Is any of the report exempt from publication? <i>If yes, include reason</i>	No

Recommendation to the Health and Wellbeing Board Commissioning Sub-Committee:

The Health and Wellbeing Board Commissioning Sub-Committee is asked to:

- a) Note the Nottingham City BCF Governance document, signed off by the BCF Delivery Group on 14th March 2019.

Contribution to Joint Health and Wellbeing Strategy:

Health and Wellbeing Strategy aims and outcomes	Summary of contribution to the Strategy
Aim: To increase healthy life expectancy in Nottingham and make us one of the healthiest big cities	The main objectives of our Better Care Fund Plan are to: <ul style="list-style-type: none"> - Remove false divides between physical, psychological and social needs - Focus on the whole person, not the condition - Support citizens to thrive, creating independence - not dependence - Services tailored to need - hospital will be a place of choice, not a default - Not incur delays, people will be in the best place to meet their need
Aim: To reduce inequalities in health by targeting the neighbourhoods with the lowest levels of healthy life expectancy	
Outcome 1: Children and adults in Nottingham adopt and maintain healthy lifestyles	The ultimate vision is that in five years' time care would be so well integrated that the citizen has no visibility of the organisations/different parts of the system delivering it.

<p>Outcome 2: Children and adults in Nottingham will have positive mental wellbeing and those with long-term mental health problems will have good physical health</p>	<p>By 2020, the aspiration is that:</p> <ul style="list-style-type: none"> - People will be living longer, more independent and better quality lives, remaining at home for as long as possible - People will only be in hospital if that is the best place – not because there is nowhere else to go
<p>Outcome 3: There will be a healthy culture in Nottingham in which citizens are supported and empowered to live healthy lives and manage ill health well</p>	<ul style="list-style-type: none"> - Services in the community will allow patients to be rapidly discharged from hospital - New technologies will help people to self-care - The workforce will be trained to offer more flexible care - People will understand and access the right services in the right place at the right time.
<p>Outcome 4: Nottingham’s environment will be sustainable – supporting and enabling its citizens to have good health and wellbeing</p>	<p>The most fundamental changes that citizens will experience will result from the adoption of models of integration that make a person’s journey through the system of care as simple as possible, and encourage shared decision making.</p>
<p>How mental health and wellbeing is being championed in line with the Health and Wellbeing Board’s aspiration to give equal value to mental and physical health</p>	
<p>A core element of the Integrated Care model is the integration of mental health services which is being progressed through the Mental Health Integration Steering Group. This steering group oversees a work plan which will be supported by task and finish groups. Clinical assurance has been delegated to the Clinical Strategic Commissioning Group. Commissioning assurance has been delegated to the Mental Health Joint Commissioning Group.</p>	

<p>Reason for the decision:</p>	<p>N/A</p>
<p>Total value of the decision:</p>	<p>N/A</p>
