EXTERNAL AUDIT PLAN 2018/19

Report of the Chief Fire Officer

Date: 29 March 2019

Purpose of Report:

To present the external auditors' audit plan for work which they intend to carry out on the Authority's 2018/19 financial statements and value for money arrangements.

CONTACT OFFICER

Name :	Becky Smeathers Head of Finance
Tel :	0115 967 0880
Email :	becky.smeathers@notts-fire.gov.uk
Media Enquiries Contact :	Therese Easom (0115) 967 0880 therese.easom@notts-fire.gov.uk

1. BACKGROUND

- 1.1 The external audit of the Fire Authority's 2018/19 accounts is to be undertaken by Ernst & Young LLP. This is the first of five years that Ernst & Young will be undertaking the audit under the current contract.
- 1.2 As part of their responsibilities under the external audit regime, the auditors produce an annual plan setting out the areas that they will cover during their audit and this plan is presented to the Finance and Resources Committee.

2. REPORT

- 2.1 The full external audit plan is set out in Appendix A for Members' information. In summary, it covers several areas:
 - Overview of the audit strategy;
 - Audit risks;
 - Value for money risks;
 - Scope of the audit;
 - Interdependencies;
 - Various appendices which provide further detail to support the plan.
- 2.2 The plan also sets out the fees for the audit and the timescales for reporting back to the Fire Authority.

3. FINANCIAL IMPLICATIONS

The planned audit fee for 2018/19, as set out on Page 23 of the plan, is £23,909 which is a reduction from the 2017/18 fee of £31,050.

4. HUMAN RESOURCES AND LEARNING AND DEVELOPMENT IMPLICATIONS

There are no human resources or learning and development implications arising from this report.

5. EQUALITIES IMPLICATIONS

An equality impact assessment has not been undertaken because this report relates to statutory audit which is external scrutiny rather than a policy matter.

6. CRIME AND DISORDER IMPLICATIONS

There are no crime and disorder implications arising from this report.

7. LEGAL IMPLICATIONS

The external auditors have statutory powers and responsibilities set out in the Local Audit and Accountability Act 2014.

8. RISK MANAGEMENT IMPLICATIONS

The external auditors provide a key element of the assurances that are given to elected Members and members of the public with regard to the accuracy of the financial statements and the arrangements for value for money.

9. COLLABORATION IMPLICATIONS

There are no collaboration implications arising from this report.

10. RECOMMENDATIONS

That Members note the contents of this report.

11. BACKGROUND PAPERS FOR INSPECTION (OTHER THAN PUBLISHED DOCUMENTS)

None.

John Buckley
CHIEF FIRE OFFICER

A photograph of a meeting table with several white papers spread across it. Several hands are visible, pointing at different sections of the documents. A person in a yellow shirt is at the top of the frame, and another person in a white shirt is at the bottom. A smartphone is lying on the table near the bottom left. The background is a bright, out-of-focus room.

Nottinghamshire and City
of Nottingham Fire and
Rescue Authority
Initial Audit Planning
Report
Year ended 31 March 2019

29 March 2019

Private and Confidential

29 March 2019

Dear Finance and Resources Committee Members

Initial Audit planning report for Nottinghamshire and City of Nottingham Fire and Rescue Authority (the Authority)

We are pleased to attach our indicative Audit Plan which sets out how we intend to carry out our responsibilities as auditor. Its purpose is to provide the Finance and Resources Committee with a basis to review our proposed audit approach and scope for the 2018/19 audit in accordance with the requirements of the Local Audit and Accountability Act 2014, the National Audit Office's 2015 Code of Audit Practice, the Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA) Ltd, auditing standards and other professional requirements. It is also to ensure that our audit is aligned with the Committee's service expectations.

This plan summarises our initial assessment of the key risks driving the development of an effective audit for the Authority, and outlines our planned audit strategy in response to those risks. This is our first year as the Authority's appointed auditors. Our initial Audit Plan follows a review of your predecessor auditor's Audit Results Report, Annual Audit Letter and audit file. In addition, I had a planning meeting with your finance team on 25th January 2019, and since followed up with our requests for data gathering and information requests ahead of our first audit site visit. We have also reviewed your key strategic, corporate, financial and risk management papers in the period up to the date of this Committee. We are concluding our planning work and interim audit procedures from the 1st April until 19th April. We will update this plan should there be any matters arising from our remaining planning and interim audit work which change our initial risk assessment and audit scope.

This report is intended solely for the information and use of the Audit and Standards Committee and management, and is not intended to be and should not be used by anyone other than these specified parties.

We welcome the opportunity to discuss this report with you on 29 March 2019 as well as understand whether there are other matters which you consider may influence our audit.

