

REVIEW OF THE DISTRICT CAR PARKS

Proposal: Introduce all day charges in district car parks

Estimated value of decision: £42k per annum

This proposal recommends Nottingham City Council introduce a £2 charge in district car parks for stays of more than 3 hours, by September 2018.

In the financial year 2018/19, should this proposal be agreed, net income generation will be £21k starting from September 2018. For financial years 2019/20 & 2020/21, net income generation will be £42k per year.

This will have a positive impact on the Medium Term Financial Plan.
