for in respect of freehold land, Heritage Assets, certain Community Assets and assets under construction.

Depreciation is calculated on the following bases:

- Buildings and Dwellings – straight-line allocation over the useful life of the property as estimated by the valuer.
- Vehicles, plant, furniture and equipment – straight line allocation over the useful life.
- Infrastructure and Community – straight-line allocation over the useful life.
- Finance leases - over the lease term. If the lease term is shorter than the asset's estimated useful life and ownership of the asset does not transfer to the authority at the end of the lease period.
- Intangible assets – amortised on a straight line basis over the economic life.

Where an item of PPE asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

The Revaluation Reserve is reduced for the depreciation relating to revaluation gains with a corresponding credit to the Capital Adjustment Account.

Componentisation

Where an asset consists of significant components that have different useful lives and/or depreciation methods to the remainder of asset, these components are separately identified and depreciated. A component value must be at least 20% of the whole asset. Where there is more than one significant part of the same asset which has the same useful life and depreciation method, the parts have been grouped to determine the depreciation charge. Componentisation only applies to enhancement and acquisition expenditure and revaluations carried out from 1st April 2010 with a de-minimis level of £3m.

Fair Value Measurement

Some non-financial and financial assets of the Council are measured at fair value at the reporting date. Fair value assumes the transaction takes place either:

- In the principal market for the asset or liability, or
- The most advantageous market for the asset or liability.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Valuation techniques are used which maximise the use of observable inputs and minimise the use of unobservable inputs. After reviewing the inputs used the valuation is categorised within the following fair value hierarchy:

Level 1 – quote prices (unadjusted) in active markets for identical assets / liabilities that can be accessed at the measurement date.

Level 2 – inputs other than quoted prices within level 1, that are observable either directly or indirectly.

Level 3 – unobservable inputs

Disposal

Assets are written out of the balance sheet on disposal through sale, granting of a finance lease, donation and transfer. This includes assets transferred because of schools academisation.

4.1.3.2 Investment Property

Investment properties are those used solely to earn rentals and/or for capital appreciation. It does not apply to properties which are being used to deliver services for the Council.

Investment properties are measured initially at cost. They are not depreciated but are revalued annually at fair value as outlined in note 4.1.3.1.

4.1.3.3 Interests in Companies and Other Entities

Inclusion in the Council's group accounts is, in accordance with the Code, dependent upon the extent of the Council's interest and control over an entity. In the Council's single-entity accounts, the interests in companies and other entities are shown as financial assets at cost, less any provision for losses.

4.1.3.4 PPE Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an asset held for sale. Assets held for sale are carried at the lower of carrying value and fair value less costs to sell.

If assets no longer meet the criteria to be classified as assets held for sale, they are reclassified back to non-current assets. They are valued at the lower of their carrying amount before they were classified as held for sale, adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as held for sale, and their recoverable amount at the date of the decision not to sell.

4.1.3.5 Inventories

Inventories are largely valued at latest purchase price and any difference between this and actual cost is not considered to be material. Other less significant stocks are valued at average or actual cost.

4.1.3.6 Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. There are three main classes of financial assets measured at:

- amortised cost,

Section 4 – Notes to the Financial Statements

- fair value through profit or loss (FVPL), and
- fair value through other comprehensive income (FVOCI)

The Council's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (that is, where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the CIES for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

However, the Council has made a number of loans to voluntary organisations at less than market rates (soft loans). When soft loans are made, a loss is recorded in the CIES (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal.

Interest is credited to the Financing and Investment Income and Expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Any gains and losses that arise on de-recognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost (or where relevant FVOCI), either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Council.

The Council has extended the simplified approach to lease receivables and trade receivables and contract assets where there is a significant financing component.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

The Council has a portfolio of a significant number of loans to local businesses. It does not have reasonable and supportable information that is available without undue cost or effort to support the measurement of lifetime expected losses on an individual

instrument basis. It has therefore assessed losses for the portfolio on a collective basis.

The Council has grouped the loans into three groups for assessing loss allowances:

Group 1 – these loans were made to companies under control of the Council and within the group accounts. A scoring matrix system has been used to assess the risk of default for each loan. Loss allowances for these loans can be assessed on an individual basis.

Group 2 – these loans were made to non-controlled companies (outside of the Council group accounts). A scoring matrix system has been used to assess the risk of default for each loan. Loss allowances for these loans can be assessed on an individual basis.

Group 3 – for the residual group of loans, the Council relies on past due information and calculates losses based on lifetime credit losses for all loans more than 30 days past due.

Financial Assets Measured at Fair Value through Profit of Loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

Financial Assets Measured at Fair Value through other comprehensive income

Financial assets that are measured at FVOCI are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in other comprehensive income.

Fair value measurements of financial assets

The fair value measurements of the financial assets are based on the following techniques:

- Instruments with quoted market prices – the market price.
- Other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the Council can access at the measurement date.
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

The Council may, where it sees fit, and within the guidelines of the Code decide to designate investments in equity instruments to FVOCI or transact reclassifications, modifications or de-recognition or transfer of financial assets when applicable transactions occur.

Section 4 – Notes to the Financial Statements

4.1.3.7 Financial Liabilities

Financial liabilities except those held for trading are recognised on the Balance Sheet initially at fair value and carried at their amortised cost. Interest payable is charged to the Financing and Investment Income and Expenditure line of the CIES. The amount shown in the Balance Sheet is the carrying amount of the loan as at 31st March.

Financial liabilities held for trading are recognised at fair value through profit and loss.

Financial guarantees are recognised as a provision held at fair value based on the expected probability of the guarantee being called as at the balance sheet date.

Where premiums and discounts have been charged to the CIES as part of restructuring the debt portfolio, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the CIES to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

4.1.3.8 Provisions

Provisions have only been recognised in the accounts where there is a legal or constructive obligation to transfer economic benefits as a result of a past event and where such an amount can be reliably estimated. Provisions are charged to the CIES and, depending on their materiality, are either disclosed as a separate item on the Balance Sheet or added to the carrying balance of an appropriate current liability. When expenditure is eventually incurred, it is charged to the provision set up in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year. Where it is apparent that the provision is not required or is lower than originally anticipated, the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party, for example from an insurance claim, this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

4.1.3.9 Contingent Liabilities

Where a potential provision cannot be accurately estimated or an event is not considered sufficiently certain, it has not been included in the accounts but is instead disclosed in the notes as a contingent liability. A contingent liability also occurs where a liability may arise but is dependent upon the outcome of future events before it can be confirmed.

4.1.3.10 Defined Benefit Schemes (Local Government Pension Scheme)

For defined benefit schemes, pension fund assets are accounted for at fair value.

Pension liabilities are measured on an actuarial basis, using an assessment of the future payments that will be made for retirement benefits earned to date by employees. This assessment includes assumptions about mortality rates, employee turnover rates and projections of projected earnings for current employees.

Liabilities are discounted at the Balance Sheet date using a discount rate that takes into account the duration of the employer's liabilities and the requirements of IAS19. The discount rate chosen is the Single Equivalent Discount Rate which uses the annualised Merrill Lynch AA rated corporate bond yield curve and assumes the curve

is flat beyond the 30 year point. The estimate of the Council's past service liability duration is 17 years.

4.1.3.11 Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by transferring amounts out of the General Fund balance. Transfers to and from reserves are shown in the MIRS and not within services. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on Provision of Services in the CIES. The reserve is then transferred back into the general fund balance so that there is no net charge against Council Tax for the expenditure. Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement, and employee benefits and are not usable resources for the Council.

4.1.4 Policies affecting the Cash Flow Statement

4.1.4.1 Cash and Cash Equivalents

The Council's Cash Flow Statement reflects the movements in cash and cash equivalents during the year and is shown net of bank overdrafts that are repayable on demand. Cash is represented by cash in hand and deposits with the Council's own bank. Cash equivalents are deposits with financial institutions repayable without penalty on notice of not more than 24 hours. This includes Council deposits in other UK bank call accounts and Money Market Funds.

4.1.5 Policies used to account on a Funding Basis

In a number of areas statutory provisions require the Council to account for transactions relating to the General Fund (and subsequently the amount to be raised from Council Tax) differently from the treatment required by IFRS. In each case the adjustment required is offset by a transfer to a specific reserve. The adjustments are shown within the MIRS as adjustments between accounting basis and funding basis under statutory provisions.

4.1.5.1 Depreciation, amortisation, revaluation gains and losses and impairment

Instead of these charges the Council is required to make an annual provision from revenue to contribute towards the reduction in its borrowing requirement (in line with the Council's published Minimum Revenue Provision policy). The difference between the two transactions is adjusted within the Capital Adjustment Account.

For the HRA, depreciation is replaced by a contribution to the Major Repairs Reserve.

4.1.5.2 Gains and Losses on Sale of Assets

Where sale proceeds are in excess of £10k, the gain or loss on sale or disposal (including finance leases) is removed from the CIES and adjusted with the Usable Capital Receipts Reserve (sale proceeds) and the Capital Adjustment Account (carrying value in the Balance Sheet).

A proportion of receipts relating to HRA disposals is payable to the Government and a corresponding sum is therefore transferred back from the Capital Receipts Reserve to the General Fund.

Section 4 – Notes to the Financial Statements

4.1.5.3 Capital grants

Capital Grants are reversed out of the General Fund to the Capital Grants Unapplied Account. When the grant is applied to fund capital expenditure, it is posted to the Capital Adjustment Account.

4.1.5.4 Revenue Expenditure Funded from Capital under Statute (REFCUS)

Certain items of expenditure and related grant funding charged to the CIES under IFRS may be treated as capital for funding purposes. A transfer is made between the General Fund and the Capital Adjustment Account reserve for these items.

4.1.5.5 Employee Benefits

Accruals made for holiday entitlements or leave are reversed out of the General Fund to the Accumulated Absences Account.

In relation to retirement benefits, statutory provisions require the General Fund Balance to be charged with the amount payable by the authority to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the MIRS, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

4.1.5.6 Termination Benefits - Pension Enhancements

Pension costs calculated according to IAS 19 are replaced by the actual pension payment for the year. The difference between the two transactions is transferred between the General Fund and the Pensions Reserve.

4.1.5.7 Financial Liabilities

Where premiums and discounts have been charged to the CIES as part of restructuring the debt portfolio, regulations allow the impact on the General Fund to be spread over future years. The gain or loss is spread over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The difference between the two approaches is transferred between the General Fund and the Financial Instruments Adjustment Account.

4.1.5.8 Financial Assets

Statutory provisions allow the General Fund to be charged with the actual interest receivable for the financial year. The adjustment to the CIES for soft loans is therefore removed and adjusted within the Financial Instruments Adjustment Account.

4.1.5.9 Use of Reserves

The Council may make a charge against the General Fund to set aside specific amounts as reserves for future policy purposes or to cover contingencies. The Council may then also choose to use these reserves to reduce the impact on the General Fund when the expenditure is incurred.

4.1.6 Accounting Policies not relevant or not material

The accounting policies are reviewed each year to assess whether it is appropriate for individual policies to be included. There are a number of accounting policies that have not been included above, because the statements are not materially affected by their implementation or they are not relevant. These policies include:

- Use of capital receipts to fund disposal costs
- Intangible Assets – Recognition of website development and other internally generated assets
- The treatment of bonds
- Community Infrastructure Levy
- Subsequent revaluation of assets held for sale
- Provision for back pay arising from unequal pay claims
- Treatment of foreign currency translations
- Discontinued operations
- Contingent Assets

Section 4 – Notes to the Financial Statements

4.2 Expenditure and Funding Analysis (EFA) and Notes

4.2.1 Expenditure and Funding Analysis

The objective of the EFA is to demonstrate to Council Tax payers how the funding available to the Council (government grants, rents, Council Tax and NNDR) for the year has been used in providing services in comparison with those resources consumed or earned by the Council in accordance with generally accepted accounting practices. The EFA also shows how this expenditure is allocated for decision making purposes between the Council's portfolios. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the CIES.

As outlined in note 4.3.1 Prior Year Reclassifications, the 2022/23 EFA and associated notes have been restated to align with the 2023/24 directorate position of the Council. This restatement only alters the classification of the portfolios / directorates and overall the total value is unchanged.

Section 4 – Notes to the Financial Statements

Adjustments for Capital Purposes

Included within Net Cost of Services:

- Fixed asset adjustments for depreciation, impairment and revaluation gains and losses.
- Revenue expenditure funded from capital under statute (REFCUS).

Included within Other Income and Expenditure from the Expenditure and Funding Analysis:

- Other operating expenditure:
 - Net gains and losses on the disposal of fixed assets
 - HRA capital receipts pooling payment
- Financing and investment income and expenditure:
 - Investment Properties gains and losses on disposals and movements in valuation
 - Investment impairment
 - Statutory charges for capital financing including Minimum Revenue Provision
 - Capital expenditure funded from the General Fund Balance and transfers to the Major Repairs Reserve
- Taxation and non-specific grant income and expenditure:
 - Capital grants where conditions permit the application for capital financing

Net Change for the Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income:

- For services this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs and past service costs.
- For Financing and investment income and expenditure – the net interest on the defined benefit liability is charged to the CIES.

Other Differences

For services this includes employee benefit accruals, and for:

- Financing and investment income and expenditure - timing differences for premiums and discounts.
- Taxation and non-specific grant income and expenditure - the difference between what is chargeable under statutory regulations for Council Tax and NNDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future surpluses or deficits on the Collection Fund.

4.2.3 EFA Note - Analysis of Items in Net Expenditure Chargeable to the General Fund and HRA

This note shows the income and expenditure by portfolio.

HRA

The General Fund Revenue Outturn does not include the HRA. The HRA Outturn is reported separately. The HRA adjustment therefore reflects the adjustment required to reconcile to the 'Net Expenditure Chargeable to the General Fund and HRA Balances'.

Movement of items that do not report into Net Cost of Service Portfolios in the CIES/EFA

These adjustments are in relation to those items that are not reported in the portfolios of the Net Cost of Service within the CIES and EFA. These items report into 'Financing and investment income and expenditure' or 'Taxation and non-specific grant income' lines of the CIES (Other income and expenditure line of the EFA). These include for example, items such as the Treasury Management function and some government grants - these are reported as Corporate Items in the Outturn figures.

Other

In 2023/24 this includes the reversal out of General Fund to the Financial Instruments Adjustment Account £15.273m in relation to a discount given on the early repayment of debt.

4.3 Comprehensive Income and Expenditure Statement Notes

4.3.1 Prior Year Reclassifications

In line with the CIPFA reporting requirements the service part of the CIES is based on the organisational structure of the Council i.e. directorates. The 2022/23 CIES and associated notes have been restated where required to align with the 2023/24 directorate position of the Council. This restatement only alters the classification of the portfolios / directorates and overall the total value is unchanged.

The following table analyses the reclassification of directorates within the CIES Cost of Services with regards to 2022/23 and the restated figures:

Directorates as shown in the 2022/23 Statement of Accounts		Reclassification movements of 2022/23 to align with the 2023/24 Directorates		Restated 2022/23 with the 2023/24 Directorates

Impairment of receivables				(0.436)				(0.479)
TOTAL INCLUDED IN THE CIES				(289.166)				(329.411)

As outlined in note 4.3.1 Prior Year Reclassifications, 2022/23 has been restated to align with the 2023/24 directorate position of the Council. This restatement only alters the classification of the directorates and overall the total value is unchanged.

Section 4 – Notes to the Financial Statements

Transaction price is calculated and allocated in accordance with legislation and reflects the Council's legal ability to recover costs from the service recipients.

The Council typically satisfies its performance obligations upon delivery of goods or services to recipients. Standard payment terms are either 30 days for services where invoices are raised e.g. Commercial Waste Collection or immediate where payment is made at the point at which the service or good is received e.g. admission to leisure centres. Contracts do not typically contain financing components and the consideration received is not variable.

Revenue is recognised either over time or at a point in time. Revenue recognised over time is measured using the input method, based on costs incurred or resources consumed as applicable to individual contracts. Revenue is recognised at a point in time when the service recipient obtains control of the promised goods or services from the Council.

Timing of revenue recognition	2022/23		2023/24	
	Over time	At a point in time	Over time	At a point in time
	£m	£m	£m	£m
Fees and charges under statutory requirements	(110.002)	(1.239)	(118.572)	(1.178)
Sale of goods	-	(7.162)	-	(5.707)
Charges for services	(124.721)	(45.605)	(157.756)	(45.718)
TOTAL	(234.723)	(54.006)	(276.328)	(52.604)

Amounts included in the Balance Sheet for contracts with service recipients are shown in the following table:

	31 March 2023 £m	31 March 2024 £m
Receivables included in debtors	57.872	60.128
Contract liabilities	(10.504)	(11.521)
TOTAL	47.368	48.607

For most goods and services provided by the Council payment is made at the point of provision or when an invoice is raised to the service recipient. Services where payment is made in advance of receipt are recognised as contract liabilities, these include:

- Planning and Building Control Fees
- Advance ticket sales for performances at the Theatre Royal and Concert Hall
- Licensing

For Planning and Building Control Fees income is recognised in the CIES when the application is approved or the inspection regime is completed. For advance ticket sales, income is recognised when the show has been performed and for Licensing income is recognised as licences are issued and enforcement activity is carried out. The contract liabilities balance is reduced as income is recognised in the CIES.

Where the right of the Council to income is conditional on the provision of further goods or services to the customer, such income is recorded as a contract asset. This is applicable to income relating to service charges for commercial property owned by the

Section 4 – Notes to the Financial Statements

Council. Costs are recognised as services are provided to customers. At year end where services are not complete, the cost is de-recognised in the CIES and recognised as a contract asset on the balance sheet.

Changes in the contract assets and contract liabilities balances during the year are as follows:

	2022/23		2023/24	
	Contract Assets £m	Contract Liabilities £m	Contract Assets £m	Contract Liabilities £m
Balances at 1 April	-	(14.971)	-	(10.504)
Reversal for amounts recognised in the CIES in year	-	14.971	-	10.504
Increases (decreases) due to cash received (paid)	-	(10.504)	-	(11.521)
BALANCE AT 31 MARCH	-	(10.504)	-	(11.521)

The value of revenue that is expected to be recognised in the future but has performance obligations that are unsatisfied (or partially unsatisfied) at the yearend is shown in the following table:

	31 March 2023 £m	31 March 2024 £m
Not later than one year	(9.868)	(9.081)
Later than one year	(0.636)	(2.440)
TOTAL	(10.504)	(11.521)

4.3.8 Revaluation of Property, Plant and Equipment (PPE)/Heritage assets

During 2023/24 revaluation gains and losses charged to Other Comprehensive Income and Expenditure amounted to a net revaluation gain of £103.587m for PPE assets (see note 4.4.1) and £2.988m for Heritage Assets (see note 4.4.2). There are no charges within Other Operating Expenditure relating to physical damage and demolition of assets in 2023/24.

4.3.9 Transactions Relating to Post-Employment Benefits (including Pensions)

The tables below show how the IAS19 Employee Benefits standard impacts on the CIES:

	Local Government Pension Scheme		Teachers Benefits	
	2022/23	2023/24	2022/23	2023/24
	£m	£m	£m	£m
Cost of Services:

** The Gross Book Value, Accumulated Depreciation and Accumulated Impairment do not total to the Net Book Value shown in the table as these figures are not provided for Infrastructure Assets. The Net Book Value total does include Infrastructure Assets.

Highways Infrastructure Assets - Movements on balances

In accordance with the temporary relief offered by the Update to the Code on infrastructure assets [Local Government Circular 09/2022] this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements.

The authority has chosen not to disclose this information as the previously reported practices and resultant information deficits mean that gross cost and accumulated depreciation are not measured accurately and would not provide the basis for the users of the financial statements to take economic or other decisions relating to infrastructure assets.

Net Book Value at 31 March 2023	31.591	220.549

Depreciation

In line with the Accounting Policies for PPE (notes 4.1.1.8 and 4.1.3.1) the following useful lives and depreciation rates have been used in the calculation of depreciation:

	Overall Range
Council Dwellings – Existing Use Value - Social Housing	Up to 65 years
Other Land and Buildings	Up to 65 years
Furniture & Equipment	Up to 20 years
Vehicles	Up to 10 years
Infrastructure Assets	Up to 100 years

Where the Council departs from standard lives, the lives used are within the overall range outlined in the table above.

Revaluations

The Council carries out a rolling programme that ensures that all PPE carried at 'current value' is revalued at least every 5 years. Valuations of land and buildings are carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture and equipment are based on depreciated historical cost as a proxy for current value.

Section 4 – Notes to the Financial Statements

During 2023/24, asset valuations for operational properties were completed in compliance with the 5-year requirement. In addition, a number of valuations outside the Council's 5-year programme, for properties undergoing significant changes because of capital investment, material impairment or reclassification were completed.

A desktop beacon valuation of Council Dwelling beacon properties by the Council's internal valuers with support from external valuers HEB was also completed in 2023/24.

Valuers' Assumptions - Cyclical and Non-Cyclical Valuations

- States of Repair - All properties have been assumed to be in good condition unless specific disrepair has been identified and this has been taken into account in the valuation.
- Contamination – Unless there is specific evidence, it is assumed that the properties are not, nor are likely to be affected by land contamination and that there are no ground conditions that affect the present or future use of the properties. Where there is evidence of contamination, this has been reflected in the valuation unless the cost of decontamination work would be immaterial.
- Title - It is assumed that there are no encumbrances on title.
- Council Housing Stock Valuation – beacon revaluation (see note 5.1.3.3 for details).

Material Revaluation Gains, Losses and Impairments

Revaluation movements included an overall reduction of £18.351m for Council Dwellings. This included £23.522m loss posted to the Housing Revenue Account.

In line with the Accounting Policies for PPE, the Council's componentisation policy has been applied to recognition, revaluation and depreciation of fixed assets during 2023/24.