Yours faithfully

Neil Harris

For and on behalf of Ernst & Young LLP

Private and Confidential

29 March 2019

Dear Finance and Resources Committee Members

Initial Audit planning report for Nottinghamshire and City of Nottingham Fire and Rescue Authority (the Authority)

Public Sector Audit Appointments Ltd (PSAA) issued the "Statement of responsibilities of auditors and audited bodies". It is available from the PSAA website (<https://www.psaa.co.uk/audit-quality/statement-of-responsibilities/>). The Statement of responsibilities serves as the formal terms of engagement between appointed auditors and audited bodies. It summarises where the different responsibilities of auditors and audited bodies begin and end, and what is to be expected of the audited body in certain areas.

The "Terms of Appointment and further guidance (updated April 2018)" issued by the PSAA sets out additional requirements that auditors must comply with, over and above those set out in the National Audit Office Code of Audit Practice (the Code) and in legislation, and covers matters of practice and procedure which are of a recurring nature.

This report is made solely to the Finance and Resources Committee and management of the Authority in accordance with the statement of responsibilities. Our work has been undertaken so that we might state to the Finance and Resources Committee, and management of the Authority those matters we are required to state to them in this report and for no other purpose. To the fullest extent permitted by law we do not accept or assume responsibility to anyone other than the Finance and Resources Committee and management of the Authority for this report or for the opinions we have formed. It should not be provided to any third-party without our prior written consent.

01

Overview of our initial 2018/19 audit strategy

Overview of our 2018/19 audit strategy

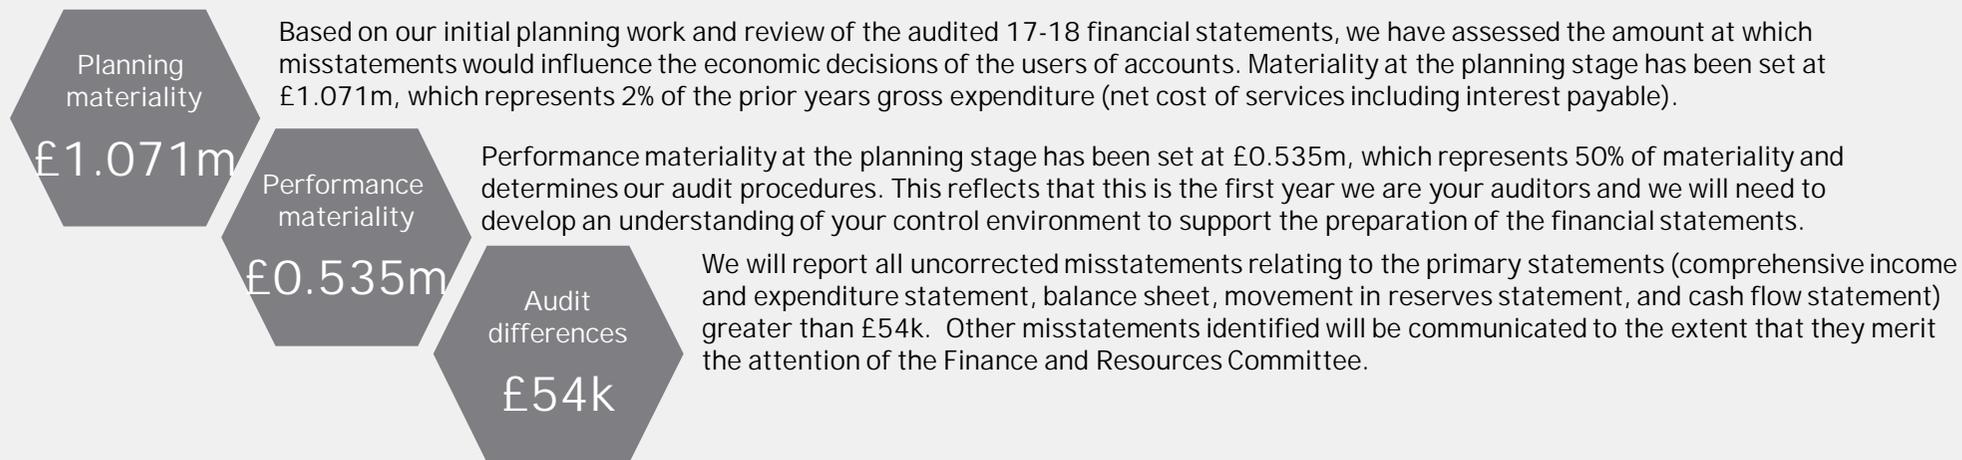

The following 'dashboard' summarises the significant accounting and auditing matters outlined in this report. It seeks to provide the Finance and Resources Committee with an overview of our initial risk identification for the upcoming audit and any changes in risks identified from the previous year.

