

Nottingham City Council: Equality Impact Assessment Form (Page 1 of 2)

Title of EIA/ DDM: On Street Parking Review: 2017-18
Department: Communities – Commercial & Neighbourhood Services
Service Area: Parking Services
Author (assigned to Covalent): Heather Owden

Name of Author: Heather Owden
Director: Dave Halstead
Strategic Budget EIA: N

Brief description of proposal / policy / service being assessed:

The City Council reviews its parking services regularly to ensure that they continue to encourage turnover of cars and complement other city and transport strategies. Key to these reviews is the need to be flexible in use of parking provision through duration and price. As part of this process it is proposed to move forward with changes to the City Council’s on street parking.

Information used to analyse the effects on equality:

How different groups could be affected (Summary of impacts)	Details of actions to reduce negative or increase positive impact (or why action isn’t possible)
It is difficult to determine the actual usage of these groups in terms of on street parking. However, it is expected that by creating capacity and encouraging turnover of vehicles through the city centre it will have a positive impact on these different groups as they find it easier to locate a space close to their desired destination.	Equality information will continue to be captured as part of parking surveys to try and quantify the different user group’s usage of the on street parking service. Blue Badge holders will still be entitled to park free of charge in parking bays, subject to the conditions of the Blue Badge Scheme.