Valuation at 31 March 2024

The Council's rolling revaluation programme is summarised below:

DESCRIPTION	Council Dwellings £m	Other Land and Buildings £m	Vehicles, Plant, Furniture & Equipment £m	Infrastructure Assets £m	Community Assets £m	Surplus Assets £m	Assets Under Construction £m	Total £m

Capital Commitments

At 31 March 2024, the Council had entered into a number of contracts for the construction or enhancement of PPE with future costs estimated as £57.849m. The equivalent figure as at 31 March 2023 was £64.682m. The major commitments are summarised below:

Capital Programme Element	Major Schemes	31 March 2024 £m
Transport	Transforming Cities	8.212
Transport	Other Transport Schemes (Under £1.0m)	8.768
General Fund	Fleet Replacement Programme	5.661

HRA	Padstow Ridgeway New Build	3.142
HRA	Beckhampton New Build	2.290
HRA	Nottingham Secure Windows & Doors Outsourced	2.195
HRA	Modern Living	1.163
HRA	Other HRA Schemes (Under £1.0m)	8.967
TOTAL		57.849

Section 4 – Notes to the Financial Statements

4.4.2 Heritage Assets

The Council's register of Heritage Assets includes over 90,000 items (excluding the natural history collection). The natural history collection is a collection of animals, plants and other living things which hold no monetary value and are held by the Council solely for their scientific value. The Council holds its Heritage Assets as a contribution to the knowledge and cultural development of both citizens and visitors. The Heritage Assets items are either held on display at one of the Council's museums or held in storage, where access is encouraged.

These collections are reported either at cost or an adjusted external valuation, based on an annually updated market value, usually provided for insurance purposes. Items reported at cost are usually awaiting a market valuation.

Preservation and Management

Each of the collections is managed by a curator who is responsible for their care and management in accordance with Nottingham City Council policies and national guidelines. This policy requires that Heritage Assets are only disposed of when it is considered that they no longer contribute to the interest of the general public in their subject area. Although acquisitions are rare and primarily made by donation, on those rare occasions when a particularly important asset is available for purchase, the Council will apply for funding and undertake the purchase, provided that it meets the Council's objectives.

4.4.3 Investment Property

There are no restrictions on the Council's ability to sell its investment property or on its right to related income and the proceeds of disposal. There are no contractual obligations to purchase, construct or develop investment property or to conduct repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year:

	2022/23 £m	2023/24 £m
Balance at 1 April	246.106	222.148
Additions	-	0.012
Disposals	(12.476)	(17.557)
Net gains/(losses) from fair value adjustments	(11.482)	(19.709)
Transfers to / from Property Plant and Equipment	-	15.660
BALANCE AT 31 MARCH	222.148	200.554

Details of related income and expenditure included in the CIES are shown in note 4.3.4.

Fair Value Hierarchy

Details of the Council's investment properties and information about the fair value hierarchy as at 31 March 2024 are as follows:

	Quoted prices in active markets for identical assets (Level 1) £m	Other significant observable inputs (Level 2) £m	Significant unobservable inputs (Level 3) £m	Fair value as at 31 March 2024 £m
Industrial	-	34.252	-	34.252
Land	-	32.007	-	32.007
Leisure / Other	-	17.682	-	17.682
Office	-	49.227	-	49.227
Retail	-	58.502	-	58.502
Services	-	8.885	-	8.885
Total	-	200.554	-	200.554

Valuation Techniques used to Determine Level 2 Fair Values for Investment Properties:

Investment properties are assets which are judged to be held solely to generate rental income or for capital appreciation purposes. All valuations have been assessed at level 2 for valuation purposes. When assessing the value, the strongest regard is given to recent comparable market evidence for rents and yields, but other factors may also be integrated and considered such as covenant strength of occupiers, nearby factors that may affect value, general market movements, macro-economic and political factors, and general market knowledge acquired from actively managing a portfolio of investment properties.

Highest and Best Use of Investment Properties

In estimating the fair value of the authority's investment properties, the highest and best use of the properties is their current use.

Valuation Techniques

IFRS13 Fair Value accounting has been used during financial year 2023/24 for investment properties.

Valuation Process for Investment Properties

The fair value of the Council's investment properties is measured annually. The valuations are carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institute of Chartered Surveyors.

Amounts used	3.560	1.753	0.394	5.707
BALANCE AT 31 MARCH 2024	(17.158)	(8.461)	(4.444)	(30.063)

Insurance Compensation Claims

The Council maintains an insurance provision to meet the cost of claims arising from self-insured risks, risks which fall below the external policy retention levels and for payment of external insurance premiums.

The majority of costs met from the provision arise from property damage, liability claims made against the Council and motor accidents involving Council motor vehicles. In order to limit the Council's exposure to these risks the policies for external fire, motor and liability claims have been arranged with excesses of £0.250m, £0.100m and £0.373m respectively. To further protect the Council's exposure to significant payments, aggregate stop losses are in place, which limit the total value of claims that the Council will have to fund in one policy year. The stop losses for the 2023/24 policy year were £5.1m for liability claims, £1.072m for motor claims and £2m for general property (operational, housing and education) and £15m for commercial properties. Other costs falling on the provision include self-insured risks and the payment of insurance premium for policies where the risk has been transferred to the market.

Contributions to the insurance provision arise from annual charges to service areas. These maintain the insurance provision at a sufficient level to meet current claim liabilities, which includes an element of incurred but not reported claims. In addition to the known and estimated liabilities there are also potential liabilities on the fund that have not been included in the fund balance and are included in the reserve. The insurance fund has an external actuarial review every two years to ensure the Council maintains sufficient funds to meet the Council's future liabilities.

National Non-Domestic Rates (NNDR)

This represents the Council's share of NNDR appeals provision. The Council bears a risk of non-collection of NNDR following appeals. £3.577m is the value of successful appeals charged against the provision in 2023/24. An increase of £17.268m in the provision has been made as a result of the assessment of outstanding appeals at 31st March 2024.

Employment

A provision of £4.444m has been set aside to meet the potential cost of settlements arising from an ongoing employment tribunal case.

4.4.10 Usable Reserves

Movements in the Council's usable reserves are summarised in the Movement in Reserves Statement (Table 3.3).

Details of the Earmarked General Fund reserves are shown below:

	2022/2023		2023/24		
	Balance at 1 April 2022 £m	Net Movements £m	Balance at 31 March 2023 £m	Net Movements £m	Balance at 31 March 2024 £m
Restricted Reserves:					
Capital	5.757	(1.897)	3.860	1.230	5.090
Schools	23.714	6.485	30.199	(3.759)	26.440
Other Reserves:					
Asset Maintenance	3.088	0.069	3.157	0.708	3.865
Contingency and Risk	36.936	(6.987)	29.949	(0.033)	29.916
Information Technology	8.848	(1.261)	7.587	(2.401)	5.186
Local Economy	3.227	(0.540)	2.687	(0.496)	2.191
Private Finance Initiatives	49.502	3.251	52.753	(4.650)	48.103
Services	14.457	15.654	30.111	8.357	38.468
Transformation	7.632	7.185	14.817	3.138	17.955
Treasury Management	25.639	(12.146)	13.493	-	13.493
Workforce	7.775	(5.571)	2.204	(0.244)	1.960
TOTAL	186.575	4.242	190.817	1.850	192.667

Restricted reserves have been identified separately as they are generally not available to support General Fund revenue expenditure.

The detailed categories are explained below:

Capital

Sums that have been set aside in previous years to provide additional funding for the capital programme or to manage the impact of new capital schemes that have not yet been included in the capital programme.

Schools

This represents funds that have been allocated to schools under Local Management of Schools legislation, and which remains unspent at the year end. This reserve is not available to support other General Fund expenditure.

Asset Maintenance

These reserves are available to help maintain the Council's properties and other assets, particularly where there are significant and/or periodic requirements to ensure the Council's assets are adequately maintained.

Contingency & Risk

Certain areas of expenditure are subject to volatility. Reserves are therefore set aside to help manage the impact on the General Fund of significant changes in costs year on year in specific areas.

Section 4 – Notes to the Financial Statements

These reserves reflect the potential future liabilities in relation to insurance claims, Housing Benefits and Business Rates and provide resources to help reduce or deal with risk management issues that arise.

Information Technology

These reserves are set aside to provide a source of funding for any major changes to information technology that may be required.

Local Economy

The Council has set aside reserves that will allow investment in the local economy. These are generally used to help local businesses and residents.

Private Finance Initiatives

PFI reserves exist for a number of schemes as a result of Government funding received in advance to finance future years' liabilities. This income is therefore set aside to ensure sufficient funds are available to cover the cost of contracts in future years.

Services

Where services have identified one-off items of revenue expenditure that are likely to be incurred in future years.

Transformation

These reserves are available to help meet costs incurred when implementing business and service efficiencies within the Council, including the cost of implementing the new Enterprise Resource Planning system ahead of business change benefits.

Treasury Management

Impact of economic or financial market volatility and compliance with IFRS 9 impairment losses which are subject to annual review.

Workforce

This reserve is primarily available to fund pension costs.

4.4.11 Unusable Reserves

Unusable reserves have been created as a result of the difference between accounting under IFRS and statutory provisions for meeting expenditure from the General Fund. These reserves represent differences due to timing of funding certain items of expenditure and are not available as a source of general funding.

	2022/23 £m	2023/24 £m
Revaluation Reserve	1,026.146	1,095.701
Capital Adjustment Account	1,240.832	1,256.921
Financial Instruments Adjustment Account	(4.865)	10.854
Pensions Reserve	(84.785)	(88.600)
Deferred Capital Receipts Reserve	6.729	1.041
Collection Fund Adjustment Account	(1.039)	2.985
Accumulated Absences Account	(5.553)	(5.553)
TOTAL UNUSABLE RESERVES	2,177.465	2,273.349

Revaluation Reserve

The Revaluation Reserve contains the gains made arising from increases in the value of its PPE. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost,
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The reserve contains only revaluation gains accumulated since 1 April 2007, when the reserve was first created. Gains arising prior to 1 April 2007 are consolidated into the balance on the Capital Adjustment Account.

	2022/23 £m	2023/24 £m
Balance at 1 April	808.185	1,026.146
Upward revaluation of assets	299.203	140.365
Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	(40.161)	(33.790)
Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	259.042	106.575
Difference between fair value depreciation and historical cost depreciation	(16.997)	(29.396)
Accumulated gains on assets sold or scrapped	(24.084)	(7.624)
Amount written off to the Capital Adjustment Account	(41.081)	(37.020)
BALANCE AT 31 MARCH	1,026.146	1,095.701

Section 4 – Notes to the Financial Statements

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement. Depreciation, impairment losses and amortisations are charged to the CIES (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council to finance costs of acquisition, construction and enhancement.

The account also contains accumulated gains and losses on Investment Properties, gains recognised on donated assets yet to be consumed by the Council, and revaluation gains accumulated on PPE prior to 1 April 2007.

	2022/23	2023/24
	£m	£m
Balance at 1 April	1,178.892	1,240.832
Reversal of items relating to capital expenditure debited or credited to the CIES:		
Amortisation of intangible assets	(1.380)	(1.235)
Charges for depreciation of non-current assets	(89.134)	(86.322)
Charges for impairment of non-current assets	0.200	-
Revaluation losses on Property, Plant and Equipment	42.643	(27.173)
Movements in the market value of Investment Properties	(11.482)	(19.709)
Revenue expenditure funded from capital under statute (REFCUS)	(103.090)	(99.492)
REFCUS expenditure funded by grants	94.916	74.943
Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	(78.986)	(51.528)
Charges for impairment of investment in subsidiary	(0.112)	(0.589)
Adjusting amounts written out of the Revaluation Reserve	41.081	37.020
	(105.344)	(174.085)

Use of Capital Receipts Reserve to repay debt	23.015	27.587
Use of the Major Repairs Reserve to finance new capital expenditure	32.083	23.753
Application of grants to fund capital expenditure	37.529	53.112
Statutory provision for the financing of capital investment charged against the General Fund and HRA balances	31.843	27.808
Voluntary provision for the financing of capital investment charged against the General Fund and HRA balances	2.197	2.397
Leasing Adjustments Minimum Revenue Provision	0.002	0.002
Adjustment to MRP as a result of PFI Projects	11.060	11.669
Capital expenditure charged against the General Fund and HRA balances	0.874	12.436
Reduction in Liabilities & Repayment of Long Term Debtors etc:		
Principal Repayment of Capital Loans	(4.972)	(9.065)
	167.284	190.174
BALANCE AT 31 MARCH	1,240.832	1,256.921

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses for certain financial instruments and for bearing losses or benefiting from gains as per statutory provisions. The Council uses the account to manage premiums paid and discounts received on the early redemption of loans. Premiums and discounts are debited or credited to the CIES when they are incurred but reversed out of the General Fund Balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on Council Tax. In the Council's case, this period is the unexpired term that was outstanding on the loans when they were redeemed.

Similar treatment is applied to loans raised by the Council with variable interest rates applied (Lenders Option Borrowers Option loans), and for monies advanced by the Council at less than the market interest rate (soft loans).

	2022/23 £m	2023/24 £m
Balance at 1 April	(5.234)	(4.865)
Premiums incurred in the year	0.363	0.363
Discounts incurred in the year	-	15.273
Lenders Option Borrowers Option Loans	0.006	0.083
BALANCE AT 31 MARCH	(4.865)	10.854

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. Post-employment benefits are accounted for in the CIES as the benefits are earned by employees accruing years of service, liabilities are updated to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. Statutory arrangements require benefits earned to be financed as employer's contributions are made to pension funds or eventually the Council will pay any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources set aside to meet them. Statutory arrangements ensure that funding will have been set aside by the time the benefits are due to be paid.

	2022/23 £m	2023/24 £m
Balance at 1 April	(714.716)	(84.785)
Remeasurements of the net defined benefit liability/asset	665.747	8.034
Reversal of items relating to retirement benefits debited or credited to (Surplus)/Deficit on Provision of Services in the CIES	(77.610)	(61.896)
Employer's pensions contributions and direct payments to the pensioners payable in the year	41.794	50.047
BALANCE AT 31 MARCH	(84.785)	(88.600)

Section 4 – Notes to the Financial Statements

Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as usable for financing new capital expenditure until the cash is received, and it is then transferred to the Capital Receipts Reserve.

	2022/23 £m	2023/24 £m
Balance at 1 April	1.042	6.729
Transfer to the Capital Receipts Reserve upon receipt of cash	-	(5.688)
Created in year	5.687	-
BALANCE AT 31 MARCH	6.729	1.041

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of Council Tax and NNDR income in the CIES as it falls due, compared with the statutory arrangements (funding basis) for paying across amounts to the General Fund from the Collection Fund.

	2022/23 £m	2023/24 £m
Balance at 1 April	(20.866)	(1.039)
Adjustment for council tax income and NNDR credited to the CIES on an accounting basis instead of funding basis	19.827	4.024
BALANCE AT 31 MARCH	(1.039)	2.985

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements (funding basis) require it to be treated as an unusable reserve so that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

	2022/23 £m	2023/24 £m
Balance at 1 April	(6.259)	(5.553)
Settlement or cancellation of accrual made at the end of the preceding year	6.259	5.553
Amounts accrued at the end of the current year	(5.553)	(5.553)
Adjustment to CIES to include officer remuneration on an accounting (accruals) basis instead of funding basis	0.706	-
BALANCE AT 31 MARCH	(5.553)	(5.553)

4.4.12 Grants Received in Advance

Revenue Grants Received in Advance

The Council has received a number of Revenue grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies to be returned if they are not met.

The balances at the year-end are as follows:

	31 March 2023 £m	31 March 2024 £m
Department for Education	(2.707)	(2.706)
Department of Health and Social Care	(9.315)	(3.674)
Department for Environment, Food and Rural Affairs	(0.018)	(0.146)
Department for Levelling Up, Housing & Communities	(4.127)	(2.994)
Department for Business, Energy and Industrial Strategy	(12.736)	(14.666)
Department for Transport	(0.876)	(0.643)
Department for Work and Pensions	-	(1.299)
Home Office	(2.156)	(3.313)
Arts Council England	(0.012)	(0.067)
Other Government Grants	(0.281)	(3.328)
Other Non Government Grants and Contributions	(0.314)	(0.119)
TOTAL	(32.542)	(32.955)

There is also £0.141m (£0.105m as at 31 March 2023) of Revenue grant re S106 Contributions – Transport / Public Realm / Training, which is classed as a long term receipt in advance on the balance sheet.

Capital Grants Received in Advance

The Council has received a number of Capital grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned if they are not met.

The balances at the year-end are as follows:

	31 March 2023 £m	31 March 2024 £m
Department for Education	(20.989)	(28.391)
Department for Transport	(61.693)	(80.019)
Ministry of Housing, Communities and Local Government	(2.202)	(1.428)
Department for Business, Energy & Industrial Strategy	(44.531)	(4.625)
Office for Low Emission Vehicles	(0.002)	-

S106 Contributions - Transport / Public Realm / Flood Prevention	(3.828)	(4.949)
Other Grants and Contributions	(7.856)	(8.194)
TOTAL	(152.255)	(138.987)

Section 4 – Notes to the Financial Statements

4.4.13 Defined Benefit Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make payments as employees earn their future entitlement.

The Council participates in three post-employment schemes:

- The Local Government Pension Scheme (LGPS), administered locally by Nottinghamshire County Council.
- The Teachers' Pension Scheme, managed by the Department for Education (DfE) and administered by Capita Business Services Ltd.
- The NHS Pension Scheme, administered by the NHS Business Services Authority.

Further details for these schemes can be found in Appendix A.

The following tables explain the amounts in the financial statements. Teachers Benefits data is in respect of additional pensions granted at retirement by the Council and are paid for by the Council as they become due.

Assets and Liabilities in Relation to Post-Employment Benefits

Reconciliation of present value of the scheme liabilities (defined benefit obligation):

	Local Government Pension Scheme		Teachers Benefits	
	2022/23	2023/24	2022/23	2023/24
	£m	£m	£m	£m
Opening balance at 1 April	(2,077.096)	(1,421.635)	(30.746)	(24.846)
Current service cost	(62.312)	(33.652)	-	-
Interest cost	(54.694)	(93.033)	(0.773)	(1.141)
Change in financial assumptions	886.218	38.063	7.008	(0.154)
Change in demographic assumptions	-	23.058	-	0.390
Experience (loss)/gain on defined benefit obligation	(155.441)	(13.454)	(2.388)	(0.154)
Liabilities assumed/extinguished on settlements	1.182	(258.871)	-	-
Estimated benefits paid net of transfers in	51.326	62.399	-	-
Past Service costs including curtailments	(1.019)	(0.618)	-	-
Contributions by scheme participants and other employers	(10.621)	(13.714)	-	-
Unfunded pension payments	0.822	0.848	2.053	2.181
CLOSING BALANCE AT 31 MARCH	(1,421.635)	(1,710.609)	(24.846)	(23.724)

The experience (loss)/gain on the defined benefit obligation includes £13.454m in respect of the allowance for actual pension increases and CPI inflation over the accounting period.

Reconciliation of fair value of the scheme assets:

	Local Government Pension Scheme	
	2022/23	2023/24
	£m	£m
Opening balance at 1 April	1,393.126	1,361.696
Interest on assets	41.268	82.607
Return on assets less interest	(70.341)	53.066
Other actuarial gains/(losses)	0.691	-
Administration expenses	(0.566)	(0.667)
Contributions by the employer including unfunded	39.741	47.866
Contributions by scheme participants and other employers	10.621	13.714
Estimated benefits paid plus unfunded net of transfers in	(52.148)	(63.247)
Settlement prices received/paid	(0.696)	243.479
CLOSING BALANCE AT 31 MARCH	1,361.696	1,738.514

Investment expenses are included in actual return on assets in excess of interest.

Reconciliation of asset ceiling:

	Local Government Pension Scheme	
	2022/23	2023/24
	£m	£m
Opening impact of asset ceiling at 1 April		
Actuarial gains/(losses)	-	(92.781)
CLOSING IMPACT OF ASSET CEILING AT 31 MARCH	-	(92.781)

The asset ceiling is the present value of any economic benefit available to the Council in the form of refunds or reduced future employer contributions. The calculation of the asset ceiling has followed the Actuary's interpretation of IFRIC 14.

The Actuary's calculations assume that:

- There is no prospect of the Council having an unconditional right to a refund of surplus on the basis that such a payment would be at the discretion of the Fund.
- The Council is a scheduled body and assumed to participate indefinitely.
- Primary contributions are considered to be a minimum funding requirement (MFR).
- The MFR exceeds the current cost of accrual and so the potential economic benefit from future contribution reductions is nil.
- An additional liability of £57,158k is recognisable in respect of the Council's obligation to pay future deficit contributions, thereby increasing or generating an irrecoverable surplus.
- The value of the asset ceiling is therefore -£57,178k. The impact of the asset ceiling is shown above.

Section 4 – Notes to the Financial Statements

The net pension liability shown in the balance sheet as at 31 March is as follows:

	Local Government			
	Pension Scheme		Teachers Benefits	
	31 March	31 March	31 March	31 March
	2023	2024	2023	2024
	£m	£m	£m	£m

Fair value of Fund assets (bid value)	1,361.696	1,738.514	-	-
Net Liability	(51.617)	35.603	-	-
Present value of unfunded obligation	(8.322)	(7.698)	(24.846)	(23.724)
Impact of asset ceiling	-	(92.781)	-	-
NET DEFINED BENEFIT LIABILITY IN BALANCE SHEET	(59.939)	(64.876)	(24.846)	(23.724)

4.4.14 Financial Instruments

The operation of the Council's Treasury Management function is regulated through the Local Government Act 2003 and supplementary guidance issued by DLUHC (formally MHCLG), CIPFA Code of Practice for Treasury Management in the Public Services and the CIPFA Prudential Code for Capital Finance in Local Authorities. The Council approves an annual treasury strategy, reviewing risk and expected activities during the year.