Audit risks and areas of focus

Risk / area of focus	Risk identified	Change from PY	Details
Risk of Management Override	Significant Risk/Fraud	No change in risk or focus from KPMG LLP	As identified in ISA 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that would otherwise appear to be operating effectively.
Property, Plant and Equipment Valuations	Inherent risk	No change in risk or focus from KPMG LLP	Property, plant and equipment (PPE) represents a significant balance in the Authority's accounts and is subject to valuation changes, impairment reviews and depreciation charges. Material judgemental inputs and estimation techniques are required to calculate the year-end PPE balances held in the balance sheet. As the Authority's asset base is significant, and the outputs from the valuer are subject to estimation, there is a higher inherent risk PPE may be under/overstated or the associated accounting entries incorrectly posted. ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of experts and assumptions underlying fair value estimates.
Pension Valuation and Disclosures	Inherent risk	No change in risk or focus from KPMG LLP	The Local Authority Accounting Code of Practice and IAS19 require the Authority to make extensive disclosures within its financial statements regarding the Fire Fighters Pension Scheme and the Local Government Pension Scheme (LGPS). The Authority's deficits under both schemes are disclosed on a combined basis on the Authority's balance sheet. The total value and represents a material and sensitive balance. The information disclosed is based on the IAS 19 reports issued to the Authority by the Actuaries for both schemes. Accounting for these schemes involves significant estimation and judgement and due to the nature, volume and size of the transactions we consider this to be a higher inherent risk.

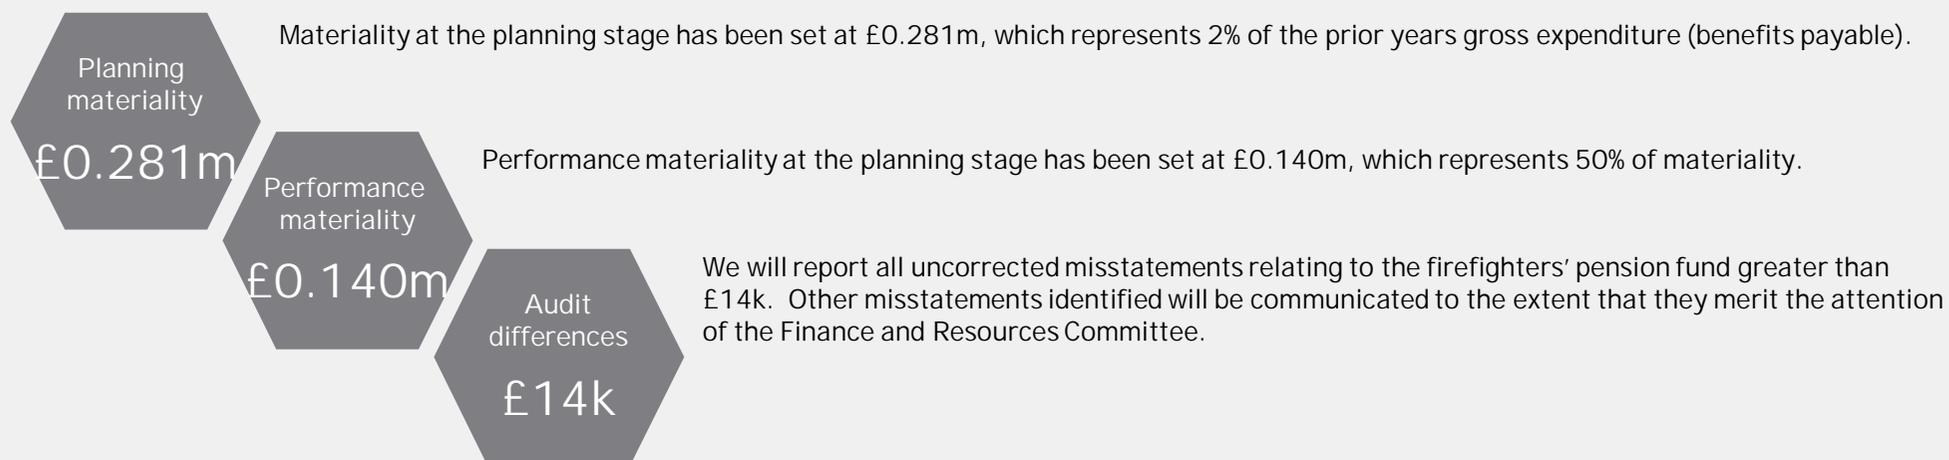

Overview of our 2018/19 audit strategy

Planning Materiality

We set separate materiality values for the Firefighters' Pension Fund Account which is included as part of the overall financial statements of the Authority. These are set out below.

Planning Materiality Firefighters' Pension Fund account

Overview of our 2018/19 audit strategy

Audit scope

This Audit Plan covers the work that we plan to perform to provide you with:

- Our audit opinion on whether the financial statements of Nottinghamshire and City of Nottingham Fire and Rescue Authority give a true and fair view of the financial position as at 31 March 2019 and of the income and expenditure for the year then ended; and
- Our conclusion on the Authority's arrangements to secure economy, efficiency and effectiveness.

