**Notes on the new format:**

**Column 2:** report title and content will in the future have a brief 1 sentence summary. This will enable board members to identify items which are of specific interest to them and may require prior work or contact to support the item. I will ask report authors to give me this when submitting an item for the forward plan.

**Column 3:** contains the contact details. This will enable board members to contact the report writer for key areas on which they may wish to consult their members prior to the meeting.

**Column 5.** This will be a cross reference against the CEG forward plan.