The Code of Practice on Local Authority Accounting in the United Kingdom 2023/24 requires disclosure of information pertaining to the scope, significance and risk associated with the Council's financial instruments.

Categories of Financial Instruments

A financial instrument arises from a contract which creates a financial asset in one organisation and a financial liability in another. Non exchange transactions, such as those relating to taxes and government grants, do not give rise to financial instruments.

The following categories of financial instrument are carried in the Balance Sheet:

Financial Assets

	Long-term				Current			
	Investments		Debtors		Investments		Debtors	
	31 March	31 March	31 March	31 March	31 March	31 March	31 March	31 March
	2023	2024	2023	2024	2023	2024	2023	2024
	£m	£m	£m	£m	£m	£m	£m	£m
Amortised Cost								
Principal	11.743	0.835	97.983	87.190	185.882	258.277	55.317	57.918
Cash & Cash Equivalents	-	-	-	-	141.192	99.732	-	-
Investment accrued Interest	-	-	-	-	2.373	2.575	-	-
Amortised Cost Total	11.743	0.835	97.983	87.190	329.447	360.584	55.317	57.918
Fair value through other comprehensive income - other	-	0.775	-	-	-	-	-	-
TOTAL FINANCIAL ASSETS	11.743	1.610	97.983	87.190	329.447	360.584	55.317	57.918
Non-financial Instrument	12.619	13.245	-	-	-	-	78.844	61.117
TOTAL	24.362	14.855	97.983	87.190	329.447	360.584	134.161	119.035

The long term debtor balances in controlled entities have been moved into Financial Assets at amortised cost. The equity investment in controlled entities remains in Non-Financial Instruments as they are accounted for in the group accounts.

Long Term Debtors

Long Term Debtors by type	31 March 2023	New Loans Issued	Loan Repayments	Expected Loss Allowance Movements	Other Movements	31 March 2024
	£m	£m	£m	£m	£m	£m
Loans to Council Group Company	46.063	-	(6.765)	(7.384)	7.393	39.307
Loans to 3rd Party Organisations	25.632	0.227	(1.720)	-	(0.048)	24.091
PFI Related Debtor	23.490	2.349	(4.698)	-	-	21.141
Housing Debtors	0.738	-	-	-	(0.066)	0.672
Other Debtors	2.060	0.055	(0.058)	-	(0.078)	1.979
TOTAL	97.983	2.631	(13.241)	(7.384)	7.201	87.190

The PFI debtor relates to the NET 2 operators right to use NET Line 1 infrastructure over the term of the PFI agreement.

Other movements are year end technical accounting adjustments including the soft loan accounting and transferring repayments due in the next 12 months to short term debtors

Financial Liabilities

	Long-term				Current			
	Borrowings		Creditors		Borrowings		Creditors	
	31 March 2023	31 March 2024	31 March 2023	31 March 2024	31 March 2023	31 March 2024	31 March 2023	31 March 2024
	£m	£m	£m	£m	£m	£m	£m	£m

Principal	(842.261)	(766.877)	-	-	(35.741)	(37.428)	(77.961)	(99.633)
Loans Accrued Interest	-	-	-	-	(7.316)	(6.667)	-	-
Market Loan Effective Interest Rate Adjustment	(0.896)	(0.816)	-	-	-	-	-	-
PFI and finance lease liabilities	(146.494)	(133.415)	-	-	(12.128)	(12.816)	-	-
Other	-	-	(3.430)	(3.095)	-	-	-	-
TOTAL FINANCIAL LIABILITIES	(989.651)	(901.108)	(3.430)	(3.095)	(55.185)	(56.911)	(77.961)	(99.633)
Non-financial Instrument	-	-	-	-	-	-	(97.469)	(78.006)
TOTAL	(989.651)	(901.108)	(3.430)	(3.095)	(55.185)	(56.911)	(175.430)	(177.639)

Notes:

The principal element of borrowings plus PFI and finance lease liabilities equates to external debt for comparison against the operational boundary.

Borrowings	Long-term		Current	
	31 March 2023	31 March 2024	31 March 2023	31 March 2024
	£m	£m	£m	£m
PWLB	(793.248)	(725.867)	(38.205)	(39.288)
Market Loans	(49.896)	(41.813)	(0.493)	(0.492)
Temporary Debt & Other	(0.013)	(0.013)	(4.359)	(4.315)
Total Borrowings	(843.157)	(767.693)	(43.057)	(44.095)

PWLB borrowings are long term loans of which the majority are at a fixed interest rate with a variety of maturity dates becoming due over the next 50 years. The Public Works Loans Board (PWLB) is a statutory body operating within the United Kingdom Debt Management Office, which is an Executive Agency of HM Treasury.

Section 4 – Notes to the Financial Statements

Market Loans are long term loans all of which are at a fixed interest rate taken from Banks, £26m of these loans are known as LOBO loans where, at specific points, the lender has the option to alter the interest rate charged. Should the lender exercise the option to alter the interest rate, the borrower then has the option to continue with the loan instrument at the new rate or alternatively to terminate the agreement and pay back the sum borrowed with no other penalty.

Temporary Debt & Other are mainly loans taken at fixed interest rates for a duration of less than 12 months from another local authority.

Financial Instruments – Items of interest, expense, gains and losses

The following table discloses the income and expenditure recognised in the CIES for all financial assets and liabilities not held at fair value (calculated using the effective interest method):

	2022/23 £m	2023/24 £m
Net gains/losses on:		
- financial assets measured at amortised cost	3.212	1.452
Total net (gains)/losses in (Surplus)/Deficit on Provision of Services	3.212	1.452
Interest expense	42.252	41.222
Total Expense in (Surplus)/Deficit on Provision of Services	42.252	41.222
Interest income on financial assets measured at amortised cost	(7.360)	(12.699)
Other income	(0.630)	(0.028)
Dividend Income	(0.393)	(0.377)
Total Income in (Surplus)/Deficit on Provision of Services	(8.383)	(13.104)
NET GAIN/(LOSS) FOR THE YEAR	37.081	29.570

The interest expense figures above include £12.390m in 2023/24 and £12.848m in 2022/23 that relate to the HRA which gets recharged accordingly.

Financial Instruments – Fair Values

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. The authority's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

All of the council's financial assets and all non-derivative financial liabilities are carried in the Balance Sheet at amortised cost. Their fair values have been estimated by calculating the net present value of the remaining contractual cash flows at 31st March 2024, using the following methods and assumptions:

- PWLB loans borrowed by the Council have been valued on the basis of using the PWLB new borrowing (certainty rate) discount rates matching the remaining duration of the loans.
- The fair values of other long-term borrowing have been estimated using the new PWLB Certainty Rate loan discount rates (UK government gilt prices plus a margin of 80 bpts) for the most appropriate maturity and repayment profiles as proxy for fair value in the absence of any detailed market transactions.

Section 4 – Notes to the Financial Statements

- The fair values of finance lease and PFI scheme assets and liabilities have been calculated by discounting the contractual cash flows (excluding service charges) at the appropriate AA corporate bond yield.
- Where appropriate the fair value for long term debtors has been estimated using a PWLB equivalent discount rate for new fixed rate loans with the most appropriate maturity and repayment profile as at 31st March 2024. The fair value on the remaining long term debtors is deemed to be the balance outstanding at 31st March 2024.
- No early repayment or impairment is recognised.
- Where an instrument has a maturity of less than 12 months, the fair value is taken to be the principal outstanding, plus accrued interest.
- The fair value of trade and other creditors and debtors is taken to be the billed amount.

Fair values are shown in the following table, split by their level in the fair value hierarchy:

- Level 1 – fair value is only derived from quoted prices in active markets for identical assets or liabilities that the council can access at the measurement date e.g. bond prices.
- Level 2 – fair value is calculated from inputs other than quoted prices that are observable for the asset or liability, e.g. interest rates or yields for similar instruments.
- Level 3 – fair value is determined using unobservable inputs, e.g. non-market data such as cash flow forecasts or estimated creditworthiness.

The fair values calculated are as follows:

	Fair value level	31 March 2023		31 March 2024	
		Carrying amount	Fair value	Carrying amount	Fair value

TOTAL FINANCIAL ASSETS		502.531	508.326	522.757	522.757

* The fair value of short term financial assets and liabilities including trade receivables/payables is assumed to be approximate to the carrying amount.

*** The carrying value is net of expected credit loss allowances and excludes repayments due within 12 months.

Section 4 – Notes to the Financial Statements

The fair value of the debt is greater than the carrying amount because the Council's portfolio of loans includes fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market as at the balance sheet date.

This shows a notional future loss (based on economic conditions at 31 March 2024) arising from a commitment to pay interest to lenders above current market rates.

The authority has a continuing ability to borrow at concessionary rates from the PWLB rather than from the markets. A supplementary measure of the additional interest that the authority will pay as a result of its PWLB commitments for fixed rate loans is to compare the terms of these loans with the new borrowing rates available from the PWLB. If a value is calculated on this basis, the carrying amount of £743.25m would be valued at £573.89m which includes the premium or discount arising on the early repayment.

The fair value of the assets is lower than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is lower than the rates available for similar loans in the market at the balance sheet date.

Financial Guarantee

Local authorities sometimes give financial guarantees that require them to make specified payments to reimburse the holder of a debt if the debtor fails to make payment when due in accordance with the terms of the contract.

Soft Loans

The Council has made a number of loans to voluntary organisations at less than market rates (soft loans). The details of these are £0.374m issued in 2014 then £0.150m issued in 2017, £0.090m issued in 2018, £0.345m issued in 2019/20 and £0.700 issued in 2020/21 and a further £200k in 2021/22 to Nottingham Castle Trust. When soft loans are made, a loss is recorded in the Comprehensive Income and Expenditure Statement for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year. The reconciliation of amounts debited and credited to the Comprehensive Income and Expenditure Statement to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account. The detailed soft loan information is as follows:

	2022/23 £m	2023/24 £m

Section 4 – Notes to the Financial Statements

4.5.2 Post-employment Benefits Transactions

The Council recognises the cost of retirement benefits in the cost of services when they are earned by employees; rather than when the benefits are eventually paid as pensions. The charge required to be made against Council Tax is based on the cash payable in the year, so the real cost of post-employment / retirement benefits is reversed out of the General Fund via the MIRS. The following transactions have been applied to the General Fund Balance via the MIRS during the year:

	Local Government			
	Pension Scheme		Teachers Benefits	
	2022/23	2023/24	2022/23	2023/24
	£m	£m	£m	£m
Movement in Reserves Statement				
Reversal of net charges made to the Surplus or Deficit for the Provision of Services for post employment benefits	(76.837)	(60.755)	(0.773)	(1.141)
Actual amount charged against the General Fund Balance for pensions in the year:				
Employers' contributions payable to scheme	39.741	47.866	-	-
Retirement benefits payable to pensioners	-	-	2.053	2.181

These transactions can be summarised as follows:

	2022/23	2023/24
	£m	£m
Movement in Reserves Statement:		
Reversal of Charges made in accordance with the Code	(77.610)	(61.896)
Charges to General Fund made on a funding basis	41.794	50.047
TOTAL	(35.816)	(11.849)

4.6 Cash Flow Statement Notes

4.6.1 Non Cash Movements in Surplus/Deficit on the Provision of Services

	2022/23 £m	2023/24 £m

Section 4 – Notes to the Financial Statements

4.7 Other Notes

4.7.1 Agency Services

The Council administered a number of grants on behalf of the Government including grants to support local businesses and to individuals to support with rising energy costs. These grants are non-discretionary and have been treated as an agency transaction. Any income not paid out as at 31 March 2024 has been treated as a creditor in the balance sheet.

Scheme	2022/23			2023/24

4.7.2 Jointly Controlled Operations

Nottingham City Council (NCC) runs a joint operation with Leicestershire County Council (LCC) to provide shared transactional finance, human resources and payroll services to both councils under the name of East Midlands Shared Services (EMSS). EMSS operates under a Joint Committee established under section 102 of the Local Government Act 1972. The Joint Committee does not have separate legal personality and so is not a separate entity.

Operations relating to EMSS are carried out at both NCC and LCC premises, with LCC being the employing authority and NCC the host authority. In line with the partnership agreement, the net expenditure is shared between the two authorities by allocating an equal share of the financial benefits (savings) accruing from the operation of EMSS. This has resulted in a share of costs for NCC of 54.28%.

A summary of the income and expenditure of EMSS, and the associated amounts included in NCC's accounts is shown in the following table:

	Amounts included within			
	Total EMSS		NCC Accounts	
	2022/23	2023/24	2022/23	2023/24
	£m	£m	£m	£m

Notes to table:

1. Post holder left March 2023
2. New post holder from July 2023
3. Post holder July 2022 to Mar 2023
4. New post holder from Jan 2023
5. New post holder from Feb 2023, left July 2023
6. Post reports to Chief Executive in 22-23. Post held to Feb 2023
7. New post holder from Feb 2023, left March 2024

Fees Paid to individuals engaged on an interim basis

Interim Strategic Director of Finance & Section 151 Officer from April 22 to June 22 at a cost to the Council of £86,644. This represents the cost of securing the individual's services via an agency, not the amount the individual will have received, which will have been lower.

A total of 551 employees (excluding senior employees) received remuneration of more than £0.050m, of which 112 are employed directly by schools. The figures do not include staff employed by academy schools as they are not Council employees:

Remuneration Banding £	Number of Employees 2022/23	Number of Employees 2023/24
50,000 - 54,999	172	223
55,000 - 59,999	67	155
60,000 - 64,999	30	54
65,000 -69,999	17	31
70,000 - 74,999	42	13
75,000 - 79,999	11	34
80,000 - 84,999	2	9
85,000 - 89,999	4	14
90,000 - 94,999	6	5
95,000 - 99,999	5	4
100,000 - 104,999	2	4
105,000 - 109,999	1	1
110,000 - 114,999	-	1
115,000 - 119,999	1	1
120,000 - 124,999	1	-
125,000 - 129,999	-	1
155,000 - 159,999	1	-
165,000 - 169,999	-	1
TOTAL	362	551
GRAND TOTAL	362	551

Section 4 – Notes to the Financial Statements

The number of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the following table:

Exit Package Cost Band	Number of Compulsory Redundancies		Number of Voluntary Redundancies		Number of Other Departures		Total Number of Exit Packages		Total Cost of Exit Packages	
	2022/23	2023/24	2022/23	2023/24	2022/23	2023/24	2022/23	2023/24	2022/23	2023/24
	£									
Up to £20,000	5	3	35	1	-	2	40	6	299,711	43,149
£20,001 to £40,000	0	1	17	6	-	-	17	7	450,336	188,598
£40,001 to £60,000	1	1	2	-	-	1	3	2	140,396	101,221
£60,001 to £80,000	1	2	3	-	-	-	4	2	297,327	140,042
£100,001 to £150,000	-	2	-	1	-	-	-	3	-	371,262
TOTAL	7	9	57	8	-	3	64	20	1,187,770	844,272

4.7.5 External Audit Costs

Costs for the audit of the Statement of Accounts, certification of grant claims and returns (which relate to prior year claims) and other services provided by the external auditors:

	2022/23 £m	2023/24 £m
Statutory audit	0.142	0.604
Certification of other grant claims and returns	0.008	-
Fees payable in respect of other services provided by the external auditors during the year	-	0.010
TOTAL	0.150	0.614

The 2023/24 audit is not yet concluded and there may be further variations in the fees.

4.7.6 Dedicated Schools Grant (DSG)

The Council's expenditure on schools is funded primarily by DSG provided by the Department for Education. This is a ring-fenced grant and can only be applied to meet expenditure properly included in the School's Budget, as defined in the Schools and Early Years Finance (England) Regulations 2023. The School's Budget includes elements for a range of educational services provided on a Council-wide basis and for the Individual Schools Budget (ISB), which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2023/24 are as follows:

Notes	Central Expenditure £m	ISB £m	Total £m
A	Final DSG for 2023/24 before academy and high needs recoupment		344.287
B	Academy and high needs figure recouped for 2023/24		210.740
C	Total DSG after academy and high needs recoupment for 2023/24		133.547
D	Plus: Brought forward from 2022/23		21.745
E	Less: Carry forward to 2024/25 agreed in advance		-
F	77.188	78.104	155.292
G	In year Adjustments		-
H	77.188	78.104	155.292
I	Less: Actual central expenditure		58.160
J	Less: Actual ISB deployed to schools		78.104
K	Plus Local Authority contribution 2023/24		-
L	19.028	0.000	19.028
M	Plus/Minus: Carry-forward to 2024/25 agreed in advance		-
N	Carry-forward to 2024/25		19.028
O	DSG unusable reserve at the end of 2022/23		-
P	Addition to DSG unusable reserve at the end of 2023/24		-
Q	Total of DSG unusable reserve at the end of 2023/24		-
R	Net DSG position at the end of 2023/24		19.028

Notes to DSG:

- A Final DSG figure before any amount has been recouped from the authority as published March 2024.
- B Figure recouped from the authority in 2023/24 by the DfE for the conversion of maintained schools into academies and for high needs payments made by ESFA.
- C Total DSG figure after academy and high needs recoupment for 2023/24, as published March 2024.
- D Figure brought forward from 2022/23.
- E Any amount which the authority decided after consultation with the schools forum to carry forward to 2024/25 rather than distribute in 2023/24.
- F Budgeted distribution of DSG, adjusted for carry-forward, as agreed with the schools forum.

Section 4 – Notes to the Financial Statements

- G Changes to the initial distribution.
- H Budgeted distribution of DSG as at the end of the financial year.
- I Actual amount of central expenditure items in 2023/24.
- J Amount of ISB actually distributed to schools (ISB is regarded for DSG purposes as spent by the authority once it is deployed to schools' budget shares).
- K Any contribution from the local authority in 2023/24 which will have the effect of substituting for DSG in funding the Schools Budget.
- L In-year position at end of 2023/24, i.e.:
- For central expenditure, difference between final budgeted distribution of DSG (item H) and actual expenditure (item I), plus any local authority contribution (item K).
 - For ISB, difference between final budgeted distribution (item H) and amount actually deployed to schools (item J), plus any local authority contribution (item K).
- M Plus/minus any carry-forward to 2024/25 already agreed.
- N Total carry-forward on central expenditure (item L) plus carry-forward on ISB (item L) plus/minus any carry-forward to 2024/25 already agreed (item E).
- O DSG unusable reserve at end of 2022/23 (if any) – any amount placed in the unusable reserve at the end of 2020/21 and/or 2021/22 and/or 2022/23 in accordance with the DLUHC (formally MHCLG) amending regulations.
- P Any addition to DSG unusable reserve in 2023/24 as a result of an in-year deficit in 2023/24.
- Q Total of DSG unusable reserve at end of 2023/24; this is the total of O and P.
- R Net DSG position at the end of 2023/24; this is a memorandum item designed to show the overall position on DSG. It is calculated by taking the figure (if any) at N and deducting the figure (if any) at Q, and will therefore show any net deficit that the local authority would have if the unusable reserve were not held separately.

The final DSG for 2023 to 2024 before the academy recoupment figure includes a provision for the early years block. This figure is derived from the pupil numbers as at January 2022. The final allocations will be based on 5/12ths x January 2023 pupil numbers and 7/12ths x January 2024 pupil numbers. The final DSG adjustment will be actioned in July 2024. The final allocation for the 2023 to 2024 early years block will be treated as an 'in year adjustment' for 2024 to 2025.

4.7.7 Related Parties

The Council is required to disclose material transactions with related parties. These are bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central Government

Central government has significant influence over the general operations of the Council. It is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. Council Tax bills, housing benefits). Grants received from government departments are set out in the CIES note 4.3.5. Capital grants and Revenue grants received in advance as at 31 March 2024 are shown in note 4.4.12.

Councillors/Officers

Councillors have direct control over financial and operating policies. The total of Councillors' allowances paid in 2023/24 is shown in the Councillors' allowances note 4.7.3.

During 2023/24 payments, receipts and balances outstanding for works and services to other organisations (the majority being transactions with the Council's subsidiaries) in which Councillors or relevant officers had an interest were as follows:

	2022/23 £m	2023/24 £m
Payments	102.777	40.395
Receivables	(24.798)	(23.252)
Debtors	27.837	20.524
Creditors	(7.845)	(4.485)

Details of transactions are recorded in the Register of Members' Interest, which is open to public inspection during office hours.

Other Public Bodies

The Council has pooled budget arrangements with Integrated Community Equipment and Loan Services (ICELS), Better Care Fund, and the Adult's and Children's Safeguarding Board. There were no significant transactions with ICELS and Adult Safeguarding Partnership Board in 2023/24. Transactions for the Better Care Fund are detailed in note 4.7.8.

The Council paid £0.081m in 2023/24 (£0.080m 2022/23) to the Environment Agency for flood defence.

Entities Controlled or Significantly Influenced by the Council

The following are significant related-party transactions with the Council's subsidiary and associated companies.

Section 4 – Notes to the Financial Statements

4.7.8 Pooled Budgets

The Better Care Fund was established by the Government to provide funds to local areas to support the integration of health and social care and to seek to achieve the National Conditions and Local Objectives. It is a requirement of the Better Care Fund (BCF) that the Integrated Care Board (ICB) and the Council establish a pooled fund for this purpose. Section 75 of the NHS Act 2006 allows partners (NHS bodies and councils) to contribute to a common fund which can be used to commission health or social care related services. This power allows a local authority to commission health services and NHS commissioners to commission social care. It enables joint commissioning and commissioning of integrated services. These details relating to Better Care Fund, both pooled and non-pooled budgets are set out in a Section 75 Agreement. The operation of the pooled fund is subject to the Council's obligations for Best Value and the ICB Statutory Duties compliance and clinical governance obligations. The partners have agreed a Lead Commissioner arrangement to commission scheme services within the pooled funds and the Council as Lead Commissioner is therefore the Host responsible for effective and efficient management of the pooled fund.

