

# Nottingham City and County RE Syllabus Review

## A joint SACRE project Meeting 1 / October 7<sup>th</sup> 2019, 1-4pm

### Notes from Chris Richards

This was the first meeting of the review group, and its purpose was to direct the work of the RE Today syllabus writing consultant in progressing the review of the syllabus.

The review is resourced in such a way that the consultant expects to spend around 15 days in total working on the review – so it is a light touch, not a complete rewrite.

This purpose of this first meeting was to enable the consultant to set priorities and commence drafting the revised syllabus. The agenda was as follows:

### Agenda

1. **Welcomes, introductions, scope of the project**
2. **Strengths of the current syllabus** (we intend to produce a syllabus with strong continuity, avoiding ‘change for change’s sake’)
3. **New movements impacting RE over the last 5 years**
  - a. Latest EYFS
  - b. New developments in the National Curriculum
  - c. Latest inspection framework
  - d. GCSE 9-1
  - e. Core knowledge, powerful knowledge focus in the curriculum
  - f. Changing religious landscape of the UK
  - g. Commission on RE report ‘Religion and Worldviews’ – a call for a new national entitlement
4. **Other recent syllabuses:** examples from around the country to examine for examples of best practice
5. **Who will teach?** The syllabus needs to be usable by teachers with other specialisms, but never to reduce RE to low levels of expectation because of workforce issues: high aspirations and high support are both needed.
6. **Setting priorities for the review:** group exercise
7. **Work programme for the next 3 months till December 12<sup>th</sup>, meeting point 2**

The meeting was attended by several members of the County SACRE, and one member of the City SACRE.

The meeting was positive and successful, giving the consultant a clear brief for the next stage, including the following points:

The Syllabus should reflect current thinking and developments both in RE and in education generally.

The assessment element of the Syllabus should be strengthened.

The Syllabus should be as easy to use as possible for both class teachers and for coordinators.

The working party will meet again on 12<sup>th</sup> December (in Rainworth) and early in 2020. (Date and venue to be confirmed).

### Action points for SACRE:

- Confirm support for the process so far;
- Encourage more SACRE members, particularly teachers, to attend the next meetings;
- Make arrangements to convene the Agreed Syllabus Conference in order to adopt the revised Agreed Syllabus in line with Agreed timescale. (March 2020?)
