

## **Delegated Decision – International Campaign Year 3**

### **Legal Advice – Contracts and Commercial Law**

The report does not raise any significant procurement and contractual issues. Each consultancy contract can be considered separately for the purposes of the procurement regulations. The current financial threshold for this type of services contract is approximately £165k over its term. On that basis while the value of these contracts individually for year 3 is below £40k the risk of a procurement challenge exists only if the aggregate value over the campaign exceeds the £165k threshold or if the contracts are extended for a further period taking them above that threshold.

The Legal services team can assist the Development team with the contract issues which are identified in the employment law advice provided by John Bernard-Carlin.

Andrew James, Team Leader (Contracts and Commercial)