Overall strategic responsibility, including both financial governance for the BCF pooled fund, and performance monitoring and reporting arrangements, is with the Health and Wellbeing Board.

The aim of the BCF is to incentivise the NHS and local government to work more closely together around people, placing their wellbeing as the focus of health and care services, and shifting resources into social care and community services for the benefit of the people, communities and health and care systems. Funding and expenditure in connection with the BCF was as follows:

	2023/24 £m
Funding	
NHS Nottingham and Nottinghamshire ICB	(31.079)
Nottingham City Council (Capital)	(3.010)
Nottingham City Council (Improved Better Care Fund)	(18.930)
Total Funding	(53.019)
Expenditure	
Access & Navigation	1.548
Integrated Care	20.402
Facilitating Discharge	2.880
Primary Care	3.003
Assistive Technology	0.471
Carers	0.714
Capital Grants	2.768
Programme Costs	4.558
Coordinated Care	13.759
Independence Pathway	1.270
Housing Health - Housing Related Schemes	0.096
Winter Pressures	1.550
Total Expenditure	53.019
BALANCE OF POOLED FUND	-

4.7.9 Road Charging Schemes under the Transport Act 2000

The Council introduced the workplace parking levy on 1 April 2012 charged under section 178-190 of the Transport Act 2000 (the Act). As per section 180 and 181 of the Act, all monies which are raised by the levy are to be re-invested in the City Councils Transport Plan. The figures for the year ending 31 March 2024 are as follows:

	2022/23 £m	2023/24 £m
Income	(8.747)	(10.319)
Expenditure	0.547	0.554
NET INCOME	(8.200)	(9.765)

4.7.10 Leases

Council as Lessee

Finance Leases

The assets acquired under finance leases are carried as PPE in the Balance Sheet within the classification of Other Land and Buildings. The net amount at 31 March 2024 was £13.280m (31 March 2023 £12.010m).

The Council is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the property acquired

Section 4 – Notes to the Financial Statements

by the Council, and finance costs that will be payable by the Council in future years. The minimum lease payments are made up of the following amounts:

	31 March 2023 £m	31 March 2024 £m
Finance lease liabilities*:		
current	0.002	0.002
non-current	1.744	1.742
Finance costs payable in future years	7.034	6.859
MINIMUM LEASE PAYMENTS	8.780	8.603

* Net present value of minimum lease payments

The finance costs which the Council has committed to are significant when compared to the lease liabilities, because the property leases are for a period of 99 years or more and the majority of payments made are for the interest element.

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	31 March 2023 £m	31 March 2024 £m	31 March 2023 £m	31 March 2024 £m
Not later than one year	0.177	0.177	0.002	0.002
Between one and five years	0.706	0.706	0.010	0.011
Later than five years	7.897	7.720	1.734	1.731
TOTAL	8.780	8.603	1.746	1.744

The Council has committed to a number of long term property leases. This is evidenced with the high value of minimum lease payments which have been committed to be paid later than five years.

The Council has not sub-let any of the properties held under these finance leases.

Operating Leases

The future minimum lease payments due under non-cancellable leases are:

	31 March 2023 £m	31 March 2024 £m
Not later than one year	0.437	0.437
Between one and five years	0.835	0.451
Later than five years	6.906	6.852
TOTAL	8.178	7.740

The expenditure charged to the CIES during 2023/24 in relation to these leases was £0.719m (£0.702m in 2022/23).

Council as Lessor

Finance Leases

As a lessor, the Council has an investment in finance leases. This is made up of the minimum lease payments expected to be received over the remaining term, together with the residual value anticipated for the property at the end of the lease. The minimum lease payments comprise the settlement of the long-term debtor for the interest in the property acquired by the lessee and finance income that will be earned by the Council in future years. The gross investment is made up of the following amounts for all finance leases:

	31 March 2023 £m	31 March 2024 £m
Long term finance lease debtor*	1.022	1.022
Finance income receivable in future years	10.901	10.835
Anticipated residual value of property	6.593	4.553
GROSS INVESTMENT IN THE LEASE	18.516	16.410

* Net present value of minimum lease payments

The finance income which the Council will receive in future years is significant when compared to the lease debtors. This is because a number of assets are being leased for a period of 999 years which means the majority of current payments are for the interest element of the debtor.

The gross investment in the lease and the minimum lease payments will be received over the following periods:

	Gross Investment in the Lease		Minimum Lease Payments	
	31 March 2023 £m	31 March 2024 £m	31 March 2023 £m	31 March 2024 £m
Not later than one year	0.061	0.061	0.061	0.061
Between one and five years	0.245	0.245	0.244	0.244
Later than five years	11.617	11.556	10.596	10.530
TOTAL	11.923	11.862	10.901	10.835

The Council has committed to leasing out a number of assets on long term leases. This is evidenced with the high value of minimum lease payments which will be received in the period later than five years.

The Council has not set aside an allowance for uncollectable amounts on the above finance leases.

Operating Leases

The Council leases out property and equipment under operating leases for the following purposes:

- The provision of community services, such as sports facilities, tourism services and community centres.

Section 4 – Notes to the Financial Statements

- Economic development purposes to provide suitable affordable accommodation for local businesses.

The future minimum lease payments receivable under non-cancellable leases are:

	31 March 2023 £m	31 March 2024 £m
Not later than one year	22.934	22.169
Between one and five years	58.810	50.661
Later than five years	193.798	183.879
TOTAL	275.542	256.709

Contingent Rents

The minimum lease payments identified in the tables above do not include rents that are contingent on events taking place after the lease was entered into, such as:

- The level of sales achieved by the tenant.
- Rate of inflation.
- Usage.

For operating leases where the Council is lessor there were no contingent rents receivable by the Authority in 2023/24 of £0.000m (2022/23 £0.000m). There were no contingent rents for any of the other types of lease arrangement.

4.7.11 Capital Expenditure and Capital Financing

Capital expenditure relates to the acquisition of new assets and the development of existing assets, which will be of benefit to the Council for more than one year. Expenditure by service over the last two years has been as follows:

	2022/23 £m	2023/24
Planning and Housing	49.115	48.736
Jobs, Growth and Transport	32.696	47.943
Strategic Regeneration	4.052	5.536
Other	121.672	104.467
Capital Expenditure	207.535	206.682
REFCUS Assets within PFI Contracts	0.286	0.641
Assets acquired under PFI Contracts	0.940	1.158
CUMULATIVE ASSET ADDITIONS	208.761	208.481

The capital programme is actively managed throughout the year in line with agreed approvals and changes in funding.

The treatment of capital expenditure and financing generates some of the main differences between the funding basis and IFRS basis. The capital focus of the funding basis is to ensure that sufficient cash is raised to finance capital expenditure. The major differences are:

- Certain items of revenue expenditure which can be treated as capital under statute under the funding basis.

Section 4 – Notes to the Financial Statements

- Items of capital expenditure which are financed by a charge to revenue.
- Capital grants which are used to finance capital expenditure rather than being credited to revenue.
- Making a revenue provision for repayment of borrowing (replacing depreciation) based on a calculation of the net capital financing requirement.

The total amount of capital expenditure incurred in the year is shown in the following table (including the value of assets acquired under finance leases and Public Finance Initiative (PFI) contracts), together with the resources that have been used to finance it:

	2022/23 £m	2023/24 £m
Capital Investment on IFRS Basis		
Property, Plant and Equipment	103.409	106.058
Heritage Assets	0.323	0.006
Intangible Assets	0.491	0.551
Long Term Investments	0.650	1.216
Total Additions to Assets on IFRS Basis	104.873	107.831
Revenue Expenditure Funded from Capital under Statute (REFCUS)	102.662	81.283
REFCUS - Exceptional Financial Support (EFS)	-	17.568
Total Expenditure to be Financed from Capital Sources	207.535	206.682
Financing		
Capital receipts	(33.653)	(22.907)
Capital receipts used to finance EFS	-	(17.568)
Government grants and other contributions	(132.447)	(128.057)
Sums set aside from revenue	(32.957)	(36.190)
UNDERLYING BORROWING REQUIREMENT IN YEAR	8.478	1.960

4.7.12 Capital Financing Requirement (CFR)

The CFR is a measure of the capital expenditure incurred historically by the Council that has yet to be repaid. The CFR is also used to calculate the statutory minimum charge for debt repayment known as the Minimum Revenue Provision.

Where capital expenditure is financed by borrowing, the expenditure results in an increase in the CFR. Further adjustments are made to include assets acquired under PFI contracts included in the Balance Sheet, and provisions for debt repayment included in the funding basis in the following table:

	2022/23 £m	2023/24 £m
Opening Capital Financing Requirement	1,373.497	1,314.901
Increase in underlying need to borrow:		
Unsupported by government financial assistance	8.480	1.960
Statutory Minimum Revenue Provision	(31.843)	(27.808)
Voluntary Revenue Provision	(2.197)	(2.397)
Voluntarily Set Aside Capital Receipts	(21.975)	(27.587)
Net PFI Liability Discharged	(11.061)	(11.669)
CLOSING CAPITAL FINANCING REQUIREMENT	1,314.901	1,247.400

Section 4 – Notes to the Financial Statements

4.7.13 Private Finance Initiatives and Similar Contracts

The Council has four PFI arrangements which have been recognised on the Council's Balance Sheet:

NET

The Council reached financial close on NET Phase Two in December 2011. This PFI arrangement was to incorporate an additional two tram lines within the City's current tram network. The additional two tram lines became operational August 2015.

The concession agreement runs from 15 December 2011 to 20 March 2034. At the end of the contract the title to the property transfers to the Council (or a continuing concessionaire) at nil cost with the assets in a satisfactory condition for its continued operational use.

Building Schools for the Future (BSF)

The Council received handover of two PFI schools, Big Wood Phase 1 / Oak Field in 2009/10, Big Wood Phase 2 in 2010/11. The contract for these PFI schools will end in 2034.

A further PFI school, Farnborough School was handed over in 2013/14, the land element being recognised as an operational asset in 2014/15. The PFI contract for Farnborough School expires August 2038.

Upon expiry of the contract terms, all assets under this programme will be passed back to the City Council.

Local Improvement Finance Trust (LIFT) Joint Service Centres

The Council has completed two new Joint Service Centres located in Hyson Green and Bulwell and have been procured using the LIFT vehicle in partnership with NHS Nottingham City. The PFI contract which the Council has is with Community Health Partnership who manage the PFI, while NHS Nottingham City Clinical Commissioning Group manage which NHS service is provided from the joint service centre. The Council has recognised its share of occupancy of both sites on the Balance Sheet.

The contract expiry and the asset treatment are as follows:

- Mary Potter Centre (Hyson Green), contract expires October 2032. The Council does not have an option to purchase the asset when the contract expires.
- Bulwell Riverside (Bulwell), contract expires October 2036 at which time the Council has an option to purchase the asset.

Clifton Cornerstone Joint Service Centre was procured in 2007. This arrangement has been treated as an operating lease so is excluded from the Council's Balance Sheet and the PFI tables shown below.

Street Lighting Contract

In May 2010 the Council entered into a PFI arrangement for Street Lighting. The first five years of the contract provided for the replacement of outdated lighting columns, together with modifications to other columns that have an acceptable residual life. The contract also allows for adjustments and operation and maintenance of the street lighting network.

The contract expires August 2035 when the assets will revert back to the City Council at nil cost.

Future Contractual Payments

The next table shows the Council's future contractual payments. The future Service Charge payments are estimated using the Service Charge payments incurred during 2023/24, which are then inflated using the inflation rate implicit with each PFI arrangement:

	2024/25	2025/26 - 2028/29	2029/30 - 2033/34	2034/35 - 2038/39	Total
	£m	£m	£m	£m	£m

CLOSING BALANCE AT 31 MARCH	156.516	36.798	68.084	9.760	29.843	144.485

Section 4 – Notes to the Financial Statements

4.7.14 Trust Funds

The Council acts as sole trustee for a number of trust funds. The funds do not represent assets of the Council and, therefore, have not been included in the Council's single entity accounts. However, as the Council acts as sole trustee for the Bridge Estate Trust their accounts are consolidated into the Council's group accounts (section 6). The Bridge Estate Trust holds net assets of £37.058m (£36.653m at 31 March 2023) with a turnover of £1.750m (£1.850m 2022/23), primarily from the rental of investment properties. The Trust was established for the repair and maintenance of Trent Bridge and the construction of new bridges over the River Trent.

The Council is also sole trustee for a number of other Trusts whose net assets total £3.507m (£3.452m as at 31 March 2023) with a turnover of £0.445m (£2.493m 2022/23). These Trusts are not consolidated into the Council's group accounts on the basis of materiality. They include:

- Harvey Hadden Stadium and Highfields Leisure Park, for the provision of public recreation and pleasure grounds.
- Hanley and Gellestrop, which provides 9 almshouses to accommodate the poor.
- Nottingham Aged Persons Trust, George Pendry's Fund which provide benefit for the poor and elderly.
- Abbott Brown Fund, established to enable a doctor from Ljubljana Hospital to study medicine in the United Kingdom.

4.7.15 Contingent Liabilities

At 31 March 2024, the Council has the following contingent liability that could exceed a materiality level of £5m:

Insurance Claims

A contingent liability exists for insurance claims that pre-date the coverage provided by the Insurance Provision. There are some claims that will be submitted dating back to the 1950/1960's and will be high value complex claims where insurers cannot be traced, usually claims arising from historic child abuse and disease claims. Should no insurer be traced, or an insurer refuses an indemnity, the costs would have to be met from the provision.

In addition there will be a number of incidents that have been incurred but not yet reported (IBNR) as claims. These IBNR's may need to be self-funded if they fall outside the scope of insurance cover, fall within current or historic excess levels, or be in periods where insurers are untraceable. The severity, value and number of IBNR cases are unknown.

4.7.16 Nature and Extent of Risks arising from Financial Instruments

The Council's activities potentially bring exposure to a variety of financial risks. The key risks are:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Council.
- Liquidity risk – the possibility that the Council might not have funds available to meet commitments to make payments.
- Re-financing risk – the possibility that the Council might be required to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- Market risk – the possibility that the Council could incur financial loss as a result of changes, for example, in interest rates or equity prices.

Overall Procedures for Managing Risk

The Council's overall risk management procedures focus on the unpredictability of financial markets and implementing restrictions to minimise these risks. The procedures for risk management are set out in the Local Government Act 2003 and the associated regulations. These must comply with the CIPFA Prudential Code, the CIPFA Treasury Management in the Public Services Code of Practice and Investment Guidance issued through the Act.

Overall, the procedures require the Council to manage risk in the following ways:

- By formally adopting the requirements of the Code of Practice.
- By approving, annually in advance, prudential indicators for the following three years which limit:
 - The Council's overall borrowing.
 - Its maximum exposure to fixed and variable rates.
 - Its maximum and minimum exposure in the maturity structure of its debt.
 - Its maximum annual exposure to investments maturing beyond a year.
- By approving an investment strategy for the forthcoming year, setting out its criteria for both investing and selecting investment counterparties, in compliance with the Government Guidance.

These procedures are required to be reported and approved at a meeting of the Council, which also sets the annual Budget and Council Tax. The procedures are included within an annual treasury management strategy which outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported twice per year to Councillors.

The Council maintains written principles for overall risk management as well as written policies covering specific areas such as interest rate risk, credit risk, and the investment of surplus cash through Treasury Management Practices. This framework is a requirement of the Code and is regularly reviewed.

Credit Risk

Credit risk arises from the Council's financial investments with banks and other financial institutions, as well as credit exposures to non-financial investments such as loans to third party organisations and credit exposures to the Council's customers. The credit risk exposure on financial investments is minimised through the principles set out in the Annual Investment Strategy. These state that investments are only

Section 4 – Notes to the Financial Statements

placed with organisations of high credit quality as set out in the Treasury Management Strategy. These include commercial entities with a minimum long term credit rating, the UK government and other local authorities. Recognising that credit ratings are imperfect predictors of default, the Council takes other factors into account including credit default swap and equity prices when selecting commercial entities for investment.

The Annual Investment Strategy sets a limit on the amount to be invested with a financial institution located within each category.

The adopted credit criteria in respect of financial assets held by the Council in 2023/24 are:

- Minimum credit ratings – a minimum long-term credit rating of A- (or equivalent) except for UK local authorities.
- Individual cash limits on unsecured investments – a limit of £20m per eligible counterparty except the UK Central Government.
- Group limits – where more than one bank on the counterparty list is included within a banking group (e.g. Bank of Scotland and Lloyds Bank), individual limits will also apply to the group as a whole.
- Country limits – other than UK institutions, a total investment limit for all counterparties in a particular country. No more than £40m will be placed with any one country.
- Money Market Funds – individual cash limit of £30m with any one fund and an overall limit of £120m for all Money Market Funds.

The Council's maximum exposure to credit risk in relation to its investments in financial institutions of £330.7m at 31 March 2024 cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of non-recoverability applies to all of the Council's deposits, and balances held for liquidity reasons since the outbreak of COVID-19 have remained higher than in recent years. As at 31 March 2024 the council's investments are deposited with either other local authorities, short term notice accounts, the UK government or highly liquid and diverse money market funds so should the economic uncertainty on banks and other financial institutions develop the council's deposits with exposure to increased credit risk exposure can be recalled to reduce the likelihood of investment losses to crystallise. Deposits with other local authorities are judged to remain as low risk due to the legal framework around local authorities.

Credit Risk Exposure

The following table summarises the value of the Council's financial investment portfolio and the exposure to non-financial investments and debtors at 31 March 2024. This confirms that all financial investments were made in line with the approved credit rating criteria:

Credit Rating	Credit Rating	Gross Carrying Amount £m
12-month expected credit losses	AAA	76.60
	AA	59.90
	A	184.49
	BBB	
	Unrated local authorities	
	Unrated loans to 3rd parties	28.87
Significant increase in credit risk since initial recognition	AAA	
	AA	
	A	
	BBB	
	Unrated local authorities	
	Unrated loans to 3rd parties	48.62
Credit impaired	AAA	
	AA	
	A	
	BBB	
	Unrated local authorities	
	Unrated loans to 3rd parties	
Simplified approach*	AAA	
	AA	
	A	
	BBB	
	Unrated other	124.28

* For debtors, contract assets and lease receivables, but excludes statutory debtors for example Council Tax and NNDR

The Council recognises expected credit losses on all of its financial assets held at amortised cost, either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Council.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Where the Council does not have reasonable and supportable information that is available without undue cost or effort to support the measurement of lifetime expected losses on an individual instrument basis it has assessed losses on a collective basis based on local experience.

Amounts Arising from Expected Credit Losses

From the above credit risk exposures, the expected loss allowance as at 31 March 2024 was £35.123m for loans to third parties using the Lifetime Expected Credit Loss assessment.

Section 4 – Notes to the Financial Statements

Collateral

The Council initiates a legal charge on property or company assets, for instance, as part of a loan agreement. The total collateral at 31 March 2024 was £45.712m.

Liquidity Risk

The Council has ready access to borrowings from the Money Markets and other local authorities to cover day to day cash flow need. Whilst PWLB provides access to longer term funds, it also acts as a lender of last resort to Councils (although it will not provide funding to a Council whose capital plans include debt for yield schemes or whose actions are unlawful). The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. Although COVID-19 poses significant budget challenges the Council anticipates being able to raise finance to meet its commitments under financial instruments.

The Council manages its liquidity position through the risk management procedures (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through cash flow management procedures as required by the Code of Practice.

The Council's deposits with financial institutions such as banks, money market funds and deposits with other local authorities and the DMO total £330.7m at 31 March 2024. There were £9.9m of deposits with the DMO with maturity dates of less than 12 months.

The council continues to use highly liquid investments including same day access money market funds as part of the Council's liquidity risk mitigation. At 31 March 2024 the council balances of £76.6m across 3 money market funds. These funds are highly diversified and highly liquid with credit ratings equivalent to AAAM so were judged to have minimal credit risk.

Refinancing and Maturity Risk

The Council maintains a significant debt and investment portfolio. The risk in managing exposure when replacing financial instruments as they mature is that they may be refinanced at a time of unfavourably high interest rates. This risk is managed by maintaining a spread of fixed rate loans and ensuring that the approved prudential indicator limits the Council's borrowing that is due to mature in any given period.

The Council approved Treasury and Investment Strategies address the main risks and the central treasury team addresses the operational risks within these approved parameters. Measures include:

- Monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt.
- Monitoring the maturity profile of investments to ensure that sufficient liquidity is available for the Council's day-to-day cash flow needs.

The maturity analysis of the principal element of financial liabilities at 31 March 2024 is:

	31 March 2023 £m	31 March 2024 £m
Less than 1 year	35.741	37.428
1 to 2 years	10.044	19.411
2 to 5 years	49.143	41.309
5 to 10 years	177.286	123.955
10 – 25 years	46.010	42.010
25 – 40 years	355.765	340.672
40 – 70 years	204.013	199.520
TOTAL	878.002	804.305

All trade and other creditors are payable in less than one year and are not shown in the above table.

Interest Rate Risk

The Council is exposed to risk in terms of exposure to interest rate movements on borrowings and investments. Movements in interest rates have a wide and complex impact on the Council. For instance, a rise in interest rates would have the following effects:

- Borrowings at variable rates or short term borrowings – the interest expense charged to the Surplus or Deficit on the Provision of Services will rise.
- Borrowings at fixed rates – the fair value of the borrowings will fall.
- Investments at variable rates – the interest income credited to the Surplus or Deficit on the Provision of Services will rise.
- Investments at fixed rates – the fair value of the assets will fall.

Investments classed as financial assets measured at amortised cost and loans borrowed are not carried at fair value, so changes in their fair value will have no impact on Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the prudential indicators and expected treasury operations, including an expectation of interest rate movements. From this Strategy a prudential indicator is set which provides maximum and minimum limits for fixed and variable interest rate exposure. Market and forecast interest rates are monitored within the year, to adjust exposures appropriately.

