

HEALTH AND WELLBEING BOARD

29 May 2019

	Report for Resolution/ Report for Information
Title:	Primary Care Network (PCN) Update
Lead Board Member(s):	Andrea Brown, Associate Director of Joint Commissioning and Planning, Greater Nottingham Clinical Commissioning Partnership
Author and contact details for further information:	Michelle Tilling Nottingham City Locality Director Greater Nottingham Clinical Commissioning Partnership
Brief summary:	<p>The purpose of this paper is to set out information on the development of Primary Care Networks (PCNs) in Nottingham.</p> <p>Nottingham City Clinical Commissioning Groups work with the five other Clinical Commissioning Groups in Nottingham and Nottinghamshire ICS to align teams and functions.</p> <p>The aim is to form a single CCG as the strategic commissioning organisation within the Nottingham and Nottinghamshire ICS. This will complement wider changes to NHS services outlined in the Long Term Plan, as well as local transformation with the roll out of Primary Care Networks (PCNs).</p> <p>The PCNs are a key foundation of the ICS and an important element of the NHS Long Term Plan, which was launched in January 2019.</p>

Recommendation to the Health and Wellbeing Board:

- a) Help with raising awareness of the plans for the Primary Care Networks and the different levels of the ICS in order to build a consistent and shared understanding of how the system will work together to improve health and care in Nottingham City
- b) Consider the role that partners could play in the development and implementation of the PCNs.

Contribution to Joint Health and Wellbeing Strategy:

Health and Wellbeing Strategy aims and outcomes	Summary of contribution to the Strategy
Aim: To increase healthy life expectancy in Nottingham and make us one of the	Primary care networks are defined as a group of general practices working

healthiest big cities	<p>together with a range of local providers, across primary care, community services, social care and the voluntary sector, to offer more personalised, coordinated health and social care services to local populations.</p> <p>The networks will bring multidisciplinary teams together with other public services to focus on local priorities, such as preventing coronary heart disease or tackling neighbourhood inequalities.</p> <p>This neighbourhood level of integrated working will be a key enabler to delivering better care to the population of Nottingham City and achieving the outcomes of the H&WB Strategy.</p>
Aim: To reduce inequalities in health by targeting the neighbourhoods with the lowest levels of healthy life expectancy	
Outcome 1: Children and adults in Nottingham adopt and maintain healthy lifestyles	
Outcome 2: Children and adults in Nottingham will have positive mental wellbeing and those with long-term mental health problems will have good physical health	
Outcome 3: There will be a healthy culture in Nottingham in which citizens are supported and empowered to live healthy lives and manage ill health well	
Outcome 4: Nottingham's environment will be sustainable – supporting and enabling its citizens to have good health and wellbeing	

How mental health and wellbeing is being championed in line with the Board's aspiration to give equal value to mental and physical health

An explicit aspiration of the NHS Long Term Plan, of which PCNs are a key foundation, is to bring about the 'triple integration' of primary and specialist hospital care, of physical and mental health services, and of health and social care.