We will also review and report to the National Audit Office (NAO), to the extent and in the form required by them, on the Authority's Whole of Government Accounts return.

Our audit will also include the mandatory procedures that we are required to perform in accordance with applicable laws and auditing standards.

When planning the audit we take into account several key inputs:

- Strategic, operational and financial risks relevant to the financial statements;
- Developments in financial reporting and auditing standards;
- The quality of systems and processes;
- Changes in the business and regulatory environment; and,
- Management's views on all of the above.

By considering these inputs, our audit is focused on the areas that matter and our feedback is more likely to be relevant to the Authority.

Your audit team will be led by

Neil Harris – Associate Partner

Neil has over 25 years experience of Local Authorities, including Police, Fire audits, Pension Funds and their respective audits. Neil has been Engagement Leader in EY for six years, having previously worked for the Audit Commission as a District Auditor between 2009 and 2012.

02

Audit risks

Our response to significant risks

Misstatements due to fraud or error

What is the risk?

The financial statements as a whole are not free of material misstatements whether caused by fraud or error.

As identified in ISA (UK) 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively. We identify and respond to this fraud risk on every audit engagement.

Under ISA240 there is also a presumed risk that revenue may be misstated due to improper recognition of revenue. In the public sector, this requirement is modified by Practice Note 10, issued by the Financial Reporting Council, which states that auditors should also consider the risk that material misstatements may occur by the manipulation of expenditure recognition. At this stage, we consider this risk is not material in relation to our audit at the Authority.

What will we do?

We will undertake our standard procedures to address fraud risk, which include:

- Identifying fraud risks during the planning stages.
- Inquiring of management about risks of fraud and the controls put in place to address those risks.
- Understanding the oversight given by those charged with governance of management's processes over fraud.
- Considering the effectiveness of management's controls designed to address the risk of fraud.
- Performing mandatory procedures regardless of specifically identified fraud risks, including testing of journal entries and other adjustments in the preparation of the financial statements.
- Test the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements
- Assess accounting estimates for evidence of management bias, and
- Evaluate the business rationale for significant unusual transactions.

Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures and therefore may be key audit matters we will include in our audit report.

What is the risk/area of focus?

Valuation of Land and Buildings

Property, plant and equipment (PPE) represents a significant balance in the Authority's accounts and are subject to valuation changes, impairment reviews and depreciation charges.

Material judgemental inputs and estimation techniques are required to calculate the year-end PPE balances held in the balance sheet.

As the Authority's asset base is significant, and the outputs from the valuer are subject to estimation, there is a higher inherent risk PPE may be under/overstated or the associated accounting entries incorrectly posted.

ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of experts and assumptions underlying fair value estimates.

Pension Liability Valuation

The Local Authority Accounting Code of Practice and IAS19 require the Authority to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme and the Firefighter's Pension Scheme.

The Authority's pension fund deficit is a material estimated balance and the Code requires that this liability be disclosed on the Authority's balance sheet. The information disclosed is based on the IAS 19 report issued to the Authority by the actuary.

Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

What will we do?

We will:

- Consider the work performed by the Authority's valuer, including the adequacy of the scope of the work performed, their professional capabilities and the results of their work;
- Sample testing key asset information used by the valuers in performing their valuation (e.g. floor plans to support valuations based on price per square metre);
- Consider the annual cycle of valuations to ensure that assets have been valued within a 5 year rolling programme as required by the Code for PPE and annually for IP. W will also consider if there are any specific changes to assets that have occurred and that these have been communicated to the valuer, for example on construction work with Fire Stations (e.g. at Hucknall, Newark and Worksop);
- Review assets not subject to valuation in 2018/19 to confirm that the remaining asset base is not materially misstated;
- Consider changes to useful economic lives as a result of the most recent valuation; and
- Test accounting entries have been correctly processed in the financial statements.

We will:

- Liaise with the auditors of the Pension Fund, to obtain assurances over the information supplied to the actuary in relation to the Authority for the Local Government Pension Scheme (LGPS);
- Assess the work of the Pension Fund actuary for the two schemes Hymans Robertson (LGPS) and the Government Actuary's Department (Firefighters' Pension Scheme). Including the assumptions they have used by relying on the work of PWC - Consulting Actuaries commissioned by the National Audit Office for all Local Government sector auditors, and considering any relevant reviews by the EY actuarial team; and
- Review and test the accounting entries and disclosures made within the Authority's financial statements in relation to IAS19.

03

Value for Money Risks

Background

We are required to consider whether the Authority has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. This is known as our value for money conclusion.