The 2023/24 strategy allowed for a maximum exposure to variable interest rates of £300m.

According to this assessment strategy, at 31 March 2024, if interest rates had been 1% higher, with all other variables held constant, the financial effect would be:

Section 4 – Notes to the Financial Statements

	31 March 2024 £m
Increase in interest payable on variable rate borrowings	0.260
Increase in interest receivable on variable rate investments	(2.520)
Impact on Surplus or Deficit on the Provision of Services	(2.260)
Share of overall impact debited to the HRA	(1.107)
IMPACT ON OTHER COMPREHENSIVE INCOME AND EXPENDITURE	(3.367)

The impact of a 1% fall in interest rates would be as above but with the movements being reversed.

Price Risk

The Council does not generally invest in equity shares but does have shareholdings to the value of £14.224m in a number of joint ventures and in local industry, as at 31 March 2024. These holdings are generally illiquid and are shown in the balance sheet at cost less impairment. The main equity holdings are in Nottingham City Transport Ltd and Blueprint (General Partner) Ltd which are all shown at cost less impairment within the Council's group accounts. The Council is exposed to losses arising from movements in the value of these holdings. As the holdings have arisen in the acquisition of specific interests, the Council is not in a position to limit its exposure to price movements by diversifying its portfolio.

4.8 Accounting Standards issued but not adopted

The Code of Practice on Local Authority Accounting requires the Council to disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted by the 2023/24 Code.

At the balance sheet date, the following new standards and amendments to existing standards have been published but not yet adopted by the 2023/24 Code:

- a) IFRS 16 Leases issued in January 2016
- b) Classification of Liabilities as Current or Non-current (Amendments to IAS 1) issued in January 2020. The amendments:
 - specify that an entity's right to defer settlement must exist at the end of the reporting period
 - clarify that classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement
 - clarify how lending conditions affect classification, and
 - clarify requirements for reclassifying liabilities an entity will or may settle by issuing its own equity instruments.
- c) Lease liability in a Sale and Leaseback (Amendment to IFRS 16) issued in September 2022. The amendments to IFRS 16 add subsequent measurement requirements for sale and leaseback transactions.

- d) Non-current liabilities with Covenants (Amendments to IAS 1) issued in October 2022. The amendments improved the information an entity provides when its right to defer settlement of a liability for at least 12 months is subject to compliance with covenants.
- e) International Tax Reform: Pillar Two Model Rules (Amendments to IAS 12) issued in May 2023. Pillar Two applies to multinational groups with a minimum level of turnover. The amendments introduced:
 - a temporary exception to the requirements to recognise and disclose information about deferred tax assets and liabilities related to Pillar Two income taxes, and
 - targeted disclosure requirements for affected entities.
- f) Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7) issued in May 2023. The amendments require an entity to provide additional disclosures about its supplier finance arrangements. The IASB developed the new requirements to provide users of financial statements with information to enable them to:
 - assess how supplier finance arrangements affect an entity's liabilities and cash flows, and
 - understand the effect of supplier finance arrangements on an entity's exposure to liquidity risk and how the entity might be affected if the arrangements were no longer available to it.

Note that a) will only be applicable to local authorities that have not voluntarily implemented IFRS 16 in 2023/24.

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires local authorities to disclose the likely impact of any new accounting standards which have been issued as at the balance sheet date but which will not apply to local authorities' accounts until subsequent financial years.

Changes to lease accounting standards under IFRS 16 will require to be implemented by local authorities from the 2024/25 financial year onwards, although earlier adoption will be optional. The Council has not chosen to implement the changes until 2024/25. The changes will apply prospectively and a restatement of the balance sheet for prior years will not be required. The changes will affect accounting for assets leased in and will remove the current distinction between finance leases and operating leases. All leases in will require the recognition of a 'right of use' asset and a liability to pay future rentals. This will bring short term leases in of assets within the scope of the local authority statutory capital framework.

However, it is not anticipated that there will be any material impact on the council's spendable reserves because of the changes. The Council does not yet have sufficient information available to quantify the likely impact on its balance sheet of the new assets and liabilities to be recognised.

It is likely that though they provide clarifications, items b), c) and d) will not have a significant impact on the amounts anticipated to be reported in the financial statements. There will be limited application of items e) and f).

4.9 Critical Judgements in applying Accounting Policies

In applying the accounting policies set out in note 4.1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events.

Any post balance sheet adjustments made to the accounts and disclosure notes, as a result of additional information received on conditions existing at the balance sheet date have been made in line with existing accounting policies.

The critical judgements made in the Statement of Accounts are:

- There are two types of schools in Nottingham. The Council recognises schools in line with the provisions of the Code and consequently, schools are recognised on the balance sheet only if the future economic benefits or service potential associated with the school will flow to the Council. As a result, each type of school has been separately assessed for inclusion on the Council's Balance Sheet. The following table summarises the treatment for each type of school:

School Type	Balance Sheet Treatment
LEA Maintained	On
Academy	Off

- The Council has entered into a partnership arrangement with Leicestershire County Council to provide financial and human resources services. The partnership, East Midlands Shared Services, is a formal local government joint committee which is formed and operates under S102 of the Local Government Act 1972. Such a joint committee has no legal responsibility and has been judged to be a jointly controlled operation with the Council's share of revenue, expenditure, assets and liabilities shown in the single entity financial statements in section 3.
- The Council has produced a set of group accounts after carrying out a full review and evaluation of all related organisations. From this review and evaluation, a judgement is made as to whether the Council has the necessary material financial interest and/or level of control required for inclusion in the Group.

4.10 Assumptions about the Future and other Major Sources of Estimation

The preparation of the financial statements requires the Council to make estimates and assumptions that affect the application of policies and reported amounts. Although these are continually evaluated and are based on historical experience and other factors, including the expectation of future events that are believed to be reasonable under the circumstances, actual results may differ from these estimates. The estimates and assumptions which have a significant effect on amounts recognised in the financial statements are as follows:

- Post-Retirement Benefits – Estimation of the net liability to pay pensions is dependent on a number of complex judgements relating to the discount rate used, for example the rate at which salaries are projected to increase, changes

in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide expert advice about the assumptions to be applied. Differences arising from actual experiences or future changes in assumptions will be reflected in subsequent periods. See note 4.4.13 and the Sensitivity Analysis in section 7.2.1 for further details.

An allowance was made for the potential impact of the McCloud and Sargeant judgement in the results of the Actuary report at the last accounting date and therefore is already included in the starting position for the 2023/24 Actuary report. This allowance is therefore incorporated in the roll forward approach and is remeasured at the accounting date along with the normal LGPS liabilities. See note 7.2.1 for further details.

There was a triennial valuation of the fund by the scheme actuary in March 2022. The purpose of this was to set the level of employer contributions necessary for the next three years (1 April 2023 to 31 March 2026) to make good any fund deficit over the remaining working life of the employees.

4.11 Events after the Reporting Date

The Statement of Accounts was authorised for issue by the Interim Corporate Director of Finance and Resources on 20 December 2024. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2024, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

There were a number of significant events between the balance sheet date and the approval of these financial statements. These are detailed in the Narrative Report at Section 1.4. No additional disclosure or adjustment has been made of the 2023/24 statements has been made in relation to these events.

Section 5

SUPPLEMENTARY FINANCIAL STATEMENTS AND NOTES

5.1 Housing Revenue Account (HRA)

The HRA income and expenditure statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with the legislative framework; this may be different from the accounting cost. The increase or decrease in the year, on the basis upon which rents are raised, is shown in the movement on the Housing Revenue Account statement.

5.1.1 Housing Revenue Income and Expenditure Account

The Housing Revenue Account (HRA) is a record of revenue expenditure and income relating to the Council's housing stock. Its primary purpose is to ensure that expenditure on managing tenancies and maintaining dwellings is balanced by rents charged to tenants. Consequently, the HRA is a statutory account, ring-fenced from the rest of the General Fund, so that rents cannot be subsidised from Council Tax.

	2022/23 £m	2023/24 £m
Expenditure		
Repairs and maintenance	31.149	9.803
Supervision and Management	26.090	66.101
Rents, rates, taxes and other charges	0.449	5.875
Depreciation and impairment of non-current assets	25.166	25.129
Debt management costs	0.050	0.062
Revaluation (gain) / loss on HRA Council dwellings	(27.801)	23.504
Total Expenditure	55.103	130.474
Income		
Dwelling Rents	(100.573)	(109.473)
Non Dwelling Rents	(2.731)	(3.782)
Charges for Services and Facilities	(11.391)	(28.308)
Sums directed by the Secretary of State	(27.703)	-
Contributions towards Expenditure	(0.368)	(0.652)
Total Income	(142.766)	(142.215)
Net Cost of HRA Services as included in the CIES	(87.663)	(11.740)
HRA services' share of Corporate and Democratic Core	0.280	0.198
NET COST FOR HRA SERVICES	(87.383)	(11.542)
HRA Share of the Operating Income and Expenditure included in the CIES		
Gain or (loss) on sale of HRA non-current assets	0.289	2.893
Grants	-	(3.292)
Interest payable and similar charges	12.812	13.249
Interest and Investment Income	(2.772)	(5.788)
(SURPLUS)/DEFICIT FOR THE YEAR ON HRA SERVICES	(77.054)	(4.480)

5.1.2 Movement on the HRA Statement

	2022/23 £m	2023/24 £m
Actual Ledger Balance on HRA at the start of the Year	17.797	56.763
Outstanding Statutory (Item 9) Adjustment:		
- 1st Item 9 Credit Direction	27.703	-
- 2nd Item 9 Credit Application	4.618	4.618
Corrected Balance on HRA at the start of the Year	50.118	61.381
Surplus or (deficit) for the year on the HRA Income and Expenditure Statement	77.054	4.480
Adjustments between accounting basis and funding basis	(38.197)	(0.982)
Net increase or decrease in year before transfers to or from earmarked reserves	38.857	3.498
Transfers (to) or from earmarked reserves	(27.594)	(0.137)
Increase or (decrease) in year on the HRA	11.263	3.361
BALANCE ON THE HRA AT THE END OF THE YEAR	61.381	64.742
Outstanding Statutory (Item 9) Adjustment:		
- 2nd Item 9 Credit Application	(4.618)	(4.618)
ACTUAL LEDGER BALANCE ON THE HRA AT THE END OF THE YEAR	56.763	60.124

The table above shows the balance on the Housing Revenue Account (HRA). The balance on the earmarked HRA reserves as at 31 March 2024 was £0.626m (31 March 2023 £0.489m). Therefore, total HRA reserves at 31 March 2024 were £60.750m (31 March 2023 £57.252m).

5.1.3 Notes to the HRA Financial Statements

5.1.3.1 Housing Stock

The Council was responsible for managing the following housing stock:

	31 March 2023 Number	31 March 2024 Number
Houses and Bungalows		
1 Bedroom	1,045	1,044
2 Bedroom	5,644	5,687
3 Bedroom	8,896	8,762
4 or more Bedrooms	469	462
Flats		
1 Bedroom	7,486	7,457
2 Bedroom	1,100	1,078
3 or more Bedrooms	116	114
TOTAL	24,756	24,604

Section 5 – Supplementary Financial Statements and Notes

5.1.3.2 Valuation of Housing Assets

The value of land, houses and other property within the HRA is as follows:

	Value at 31 March 2023 £m	Value at 31 March 2024 £m
Operational Assets		
Council Dwellings	1,355.825	1,340.756
Other Land and Buildings	22.281	23.733
Assets Under Construction	22.432	24.535
Surplus Assets not held for sale	2.513	0.408
Investment Properties	0.655	0.668
Assets Held for Sale	-	1.825
Infrastructure	29.645	27.744
Vehicles, IT and Other Equipment	-	-
TOTAL VALUE OF ASSETS	1,433.351	1,419.669

5.1.3.3 Asset value of Dwellings

The vacant possession valuation of Council dwellings at 31 March 2024 was £3,192.275m (1 April 2023 £3,228.155m). The Balance Sheet value of dwellings was £1,340.755m. The difference of £1,851.518m between the vacant possession valuation and the balance sheet value reflects the fact that social housing rents generate a lower income stream than could be obtained in the open market.

Operational assets in a commercial environment are required to earn a rate of return. The value placed on such assets will reflect the required economic rate of return in relation to the income streams that the assets might be expected to generate throughout their economic life. To the extent that income streams are constrained to serve a wider social purpose, the value of capital assets employed for this purpose will be reduced.

The valuation of the Council's housing stock as at 31st March 2024 was completed by the Council's Property Services team in conjunction with external valuers.

5.1.3.4 The Major Repairs Reserve

The purpose of this reserve is to earmark funding to provide for the long-term maintenance of the housing stock. Movements on the reserve were as follows:

	2022/23 £m	2023/24 £m
Balance Brought Forward	(38.773)	(38.659)
Credits - Depreciation on HRA Assets	(25.166)	(25.129)
Credits - Additional credit to the MRR	(7.073)	(9.873)
Debits - Capital Expenditure	32.353	23.754
BALANCE AT END OF YEAR	(38.659)	(49.907)

Further information on depreciation is shown in note 5.1.3.7.

5.1.3.5 Capital Expenditure

Capital expenditure of £48.289m (£51.689m in 2022/23) in respect of HRA assets was financed from a range of sources in 2023/24. This is set out below:

	2022/23 £m	2023/24 £m
CAPITAL EXPENDITURE	51.689	48.289
Financed By:		
Capital Receipts Reserve	7.140	8.121
Major Repairs Reserve (MRR)	32.353	23.754
Direct Revenue Financing*	0.600	11.850
Other Capital Grants and Contributions	3.596	4.564
Borrowing	8.000	-
TOTAL FINANCING	51.689	48.289

* The debit under item 2 of part II of Schedule 4 to the Local Government and Housing Act 1989

5.1.3.6 Capital Receipts

Capital receipts of £18.543m (£23.404m in 2022/23) arose from the sale of land, houses and other property within the HRA in 2023/24. Of this total, £17.878m (£22.213m in 2022/23) related to the disposal of houses and flats under the right to buy scheme.

	2022/23 £m	2023/24 £m
Land & Other	1.191	0.665
Houses	22.213	17.878
TOTAL	23.404	18.543

5.1.3.7 Depreciation

Depreciation was charged in respect of HRA operational assets in 2023/24 as follows:

	2022/23 £m	2023/24 £m
Dwellings	22.726	22.677
Other Operational HRA Assets:		
Other Land and Buildings	0.423	0.367
Vehicles, Plant, Furniture and Equipment	-	-
Infrastructure and Community Assets	1.984	2.071
Surplus Assets not Held for Sale	0.034	0.014
TOTAL	25.166	25.129

5.1.3.8 Revaluations and Impairments during the Financial Year

£23.504m in respect of revaluation gains have been credited to the HRA during the year (£27.801m gains credited in 2022/23). This amount related to Council Dwellings as a result of a desktop beacon revaluation undertaken during the year.

There were no donated assets within the year.

Section 5 – Supplementary Financial Statements and Notes

A de-recognition write-out of £5.275m (£3.589m in 2022/23) was made to reflect the residual value of assets replaced.

The revaluation of investment properties has resulted in a credit of £0.083m (£0.810m credit in 2022/23).

5.1.3.9 Rent Arrears and the Balance Sheet provision in respect of Collectable Debts

Gross rent arrears (including service charges and overpaid housing benefit) in respect of current and former tenants amounted to £8.064m at 31 March 2024 (£8.116m at 31 March 2023). A total loss allowance (previously called bad debt provision) of £6.708m has been established at 31 March 2024 (£6.771m at 31 March 2023).

5.1.3.10 Sums Directed by the Secretary of State

In December 2021 the Section 151 Officer issued a Section 114 Notice indicating the HRA ring-fence had been breached. On 3rd August 2022 the Secretary of State for Levelling Up, Housing & Communities issued an Item 9 Direction which instructed the General Fund to pay the HRA £27.703m. This was made in 2022/23 with no further payments in 2023/24. There are still some amounts outstanding and these will be subject to a second Item 9 Ministerial Direction.

5.2 Collection Fund

5.2.1 Collection Fund Statement

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of Council Tax and National Non-Domestic Rates (NNDR).

	2022/23		2023/24	
	Total £m	NNDR £m	Council Tax £m	Total £m

5.2.2 Notes to Collection Fund Statement

5.2.2.1 National Non-Domestic Rates (NNDR)

The Council collects NNDR from local businesses based on the rateable value of their property multiplied by a business rate set nationally by Central Government. The Council retains 49% of the NNDR with the remainder distributed to Central Government (50%) and the Nottinghamshire Fire and Rescue Authority (1%).

Section 5 – Supplementary Financial Statements and Notes

	2022/23 £m	2023/24 £m
Rate in the pound - Standard multiplier	51.2p	51.2p
Rate in the pound - Small business multiplier	49.9p	49.9p
Total non-domestic rateable value per NNDR system	349.386	345.329

5.2.2.2 Council Tax

Council Tax is broadly based on the capital value of domestic property as estimated at 1 April 1991 and classified into 8 bands. Charges are calculated by dividing the preceptors' income requirements by the Council Tax base (the total number of properties in each band, adjusted for discounts and expressed as an equivalent number of Band D dwellings). This gives the basic amount of Council Tax for a band D property, which when multiplied by the specified proportion (as follows) will give the individual amount due.

	2022/23	2023/24
Council Tax Base	67,540	68,403
Council Tax (Band D) Property	£2,294.14	£2,411.65

Band	Average Number of Properties	Taxable Properties after discounts, exemptions and adjustments	Conversion Factor to Band D	Band D Equivalents
A	90,705	52,893	6/9	35,262
B	25,452	15,057	7/9	11,712
C	16,830	11,931	8/9	10,605
D	7,583	5,641	9/9	5,641
E	2,584	2,104	11/9	2,571
F	1,109	965	13/9	1,394
G	746	641	15/9	1,069
H	116	75	18/9	149

5.2.2.3 Apportionment of Collection Fund Surplus/Deficit

The (surplus)/deficit on the closing balance of the Collection Fund as at 31 March is allocated as follows:

	2022/23		2023/24	
	Total £m	Council Tax £m	NNDR £m	Total £m
Nottingham City Council	1.039	(4.622)	1.636	(2.986)
Nottinghamshire Police Authority	0.068	(0.606)	-	(0.606)
Nottinghamshire Fire and Rescue Authority	0.035	(0.200)	0.033	(0.167)
Central Government	0.522	-	1.670	1.670
TOTAL	1.664	(5.428)	3.339	(2.089)

Section 6

GROUP FINANCIAL STATEMENTS AND NOTES

6.1 Introduction

The Accounting Code of Practice requires that where a local authority has material financial interests and a significant level of control over one or more organisations, it should prepare Group financial statements. The financial statements in section 3 consider the Council only as a single entity, while the Group financial statements provide an overall picture of the Council's financial activities and the resources employed in carrying out those activities as a group. The group accounts contain core financial statements similar to those included in the Council's single entity statements, consolidated with figures for the Council's subsidiaries and jointly controlled entities.

The following pages include:

- Group Comprehensive Income and Expenditure Statement.
- Group Balance Sheet.
- Group Movement in Reserves Statement.
- Group Cash Flow Statement.
- Notes to the Group accounts.

6.2 Significant Judgements and Assumptions

The Council maintains relationships with a number of organisations over which it has varying degrees of control or influence. An assessment of all of these joint arrangements has been carried out to determine which of the following categories they fall under:

- Subsidiaries - where the Council is exposed, or has rights, to variable returns from its involvement with the organisation and has the ability to affect those returns through its power over the organisation i.e. control. These entities are included in the group.
- Associates – where the Council exercises a significant influence, having more than 20% of the voting power and has a participating interest. Where these are material they have been included in the group.
- Joint Venture – where the Council exercises joint control with one or more organisations and has rights to its net assets. Where these are material they have been included in the group.
- No group relationship – where the body is not an entity in its own right or the Council has an insufficient interest in the entity to justify inclusion in the group financial statements. These entities are not included in the group.

Section 6 – Group Financial Statements and Notes

For each of the group entities, the group accounts include a share of the operating results, assets and liabilities. Subsidiaries are accounted for on an acquisition basis (line by line basis) with intra-group transactions written out. Associates/joint ventures are accounted for by including the Council's share of their net operating results and net assets (equity method of accounting).

For 2023/24 the financial details of these organisations have been consolidated within the group accounts where it is considered that those details have a material effect upon those accounts.

Details of the Council's relationship with each of these organisations are given in group accounts note 6.5.

The Council's group in 2023/24 includes Bridge Estate Trust, Nottingham City Homes Ltd, Nottingham City Transport Ltd, Nottingham Ice Centre Ltd, Blueprint Limited Partnership, and Futures Advice, Skills and Employment Ltd. The group core statements have been completed using the audited accounts of these organisations, except for Bridge Estate Trust and Nottingham City Transport Ltd whose draft unaudited accounts have been used.

The effect of including the related organisations on the summarised financial position is as follows:

	2022/23		2023/24	
	Single Entity Accounts £m	Group Accounts £m	Single Entity Accounts £m	Group Accounts £m
Comprehensive Income and Expenditure (CIES):

Cash and Cash Equivalents at 31 March	141.192	171.677	99.732	127.358

6.3 Accounting policies used in preparing the Group Financial Statements

The financial statements produced by individual group entities have been realigned in order to ensure consistent accounting policies in the preparation of the group financial statements. These policies differ from those applicable to the Council's primary financial statements only in the following respects:

- The accounting policies of the group entities for Property, Plant and Equipment, and Investment Properties have been compared to those of the Council to assess whether there needs to be any realignment adjustments on consolidation. There are no material differences in these policies and so no consolidation adjustments have been made.
- Fixed assets held by group entities which are sufficiently specialist in nature not to fall within the scope of the Council's accounting policies are valued in accordance with the accounting policies of the individual entities.
- Any trust funds which the Council controls and which generate economic benefits, or deliver goods or services in accordance with the Council's objectives have been evaluated in terms of their impact on the group financial statements. Where this impact has been judged to be material the trust has been included.

