2. Assessment

1. Brief description of proposal / policy / service being assessed

The Nottingham Crime & Drugs Partnership (CDP) Partnership Plan 2019-2022 sets out the Partnership's approach to reducing crime, substance misuse, re-offending and anti-social behaviour.

The CDP Partnership Plan 2019-2022 satisfies a statutory duty to co-operate in order to formulate and implement a strategy for the reduction of crime and disorder in the area, a strategy for combatting the misuse of drugs, alcohol and other substances in the area and a strategy for the reduction of re-offending in the area.¹ There is a statutory requirement to revise the Partnership Plan following the annual strategic assessment.²

The 2019-2022 Partnership Plan was approved by the Partnership Board on 18 March 2019, to align with the manifesto being adopted. Its content has been developed based on the findings of the Strategic Assessment 2018 and the priorities and targets

¹ s5 and s6 Crime and Disorder Act 1998

² The legislation places a duty on Community Safety Partnerships to undertake frequent strategic assessments of levels and patterns of crime and drug misuse in their area and to produce annual rolling three year community safety plans (details of which are contained in Statutory Instrument 1830 [SI 2007/1830](#) and [SI 2007/1830 \(Explanatory Memorandum\)](#) which came into force on 1 August 2007.

agreed by the CDP Board at their meeting on 10 December 2018.

2. Information used to analyse the effects on equality:

The targets in the new 2019-2022 plan were set following the annual strategic assessment. [The Strategic Assessment 2018](#) assesses current, emerging and longstanding crime, anti-social behaviour, substance misuse and reoffending issues in Nottingham.

The statutory aims of the Partnership are to:

- Reduce Crime
- Reduce Reoffending
- Reduce Substance Misuse
- Reduce Anti-Social Behaviour

The Strategic Assessment is based on a **detailed analysis of performance data across the city** and gives a comprehensive overview. Where particular areas are identified as disproportionately affected by one crime type, further analysis at a local geographic level has been undertaken. Some analysis has also been undertaken for different crime types, where data was available by ethnicity. Relevant intelligence from a variety of sources has also been included, along with practitioner perspectives and citizen consultation wherever possible.

Using the analysis and insight developed during the assessment period, a number of local priorities around crime and antisocial behaviour have been identified, based on an assessment of threat, risk, harm, volume and the current partnership response. The identified priorities form the basis of the 2019-22 Partnership Plan.

Consultation with the citizens of Nottingham and with partners played a key role in the strategic assessment process.

The Respect Survey 2018 was carried out between October and December 2018. In 2018, the views of 2,751 citizens

were sought through a random sampling methodology. The survey is weighted to reflect the ethnic, gender and age profile of the city, in order to make sure it is representative of the city as a whole. The results and priorities identified in the Respect Survey were taken into account in the Strategic Assessment, alongside recorded crime, ASB and substance misuse information.

As a result of the findings of the 2017 survey, Respect Survey Action Plans, (sub plans of the Partnership Plan) were established in each of the 20 Neighbourhood Action Team areas, responding to identified concerns of citizens in each of the local neighbourhoods, these plans focused on crime, antisocial behaviour and cohesion issues. This methodology has been repeated using the findings of the 2018 survey.

Partner consultation: Partners were invited to contribute at the beginning of the process and many partners took this opportunity to engage by sharing data, providing case studies and co-writing sections of the document. The draft strategic assessment was taken to the CDP Board in September 2018 and sent to partners and stakeholders for consultation in October 2018. This document formed the basis of the Risk Analysis Meeting held in November 2018. Feedback was requested on the recommended priorities for 2018/19. The feedback provided was collated into the final draft of the assessment, which was approved and signed off by the CDP Board in December 2018.

Community Protection Cohesion Service colleagues also fed into the Strategic Assessment and provided a narrative, formed through engagement with members of the community around community issues such as Prevent, hate crime, emerging communities, economic migrants, asylum seekers, refugees, failed asylum seekers, destitution, modern slavery.

The Partnership Plan has been developed subsequent to the approval of the Strategic Assessment and has adopted the following priorities, following the consultation detailed above:

- Acquisitive Crime
- Domestic & Sexual Violence (including Stalking & Harassment)
- Drugs & Alcohol (including supply and possession)
- Hate Crime

- Modern Slavery
- Violence
- Weapon Enabled Offending

<p>How different groups could be affected (Summary of impacts)</p>	<p>Details of actions to reduce negative or increase positive impact (or why action isn't possible)</p>
<p>Provide details for impacts / benefits on people in different protected groups.</p> <p>A key target in the Partnership Plan is to reduce the number of victims through a reduction in victim-based crime by 2022, which would therefore impact on the protected groups.</p> <p>A number of the crimes which are prioritised in the Partnership Plan, disproportionately affect groups of citizens, as detailed below. Some of these groups have protected characteristics and are also vulnerable groups, so prioritising these crimes, is therefore likely to have a positive impact on these groups:</p> <ul style="list-style-type: none"> • Hate Crime: race, religion, disability, gender, sexual orientation • Domestic & Sexual Violence: gender (women) • Weapon Enabled Offences: gender, age (young men, 16-24) • Violence: gender, age (men, 40 and under are the main instigators and victims) 	<p>1 Actions will need to be uploaded on Pentana.</p> <p>A full performance framework is used to monitor performance on a regular basis, including detailed performance reports on progress against targets being provided to each meeting of the CDP Board and Executive Group.</p> <p>Key performance indicators will be used to manage the city's performance in relation to specific categories of crime. Rates of offending for specific crime types e.g. burglary will be monitored to help manage delivery strategies.</p>

- Acquisitive Crime: age (students, retired, unemployed)

4. Outcome(s) of equality impact assessment:

<input checked="" type="checkbox"/>	No major change needed	<input type="checkbox"/>	Adjust the policy/proposal
<input type="checkbox"/>	Adverse impact but continue	<input type="checkbox"/>	Stop and remove the policy/proposal

5. Arrangements for future monitoring of equality impact of this proposal / policy / service:

The CDP will regularly collect and analyse equalities data collected by commissioned domestic and sexual violence and abuse services. This is part of the Joint Strategic Needs Assessment (JSNA) cycle and the analysis will feed in to the next JSNA.