For 2018/19 this is based on the overall evaluation criterion:

"In all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people" Proper arrangements are defined by statutory guidance issued by the National Audit Office. They comprise your arrangements to:

- Take informed decisions;
- Deploy resources in a sustainable manner; and
- Work with partners and other third parties.

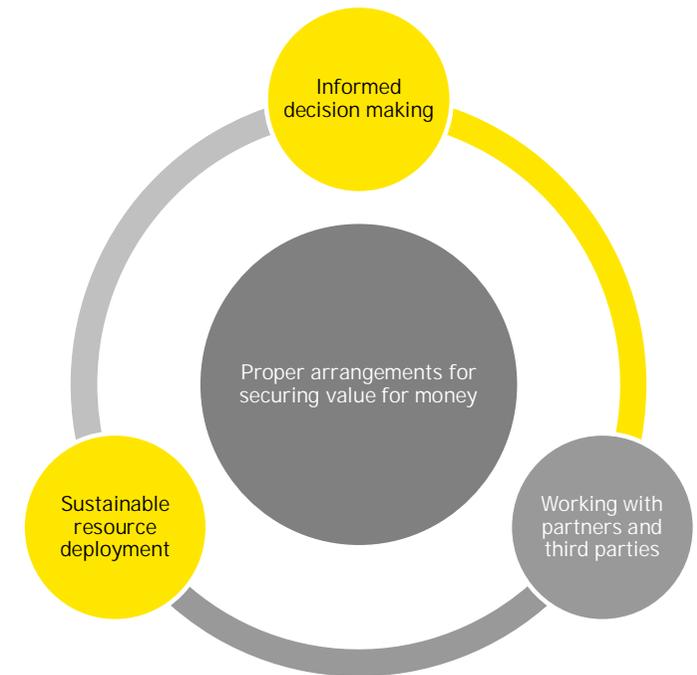

In considering your proper arrangements, we will draw on the requirements of the CIPFA/SOLACE framework for local government to ensure that our assessment is made against a framework that you are already required to have in place and to report on through documents such as your annual governance statement. We are only required to determine whether there are any risks that we consider significant, which the Code of Audit Practice defines as: "A matter is significant if, in the auditor's professional view, it is reasonable to conclude that the matter would be of interest to the audited body or the wider public"

Our risk assessment supports the planning of sufficient work to enable us to deliver a safe conclusion on arrangements to secure value for money and enables us to determine the nature and extent of further work that may be required. If we do not identify any significant risks there is no requirement to carry out further work. We consider business and operational risks insofar as they relate to proper arrangements at both sector and organisation-specific level. In 2018/19 this has included consideration of the steps taken by the Authority to consider the impact of Brexit on its future service provision, medium-term financing and investment values. Although the precise impact cannot yet be modelled, we anticipate that Authorities will be carrying out scenario planning and that Brexit and its impact will feature on operational risk registers.

Our risk assessment has therefore considered both the potential financial impact of the issues we have identified, and also the likelihood that the issue will be of interest to local taxpayers, the Government and other stakeholders. Based on our work to date, this has resulted in the identification of no significant risks. During our interim audit visit in April 2019, we will be completing:

- A qualitative and quantitative assessment of the Authority's financial resilience.
- A review of how the Authority has responded to any findings and improvement recommendations from HMICFRS inspections.

Should this work lead to any significant concerns on the Authority's arrangements, we will update the Finance and Resources Committee on our proposed response.

04

Scope of our audit

Our Audit Process and Strategy

Objective and Scope of our Audit scoping

Under the Code of Audit Practice our principal objectives are to review and report on the Authority's financial statements and arrangements for securing economy, efficiency and effectiveness in its use of resources to the extent required by the relevant legislation and the requirements of the Code.

We issue an audit report that covers:

1. Financial statement audit

Our objective is to form an opinion on the financial statements under International Standards on Auditing (UK).

We also perform other procedures as required by auditing, ethical and independence standards, the Code and other regulations. We outline below the procedures we will undertake during the course of our audit.

Procedures required by standards

- Addressing the risk of fraud and error;
- Significant disclosures included in the financial statements;
- Entity-wide controls;
- Reading other information contained in the financial statements and reporting whether it is inconsistent with our understanding and the financial statements; and
- Auditor independence.

Procedures required by the Code

- Reviewing, and reporting on as appropriate, other information published with the financial statements, including the Annual Governance Statement; and
- Reviewing and reporting on the Whole of Government Accounts return, in line with the instructions issued by the NAO [delete if not applicable]

2. Arrangements for securing economy, efficiency and effectiveness (value for money)

We are required to consider whether the Authority has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources.

Our Audit Process and Strategy (continued)

Audit Process Overview

Our audit involves:

- Identifying and understanding the key processes and internal controls; and
- Substantive tests of detail of transactions and amounts.