Section 6 – Group Financial Statements and Notes

6.4 Core Group Financial Statements

6.4.1 Group Comprehensive Income and Expenditure Statement (Group CIES)

The purpose of this statement is explained in section 3.1 of the Council's single entity Statement of Accounts.

As outlined in note 4.3.1 Prior Year Reclassifications, the Council's 2022/23 CIES has been restated to align with the 2023/24 directorate position of the Council. The group 2022/23 CIES has also been restated. This restatement only alters the classification of the directorates of the Council and overall the total value is unchanged. The group organisations are not included within the portfolios but are shown on a separate line of the CIES.

6.5 Details of subsidiaries, jointly controlled entities and trust funds included in the group accounts

2023/24 group core statements have been completed using the audited accounts of these organisations, except for Bridge Estate Trust and Nottingham City Transport Ltd whose draft unaudited accounts have been used.

Copies of the accounts can be obtained from Companies House, Crown Way, Cardiff CF14 3UZ unless otherwise stated in sections 6.5.1 to 6.5.3 below.

6.5.1 Subsidiaries:

Nottingham City Homes Ltd (Registered Company Number: 05292636)

Nature of the business

The principal activities of the group are to act as the managing agent of the Council's housing stock and to provide a repairs and maintenance service in respect of these properties, as well as owning housing stock of its own for social and market rent.

The group comprises Nottingham City Homes Ltd (NCH), Nottingham City Homes Registered Provider Ltd and Nottingham City Homes Enterprises Ltd.

Relationship with the Council

NCH is incorporated as a private company limited by guarantee under the Companies Act 1985. The company's sole member is the Council.

The Council has a NCH debtor balance of £45.005m at 31 March 2024 (£57.484m at 31 March 2023), this is made up of a loan and a short term debtor balance.

All NCH staff were transferred via TUPE back into the Council from 31 March 2023. All Council housing functions are now insourced back to the Council. The Council staff, however, continue to provide services to NCH Group through a service agreement to enable NCH Group to continue to carry out its obligations for the small number of properties under its management.

Nottingham City Transport Ltd (Registered Company Number: 02004967)

Nature of Business

The company is the principal public bus operator in the Greater Nottingham area.

Relationship with the Council

This company is controlled by the Council and commenced trading on 26 October 1986. The total shareholding owned by the Council is 95%. Transdev Plc has a minority interest in Nottingham City Transport Ltd (NCT) of 5% which comprises of 238,526 B Ordinary shares at £1 each.

The company has the following shares in issue:

- 4,532,000 "A" Ordinary shares at £1 each, which are owned by the Council.
- 238,526 "B" Ordinary shares at £1 each, which are owned by Transdev Plc.

6.5.3 Trust Fund:

Bridge Estate (Registered Charity Number: 220716)

Nature of the Trust Fund

The earliest mention of Bridge Estate is in 1302. Since that date, various bequests of land and property have been made, the income from which being set aside for the maintenance of bridges over the River Trent. By 1882 the income generated by the Estate was in excess of that required for the maintenance of Trent Bridge and consequently the objectives of the Estate were extended by virtue of section 78 of the Nottingham Corporation Act 1882.

The objectives of the charity are as follows:

- Provide for the efficient maintenance and repair of Trent Bridge and the approaches to it.
- In effect, to set up a contingency fund for the possible construction of such new bridge or bridges over the River Trent as may be found necessary or desirable.

- The residue of such income is to be applied as the Trustee thinks best for the improvement of the City of Nottingham and the public benefit of its inhabitants.

Relationship with the Council

Bridge Estate is a charity of which the Council is sole trustee. Councillors are appointed to the Trusts and Charities Committee by full Council to fulfil the Council's responsibilities as Trustee including the responsibility for making recommendations on the management of the charity.

All transactions relating to Bridge Estate are subject to the same financial regulations and procedures as those relating to the Council.

Accounts

Copies of the accounts of Bridge Estate can be obtained from Technical Accounting, Strategy and Resources, Loxley House, Station Street, Nottingham, NG2 3NG.

6.6 Details of subsidiaries, associates, joint ventures and trust funds not included in the group accounts

The Council has considered its relationship with the following associates, joint ventures and trust funds. These organisations have been excluded from the group accounts on the basis of risk and materiality.

Relationship with the Council

As a customer of emPSN the Council is a member of the company and has a stake in its future as a public sector owned company Limited by Guarantee.

Inspired Spaces Nottingham (Holdings 1) Ltd. (Registered Company Number: 06506329) and Inspired Spaces Nottingham (Holdings 2) Ltd. (Registered Company Number:8121567)

Nature of the Company

The principal activities of the companies are the provision of the construction project development and partnering services within the education sector.

Relationship with the Council

The Council has a 10% shareholding in each of the companies.

6.6.4 Trust Funds

Harvey Hadden Stadium Trust (Registered Charity Number: 522271)

Nature of the Trust Fund

On 18 July 1955 the court made a scheme and order for an athletics stadium to be erected out of the bequest of Harvey Hadden. Under the court order there is a requirement for “the Corporation” – now Nottingham City Council – to maintain the stadium built with those funds, “under the name of Harvey Hadden Stadium in good order and condition in perpetuity for the purposes of public recreation”.

The objective of the Trust is to provide public recreation for the people of the City of Nottingham forever.

Relationship with the Council

Harvey Hadden Stadium Trust is a charity of which the Council is sole trustee. Councillors are appointed to the Trusts and Charities Committee by full Council to fulfil the Council’s responsibilities as Trustee including the responsibility for making recommendations on the management of the charity.

All transactions relating to Harvey Hadden Stadium Trust are subject to the same financial regulations and procedures as those relating to the Council.

Highfields Leisure Park Trust (Registered Charity Number: 1006603)

Nature of the Trust Fund

The Highfields Leisure Park Trust was created by indenture in 1920 as a gift from Sir Jesse Boot, founder of Boots the Chemist. The objective of the Trust is to provide public recreation and pleasure grounds for the people of the City of Nottingham forever.

Section 6 – Group Financial Statements and Notes

Relationship with the Council

Highfields Leisure Park Trust is a charity of which the Council is sole trustee. Councillors are appointed to the Trusts and Charities Committee by full Council to fulfil the Council's responsibilities as Trustee including the responsibility for making recommendations on the management of the charity.

All transactions relating to Highfields Leisure Park Trust are subject to the same financial regulations and procedures as those relating to the Council.

6.7 Notes to the Core Group Financial Statements

These notes provide information that supports and helps in interpreting the financial statements. Where the group account figures are not materially different from those of the Council only accounts, no additional disclosure notes have been made.

6.7.1 Group Comprehensive Income and Expenditure Statement Notes

6.7.1.1 Financing and Investment Income and Expenditure

	2022/23			2023/24

Impairment of receivables				(0.015)				(0.499)
TOTAL INCLUDED IN THE CIES				(394.375)				(437.115)

As outlined in note 4.3.1 Prior Year Reclassifications, 2022/23 has been restated to align with the 2023/24 directorate position of the Council. This restatement only alters the classification of the directorates and overall the total value is unchanged. The group organisations are not included within the directorates but are shown on a separate line.

Revenue is recognised either over time or at a point in time. This is analysed in the following table:

Timing of revenue recognition	2022/23		2023/24	
	Over time	At a point in time	Over time	At a point in time
	£m	£m	£m	£m
Fees and charges under statutory requirements	(110.003)	(1.239)	(118.572)	(1.178)
Sale of goods	-	(18.882)	-	(17.952)
Charges for services	(143.630)	(120.606)	(194.889)	(104.025)
TOTAL	(253.633)	(140.727)	(313.461)	(123.155)

Section 6 – Group Financial Statements and Notes

Amounts included in the Balance Sheet for contracts with service recipients are shown in the following table:

	31 March 2023 £m	31 March 2024 £m
Receivables included in debtors	52.325	63.034
Contract assets	0.104	0.107
Contract liabilities	(18.227)	(19.463)
TOTAL	34.202	43.678

Changes in the contract assets and contract liabilities balances during the year are as follows:

	2022/23		2023/24	
	Contract Assets £m	Contract Liabilities £m	Contract Assets £m	Contract Liabilities £m
Balances at 1 April	0.375	(21.272)	0.104	(18.227)
Reversal for amounts recognised in the CIES in	(0.375)	21.272	(0.104)	18.227
Increases (decreases) due to cash received (paid)	0.104	(18.227)	0.107	(19.463)
BALANCE AT 31 MARCH	0.104	(18.227)	0.107	(19.463)

The value of revenue that is expected to be recognised in the future related to performance obligations that are unsatisfied (or partially unsatisfied) at the end of the year is:

	31 March 2023 £m	31 March 2024 £m
Not later than one year	(17.501)	(17.023)
Later than one year	(0.726)	(2.440)
TOTAL	(18.227)	(19.463)

** The Gross Book Value, Accumulated Depreciation and Accumulated Impairment do not total to the Net Book Value shown in the table as these figures are not provided for Infrastructure Assets. The Net Book Value total does include Infrastructure Assets.

Highways Infrastructure Assets - Movements on balances

In accordance with the temporary relief offered by the Update to the Code on infrastructure assets [Local Government Circular 09/2022] this note does not include disclosure of gross cost and accumulated depreciation for infrastructure assets because historical reporting practices and resultant information deficits mean that this would not faithfully represent the asset position to the users of the financial statements.

The authority has chosen not to disclose this information as the previously reported practices and resultant information deficits mean that gross cost and accumulated depreciation are not measured accurately and would not provide the basis for the users of the financial statements to take economic or other decisions relating to infrastructure assets.

6.7.2.2 Investment Properties

The following table summarises the movement in the fair value of investment properties over the year:

	2022/23 £m	2023/24 £m
Opening Balance At 1 April	309.448	288.643
Additions	1.251	0.169
Disposals	(12.651)	(22.887)
Net gains/losses from fair value adjustments	(5.744)	(20.223)
Transfers to / from Property Plant and Equipment	(3.661)	15.660
CLOSING BALANCE AT 31 MARCH	288.643	261.362

Where the Bridge Estate's fixed assets have been consolidated with the Council's it has been assumed that the properties class will remain as investment property upon consolidation.

Fair Value Hierarchy

Details of the group's investment properties and information about the fair value hierarchy as at 31 March 2024 are as follows:

	Quoted prices in active markets for identical assets (Level 1) £m	Other significant observable inputs (Level 2) £m	Significant unobservable inputs (Level 3) £m	Fair value as at 31 March 2024 £m
Industrial	-	58.837	-	58.837
Land	-	33.942	-	33.942
Leisure / Other	-	43.330	-	43.330
Office	-	54.900	-	54.900
Retail	-	61.468	-	61.468
Services	-	8.885	-	8.885
Total	-	261.362	-	261.362

Details of the Fair Value hierarchy information are shown in note 4.4.3.

Section 6 – Group Financial Statements and Notes

6.7.2.3 Short Term Debtors

	31 March 2023 £m	31 March 2024 £m

TOTAL	(210.851)	(208.737)

Section 6 – Group Financial Statements and Notes

6.7.2.6 Usable Reserves

Movements in the usable reserves are detailed in the MIRS (section 6.4.3).

6.7.2.7 Unusable Reserves

Unusable reserves have been created as a result of the difference between accounting under IFRS and statutory provisions. These reserves represent differences due to timing of funding certain items of expenditure and are, therefore, not available as a source of general funding. The unusable reserves also include the Council's share of profit and loss and other reserves of jointly controlled entities included in the group accounts.

	31 March 2023 £m	31 March 2024 £m
Revaluation Reserve	1,025.294	1,093.909
Capital Adjustment Account	1,241.503	1,257.629
Financial Instruments Adjustment Account	(4.865)	10.854

Section 7 (Appendix A)

PENSION SCHEMES

7.1 Defined Benefit Pension Schemes accounted for as Defined Contribution Schemes

7.1.1 Teachers' Pension Scheme

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by Capita Business Services Ltd on behalf of the Department for Education. The scheme provides teachers with specified benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The scheme is a multi-employer defined benefit scheme. The scheme is unfunded and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. Valuations of the notional fund are undertaken every four years.

The scheme has more than of 12,600 participating employers and consequently the Council is not able to identify its share of the underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme.

In 2023/24, the Council paid £7.126m to the Teachers' Pension Scheme in respect of teachers' retirement benefits, representing 23.68% of pensionable pay. The figures for 2022/23 were £6.87m representing 23.68% of pensionable pay. The employer contribution includes a levy of 0.08% for administration.

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the Scheme. These costs are accounted for on a defined benefit basis and shown under past service costs/gains in section 7.2.1 below. The teacher's benefits arrangements have no assets to cover its liabilities.

The Council is not liable to the scheme for any other entities obligations under the plan.

7.1.2 NHS Pension Scheme

Public Health employees who transferred into the Council from Nottingham City PCT on 01 April 2013 are members of the NHS Pension Scheme. The NHS Pension Scheme is administered by NHS Business Services Authority.

On 1 April 2015 a new NHS Pension Scheme was introduced. The new scheme covers all former members of the 1995/2008 Scheme not eligible to continue in that Scheme as well as new NHS employees on or after 1 April 2015. The 2015 Scheme is a Career Average Revalued Earnings Scheme, with benefits based on a proportion of pensionable earnings each year during your career.

From 1 April 2022, all active members of the NHS Pension Scheme, regardless of their age, are now members of the 2015 NHS Pension Scheme. The 1995/2008 Scheme closed on 31 March 2022 and all future accruals from 1 April 2022 are now within the 2015 Scheme.

Members will keep the pension benefits they have accrued in the 1995/2008 Scheme before 1 April 2022 and will be able to access these benefits in the same way and at the same time as they can now.

The scheme is an unfunded defined benefit occupational scheme with the benefits underwritten by the Government. The scheme is not designed to be run in a way that would enable NHS bodies / local authorities to identify their share of the underlying scheme assets and liabilities. Therefore, the scheme is accounted for as if it were a defined contribution scheme: the cost to the Council is taken as equal to the contributions payable to the scheme for the accounting period.

The scheme receives contributions from employers and employees to defray the costs of pensions and other benefits. The costs of the scheme are determined by the Government and also the scheme actuary who performs periodic valuations of the scheme to determine how much needs to be paid in to provide the benefits paid out. These costs are shared between the NHS employers and the scheme members.

The employer contribution rate for the period 1 April 2019 to 31 March 2023 is 20.6% of pensionable pay.

The employer contribution rate is set through a process known as the scheme valuation. A scheme valuation is carried out every four years and it measures the full cost of paying pension benefits (to current pensioners). The most recent 2020 scheme valuation identified the need to increase the employer contribution from 20.6% to 23.7% (3.1% increase) from 1 April 2024.

The next actuarial valuation is due with an effective date of 31 March 2024 and is due to commence in 2025. Changes to employer contribution rates as a result of the 2024 valuation are expected to take effect from April 2027.

Employers are required to pay a scheme administration levy, in addition to the employer contribution rate, to cover the cost of the scheme administration. This levy is 0.08% of pensionable pay and is collected at the same time and in the same way as normal employer contributions. In practical terms, this means employers will pay 23.78% of pensionable pay.

For 2023/24 the Council was responsible for paying 14.38% of contributions. The Council also paid some of the increase in costs foreseen in Budget 2016 which equated to a 2.5% increase in employer contributions with the remaining 3.8% (together totalling the 6.3% increase) constituting unforeseen costs which were funded by the Government. These contribution rates were unchanged from 2019/20, 2021/22 and 2022/23.

In 2023/24 the Council's 14.38% contribution to the Scheme was £0.030m (2022/23 £0.033m).

The employee contributions are on a tiered scale from 5.1% to 13.5% of their pensionable pay.

If the scheme operates with a surplus of cash outflow, due to income exceeding the payments made, the surplus is returned to HM Treasury during the following financial year. If payments exceed income within a financial year, or the scheme requires funds to maintain a level of cash flow to make payments the balance of the funding required is requested from parliament through the annual Supply Estimates process.

As the scheme is unfunded liabilities are underwritten by the Exchequer.

7.2 Defined Benefit Pension Scheme

7.2.1 Local Government Pension Scheme

The LGPS is a defined benefit statutory scheme administered in accordance with the Local Government Pension Scheme Regulations 2013, and currently provides benefits based on career average revalued earnings. Full details of the benefits being valued are as set out in the Regulations and summarised on the LGPS website.

(www.lgpsregs.org/) and the Fund's membership booklet (www.lgpsmember.org/).

The administering authority for the Fund is Nottinghamshire County Council. The Pension Fund Committee oversees the management of the Fund whilst the day to day fund administration is undertaken by a team within the administering authority. Where appropriate some functions are delegated to the Fund's professional advisers.

As administering authority to the Fund, Nottinghamshire County Council, after consultation with the Fund Actuary and other relevant parties, is responsible for the preparation and maintenance of the Funding Strategy Statement and the Investment Strategy Statement. These are amended when appropriate based on the Fund's performance and funding.

Contributions are set every 3 years as a result of the actuarial valuation of the Fund required by the Regulations. The last valuation of the Fund was carried out as at 31 March 2022 and set contributions for the period from 1 April 2023 to 31 March 2026. The next valuation is expected to be carried out as at 31 March 2025. There are no minimum funding requirements in the LGPS but the contributions are generally set to target a funding level of 100% using the actuarial valuation assumptions.

The results of the Actuary Report for 2023/24 have been based on the 31 March 2022 valuation.

On an Employer's withdrawal from the Fund, a cessation valuation will be carried out in accordance with Regulation 64 of the LGPS Regulations 2013 which will determine the termination contribution due by the Employer, on a set of assumptions deemed appropriate by the Fund Actuary.

In general, participating in a defined benefit pension scheme means that the Council is exposed to a number of risks:

Investment risk: The Fund holds investment in asset classes, such as equities, which have volatile market values and whilst these assets are expected to provide real returns over the long-term, the short-term volatility can cause additional funding to be required if a deficit emerges.

Interest rate risk: The Fund's liabilities are assessed using market yields on high quality corporate bonds to discount future liability cash flows. As the Fund holds assets such as equities the value of the assets and liabilities may not move in the same way.

Inflation risk: All of the benefits under the Fund are linked to inflation and so deficits may emerge to the extent that the assets are not linked to inflation.

Longevity risk: In the event that the members live longer than assumed a deficit will emerge in the Fund. This may be mitigated by a longevity insurance contract if held by the Fund. There are also other demographic risks.

Climate risk: Climate risk can be grouped into two categories; Physical and Transitional risks. Physical risks are direct risks associated with an increased global temperature such as heatwaves and rising sea levels. Transitional risks are the of

transitioning to a low carbon economy. These risks will manifest themselves in many of the other risks detailed above which the Fund is exposed to, for example investment returns may be affected costs.

Regulatory risk: Regulatory uncertainties could result in benefit changes to past or future benefits which could result in additional costs.

Orphan risk: As many unrelated employers participate in each Fund, there is an orphan liability risk where employers leave the Fund but with insufficient assets to cover their pension obligations so that the difference may fall on the remaining employers in that Fund.

All of the risks above may also benefit the Council e.g. higher than expected investment returns or employers leaving the Fund with excess assets which eventually get inherited by the remaining employers.

McCloud and Sargeant Judgments

The Court of Appeal judgment on the McCloud and Sargeant cases, relate to age discrimination against the age-based transitional provisions put into place when the new judicial pension arrangements were introduced in 2015. The members argued that these transitional provisions were directly discriminatory on grounds of age and indirectly discriminatory on grounds of sex and race, based on the correlation between these two factors reflected in the judicial membership. The Tribunal ruled against the Government, deeming the transitional provisions as not a proportionate means of achieving a legitimate aim.

Regulations in respect of the McCloud and Sargeant judgements came into force on 1 October 2023. These may affect the value of the liabilities in respect of accrued benefits and therefore an allowance may need to be included in an employer's report. An allowance for the McCloud remedy will have been made in the liabilities which is consistent with the method adopted at the last actuarial valuation.

Goodwin Case

The Actuary have not made any adjustments to accounting valuations as a result of the Goodwin case.

Impact of the Outcome of the Lloyds Judgement on Past Transfer Values

The latest news on the Lloyds Banking Group court case involved a ruling that, in cases where a member exercised their right to a transfer value out of the scheme, the trustee had the duty to make a transfer payment that reflects the member's right to equalised benefits and remains liable if an inadequate transfer payment had been paid.

It is not yet known if, or how, this will affect the LGPS. Further guidance from CIPFA and DLUHC is expected on this. The Actuary have not made any allowance to reflect this judgement.

GMP Indexation Consultation Response

On 23 March 2021, the Government published the outcome to its Guaranteed Minimum Pension Indexation consultation, concluding that all public service pension schemes, including the LGPS, will be directed to provide full indexation to members with a GMP reaching State Pension Age (SPA) beyond 5 April 2021. This is a permanent extension of the existing 'interim solution' that has applied to members with a GMP reaching SPA on or after 6 April 2016.

Section 7 – Pension Schemes

The Actuary's standard assumption for GMP is that the Fund will pay limited increases for members that have reached SPA by 6 April 2016, with the Government providing the remainder of the inflationary increase. For members that reach SPA after this date, we assume that the Fund will be required to pay the entire inflationary increase. Therefore, the Actuary's assumption is consistent with the consultation outcome and they do not believe they need to make any adjustments to the value placed on the liabilities as a result of the above outcome.

