# **PRUDENTIAL CODE MONITORING REPORT TO MAY 2017**

Report of the Treasurer to the Fire Authority

**Date:** 07 July 2017

**Purpose of Report:**

To inform Members of performance for the three month period to 31 May 2017 relating to the prudential indicators for capital accounting and treasury management.

## **CONTACT OFFICER**

**Name :** Tracey Stevenson  
Assistant Head of Finance

## **1. BACKGROUND**

- 1.1 The Local Government Act 2003 sets out a framework for the financing of capital investments in local authorities which came into operation from April 2004. Alongside this, the Prudential Code was developed by the Chartered Institute of Public Finance and Accountancy (CIPFA) as a professional code of practice to support local authorities' decision making in the areas of capital investment and financing. Authorities are required by regulation to have regard to the Prudential Code, which CIPFA updated in 2011.
- 1.2 The objectives of the Prudential Code are to ensure that the capital investment plans of authorities are affordable, prudent and sustainable and that treasury management decisions are taken in accordance with good professional practice. The Prudential Code sets out a number of indicators which authorities must use to support decision making. These are not designed to be comparative performance indicators.
- 1.3 The Fire Authority approved these prudential indicators for 2017/18 at its meeting on 24 February 2017.
- 1.4 The Prudential Code requires that local authorities report performance against prudential targets to Members.

## **2. REPORT**

### **PRUDENTIAL INDICATORS**

- 2.1 Some of the prudential indicators set cannot easily be measured during the year and will be reported on in the Treasury Management Annual Report for 2017/18 after the end of the financial year. These indicators are:
  - Ratio of financing costs to net revenue stream 2017/18 (affordability).
  - Incremental impact of capital investment decisions on Council Tax 2017/18 (affordability).
  - Total capital expenditure 2017/18.
  - Capital Financing Requirement as at 31 March 2018.
- 2.2 In terms of borrowing, the indicator "Gross borrowing and the capital financing requirement (CFR)" (a prudence indicator) requires that gross external borrowing does not, except in the short term, exceed the CFR. The CFR at 1 April 2017 was £23.885m and was estimated to be £28.407m by the year end. During the period 1 April 2017 to 31 May 2017 the gross indebtedness of the Authority, calculated at the start of each month, did not exceed £23.262 including any requirements for temporary overdrafts. As at 28 February 2017, the gross indebtedness of the Authority was £23.262, which is well within the estimated CFR for the end of the year. The Authority has taken out no long term maturity loans this year.

2.3 The Authority set an operational boundary for 2017/18 of £27.762m and an authorised limit of £30.538m. Although these limits are year end targets, the Authority is required to demonstrate that it has not exceeded them at any time during the financial year. Again, the maximum indebtedness of the Authority during the period, as shown in the paragraph above, is within the limits set.

The graph given as Appendix B illustrates the levels of borrowing for the two months up to the end of May 2017.

**TREASURY MANAGEMENT INDICATORS**

2.4 An interest earnings budget of £66k was set for 2017/18, as at 31 May 2017 £4k has been received. The new projection for interest earned during the year is £43k. Within the benchmarking group supported by Capita there are 7 councils and NFRS within the group, as at the end of March 2017, NFRS Weighted Average Rate of Return (WARoR) is 0.61% the average of the group is 0.49%.

2.5 The treasury management target relating to interest rate exposure is that fixed interest rate exposures should be between 0% and 100% of total lending and that variable interest rate exposures should be between 0% and 30%. During the period up to 31 May 2017, 100% of borrowing was at fixed interest rates.

2.6 The treasury management target in respect of cash management is that the Authority’s bank overdraft should not exceed £200,000. During the part of the 2017/18 financial year up to 31 May 2017 the account was not overdrawn. A graph of cash balances for the two months up to 31 May 2017 is shown in Appendix A.

Treasury management limits relating to loan maturity are shown below:

Loan Maturity		
	<b>Upper Limit</b>	<b>Lower Limit</b>
Under 12 months	20%	0%
12 months to 5 years	30%	0%
5 years to 10 years	75%	0%
10 years to 20 years	100%	0%
Over 20 years	100%	30%

Actual performance against these targets at 31 May 2017 is shown in the following graph and demonstrates that none of the maturity bands have been breached.

- 2.7 The upper limit for sums invested for longer than 364 days is £2m. During the part of the 2017/18 financial year up to 31 May 2017, no sums were invested for a fixed term of longer than 364 days. This excludes amounts invested in call accounts with notice periods of less than 364 days, and on which notice can be given immediately if required.

### UK SOVEREIGN RATING

- 2.8 Following on from the report to Members of this Committee in January, it is confirmed that the sovereign rating of the UK remains at AA (Fitch rating) which means that investments in UK institutions are within the current Treasury Management Strategy's parameters. As previously approved by Members, if the UK is downgraded to AA- status, the Authority's strategy will be to continue with existing banking arrangements and to retain current investments with UK institutions. The Authority will then need to reconsider its investment strategy in a further report to Members, with any immediate requirements in the interim to be agreed between the Treasurer and the Chair of the Finance and Resources Committee. This issue continues to be monitored by Officers.

## 3. FINANCIAL IMPLICATIONS

The financial implications are set out in full within this report.

#### **4. HUMAN RESOURCES AND LEARNING AND DEVELOPMENT IMPLICATIONS**

There are no human resources and learning and development implications arising directly from this report.

#### **5. EQUALITIES IMPLICATIONS**

An equality impact assessment has not been undertaken because this report gives detail of performance against the approved Treasury Management Strategy and Prudential Code. These are financial policies and do not directly impact on employees or members of the public.

#### **6. CRIME AND DISORDER IMPLICATIONS**

There are no crime and disorder implications arising from this report.

#### **7. LEGAL IMPLICATIONS**

There are no legal implications arising directly from this report.

#### **8. RISK MANAGEMENT IMPLICATIONS**

The Prudential Code is a framework which sets out to quantify and minimise financial risk arising from the financing of capital, the investment of surplus funds and the maintenance of operating cash balances for the Authority. The favourable performance against the prudential targets demonstrates that these areas of operation are being managed effectively.

#### **9. COLLABORATION IMPLICATIONS**

There are no collaboration implications arising from this monitoring report because this report forms part of the governance arrangements for monitoring performance against the Prudential Code, which is approved by the Authority and relates solely to the Authority's own capital financing and treasury management arrangements.

#### **10. RECOMMENDATIONS**

That Members note the contents of this report.

**11. BACKGROUND PAPERS FOR INSPECTION (OTHER THAN PUBLISHED DOCUMENTS)**

None.

Geoff Walker  
**TREASURER TO THE FIRE AUTHORITY**