For 2018/19 we plan to follow a substantive approach to the audit as we have concluded this is the most efficient way to obtain the level of audit assurance required to conclude that the financial statements are not materially misstated. Although we are therefore not intending to rely on individual system controls in 2018/19, the overarching control arrangements form part of our assessment of your overall control environment and will form part of the evidence for your Annual Governance Statement.

Analytics:

We will use our computer-based analytics tools to enable us to capture whole populations of your financial data, in particular journal entries. These tools:

- Help identify specific exceptions and anomalies which can then be subject to more traditional substantive audit tests; and
- Give greater likelihood of identifying errors than random sampling techniques.

We will report the findings from our process and analytics work, including any significant weaknesses or inefficiencies identified and recommendations for improvement, to management and the Finances and Resources Committee.

Internal audit:

We will review internal audit plans and the results of their work. We will reflect the findings from these reports, together with reports from any other work completed in the year, in our detailed audit plan, where they raise issues that could have an impact on the financial statements.

Our Audit Process and Strategy (continued)

Earlier deadline for production of the financial statements

The Accounts and Audit Regulations 2015 introduced a significant change in statutory deadlines from the 2017/18 financial year. From that year the timetable for the preparation and approval of accounts will be brought forward with draft accounts needing to be prepared by 31 May and the publication of the accounts by 31 July.

These changes provide risks for both the preparers and the auditors of the financial statements:

- The Authority now has less time to prepare the financial statements and supporting working papers. Risks to the Authority include slippage in delivering data for analytics work in format and to time required, late working papers, internal quality assurance arrangements, and changes to finance team
- As your auditor, we have a more significant peak in our audit work and a shorter period to complete the audit. Risks for auditors relate to delivery of all audits within same compressed timetable. Slippage at one client could potentially put delivery of others at risk.

To mitigate this risk we will require:

- good quality draft financial statements and supporting working papers by the agreed deadline;
- appropriate Authority staff to be available throughout the agreed audit period; and
- complete and prompt responses to audit questions.

If you are unable to meet key dates within our agreed timetable, we will notify you of the impact on the timing of your audit, which may be that we postpone your audit until later in the summer and redeploy the team to other work to meet deadlines elsewhere.

Where additional work is required to complete your audit, due to additional risks being identified, additional work being required as a result of scope changes, or poor audit evidence, we will notify you of the impact on the fee and the timing of the audit. Such circumstances may result in a delay to your audit while we complete other work elsewhere.

To support the Authority we will:

- Work with the Authority to engage early to facilitate early substantive testing where appropriate.
- Facilitate faster close workshops to provide an interactive forum for Local Authority accountants and auditors to share good practice and ideas to enable us all to achieve a successful faster closure of accounts for the 2018/19 financial year.
- Work with the Authority on the use of EY Client Portal, this will:
 - Streamline our audit requests through a reduction of emails and improved means of communication;
 - Provide on-demand visibility into the status of audit requests and the overall audit status;
 - Reduce risk of duplicate requests; and
 - Provide better security of sensitive data.
- Agree the team and timing of each element of our work with you.
- Agree the supporting working papers that we require to complete our audit.

Audit team

Use of specialists

When auditing key judgements, we are often required to rely on the input and advice provided by specialists who have qualifications and expertise not possessed by the core audit team. The areas where either EY or third party specialists provide input for the current year audit are:

Area	Specialists
Valuation of Land and Buildings	EY Valuations Team. We will consider any valuation aspects that may require EY valuation specialists to review any material specialist assets and the underlying assumptions used.
Pensions disclosure	EY Actuaries

In accordance with Auditing Standards, we will evaluate each specialist's professional competence and objectivity, considering their qualifications, experience and available resources, together with the independence of the individuals performing the work.

We also consider the work performed by the specialist in light of our knowledge of the Authority's business and processes and our assessment of audit risk in the particular area. For example, we would typically perform the following procedures:

- Analyse source data and make inquiries as to the procedures used by the specialist to establish whether the source data is relevant and reliable;
- Assess the reasonableness of the assumptions and methods used;
- Consider the appropriateness of the timing of when the specialist carried out the work; and
- Assess whether the substance of the specialist's findings are properly reflected in the financial statements.

05

Independence

Introduction

The FRC Ethical Standard and ISA (UK) 260 “Communication of audit matters with those charged with governance”, requires us to communicate with you on a timely basis on all significant facts and matters that bear upon our integrity, objectivity and independence. The Ethical Standard, as revised in June 2016, requires that we communicate formally both at the planning stage and at the conclusion of the audit, as well as during the course of the audit if appropriate. The aim of these communications is to ensure full and fair disclosure by us to those charged with your governance on matters in which you have an interest.