Assets and Liabilities in Relation to Post-Employment Benefits

The projected pension expenses for the year to 31 March 2025 are as follows:

	LGPS 31 March 2025 £m	Teachers Benefits £m
Service cost	36.364	-
Net interest on the defined liability (asset)	2.069	1.087
Administration expenses	0.784	-
Total loss / (profit)	39.217	1.087
Employer Contributions	44.991	-

These projections are based on the assumptions as at 31 March 2024. The figures exclude the capitalised cost of any early retirements or augmentations which may occur after 31 March 2024.

Actuarial Methods and Assumptions

Both the Local Government Pension Scheme and Teachers Benefits liabilities have been assessed by Barnett Waddingham LLP, an independent firm of actuaries, with estimates for the County Council Fund being based on the latest full valuation of the scheme as at 31 March 2022 and using financial assumptions that comply with IAS19.

Valuation Data - Data Sources

In completing the calculations for pensions accounting purposes the actuary has used the following items of data, which they received from Nottinghamshire County Council:

- Results of the latest funding valuation as at 31 March 2022
- Results of the previous IAS19 report as at 31 March 2023
- Fund asset statement as at 31 March 2024
- Fund income and expenditure items to 31 March 2024
- Employer income and expenditure items to 31 March 2024
- Details of any new unreduced early retirement payments to 31 March 2024
- Details of any settlements to/from the Employer for the period to 31 March 2024

The data has been checked for reasonableness, including consistency with previous valuation data where relevant, and the data is within tolerances for the purposes of the Actuary report. Although some of the data items have been estimated, they are not likely to have a material effect on the results. The Actuary is not aware of any material changes or events since they received the data. The Actuary checks the data for reasonableness to ensure it is sufficient for them to be able to provide advice.

Employer Membership Statistics

The following table summarises the membership data, as at 31 March 2022 for members receiving funded benefits, and as at 31 March 2020 for any members receiving unfunded benefits.

	Local Government Pension Scheme		
	Number	Salaries / Pensions £m	Average Age
Actives	7,624	157.858	46
Deferred Pensioners	15,098	18.960	51
Pensioners	8,606	40.079	71
Unfunded Pensioners	686	0.653	81

	Teachers Benefits		
	Number	Salaries / Pensions £m	Average Age
Unfunded Pensioners	2,395	2.176	74

Employer Payroll

The total pensionable payroll and projected payroll for the Council is as follows:

Estimated payroll for the year to 31 March 2024 £214.115m

Projected payroll for the year to 31 March 2025 £214.115m

This has been used to calculate the service cost and projected service cost respectively.

Scheduled Contributions

The following table summarises the minimum employer contributions due from the Council to the Fund over this inter-valuation period.

	Primary rate	Secondary rate for period beginning:			Minimum employer contributions due for the period beginning:		
		1 Apr 2023	1 Apr 2024	1 Apr 2025	1 Apr 2023	1 Apr 2024	1 Apr 2025
Percent of Payroll	18.5%	0.0%	0.0%	0.0%	18.5%	18.5%	18.5%
plus monetary amounts £m		6.810	5.380	3.810	6.810	5.380	3.810

The table of scheduled contributions above relates to the Council and all associated employers. The primary rate shown is the appropriate weighted average.

Funding Approach

The Council currently participates in the Nottingham City Council pool with other employers.

Assets

The return on the Fund (on a bid value to bid value basis) for the year to 31 March 2024 is calculated to be 8.46% based on the Fund asset statements and fund cashflows.

Section 7 – Pension Schemes

The Council's share of the assets of the Fund is approximately 24.77%.

The estimated asset allocation for the Council at 31 March 2024 and 31 March 2023 is as follows (noting that due to rounding they may not total 100%):

	Local Government Pension Scheme			
	31 March 2023		31 March 2024	
	£m	%	£m	%
Public Equities	793.673	58%	1,051.360	60%
Gilts	28.148	2%	41.630	2%
Other Bonds	80.649	6%	86.246	5%
Property	161.617	12%	184.816	11%
Cash / Temporary Investments	71.252	5%	104.668	6%
Inflation Plus	68.731	5%	88.432	5%
Infrastructure	107.027	8%	125.688	7%
Private Equities	50.599	4%	55.674	3%
TOTAL	1,361.696	100%	1,738.514	100%

The following table sets out the percentages of the Fund's assets held in each asset class at 31 March 2024 (split by those that have a quoted market price in an active market, and those that do not).

Asset Breakdown	31 March 2024	
	% Quoted	% Unquoted
Fixed Interest Government Securities:		
UK	2%	-
Index Linked Government Securities:		
UK	0%	-
Corporate Bonds:		
UK	0%	-
Overseas	5%	-

Credit	-	3%
Cash/Temporary Investments	-	2%
Net Current Assets - Debtor	-	0%
Net Current Assets - Creditors	-	0%
TOTAL	68%	32%

Valuation Approach

To assess the value of the Council's liabilities at 31 March 2024, the value of the Council's liabilities calculated for the funding valuation as at 31 March 2022 have been rolled forward, using financial assumptions compliant with IAS19.

The full actuarial valuation involved projecting future cashflows to be paid from the Fund and placing a value on them. These cash flows include pensions currently being paid to members of the Fund as well as pensions (and lump sums) that may be payable in future to members of the Fund or their dependants. These pensions are linked to inflation and will normally be payable on retirement for the life of the member or a dependant following a member's death.

The projected unit method (PUM) is used to calculate the future service cost. For accounting valuations, the control period is set to one year.

It is not possible for the Actuary to assess the accuracy of the estimated value of liabilities as at 31 March 2024 without completing a full valuation. However, they are satisfied that the approach of rolling forward the previous valuation data to 31 March 2024 should not introduce any material distortions in the results provided that the actual experience of the employer and the Fund has been broadly in line with the underlying assumptions, and that the structure of the liabilities is substantially the same as at the latest formal valuation. From the information they have received there appears to be no evidence that this approach is inappropriate.

Where members have been granted unreduced retirement on the grounds of redundancy or efficiency, an additional strain is placed on the liabilities. The additional strain is calculated and is allowed for as a curtailment cost.

Where employees are known to have transferred their employment to or from the Council during the accounting period, an allowance is made for the transfer of assets and liabilities as a settlement event.

To calculate the asset share for an individual employer, the Actuary roll forward the assets allocated to each employer at the latest valuation date allowing for investment returns (estimated where necessary), contributions paid into, and estimated benefits paid from, the Fund by and in respect of the employer and its employees.

The Actuary also make an allowance for administration expenses which are paid in respect of the Fund. For purposes of the calculations, the administration expenses are distributed amongst the employers in the fund in proportion to their individual asset shares.

Asset Ceilings

The accounting standards state that if an employer has an accounting surplus, it should only be recognised to the extent that it is able to recover the surplus either through reduced contributions in the future, or through refunds. The present value of such economic benefits is commonly referred to as the "asset ceiling".

The Actuary's default approach for all employers will be to allow for an asset ceiling. For employers accounting under IAS19, the calculation will be based on their interpretation of IFRIC 14 "The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction".

IFRIC 14 itself is open to multiple interpretations and, since the last accounting date, auditors' preferences have been evolving and have only recently coalesced around a generally preferred approach. Guidance was also released from CIPFA dated November 2023 regarding their interpretation of IFRIC 14's applicability in the LGPS. In light of these developments, the Actuary have adopted the below methodology as standard:

Section 7 – Pension Schemes

The Actuary's calculations assume that:

- There is no unconditional right to a refund of surplus, as such a payment would be at the discretion of the relevant LGPS fund.
- The appropriate time horizon to consider for calculating the economic benefit associated with potential reductions in future contributions will depend on the type of body and the nature of any applicable admission agreement:
 - If the employer is a scheduled body, or an admission body which is open to new members with no anticipated contract end date, the Actuary will assume they will participate indefinitely. Their calculations will therefore assess the cost of future accrual, and contributions payable in respect of future accrual, in 'perpetuity'.
 - If the employer is an admitted body which is closed to new members, the appropriate time horizon to consider will be the shorter of any anticipated contract end date and the average future working lifetime of active members. Their calculations will therefore assess the cost of future accrual, and contributions payable in respect of future accrual, with reference to an annuity corresponding to this period.
- If the employer is currently already receiving a reduction in contributions in respect of a funding surplus, these will be deducted from the contributions that would otherwise be required to be paid towards the cost of future accrual, for so long as that reduction is expected to remain in force.
- For employers reporting under IAS19 only, any requirement to make contributions towards a funding deficit is considered as an additional minimum liability. The time horizon for assessment of the additional minimum liability is the deficit recovery period used to determine the level of secondary contributions certified.

The impact of the asset ceiling on the Council's net defined benefit liability position is detailed in section 4.4.13.

Assumptions

Demographic assumptions:

The Actuary's standard approach is to use demographic assumptions in line with the latest actuarial valuation.

The key demographic assumption is the mortality assumption and there are two main steps in setting this assumption:

- Making a current assumption of members' mortality (the base mortality); and
- Projecting these current mortality rates into the future, allowing for further potential improvements in mortality. Future members' mortality is almost impossible to predict and therefore there is a lot of judgement involved and the Actuary naturally have to refine their view on this over time.

The base table mortality assumptions adopted for the Funds' latest triennial funding valuations were best estimate assumptions and therefore the Actuary used the same assumptions, as standard for accounting.

For employers participating in an English Fund, the last actuarial valuation was at 31. March 2022.

To project future improvements in mortality, the Actuary use a model prepared by the Continuous Mortality Investigation Bureau (CMI). The CMI update their model on an annual basis, incorporating the latest mortality data in the national population.

The CMI have released the 2022 version of their model. This represents a change from the last accounting date when either the 2020 or 2021 version of the model was used for most employers. The core model places no weight on the exceptional mortality experienced during 2020 and 2021 as a result of the Covid pandemic but places some reliance on mortality data that has been observed during 2022. Specifically, a weighting of 25% is applied to mortality in 2022. The impact of updating the model is expected to be a slight reduction in life expectancies for all employers, largely reflecting the heavier than average mortality that was experienced during 2022.

Details of the post retirement mortality assumption are set out below:

	Local Government		Teachers Benefits	
	31 March 2023	31 March 2024	31 March 2023	31 March 2024
Post Retirement Mortality				
Base table	S3PA	S3PA	S3PA	S3PA
Multiplier (MF)	115% / 110%	115% / 110%	115% / 110%	115% / 110%
Future improvements model	CMI_2021	CMI_2022	CMI_2021	CMI_2022
Long-term rate of improvement	1.25% p.a.	1.25% p.a.	1.25% p.a.	1.25% p.a.
Smoothing parameter	7.0	7.0	7.0	7.0
Initial addition parameter	0.0% p.a.	0.0% p.a.	0.0% p.a.	0.0% p.a.
2020 weight parameter	5%	0%	5%	0%
2021 weight parameter	5%	0%	5%	0%
2022 weight parameter	n/a	25%	n/a	25%

The assumed life expectations from age 65 are:

	Local Government		Teachers Benefits	
	31 March 2023	31 March 2024	31 March 2023	31 March 2024
Life expectancy from age 65 (years):				
Retiring today:				
Males	20.7	20.4	20.7	20.4
Females	23.5	23.3	23.5	23.3
Retiring in 20 years:				
Males	22.0	21.7	n/a	n/a
Females	25.0	24.7	n/a	n/a

The estimated Macaulay duration of the Council as at the accounting date is 17 years.

Other key demographic assumptions are:

- Commutation - Members will exchange pension to get 50% of the maximum available cash on retirement. For every £1 of pension that members commute, they will receive a cash payment of £12 as set out in the Regulations.
- Normal Retirement - Members will retire at one retirement age for all tranches of benefit, which will be the pension weighted average tranche retirement age
- 50:50 take up - The proportion of the membership that had taken up the 50:50 option at the previous valuation date will remain the same

Section 7 – Pension Schemes

This is in line with the assumption adopted for the Fund’s latest actuarial valuation.

Financial assumptions:

The key financial assumptions required for determining the defined benefit obligation for accounting are the discount rate, linked to high quality corporate bond yields, and the rate of future inflation.

The Actuary set out their standard approach to the derivation of these assumptions and sample assumptions using market conditions at 31 March 2024.

The financial assumptions used for the purpose of IAS19 calculations are shown in the following table:

	Local Government Pension					
	Scheme			Teachers Benefits		
	31 March 2022	31 March 2023	31 March 2024	31 March 2022	31 March 2023	31 March 2024
Financial Assumptions:						
Discount rate	2.60%	4.80%	4.90%	2.60%	4.80%	4.80%
Pension increases (CPI)	3.20%	2.90%	2.90%	3.45%	2.85%	2.95%
RPI Inflation	3.55%	3.25%	3.20%	4.00%	3.45%	3.45%
Salary increases	4.20%	3.90%	3.90%	-	-	-

Projected unit method is used in the calculations.

The Actuary have allowed for actual pension increases up to and including the 2024 Pension Increase Order. This is reflected in the Experience loss/(gain) on defined benefit obligation figure in the results. The Actuary have also allowed for actual CPI inflation experienced from September 2023 to March 2024.

Discount rate:

Under the IAS19 standard the discount rate should be determined by reference to market yields at the end of the reporting period on high quality corporate bonds. The Actuary’s standard approach to derive the appropriate discount rate is known as the Single Equivalent Discount Rate (SEDR) methodology.

The Actuary use sample cashflows for employers at each year and derive the single discount rate which results in the same liability value as that which would be determined using a full yield curve valuation (essentially each year’s cashflows has a different discount rate).

These sample cashflows are prepared by the Actuary on a triennial basis. Employers are grouped together into ‘maturity brackets’ based on the duration of their future cashflows. Each maturity bracket is linked to a term on the yield curve, up to the 30 year point, resulting in 30 sets of sample cashflows. All employers in the same maturity bracket share the same set of sample cashflows which is used at each accounting date to set the relevant financial assumptions.

In carrying out this derivation they use the annualised Merrill Lynch AA rated corporate bond yield curve and assume the curve is flat beyond the 30 year point.

The new yield curve at the accounting date is used to discount the sample cashflows to calculate a single equivalent discount rate proposed for use in the employer’s accounting valuation.

The sample cashflows are used to set the assumption used, however when calculating the change in financial assumption item on the employer’s balance sheet the Actuary discount the employer’s unique cashflow profile with the new single equivalent discount rate. The impact of a change in the discount rate compared with the previous accounting date will therefore vary by employer depending on their own unique cashflow profile. Individual employer cashflow profiles were derived as at the last valuation date and are assumed to remain unchanged between triennial actuarial valuations.

All else being equal, a higher discount rate will result in a lower value being placed on the defined benefit obligation and an improvement in the overall position.

The impact of a change in the discount rate compared with the previous accounting date will vary by employer depending on their own unique cashflow profile. Cashflow profiles were derived at the last full triennial valuation date and are assumed to remain unchanged since then.

The table below gives details of the estimated impact of a change in the discount rate for employers with different levels of maturity. As a general guide:

- Employers may be considered “Very Mature” if they have a liability duration under 10 years at the accounting date.
- Employers may be considered “Mature” if they have a liability duration of between 10 and 20 years at the accounting date.
- Employers may be considered “Immature” if they have a liability duration over 20 years at the accounting date.

Maturity	Discount Rate		Estimated impact of change on liabilities
	31 March 2023	31 March 2024	
Very Mature	4.80% to 4.85%	4.65% to 4.80%	Neutral to increase of 1%
Mature	4.80%	4.80% to 4.95%	Decrease of 3% to neutral
Immature	4.80%	4.95%	Decrease of 3% to over 4%

Assumptions are rounded to the nearest 0.05%.

Please note this is illustrative only. The actual effect of the change in the discount rate assumption will depend on each employer’s membership and the assumption to be adopted this year compared to last year.

Inflation expectations:

Whilst the change in corporate bond yields is an important factor affecting the valuation of the liabilities, so too is the assumed level of future inflation as this determines the rate at which the benefits increase.

IAS19 suggests that in assessing future levels of long-term inflation, the Actuary should use assumptions that would result in a best estimate of the ultimate cost of providing benefits whilst also giving consideration to the gilt market (in line with general price levels) to give an indication of market expectation.

Pension increases in the LGPS are expected to be based on the Consumer Prices Index (CPI). To derive the CPI assumption, the Actuary first make an assumption for the Retail Price Index (RPI) then make an adjustment.

Section 7 – Pension Schemes

Allowance for Inflation Experience:

The Actuary's default approach is to allow for actual pension increases which will apply at the accounting date as confirmed by the HM Treasury Order. In addition, they allow for actual inflation experience from September 2023 (which determines the next pension increase order) to the most recent known date available. Any difference between this and the pension increase previously assumed will give rise to an experience item.

For most employers, an allowance for part-year inflation experience was made when preparing their 2023 year-end accounting balance position. This would have allowed for ONS CPI inflation up to March 2023, or the most recent available data at the time the report was prepared. The inflation experience to 31 March 2024 will allow for ONS CPI inflation observed over the year to March 2024.

The CPI inflation observed from last time's accounting date up to the most recent information has been broadly in line with the long-term rate of inflation assumed over the same period for a typical LGPS employer. Therefore, the impact on the defined benefit obligation is likely to be fairly neutral for most employers

Retail Prices Index (RPI) assumption:

Similar to the SEDR approach described above, the Actuary adopt a Single Equivalent Inflation Rate (SEIR) approach in deriving an appropriate RPI assumption.

The SEIR adopted is such that the single assumed rate of inflation results in the same liability value (when discounted using the yield curve valuation described above) as that resulting from applying the Bank of England implied inflation curve. The Bank of England implied inflation curve is assumed to be flat beyond the 40 year point, and flat over the initial short-end period up to the 3 year point.

The Actuary's view is that gilt-implied inflation rates are currently distorted by supply and demand factors at medium and longer terms. They have therefore allowed for an Inflation Risk Premium (IRP) which varies by the term of the employer's liabilities with the resulting assumption falling between 0.0% p.a. and 0.25% p.a. (for terms ranging from 1 year up to 30 years).

Consistent with the SEDR approach, assumptions are rounded to the nearest 0.05% and the Actuary use the sample cashflows for employers at each duration year (from 1 to 30 years) in deriving the assumptions for employers.

RPI assumptions under the three maturity scenarios are set out in the table below and based on market conditions at 31 March 2024, with the equivalent 31 March 2023 SEIRs (based on our standard derivation at that time) also shown for comparison:

Maturity	RPI Inflation	
	31 March 2023	31 March 2024
Very Mature	3.40% to 3.50%	3.45% to 3.75%
Mature	3.20% to 3.40%	3.15% to 3.45%
Immature	3.15% to 3.20%	3.10% to 3.15%

Difference between RPI and CPI:

It is expected that CPI will be on average 1.0% p.a. lower than RPI for the period up to 2030. The Actuary have therefore assumed that the annual increase in CPI inflation will be 1.0% p.a. lower than the market implied increases in RPI for each year prior to 2030 and will be in line with market-implied inflation from the Bank of England inflation curve thereafter. This results in an assumed gap between the two inflation measures

of between 0.20% p.a. and 0.75% p.a. depending on the term of the liabilities (for terms ranging from 30 years down to 5 years).

While the Actuary recognise that post-2030, implied inflation will represent CPIH (i.e. including housing costs), and historically CPIH has (on average) been around 0.1% pa above the rate of CPI, we understand that since 2003 CPI has actually been slightly higher than CPIH, rather than lower. Based on the composition of the two indices before the ONS announcement in December 2023, we do not believe there was a compelling argument for the two indices to differ (on average) in the long term. We therefore take the post-2030 market implied inflation as our CPI assumption directly, making no allowance for any potential CPI-CPIH difference.

Consumer Price Index (CPI) assumption:

Using a similar approach described to calculate the SEIR for the RPI assumption, the Actuary have calculated a single equivalent rate of CPI increase that results in the same liability value as would be calculated by applying the implied CPI curve.

The pension increase assumption is likely to be similar to last year and most employers would see a fairly neutral impact on their overall position.

Maturity	CPI Inflation		Estimated impact of change on liabilities
	31 March 2023	31 March 2024	
Very Mature	2.65% to 2.85%	2.95%	Neutral to increase of 1%
Mature	2.85% to 2.95%	2.85% to 3.00%	Decrease of 1% to increase of 1%
Immature	2.85% to 2.90%	2.85% to 2.90%	Decrease of 1% to increase over 1%

Assumptions are rounded to the nearest 0.05%.

Please note this is illustrative only. The actual effect of the change in the pension increase assumption will depend on each employer’s membership and the assumption to be adopted this year compared to last year.

Salary increases:

The Actuary have adopted the standard approach to salary increases which is line with the latest actuarial valuation.

Overall impact of changes to financial assumptions:

The effect of the changes in the financial assumptions on an employer’s liabilities are dependent on the assumptions adopted as well as the specific duration of the employer’s liabilities. Typically, employers with greater liability durations are more sensitive to changes in financial assumptions as benefits will be paid over a longer term. The following table describes the estimated effects for employers based on assumptions derived as at 31 March 2024 under the three maturity scenarios:

Maturity	Estimated effect of change in financial assumptions on employer’s liabilities
Very Mature	Increase of 1% to 2%
Mature	Decrease of 3% to increase of 1%
Immature	Decrease of 3% to 5%

Based on market conditions at 31 March 2024, most employers will see the value of their defined benefit obligation decrease. However, the extent of this will depend on each employer’s membership profile, cashflows over the year, experience and any bespoke assumptions or approaches.

Section 7 – Pension Schemes

Special Events Dates

When determining any past service cost or gain or loss on settlement IAS19 requires that the net defined benefit liability is remeasured using current assumptions and the fair value of plan assets at the time of the event. Common events for LGPS employers that this may apply to include outsourcings and unreduced early retirements.

The Council's assets and defined benefit obligation have been remeasured throughout the accounting period at one or more settlement/curtailment event dates, in line with the requirements under IAS19. The financial assumptions used to calculate the results at each remeasurement date are set out below. These have been derived consistently with the assumptions adopted at 31 March 2023.

