The service works to a Charter endorsed by the Audit Committee. This Charter governs the work undertaken by the service, the standards it adopts and the way it interfaces with the Council. IA colleagues are required to adhere to the code of ethics, standards and guidelines of their relevant professional institutes and the relevant professional auditing standards. It has adopted, and substantially complied with the principles contained in the PSIAS, and has fulfilled the requirements of the Account and Audit Regulations 2011, and associated regulations, in respect of the provision of an IA service. The service has internal quality procedures and is ISO9001:2008 accredited.

## 2. BACKGROUND

The Audit Committee's terms of reference include responsibility for receiving reports on the work undertaken by IA and for monitoring its performance. The Public Sector

Internal Audit Standards (PSIAS) set the responsibility for the management of Internal Audit with the Board. In practical terms this Board responsibility is vested in the Audit Committee and Section 151 Officer who exercise their Board responsibility via the Constitution and the associated policies and procedures of the City council. This report is one of the regular updates on work undertaken by the service and the Audit Committee is invited to consider and comment on:

- The performance of the IA service against the annual plan in terms of number of days and the balance and mix of the work.
- The nature, scope and quality of the work undertaken.
- The performance indicator results, including whether these indicators are appropriate and the targets sufficiently stretching.