Required communications

Planning stage	Final stage
<ul style="list-style-type: none"> ▶ The principal threats, if any, to objectivity and independence identified by Ernst & Young (EY) including consideration of all relationships between the you, your affiliates and directors and us; ▶ The safeguards adopted and the reasons why they are considered to be effective, including any Engagement Quality review; ▶ The overall assessment of threats and safeguards; ▶ Information about the general policies and process within EY to maintain objectivity and independence. ▶ Where EY has determined it is appropriate to apply more restrictive independence rules than permitted under the Ethical Standard [note: additional wording should be included in the communication reflecting the client specific situation] 	<ul style="list-style-type: none"> ▶ In order for you to assess the integrity, objectivity and independence of the firm and each covered person, we are required to provide a written disclosure of relationships (including the provision of non-audit services) that may bear on our integrity, objectivity and independence. This is required to have regard to relationships with the entity, its directors and senior management, its affiliates, and its connected parties and the threats to integrity or objectivity, including those that could compromise independence that these create. We are also required to disclose any safeguards that we have put in place and why they address such threats, together with any other information necessary to enable our objectivity and independence to be assessed; ▶ Details of non-audit services provided and the fees charged in relation thereto; ▶ Written confirmation that the firm and each covered person is independent and, if applicable, that any non-EY firms used in the group audit or external experts used have confirmed their independence to us; ▶ Written confirmation that all covered persons are independent; ▶ Details of any inconsistencies between FRC Ethical Standard and your policy for the supply of non-audit services by EY and any apparent breach of that policy; ▶ Details of any contingent fee arrangements for non-audit services provided by us or our network firms; and ▶ An opportunity to discuss auditor independence issues.

In addition, during the course of the audit, we are required to communicate with you whenever any significant judgements are made about threats to objectivity and independence and the appropriateness of safeguards put in place, for example, when accepting an engagement to provide non-audit services.

We also provide information on any contingent fee arrangements, the amounts of any future services that have been contracted, and details of any written proposal to provide non-audit services that has been submitted;

We ensure that the total amount of fees that EY and our network firms have charged to you and your affiliates for the provision of services during the reporting period, analysed in appropriate categories, are disclosed.

Relationships, services and related threats and safeguards

We highlight the following significant facts and matters that may be reasonably considered to bear upon our objectivity and independence, including the principal threats, if any. We have adopted the safeguards noted below to mitigate these threats along with the reasons why they are considered to be effective. However we will only perform non-audit services if the service has been pre-approved in accordance with your policy.

Overall Assessment

Overall, we consider that the safeguards that have been adopted appropriately mitigate the principal threats identified and we therefore confirm that EY is independent and the objectivity and independence of Neil Harris, your audit engagement partner and the audit engagement team have not been compromised.

Self interest threats

A self interest threat arises when EY has financial or other interests in the Authority. Examples include where we receive significant fees in respect of non-audit services; where we need to recover long outstanding fees; or where we enter into a business relationship with you. At the time of writing, there are no long outstanding fees.

We believe that it is appropriate for us to undertake permissible non-audit services and we will comply with the policies that you have approved.

None of the services are prohibited under the FRC's ES or the National Audit Office's Auditor Guidance Note 01 and the services have been approved in accordance with your policy on pre-approval. The ratio of non-audit fees to audit fees is not permitted to exceed 70%.

At the time of writing, the current ratio of non-audit fees to audit fees is 0%. No additional safeguards are required.

A self interest threat may also arise if members of our audit engagement team have objectives or are rewarded in relation to sales of non-audit services to you. We confirm that no member of our audit engagement team, including those from other service lines, has objectives or is rewarded in relation to sales to you, in compliance with Ethical Standard part 4.

There are no self interest threats at the date of this report.

Self review threats

Self review threats arise when the results of a non-audit service performed by EY or others within the EY network are reflected in the amounts included or disclosed in the financial statements.

There are no self review threats at the date of this report.

Management threats

Partners and employees of EY are prohibited from taking decisions on behalf of management of the Authority. Management threats may also arise during the provision of a non-audit service in relation to which management is required to make judgements or decision based on that work.

There are no management threats at the date of this report.

Relationships, services and related threats and safeguards

Other threats

Other threats, such as advocacy, familiarity or intimidation, may arise.

There are no other threats at the date of this report.

EY Transparency Report 2018

Ernst & Young (EY) has policies and procedures that instil professional values as part of firm culture and ensure that the highest standards of objectivity, independence and integrity are maintained.