Remeasurement Date	Discount Rate % p.a.	Pension Increases (CPI) % p.a.	Real Discount Rate % p.a.
31 March 2023	4.80%	2.90%	1.90%
31 March 2023	4.80%	2.85%	1.95%
1 September 2023	5.40%	2.90%	2.50%
31 March 2024	4.90%	2.90%	2.00%

Past Service Costs

Past service costs arise as a result of introduction or withdrawal of or changes to member benefits. For example, an award of additional discretionary benefits to a member such as added years by a member would be considered a past service cost. The actuary is not aware of any additional benefits which were granted over the year ending 31 March 2024.

Curtailments

The cost of curtailments is calculated as a result of the payment of unreduced pensions on early retirement only. The Council will also have to account for non-pension related costs (e.g. lump sum payments on redundancy) but for the avoidance of doubt, the actuary has only calculated the cost of curtailments which affect the Council's LGPS pension liabilities. The cost of curtailments is calculated at the point of exit, with interest applied to the accounting date accounted for separately.

Over the year, 7 former Council employees became entitled to unreduced early retirement benefits under the LGPS. The capitalised cost of the additional benefits on IAS19 compliant assumptions is calculated at £0.618m. This figure has been included within the service cost.

Settlements

As a result of some members transferring into / out of the Council over the year liabilities have been settled at a cost different to the accounting reserve. The capitalised loss of this settlement is £15.392m. This figure has been included within service cost.

The following table sets out the settlement events allowed for:

Settlements In / (Out)	Transfer Date	Assets Transferred £m	Liabilities Transferred £m	Treated as special event?	Report Date
Employer transferred from					
Archway Learning Trust	1 Sep 2023	(0.861)	(1.107)	Yes	09/08/2023
Nottingham City Homes (Telecare Services)	31 Mar 2023	0.447	0.431	Yes	n/a
Nottingham City Homes	31 Mar 2023	222.151	235.676	Yes	n/a
Nottingham Revenue and Benefits Limited	31 Mar 2023	21.742	23.871	Yes	n/a
TOTAL		243.479	258.871		

Sensitivity Analysis

The sensitivity analysis below focuses on four assumptions – discount rate, long term salary increase, inflation (which is used to determine pension increases and deferred revaluation) and mortality.

	Local Government Pension Scheme					Teachers Benefits		
	£m	£m	£m	£m	£m	£m	£m	£m
Adjustment to discount rate:	+0.5%	+0.1%	0.0%	-0.1%	-0.5%	+0.1%	0.0%	-0.1%
Present value of total obligation	1,580.631	1,683.264	1,710.609	1,738.674	1,858.639	23.541	23.724	23.909
Projected service cost	30.293	35.067	36.364	37.708	43.573	-	-	-
Adjustment to long term salary increase:	+0.5%	+0.1%	0.0%	-0.1%	-0.5%	-	-	-
Present value of total obligation	1,720.647	1,712.586	1,710.609	1,708.647	1,700.950	-	-	-
Projected service cost	36.487	36.389	36.364	36.340	36.241	-	-	-
Adjustment to pension increases and deferred revaluation:	+0.5%	+0.1%	0.0%	-0.1%	-0.5%	+0.1%	0.0%	-0.1%
Present value of total obligation	1,850.897	1,737.222	1,710.609	1,684.675	1,587.319	23.913	23.724	23.537
Projected service cost	43.767	37.726	36.364	35.048	30.109	-	-	-
Adjustment to life expectancy assumptions:	+1 Year	None	-1 Year			+1 Year	None	-1 Year
Present value of total obligation	1,774.529	1,710.609	1,649.261			24.706	23.724	22.780
Projected service cost	37.720	36.364	35.044			-	-	-

Section 7 – Pension Schemes

How has the balance sheet changed over the year?

The change in the balance sheet position over the year is dependent on the following key variables. The following table details the approximate impact on the balance sheet:

Variable / assumption	Impact on balance sheet?	Comments
Asset returns	Improve	Asset returns for a typical LGPS fund have been higher than the discount rate assumed at the previous accounting date which will improve the balance sheet position. Please note that actual returns will vary between different LGPS funds.
Discount rate	Improve	Discount rates have increased for most employers which will improve the balance sheet position.
Inflation	Fairly neutral	Future inflation assumptions have remained at similar levels to that assumed last year and will have a fairly neutral impact for most employers.
Allowance for inflation experience	Fairly neutral	The 2024 pension increase at 6.7% is higher than the long-term average assumed. However, most employers will have made an allowance for observed inflation up to March 2023 at the previous accounting date. Inflation observed to February 2024 has been broadly in line with the long-term assumption. Therefore, we expect the experience to be fairly neutral for most employers.
Mortality	Improve	The Actuary updated their mortality assumptions to adopt the 2022 Continuous Mortality Investigation (CMI) 2022 core projections model. The impact of this will be a further small reduction to life expectancies and improvement in the balance sheet position.
Overall	Improve	Overall, the Actuary expect the balance sheet position to improve compared with last year.

These general principles are based on an average employer in an average Fund with a duration of 20 years. The actual effect of the change in these variables and assumptions will depend on each employer's individual circumstances and their unique cashflow profile.

In terms of the net defined benefit liability, the council's balance sheet position has worsened compared to the previous year as it now includes the impact of an asset ceiling (see section 4.4.13 for further information).

Section 8

ABBREVIATIONS/GLOSSARY

8.1 Abbreviations

BID	-	Business Improvement District
BSF	-	Building Schools for the Future
CIES	-	Comprehensive Income and Expenditure Statement
CFR	-	Capital Financing Requirement
CRC	-	Carbon Reduction Credits
DLUHC	-	Department for Levelling Up, Housing and Communities
DRF	-	Direct Revenue Financing
DSG	-	Dedicated Schools Grant
EFA	-	Expenditure and Funding Analysis
EMSS	-	East Midlands Shared Services
HRA	-	Housing Revenue Account
IBNR	-	Incurred but not yet Reported
IAS	-	International Accounting Standard
IFRS	-	International Financial Reporting Standards
ISB	-	Individual Schools Budget
LGPS	-	Local Government Pension Scheme
LIFT	-	Local Improvement Finance Trust
LCC	-	Leicestershire County Council
MHCLG	-	Ministry of Housing, Communities and Local Government
MIRS	-	Movement in Reserves Statement
MTFO	-	Medium Term Financial Outlook
MTFP	-	Medium Term Financial Plan
NCC	-	Nottingham City Council
NET	-	Nottingham Express Transit
NNDR	-	National Non-Domestic Rates
PFI	-	Private Finance Initiative
PPE	-	Property Plant and Equipment
PWLB	-	Public Works Loan Board
REFCUS-	-	Revenue Expenditure Financed from Capital under Statute
RSG	-	Revenue Support Grant

8.2 Glossary of Financial Terms

Items in **bold** are described further within the glossary.

Accounting Period

The period of time covered by the Council's accounts. Normally twelve months, beginning on 1 April. Also known as the Financial Year.

Accounting Policies

The principles, bases, conventions, rules and practices applied by an organisation that specify how the effects of transactions and other events are to be reflected in its financial statements through recognising, measuring and presenting **assets**, **liabilities**, gains, losses and changes to **reserves**.

Accrual

Income and expenditure are recognised as they are earned or incurred, not as money is received or paid. Accruals are made for **revenue** and **capital expenditure** and income (see **debtors** and **creditors**).

Actuarial gains and losses

This reflects the extent to which the movements of the pension assets and liabilities over the accounting year have not been exactly as assumed at the previous accounting date, and also the effect on the pension liabilities of changes to the assumptions used to value them.

Agency Services

Services that are performed by or for another Council or public body, where the Council responsible for the service reimburses the Council for the cost of that work.

Amortisation

The writing down of an **intangible asset** reflecting its diminution in value as its useful life expires over time.

Assets

Items having measurable value in monetary terms. Assets can be defined as fixed or current. A fixed asset has use and value for more than one year e.g. land, buildings, plant, vehicles and equipment. Current assets can be readily converted into cash.

Bad (and doubtful) Debts

Debts which may be uneconomical to collect or unrecoverable.

Balance Sheet

A statement of recorded **assets** and **liabilities**, and other balances at the end of an **accounting period**.

Business Rates – see National Non-Domestic Rates

Capital Adjustment Account

This account contains the balances previously held on the Capital Financing Account, the Fixed Asset Restatement Account and the Government Grants Deferred Account. The movements in year relate to the amount of capital expenditure financed from revenue, grants and capital receipts. It also contains the difference between amounts provided for depreciation and the amount required to be charged to revenue to repay the principal element of external loans.

Capital Expenditure

Expenditure on the acquisition or enhancement of property, plant and equipment that has a long-term value to the Council. This includes grants or advances paid to third parties to assist them in acquiring or enhancing their own property, plant and equipment.

Capital Financing Requirement

An amount calculated from the value of Fixed Assets less the balances on Capital Adjustment Account and **Revaluation Reserve**. This represents the Council's "underlying" need to borrow. The Council is required to make an annual provision from revenue resources to meet its debt repayment obligations. This is known as the **Minimum Revenue Provision**.

Capital Receipt

Money received from the disposal of land and other **assets**, and from the repayment of capital grants and loans made by the Council.

Cash and Cash Equivalents

Cash in hand, cash overdrawn and short term investments that are readily convertible into known amounts of cash.

Chartered Institute of Public Finance and Accountancy (CIPFA)

CIPFA is the leading professional accountancy body for public services. It draws up the Accounting Code of Practices and issues professional guidance used to compile these accounts. CIPFA advises central government and other bodies on local government and public sector finance matters.

Code of Practice on Local Authority Accounting (UK)

Publication produced by **CIPFA** that provides detailed guidance on the proper accounting treatment to be used in the preparation of local authority statement of accounts.

Collection Fund

A separate fund recording the expenditure and income relating to **Council Tax**, **National Non-Domestic Rates** (collected on behalf of the Central Government) and residual community charge.

Community Assets

Assets that a local authority intends to hold in perpetuity, that have no determinable useful life and that may have restrictions in their disposal. Examples are parks and allotments.

Consolidated

Added together with adjustments to avoid double counting of income, expenditure or to avoid exaggeration e.g. debtors.

Contingency

A sum included in the revenue budget to cover unexpected expenditure during the **accounting period**. An example of such an event would be an exceptional price increase not anticipated at the time the budget was constructed.

Contingent Liabilities

A contingent liability is defined as either:

- a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the organisation's control;
- or a present obligation that arises from past events but is not recognised because either
 - it is not probable that a transfer of economic benefits will be required to settle the obligation or;
 - the amount of the obligation cannot be measured with sufficient reliability.

Section 8 – Abbreviations/Glossary

Contingent Rents

The portion of the lease payments that is not fixed in amount, but is based on the future amount of a factor that changes other than with the passage of time (e.g. percentage of future sales, amount of future use, future price indices and future market rates of interest).

Contract Assets

Debtors for goods or services provided by the Council where not all of the goods or services that the Council is required to provide in order to receive payment have been delivered by 31st March.

Contract Liabilities

Creditors for goods or services provided by the Council where the Council has received payment but not done everything that is required to retain the payment by 31st March.

Council Tax

A local tax set by local authorities in order to meet their budget requirements. There are eight Council Tax bands (Band A to Band H); the amount of Council Tax each household pays depends on the value of the property.

Council Tax Benefit

Assistance provided by billing authorities to adults on low income, with the objective of helping them to pay their **Council Tax** bills.

Council Tax Discounts and Exemptions

Discounts are available to people who live alone and for homes that are not anyone's main home. **Council Tax** is not charged for certain properties, known as exempt properties, such as those only lived in by students.

Creditors

Amounts owed by an authority for works done, goods received or services rendered before the end of an **accounting period**, but for which actual payments had not been made by the end of that accounting period.

Current Service Cost

The increase in present value of a defined benefit pension scheme's **liabilities** expected to arise from employee service in the current financial year.

Current Value

The current value of an **asset** is a measurement of the asset's service potential and can be measured at:

- Existing Use Value – where an active market exists,
- Existing Use Value Social Housing – for council dwellings, or
- Depreciated Replacement Cost– for assets where there is no market and / or the assets are specialised

Debtors

Amounts due to an authority for works done, goods supplied or service rendered before the end of an **accounting period**, but for which actual payments had not been received by the end of that accounting period.

Dedicated Schools Grant

A **specific grant** paid to Local Authorities to fund the cost of running its schools.

Defined Benefit Pension Scheme

A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the

contributions payable, and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded.

Depreciation

A charge to the revenue account to reflect the reduction in an asset's value as a result of its use in the delivery of services.

Direct Revenue Financing

Capital expenditure funded from revenue budgets.

Exceptional Items

Material items which derive from events or transactions that fall within the ordinary activities of the Council and which need to be disclosed separately by virtue of their size or incidence to give fair presentation of the accounts.

External Audit

The auditor is appointed by **PSAA Ltd** and is required to verify that all statutory and regulatory requirements have been met during the production of the Council's accounts. There is also a requirement to review the arrangements in place to ensure the economic and effective use of resources.

Fair Value

The fair value of an **asset** is the price at which assets or liability could be exchanged between market participants at the measurement date under current market conditions.

Finance Lease

A lease, which transfers substantially all of the risks and rewards of ownership of a fixed asset to the lessee. The payments usually cover the full cost of the asset together with a return for the cost of finance. Assets held under Finance Leases are recognised on the Balance Sheet as assets.

Financial Instrument

Any contract giving rise to a financial **asset** in one entity and a financial **liability** or equity instrument in another. Examples include the treasury management activity of the Council, including the borrowing and lending of money and the making of investments.

Fixed Assets

Tangible assets which have value to the Council for more than one year.

Funding Basis

The accounting basis that local authorities are required by statute to follow when setting their Council Tax. This is different to the IFRS basis, which is used to produce the Statement of Accounts.

General Fund

The common name for the account which accumulates balances for all services except the **Housing Revenue Account** and the **Collection Fund**.

Group Financial Statements

Where a Council has an interest in another organisation (e.g. a **subsidiary** organisation) group accounts have to be produced. These accounts report the consolidated financial position of the Council and all organisations in which it has an interest.

Heritage Assets

Assets with historical, artistic, scientific, technological, geophysical or environmental qualities held and maintained principally for their contribution to knowledge and culture.

Section 8 – Abbreviations/Glossary

Historical Cost

This represents the original cost of acquisition, construction or purchase of a fixed **asset**.

Housing Benefit

Assistance provided by billing authorities to adults on low income, with the objective of helping them to pay their rent. Parts of the cost, including those associated with the running expenses of the scheme, are refunded directly by the Government.

Housing Revenue Account (HRA)

Sets out the expenditure and income arising from the provision of social housing by the local authority as landlord.

Impairment

A reduction in the value of a fixed **asset**, resulting from financial loss, damage or obsolescence. In order to comply with accounting standards, the Council undertakes annual reviews of its assets to identify any that are impaired.

Infrastructure Assets

Assets held by local authorities which do not normally have a resale value and for which a useful life span cannot easily be assessed. Examples include highways, bridges and drainage facilities.

Intangible Assets

Assets that do not have physical substance but are identifiable and controlled by the Council through custom or legal rights.

International Financial Reporting Standards

International Financial Reporting Standards are standards and interpretations adopted by the International Accounting Standards Board (IASB). Many of the standards forming part of the IFRS were previously known as International Accounting Standards.

Investment Properties

An interest in land and buildings that is used solely to earn rentals or for capital appreciation or both. Property that is used to facilitate the delivery of services as well as for investment purposes does not meet the definition of an investment property.

Joint Ventures

An organisation in which the Council is involved where decisions require the consent of all participants.

Liability

Amounts due to individuals or organisations that will have to be paid at some time in the future. Current liabilities are usually payable within one year of the balance sheet date.

Loss Allowance

An allowance provided for bad debts i.e. credit losses.

Medium Term Financial Plan (MTFP)

A plan detailing projected expenditure and available resources over a period of more than one year. The Council's MTFP currently covers three years.

Minimum Revenue Provision

The minimum amount that the Council must charge to the income and expenditure account to provide for the repayment of debt.

National Non-Domestic Rates (NNDR)

The means by which local businesses contribute to the cost of providing the Council's services. NNDR cover all property consisting of land or buildings not classed as domestic property or exempt from rating. The Valuation Office Agency gives a rateable value to each non-domestic property and this is used by local councils to calculate a property's NNDR.

Net Revenue Expenditure

This represents the Council's budget requirement and use of **reserves**.

Non-Cancellable Lease

A lease that is cancellable only:

- Upon the occurrence of some remote contingency.
- With the permission on the lessor.
- If the lessee enters into a new lease for the same or an equivalent asset with the same lessor
- Upon payment by the lessee of such an additional amount that, at the inception of the lease, continuation of the lease is reasonably certain.

Non-operational Assets

Assets held by the Council but not actually used in the direct delivery of services, including surplus assets and **investment properties**. See **Operational Assets**.

Operating Leases

A lease where substantially all of the risks and rewards of ownership of a fixed **asset** are retained by the lessor. Operating leases do not result in a charge against the Council's capital resources.

Operational Assets

Assets held by the Council for the purpose of the direct delivery of services for which the Council has either a statutory or discretionary responsibility. See **Non-operational Assets**.

Outturn

Actual income and expenditure in an **accounting period**.

Past Service Cost

The increase in **liabilities** arising from current year decisions whose effect relates to years of service earned in earlier years.

PFI Credits

The financial support provided to Local Authorities to part fund **Private Finance Initiative** capital projects.

Post Balance Sheet Events

Those events, both favourable and unfavourable, which occur between the balance sheet date and the date on which the Statement of Accounts is signed by the responsible financial officer.

Precept

The amount of **Council Tax** income that County Councils, Police authorities, Parish Councils and Fire authorities (precepting authorities) need to provide their services.

Prior Year Adjustments

These are material adjustments relating to prior year accounts that are reported in subsequent years and arise from changes in accounting policies or from the correction

Section 8 – Abbreviations/Glossary

of fundamental errors. They do not include normal recurring corrections or adjustments of accounting estimates in prior years.

Private Finance Initiative (PFI)

A long-term contractual public private partnership under which the private sector takes on the risks associated with the delivery of public services in exchange for payments tied to standards of performance.

Provision

An amount set aside to cover a **liability** that will almost certainly occur, but where the amounts or dates on which the cost will arise are uncertain.

Prudential Code

The Prudential Code ensures, within a clear framework, that the capital investment plans of the Council are affordable, prudent and sustainable.

Public Sector Audit Appointments (PSAA) Ltd

PSAA was incorporated by the Local Government Association (LGA) in August 2014. The Secretary of State for Communities and Local Government has delegated statutory functions on a transitional basis from the Audit Commission Act 1998 to PSAA. Under these transitional arrangements, PSAA is responsible for appointing auditors to local government, police and local NHS bodies, for setting audit fees and for making arrangements for the certification of housing benefit subsidy claims. Before 1 April 2015, these responsibilities were discharged by the Audit Commission. The Secretary of State has specified PSAA as an appointing person under provisions of the Local Audit and Accountability Act 2014. For audits of the accounts from 2018/19, PSAA has appointed auditors to relevant principal local government bodies that opt into its national scheme. Grant Thornton UK LLP are the external auditors for Nottingham City Council for 2023/24.

Public Works Loans Board (PWLB)

A Government agency which provides loans, for terms of one year and above, to local authorities. The interest rates applied are only slightly higher than those at which the Government can borrow.

Reserves

A reserve is an amount set aside for a specific purpose in one financial year and carried forward to meet expenditure in future years. A distinction is drawn between reserves and **provisions** which are set up to meet known liabilities.

Residual Value

The net realisable value of an **asset** at the end of its useful life.

Revaluation Reserve

This represents the non-distributable increase/decrease in the valuation of fixed **assets**.

Revenue Expenditure

Expenditure on day-to-day running costs such as salaries, heating, printing and stationery and debt charges. Revenue items will either be expended immediately, like salaries, or within one year of purchase.

Revenue Expenditure Funded from Capital under Statute (REFCUS)

This is expenditure that legislation allows to be funded from capital resources that does not result in an **asset** to the Council (e.g. Housing improvement grants). This expenditure is written off to the Income and Expenditure Account in the year it is incurred.

Revenue Support Grant (RSG)

Government financial support to aid local authority services generally. It is based on the Government's assessment of how much an authority needs to spend in order to provide a standard level of service.

Section 106 contributions

These are receipts received by the Council from developers for a specific purpose; they arise as a result of a planning agreement between the Council and developer.

Service Reporting Code of Practice

Published by **CIPFA** the Service Reporting Code of Practice establishes "proper practice" with regard to consistent financial reporting to enhance the comparability of local authority financial information and was given statutory force in England by regulations under the Local Government Act 2003.

Single Entity Financial Statements

The main financial statements for the Council as shown in section 3. The single entity financial statements are also defined as including the income, expenditure, assets, liabilities, reserves and cash flows of the local authority maintained schools within the control of the Council.

Specific Grant

Government financial support for a specific purpose or service that cannot be spent on anything else.

Stocks

Comprise of goods or other **assets** purchased for resale; consumable stores; raw materials and components purchased for incorporation into products for sale; products and services in intermediate stages of completion; long term contract balances and finished goods.

Subsidiary and Associated Companies

An organisation in which the Council has a participating interest and over which it can exercise significant influence e.g. where the Council controls the majority of voting rights.

Trading Accounts

Services run commercially to provide services that are mainly funded from fees and charges levied on customers.

Trust Funds

Funds administered by a local authority for purposes such as charities, and specific projects and on behalf of minors.

TUPE

TUPE stands for Transfer of Undertakings (Protection of Employment). It's a UK employment law that protects employees' rights when a business or service changes ownership or provider.

Work in Progress

The value of work undertaken on an unfinished project at the end of the financial year, which has not yet been charged to the revenue account.

Section 9 Independent Auditor’s Report

9.1 Independent Auditor’s Report to the members of Nottingham City Council
