Recommendation(s):
1 Area Committee note and comment on the Ward Performance Reports

1. REASONS FOR RECOMMENDATIONS

1.1 Ward performance reports provide a descriptive and statistical picture of what is happening at a ward level and invite community representatives to comment, debate, and challenge and identify how they can add value to improve their neighbourhoods.

Ward performance reports also monitor progress in the wards and act as a catalyst for debate about the key performance issues impacting upon the ward on a quarterly basis.

1.2

2. BACKGROUND (INCLUDING OUTCOMES OF CONSULTATION)

2.1 Neighbourhood Working has been important for a number of years in Nottingham as a means of engaging better with citizens and to drive forward service improvement.

2.2 The Nottingham Plan has a goal that 'public service delivery will be better integrated and appropriately devolved, ensuring more accessible and responsive services for all and giving residents more control over what happens in their neighbourhoods'; the Ward Performance reports help to support this.

2.3 The Ward Performance Reports captures work at a local level to support the Nottingham Plan; it is a short summary of key updates on priorities and issues in the ward. More detailed implementation plans sit behind the report such as the Ward Action Plan, Neighbourhood Action Team's Action Log, Crime Drug Partnership (CDP) plans and other partner's implementation plans.

2.4 The Ward Performance Reports are co-ordinated by Neighbourhood Development Officers every quarter, with the data analysis undertaken by the CDP.

2.5 The Locality Boards were disbanded at the end of 2014 and a new model is currently being discussed to replace these.