Details of the key policies and processes in place within EY for maintaining objectivity and independence can be found in our annual Transparency Report which the firm is required to publish by law. The most recent version of this Report is for the year ended 1 July 2018 and can be found here:

<https://www.ey.com/uk/en/about-us/ey-uk-transparency-report-2018>

06

Appendices

Appendix A

Fees

Public Sector Audit Appointments Ltd (PSAA) has published the fee scale for the audit of the 2018/19 accounts of opted-in principal local government and police bodies. This is defined as the fee required by auditors to meet statutory responsibilities under the Local Audit and Accountability Act 2014 in accordance with the requirements of the Code of Audit Practice and supporting guidance published by the National Audit Office, the financial reporting requirements set out in the Code of Practice on Local Authority Accounting published by CIPFA/LASAAC, and the professional standards applicable to auditors' work.

	Planned fee 2018/19	Scale fee 2018/19	Final Fee 2017/18
	£	£	£
Total Fee – Code work	23,909	23,909	31,050
Non-audit work	0	0	0
Total fees	23,909	23,909	31,050

All fees exclude VAT

The agreed fee presented is based on the following assumptions:

- ▶ Officers meeting the agreed timetable of deliverables;
- ▶ Our accounts opinion and value for money conclusion being unqualified;
- ▶ Appropriate quality of documentation is provided by the Authority; and
- ▶ The Authority has an effective control environment.

If any of the above assumptions prove to be unfounded, we will seek a variation to the agreed fee. This will be discussed with the Authority in advance.

Fees for the auditor's consideration of correspondence from the public and formal objections will be charged in addition to the scale fee.

Appendix B

Required communications with the Finance and Resources Committee

We have detailed the communications that we must provide to the Finance and Resources Committee.

Our Reporting to you

Required communications	 What is reported?	 When and where
Terms of engagement	Confirmation by the Finance and Resources Committee of acceptance of terms of engagement as written in the engagement letter signed by both parties.	The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies.
Our responsibilities	Reminder of our responsibilities as set out in the engagement letter	The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies.
Planning and audit approach	Communication of the planned scope and timing of the audit, any limitations and the significant risks identified.	Audit planning report
Significant findings from the audit	<ul style="list-style-type: none"> • Our view about the significant qualitative aspects of accounting practices including accounting policies, accounting estimates and financial statement disclosures • Significant difficulties, if any, encountered during the audit • Significant matters, if any, arising from the audit that were discussed with management • Written representations that we are seeking • Expected modifications to the audit report • Other matters if any, significant to the oversight of the financial reporting process 	Audit results report
Going concern	Events or conditions identified that may cast significant doubt on the entity's ability to continue as a going concern, including: <ul style="list-style-type: none"> • Whether the events or conditions constitute a material uncertainty • Whether the use of the going concern assumption is appropriate in the preparation and presentation of the financial statements • The adequacy of related disclosures in the financial statements 	Audit results report
Misstatements	<ul style="list-style-type: none"> • Uncorrected misstatements and their effect on our audit opinion, unless prohibited by law or regulation • The effect of uncorrected misstatements related to prior periods • A request that any uncorrected misstatement be corrected • Corrected misstatements that are significant • Material misstatements corrected by management 	Audit results report

Appendix B

Required communications with the Finance and Resources Committee (continued)

Fee Reporting	<ul style="list-style-type: none"> • Breakdown of fee information when the audit plan is agreed • Breakdown of fee information at the completion of the audit • Any non-audit work 	Audit planning report Audit results report

Additional audit information

Other required procedures during the course of the audit

In addition to the key areas of audit focus outlined in section 2, we have to perform other procedures as required by auditing, ethical and independence standards and other regulations. We outline the procedures below that we will undertake during the course of our audit.

Our responsibilities required by auditing standards

- Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Concluding on the appropriateness of management's use of the going concern basis of accounting.
- Evaluating the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtaining sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Authority to express an opinion on the consolidated financial statements. Reading other information contained in the financial statements, the Finance and Resources Committee reporting appropriately addresses matters communicated by us to the Finance and Resources Committee and reporting whether it is materially inconsistent with our understanding and the financial statements; and
- Maintaining auditor independence.

Additional audit information (continued)

Purpose and evaluation of materiality

For the purposes of determining whether the accounts are free from material error, we define materiality as the magnitude of an omission or misstatement that, individually or in the aggregate, in light of the surrounding circumstances, could reasonably be expected to influence the economic decisions of the users of the financial statements. Our evaluation of it requires professional judgement and necessarily takes into account qualitative as well as quantitative considerations implicit in the definition. We would be happy to discuss with you your expectations regarding our detection of misstatements in the financial statements.

Materiality determines:

- The locations at which we conduct audit procedures to support the opinion given on the financial statements; and
- The level of work performed on individual account balances and financial statement disclosures.

The amount we consider material at the end of the audit may differ from our initial determination. At this stage, however, it is not feasible to anticipate all of the circumstances that may ultimately influence our judgement about materiality. At the end of the audit we will form our final opinion by reference to all matters that could be significant to users of the accounts, including the total effect of the audit misstatements we identify, and our evaluation of materiality at that date.
