Received

To Vanda Simmons

enclosed is a petition from Households on Clifton Grove who would like the parking permit put into place in there area, may I say that I speak for many of the residents, we were never informed that there would be no permits in our area, the last letters we recieved were saying that permits would be charged for. many residents disagreed with this but have never heard back, we find this ignorant and rude, since introducing the free parking permit in the surrounding parts of Clifton Grove, all that as happend is we have an even worse overspill of cars from the university, it is now become the university car park. the Police have been out on at least 3 occations, issues between uni students and residents, this is getting out of hand, I enclose the Petition and hope that this can be resolved and permits put into place ASAP. I have not been to whichever Road / close as I am a working person, but have 100% backing from Twyford and Loxley lane. and Croxall close. also I have enclose a few photos. thank you for your time and hopefully your support in this matter

Below are names and addresses of residents who believe it is their right to be issued with free parking permits, along with the other 80% of residents on Clifton Grove who have already been issued with them. Since the issue of the permits all it has done is encourage students to park on Twyford Gardens and neighbouring streets. We have seen an increase in cars being parked across peoples drives causing obstructions, litter being left on the roads and pavements, it is also causing obstructions to delivery drivers who constantly cannot get up the close due to all the additional cars. They are parking on the pavements denying access to wheelchair residents and parents with pushchairs. We have had the police attend on several occasions and feel we have been and still are being unfairly treated, we have never been notified that we were not getting the parking permits and as we have the majority of households requesting them we feel that the parking permits should be issued without further delay.

RE: CLIFTON GROVE ESATE PARKING PROBLEMS

Dear Ms Ramowski,

We are residents that are now being imp[acted by the displacement of parking issues within the Grove areas of Loxley, Croxall, Twyford and Wichnor Close on the Clifton Grove Estate. We wish formally request that we now be included in a Residents Permit Parking Scheme in order to resolve the issues.

Yours sincerely,

Parking Displacement on Clifton Grove

Dear Neighbour,

As you can see since the car parking permit scheme was introduced last year, parking of students cars has been an issue. Mainly because they are not permitted to park anywhere else on the Grove, so they are now taking it upon themselves to park on Loxley, Twyford, Croxall and Wichnor Close. In these areas I am informed that a large majority were against the scheme at first. Hence the main reason why the students are now crammed into our once quiet corner of Clifton Grove.

We as a community feel we are now being discriminated against because of this and are now asking for your help. If you have experienced these problems and are really annoyed by the parking issues, we are asking you to complain via the attached form. Please place your address in the top right hand corner, sign the declaration and post to Justine Ramowski or email her with your complaint to Justine.ramowski@nottinghamcity.gov.uk and copy Councillor Andrew Rule Andrew.rule@nottinghamcity.gov.uk in to this. Presently, this lady has allegedly only received one complaint.

Can I advise that you don't need a parking permit for parking on your own drive, it is only for on street parking during the hours of 9am to 5pm Monday to Friday, **and they are free to residents, there is no charge.**

I have experience dangerous double parking of which bin lorries have been unable to get access. If they can't then no emergency service could either. There has also been rubbish dumped from cars and I have experienced verbal abuse from them.

If you don't do this now, then it will never happen and we will just have to put up with this. I haven't paid £250k for a car park that's open to students from 5am till 6pm at night. There is plenty of parking for them near to the University including a brand new park and ride.

It's now up to you to make this change, for now and the future.
