

From the Leader of the Council

John Rhodes
142 River Crescent
Waterside Way
NOTTINGHAM
NG2 4RE

20th November 2017

Dear John,

PROPOSED WATERSIDE FOOT-CYCLE BRIDGE

I am writing with regards your request for support for a proposed foot-cycle bridge intended to link the Waterside Regeneration Area with the south bank of the River Trent.

I can confirm that in principle the City Council is supportive of a bridge of this nature in this vicinity as a means of connecting communities either side of the river, for commuting and for improving access for residents to open space.

The design of the bridge will need to carefully consider visual aspects, other environmental impacts and not conflict with current development proposals.

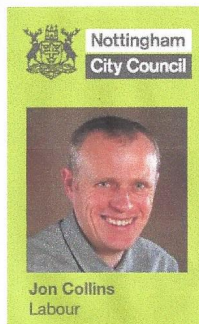

The City Council does not have funding to put into the project but is happy to work with you to develop the business case in order to bid for funding from other sources.

Please keep us informed of any progress.

Yours sincerely

Jon Collins
Leader of the Council

Councillor for St Ann's
